THE ACADEMIC CALENDAR

2014-2015

FALL SEMESTER

August 16-19	Orientation and Registration: New and Transfer Students
August 20	Classes Begin at 8:00 A.M.
August 26	Last Day to Register and Adjust Class Schedules
October 10	Mid-Term Grades Due in Registrar's Office
October 13-17	Fall Break for Lakeland Day Program
November 7	Final Day to Drop Courses Without an Academic Penalty
November 26-28	Thanksgiving Recess for Lakeland Day Program
December 5	Classes End
December 8-10	Final Examinations
December 13	Mid-Year Commencement
December 13	Christmas Holidays Begin

SPRING SEMESTER

January 6	Orientation and Registration: New and Transfer Students
January 7	Classes Begin at 8:00 A.M.
January 13	Last Day to Register and Adjust Class Schedules
January 19	Martin Luther King Day; No Classes
February 27	Mid-Term Grades Due in Registrar's Office
March 2-6	Spring Holidays for Lakeland Day Program
March 20	Final Day to Drop Courses Without an Academic Penalty
April 3	Good Friday Holiday
April 24	Classes End
April 27-29	Final Examinations
May 2	Commencement

MAY OPTION

May 3-May 31	Dates may differ depending on the particular study abroad option
--------------	--

SUMMER SESSIONS

May 6 – June 9	Session A (5 weeks) (May 25 – Memorial Day; No Classes)
June 10 – July 14	Session B (5 weeks) (July 3 – Independence Day Holiday; No Classes)
May 6 – July 14	Session C (10 weeks) (May 25 and July 3 – Holidays)

2014-2015

Message from the Provost

For over 120 years, Florida Southern has been educating men and women who have gone on to serve as leaders in business, government, academia, the arts, and the church.

Despite being the oldest private college in the state, Florida Southern is at the forefront of providing students with the knowledge and skills necessary to serve and succeed in the rapidly changing global context.

Florida Southern has always been committed to a holistic education that seeks to create an environment where the student is encouraged to grow intellectually, socially, morally, and spiritually. It achieves this goal through an innovative curriculum and a pedagogical approach that combines a strong foundation in the liberal arts with real-world, hands-on application through engaged learning and experiential education. Our goal is to empower students to make a positive and consequential impact upon the world.

Whether you are a first-year undergraduate or a student in one of our graduate programs, you are on a journey of exploration. The faculty members of Florida Southern are your guides, and this catalog is the “field manual” that will assist you along the way.

I wish you the best for the 2014-2015 academic year.

– Kyle Fedler, Ph.D.

GENERAL INFORMATION

College Mission

The mission of Florida Southern College is to prepare students through dynamic engaged learning to make a positive and consequential impact on society.

College Vision

Florida Southern College will achieve national recognition for providing a transformational education for students through its distinctive synthesis of liberal arts and professional programs, and focus on student development through co-curricular and service learning programs. It will become a national model for engaged learning in order to achieve the learning outcomes students need to thrive in a global society. As a result of its pragmatic approach to liberal learning, the global perspective of its academic programs, effective engaged learning pedagogy, and distinctive learning outcomes in all disciplines, Florida Southern will ascend to the top 25 comprehensive colleges/universities in its Carnegie classification. Maintaining its affiliation with the United Methodist Church, Florida Southern will serve as the preeminent mid-size institution within the denomination, always striving to foster students' spiritual growth.

Florida Southern History at a Glance

Florida Southern College—the oldest private college in the state—traces its Florida roots to 1852, when the Methodist Conference founded Florida Seminary in Micanopy. The Conference established South Florida Seminary in Orlando in 1883. In 1885, the school moved to Leesburg, the college degree was awarded, and Florida Conference College was officially chartered and opened to both male and female students.

In 1901, the growing college moved to Sutherland (now Palm Harbor) on the Gulf Coast and in 1906 was renamed Southern College. The College remained at Sutherland until fires in the early 1920s forced the school temporarily to move to Clearwater Beach. In 1922, the College moved to the shores of Lake Hollingsworth in Lakeland. In 1935, the Trustees adopted Florida Southern College as the corporate title.

Florida Southern College Today

The campus comprises some 70+ buildings on 100 acres of land. Thirteen of the College's structures were designed by master architect Frank Lloyd Wright in the 1940s and 1950s. Mr. Wright said his design was to have all the buildings "flow from the ground in harmony with the natural landscape."

In that functional, yet exquisite environment, they exhibit the traits that Mr. Wright intended: organic union among the earth, sunlight, and local flora. The Wright buildings include the Annie Pfeiffer Chapel, which has become an iconic symbol of the College; the Thad Buckner Administration Building; the Emile Watson Administration Building; the Benjamin Fine Administration Building; the Seminar Building (which in its original construction comprised three separate buildings known as the Carter, Walbridge, and Hawkins Seminar Rooms); the Lucius Pond Ordway Building; the Danforth Chapel; and the Polk County Science Building, which is capped by a white-domed planetarium. The 10 Wright buildings are complemented by three other significant Wright-designed structures: the Water Dome in front of the Roux Library; the Esplanades, 1.5 miles of covered walkways that connect most of the Wright buildings; and the newest addition to the collection, the Usonian House. Completed in 2013, the Usonian House is the first Frank Lloyd Wright designed structure to be built for the original owners using the original plans on the intended site in over 50 years. The Usonian House is part of the newly constructed Sharpe Family Tourism and Education Center.

The 13 structures make up the largest single-site collection of Frank Lloyd Wright architecture in the world. The “Child of the Sun” Wright campus is listed as a National Historic Landmark.

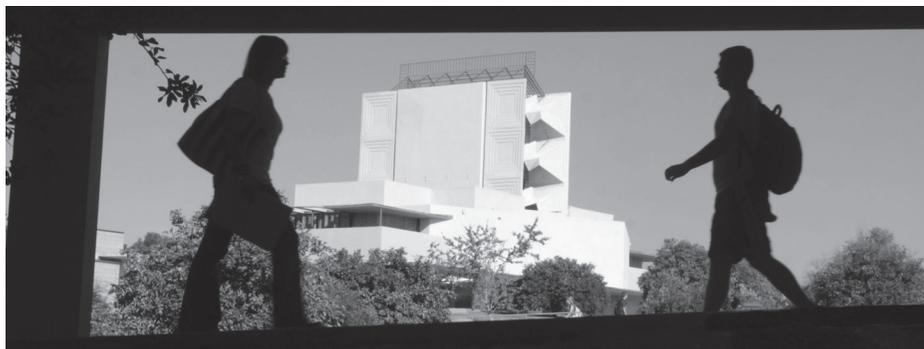

The more traditional buildings on campus include the Allan Spivey and Joseph-Reynolds residence halls for first-year students and Edge Memorial Hall, which houses classrooms and faculty offices. These date to the 1920s and are built in a conventional, brick collegiate style. Other prominent buildings on campus include the John Branscomb Memorial Auditorium, which seats more than 2,000; the Ludd M. Spivey Humanities and Fine Arts Center, which comprises the thrust-stage Buckner Theatre, music and art studios, and the Melvin Art Gallery; the Robert A. Davis Performing Arts Center; the William F. Chatlos Communication Building, which is equipped with broadcasting facilities; the Carlisle Rogers Business and Economics Building; and the Jack M. Berry Citrus Building.

Completed in 1968, the Roux Library was designed by Nils Schweizer to replace Frank Lloyd Wright’s E. T. Roux Library (now the Thad Buckner Administration Building) with a larger library facility. Mr. Schweizer, Mr. Wright’s on-site supervisor for several Florida Southern College buildings and a student of Mr. Wright’s, integrated many Frank Lloyd Wright themes with his own unique style. The adjacent Sarah D. and L. Kirk McKay, Jr., Archives Center, opened in 2009, houses records from the Florida Conference of the United Methodist Church; Frank Lloyd Wright drawings and documents; the Lawton M. Chiles Center for Florida History; and the Florida Citrus Archives. Tûtû’s Cyber Café in the Roux Library opened in 2007, underwent a major expansion in 2012 and contributes to the educational and social fabric of the campus.

During the 2009-2010 academic year, the College opened the new Marshall and Vera Lea Rinker Technology Center, which is staffed seven days a week, and the state-of-the-art Joe K. and Alberta Blanton Nursing Building, home to the College’s growing School of Nursing. In 2010, the College opened the Dr. Marcene H. and Robert E. Christoverson Humanities Building, which features contemporary classrooms, a modern language lab, film studies center, and art gallery. In 2014, the College opened the Wynee Warden Dance Studio, a free-standing 4,700-square-foot facility built specifically for the Dance program.

Student housing facilities include the architecturally revolutionary Wesley Hall and Nicholas Hall, designed by Robert A.M. Stern, a world-renowned Frank Lloyd Wright scholar and dean of the Yale School of Architecture. Other contemporary residence halls include Miller Hall, Hollis Hall, Charles Jenkins Residence Hall, Dell Residence Hall, and the Publix Charities Commons. Housing options include single, double, and suite-style occupancy either on campus or in one of several college-owned apartment complexes in close proximity to campus, including the newly purchased Lake Hollingsworth Apartments overlooking Lake Hollingsworth.

In addition, students enjoy the recently renovated dining hall – Wynee’s Bistro; the Charles T. Thrift Alumni Center; the Nina B. Hollis Wellness Center; the newly expanded Bishop Robert E. and Faye Fannin Campus Ministries Center; and the George Jenkins Field House. Athletic fields, intramural fields, and orange trees span the campus, as do numerous outdoor gathering spaces, including the new Mr. George’s Green, the Badcock Garden, an outdoor “living room,” the more formal Glover Garden; Lynn’s Garden, an environmentally sustainable garden overlooking Lake Hollingsworth; the Willis Garden of Meditation; and the Rodda Family Plaza for outdoor classes.

Accreditation

Florida Southern College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award bachelor's, master's degrees, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097, or call 404-679-4500 for questions about the accreditation of Florida Southern College.

FSC also is accredited by the General Board of Higher Education and Ministry of the United Methodist Church and has a State of Florida-approved program at the undergraduate level for the certification of teachers. The baccalaureate and master's in nursing at Florida Southern College is accredited by the Commission on Collegiate Nursing Education (www.aacn.nche.edu), and the bachelor of science degree in athletic training is accredited by the Commission on Accreditation of Athletic Training Education (www.caate.net). Florida Southern College is an accredited institutional member of the National Association of Schools of Music (NASM). The Barney Barnett School of Business and Free Enterprise is accredited by the Association to Advance Collegiate Schools of Business (www.aacsb.edu).

The 2014-2015 *Catalog*

In regard to academic information, this edition of the Florida Southern Academic Catalog supersedes all others. The faculty and trustees of Florida Southern College reserve the right to change, modify, revoke, or add to the College's academic, financial, or student requirements or regulations at any time and without prior notice. All such changes are effective at such times as the proper authorities determine and may apply not only to prospective students but also to those who already are enrolled in the College. Provisions of this Catalog do not constitute an irrevocable contract between any student and the College.

Student Disability Services

Florida Southern College adheres to Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 (ADA) as amended by the ADA Amendments Act of 2008 (ADAAA) in prohibiting discrimination against any “otherwise qualified” student with a disability. Although the college does not have an “Individualized” or “Special Program” for students with disabilities, appropriate case-by-case accommodations, such as extended time for tests, may be provided for students with documentation of a protected disability. To request accommodations for a disability, the student must make his or her condition known to the college, identify associated accommodations, and provide documentation of the pertinent diagnostic tests and other professional evaluations supporting the need for accommodations. The student is only required to reveal a disability if the student is requesting accommodations.

Documentation for the initial accommodations should reflect the student’s current diagnosis, list the requested accommodations, and describe the functional limitations resulting from the disability and how the limitations impact the ability of the student to function in the college setting. Requests for disability accommodations must be made each semester, and students must meet with their instructors to determine which of the requested accommodations can be made in each class. The college does not modify essential requirements of courses or degree programs for students with disabilities. Students with documented disabilities are encouraged to utilize academic resources generally available to FSC students, including peer tutoring, study skills resources, and support assistance from their faculty advisor, instructors, and members of the Student Solutions Center. The Coordinator for Student Disability Services is available to guide students to needed resources. Florida Southern College has a requirement that students participate in Engaged Learning activities in the classroom. Engaged Learning is an essential college requirement and cannot be waived for a student because of excused absences or as an accommodation for a disability. Inconsistent attendance and lack of participation in Engaged Learning activities can result in a lowered course grade. Students with disabilities requesting accommodations should contact the Office of Student Support at Florida Southern College: Dr. Marcie Pospichal, Associate Vice President for Student Support, Florida Southern College, Charles T. Thrift Bldg., 111 Lake Hollingsworth Drive, Lakeland, FL 33801-5698 (telephone: 863.680.4197; email: mpospichal@flosouthern.edu). Florida Southern College has an internal grievance procedure for prompt and equitable resolution of challenges to the accommodations provided. All concerns should be sent in writing to: Dr. Marcie Pospichal, Associate Vice President for Student Support, Florida Southern College, Charles T. Thrift Bldg., 111 Lake Hollingsworth Drive, Lakeland, FL 33801-5698 (telephone: 863.680.4197; email: mpospichal@flosouthern.edu).

Notice of Non-discrimination

Preamble:

We at the College share a common belief that every individual should be able to work and study in an environment free from discrimination, harassment or intimidation based on race, color, religion, gender, gender identity, age, national origin, mental or physical disability, marital status, medical condition, veteran status, sexual orientation, citizenship, or any other characteristic protected under federal or state law or local ordinance.

Discrimination and Harassment is illegal and in direct conflict with the mission of the College. It exposes the College and the individuals involved to liability under the law. Accordingly, the College prohibits any physical, written, or spoken conduct that violates the prohibitions on harassment set forth in the policy.

Statement of Policy:

It is the policy of the College that no member of the College community shall be subjected to any form of unlawful discrimination, harassment, retaliation, or violence by any other member of this institution. For the purpose of this policy, harassment is defined as sexual harassment or harassment due to race, color, religion, gender, gender identity, age, national origin, mental or physical disability, marital status, medical condition, veteran status, citizenship or sexual orientation.

The college has adopted a procedure for the purpose of resolving discrimination complaints. Inquiries or concerns should be directed to Katherine Pawlak, Director of Human Resources, Raulerson Building, 111 Lake Hollingsworth Drive, Lakeland, FL 33801-5698; telephone (863) 680-3964 or emailed to kpawlak@flsouthern.edu.

Florida Southern College's Notice of Non-Discrimination policy can also be found in the Student Handbook, and on the College's website at <http://www.flsouthern.edu/policies/notice-of-non-discrimination/just-ask.aspx>.

Statement of Sexual Discrimination and Harassment

It is the policy of the College that no member of the College community shall be subjected to any form of unlawful discrimination, including sexual discrimination (sexual harassment, sexual misconduct, or sexual violence). Sexual violence can be defined as "physical sexual activity perpetrated against a person's will or where a person is incapable of giving consent." Rape, sexual assault, sexual battery, and sexual coercion are all acts of sexual violence and will not be tolerated at Florida Southern College.

Florida Southern College's Anti-Sexual Discrimination Title IX Procedural Overview and Contacts for Reporting Sexual Discrimination

Procedures for Reporting Sexual Discrimination, Including Sexual Harassment, Sexual Misconduct, Sexual Violence, Retaliation, and False Accusations

Florida Southern College conducts prompt and equitable investigations in response to claims of all forms of sexual harassment and sexual discrimination. Persons who have engaged in acts of sexual discrimination, based on a "**preponderance of the evidence**" standard (*i.e.*, it is more likely than not that sexual discrimination occurred), may receive institution-imposed sanctions. Additionally, anyone who retaliates against an individual who has made a complaint, or against an individual about whom a complaint has been filed, is acting unlawfully and will be subject to appropriate disciplinary actions. Finally, anyone who has knowingly made false accusations related to sexual discrimination will also be subject to disciplinary actions.

An administrative complaint or grievance is a complaint/grievance that seeks a resolution agreeable to both parties but does not require a formal hearing. If they wish, employees and students of the College can begin an administrative procedure with either the Officer of Title IX Compliance Katherine Pawlak or the Student Support Title IX Officer Dr. Marcie Pospichal. **Mediation** on a voluntary basis can be used to resolve some forms of reported sexual discrimination but will not be used to resolve cases of reported sexual violence. This does not preclude the use of other informal approaches to resolving such complaints.

A hearing process complaint or grievance is a complaint/grievance that may result in an imposed resolution through the formal hearing process.

The College provides members of the academic community prompt, equitable, and reliable mechanisms for reporting incidents of sexual discrimination, including sexual harassment, sexual misconduct, sexual violence, harassment based on a protected category, retaliation, dating violence, domestic violence, stalking, and false accusations.

A sexual discrimination report does not have to result in filing charges. However, a report of the sexual discrimination charge must be investigated. A **complainant** can report an initial complaint/grievance about sexual discrimination to any Florida Southern employee she/he feels comfortable speaking to. The information will then be shared with the appropriate Title IX Officer and the complaint/grievance addressed (please see section title, Confidentiality "Privilege" and Duty to Report in the policy). Additionally, if you are concerned you will be named as a **respondent** in a sexual discrimination report, you are also encouraged to contact the Officer of Title IX Compliance or the Student Support Title IX Officer. We promptly, equitably, and reliably support the rights of all Florida Southern community members-complainants, respondents, and witnesses.

If you are in immediate danger or in need of medical assistance, please dial “911” (9-11 if calling from a campus phone) for local emergency assistance or FSC’s Campus Safety Office at 863-680-3555 (Ext 3555 from a campus phone).

Contacts for Reporting Sexual Discrimination/Title IX Complaints/Grievances

The College provides members of the academic community prompt, equitable, and reliable mechanisms for reporting incidents of sexual discrimination, including sexual harassment, sexual misconduct, sexual violence, harassment based on a protected category, retaliation, and false accusations.

When an initial report of sexual discrimination is made to local law enforcement or a member of the Florida Southern College community, all reports will ultimately be received by the Officer for Title IX Compliance Katherine Pawlak to ensure appropriate management of the complaint. Additionally, all Florida Southern College non-student employee reports of sexual discrimination are made to Ms. Pawlak.

Ms. Pawlak should be contacted at:
Office of Human Resources
Raulerson Building
111 Lake Hollingsworth Drive
Lakeland, FL 333801-5698
Telephone: (863) 680-3964
Email: kpawlak@flsouthern.edu

Complaint Involving a Student

When sexual discrimination complaints are brought against a student, a visitor of a student, or a third party acting against a student, this complaint will typically be investigated by Florida Southern College’s Student Support Title IX Officer:

Dr. Marcie Pospichal
Associate Vice President for Student Support
Charles T. Thrift Building
111 Lake Hollingsworth Drive
Lakeland, FL 33801-5698
Telephone: (863) 680-4197
Email: fscjustask@flsouthern.edu

If you are a student who has experienced sexual discrimination, or know of such a student, Dr. Pospichal can be your first call.

The College will take actions to prevent the recurrence of any discrimination. Additionally, there is a requirement under the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (the Clery Act) to maintain community safety and record certain crimes. Thus, confidentiality of reports will be strictly kept when possible, or tightly maintained among persons who need to know, to keep the complainant and the community safe when strict confidentiality is not possible. Depending on the facts and circumstances known to it, the College, in its discretion and judgment, may determine that the allegations of sexual discrimination or retaliation will be investigated and resolved outside of the procedures described here and in related websites and written policies, and may take interim action as it deems appropriate to address the safety and protection of the College.

For more information about Florida Southern College’s Anti-Sexual Discrimination and Title IX Policies and Procedures, including a complete description of prohibited discriminatory acts, grievance and accountability procedures, and additional resources for support, please visit online at <http://www.flsouthern.edu/policies/notice-of-non-discrimination/just-ask.aspx>.

Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act of 1974 as amended (PL 93-0280), better known as “FERPA”, directs how student education records are maintained. When a student enters college, the following four rights transfer from parents or legal guardians to the student, regardless of the student’s age.

1. FERPA provides opportunities for students to inspect and review their education records within 45 days of a written “request for access” identifying the records of interest to FSC’s FERPA Compliance Officer (please see below).
2. FERPA provides paths for students to seek amendment to education records they believe to be inaccurate or misleading. A written request should be made to FSC’s FERPA Compliance Officer (please see below).
3. FERPA gives students the right to file a complaint (please see below).
4. FERPA allows students the right to provide written consent before the College discloses Personally Identifiable Information from the student’s education records, except to the extent that FERPA authorizes disclosure without consent, including:
 - Florida Southern College officials, including contractors and students working in an official capacity, with “legitimate educational interests” who require information for the proper performance of their professional responsibilities
 - Officials at an institution at which a student seeks to enroll
 - Organizations conducting studies for educational and governmental agencies
 - Accrediting agencies
 - Appropriate persons in case of health or safety emergencies
 - Agencies or offices in connection with the student’s application for or receipt of financial aid
 - Governmental officials, as identified in Public Laws 93.31 & 99.35
 - Parents of students who are defined as dependents in the Internal Revenue Code of 1986
 - Parents of students (1) younger than 21 years of age or (2) who are dependents for tax purposes regardless of student age for violations of campus alcohol and drug policies
 - An appropriate official in response to a court order
 - An alleged victim of a crime of violence or a non-forcible sex offense concerning the final results of an investigation
 - The general public, if the school determines a student is an alleged perpetrator of a crime of violence or non-forcible sex offense and the student has committed a violation of the school’s rules or policies with respect to the allegation made against her/him
 - Directory Information

FERPA and Florida Southern College Public Notice of Directory Information

Florida Southern College hereby designates the following student information as public or “Directory Information.” This information may be disclosed by the College without the student’s prior consent under the provisions set forth in FERPA.

Academic information: Name, enrolled hours, enrollment status, total hours, college major, dates of attendance, degrees and awards received (including Dean’s List but excluding GPA), most recent previous school attended, participation in officially recognized activities and sports, height and weight of athletes, other similar information.

Publication in future student directories: name, local and home address, email address.

Demographic information: date and place of birth and publication information, such as photographs, videos, and other images of the student to (including, but not limited to) college academic, marketing, and news publications and web sites.

Directory Information cannot include the following and can only be released if a student waives her/his right to privacy:

- Social Security or other Student Identification numbers
- Grades or Grade Point Average (GPA)
- Ethnicity, race, nationality, gender or religion

Currently enrolled students may withhold disclosure of Directory Information under FERPA. To withhold disclosure of this information, students must present themselves with photo ID to the Student Development House or the Student Solutions Center and complete the *Request to Withhold Disclosure of Directory Information* form. You may complete this form at any time and it will take effect immediately. However, the withholding of Directory Information disclosure will only be effective prospectively: It cannot be applied to actions the College took prior to the withholding of disclosure request.

Withholding disclosure of Directory Information will prevent Florida Southern College from providing your Directory Information, including confirming attendance and degrees earned, to prospective employers and internship sponsors, insurance agencies, and others with whom you may wish to share such notification, so please make your decision carefully.

Florida Southern College assumes that a student who fails to specifically request withholding of Directory Information indicates approval for disclosure.

Former students may not place a new request to withhold disclosure of Directory Information on their education records. However, the student may request the removal of such a hold.

FERPA and Florida Southern College Education Records Release Authorization

In compliance with the Federal Family Education Rights and Privacy Act of 1974 as amended (FERPA), the College restricts select third parties from having access to your Personally Identifiable Information (PII) and education record. PII includes, but is not limited to, social security and other identifying numbers. Your education record includes, but is not limited to, grades, course schedules, and attendance records. The restriction of sharing this information applies, but is not limited to, your parents, guardian, or spouse. This limitation of disclosure does not include Directory Information.

If you wish to grant a third party, such as a parent, access to your grade reports, education record, and other official correspondence, you must complete and sign an authorization waiver. This waiver will remain in effect unless you revoke it in writing. Students may change their FERPA waiver at any time by completing the appropriate form at the Student Development House or the Student Solutions Center. The College assumes no liability for honoring your instructions about to whom you will waive, and will not waive, your rights to privacy.

Note: Notices of alcohol and drug offense, disaffiliation, suspension, housing probation, or expulsion, as well as if a student withdraws from college, will be forwarded to parent or legal guardian independent of FERPA waiver status. Spouses have no rights to this or other education record information without the written consent of the student.

FERPA and Florida Southern College Public Relations Information Release

Florida Southern College likes to tell the story of your great work. If you wish to have your accomplishments publicized in your local newspaper(s), you may provide the name of the newspaper(s). This information is considered directory information and may also be released routinely to certain inquirers and the news media unless you request that this information be withheld by completing the *Request to Withhold Disclosure of Directory Information* form at the Student Development House or the Student Solutions Center. Florida Southern does not release anything more than directory information, which is considered public information as described in the Florida Southern College FERPA Policies (above), without seeking your written permission.

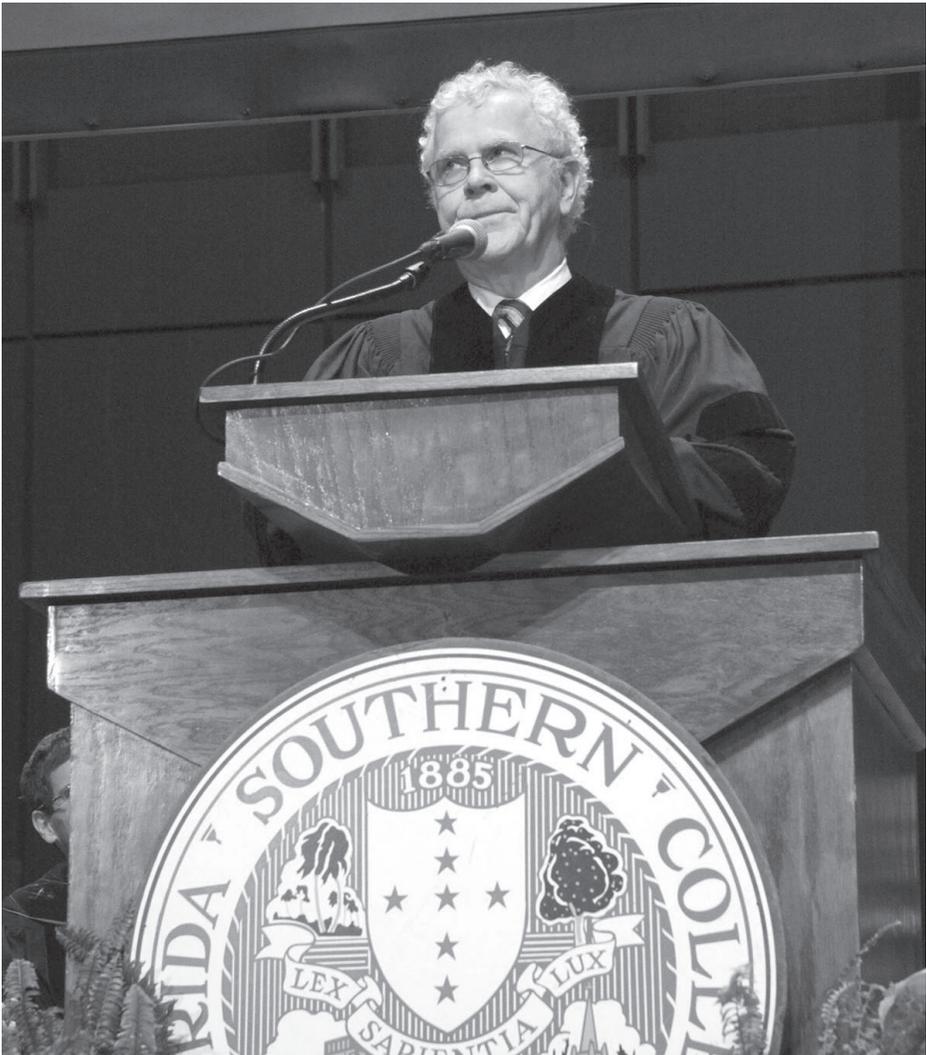

Florida Southern College students are frequently featured in news releases, photographs, audiotapes, and videotapes that may be distributed to the media or used in Florida Southern publications, including Web sites. Students may be photographed, videotaped, or their images may in other ways be captured on campus or at college-related functions. These images and representations, as well as the accomplishments of students, may also be used to promote Florida Southern College. The college has exclusive rights to these images.

FERPA Compliance Inquiries

For a complete list of FERPA disclosure exceptions, for further questions, to request to inspect, review, or amend records, or for other inquiries about Florida Southern College's FERPA compliance, please contact the College's FERPA Compliance Officer Dr. Marcie Pospichal, Charles T. Thrift Bldg., 111 Lake Hollingsworth Dr., Lakeland, FL 33801; email: mpospichal@flsouthern.edu; telephone: (863) 680-4197.

FERPA also gives students the right to file a complaint with the U.S. Department of Education concerning alleged failures by Florida Southern College to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

Homer Hickam, author of Rocket Boys, was the guest speaker at the 2014 Founders Day Convocation.

UNDERGRADUATE PROGRAMS

ADMISSIONS

General Information

Florida Southern College attracts students who demonstrate the academic ability and strong motivation to succeed in challenging liberal arts disciplines as well as pre-professional and professional programs. Admission decisions are based on academic achievement, aptitude, personal character, and performance in general citizenship or leadership activities within the school and community. The College welcomes applications from students who manifest evidence of strong values, the desire and willingness to study, and the proper academic preparation to complete successfully the rigorous educational programs offered at Florida Southern.

In considering applications, the Office of Admissions and the Admissions Committee give careful consideration to all credentials required and submitted. No single criterion determines acceptance or denial, but each is evaluated in relation to the applicant's complete admission profile. Admissions decisions are made without regard to race, creed, color, gender, marital status, religion, age, disability, sexual orientation, and national origin.

Applicants are considered for admission for the fall and spring semesters. Applicants to the Undergraduate Evening Program are considered for admission for any of the six evening terms. (See the Catalog section on Undergraduate Adult Education programs, p. 77 for admissions procedures.) Summer session enrollment for transient or continuing students requires approval but not formal admission.

All domestic freshman applicants to Florida Southern College's full-time degree programs must submit the following information:

- a completed application form and a nonrefundable \$30.00 application fee,
- an official high school transcript (or GED test score),
- either SAT I or ACT test results,
- a personal statement, and
- one letter of recommendation, which must be from an appropriate academic professional.

Freshman Admission – U.S. Students

The Office of Admissions evaluates freshman applicants on the following criteria:

- (1) **Graduation from a regionally accredited high school.** Although the Office of Admissions is flexible in terms of particular course requirements for admission, applicants are expected to have earned credit in at least 18 units of college preparatory courses – typically including four units of English, three units of mathematics (two years of algebra and one year of geometry), two units of laboratory science (one from the natural sciences and one from the physical sciences), and the remaining units balanced among the social sciences, foreign languages, and additional work in the sciences, mathematics or literature. Candidates are encouraged to complete additional units beyond the core academic curriculum, including work in the fine arts and other electives. Trends in performance are considered as part of the evaluation process. Students earning the high school equivalency diploma (GED) may apply for freshman admission. All high school transcripts must still be submitted, along with a statement indicating the reasons for seeking the alternative diploma.
- (2) **Scores on either the SAT or ACT.** Results of standardized examinations, along with an applicant's academic record, help provide a reasonable prediction of a candidate's ability to perform successfully in a Florida Southern College classroom. The college expresses no preference for one examination over the other and encourages students to take both.

- (3) **Letter of recommendation.** Each candidate for freshman admission is required to submit one academic letter of recommendation. This recommendation should be from an appropriate academic professional – teacher or guidance counselor. Recommendation forms are available from the admissions office and can also be downloaded from the college website at www.flsouthern.edu/admissions. You may also submit a letter of recommendation instead of the form.
- (4) **Personal Statement or Essay.** Students are asked to write a personal statement of at least 250 words in length on one of three topic questions. Students submitting their application via the Common Application may submit the essay portion of the Common Application in place of the personal statement.
- (5) **Extracurricular Activities/Service/Honors.** Students are asked to briefly describe extracurricular activities, leadership involvement (including any work experience), and service during high school. Special honors or awards received for academics or activities and organizations should also be included.

Application Priority Dates and Deadlines

Freshman Admission Priority Date – March 1.

Applications received before March 1 will be handled on a rolling admission basis. Because the number of spaces available in the entering class is necessarily limited, rolling admission continually narrows the opportunities for admission as the cycle progresses and admitted students commit to enroll for the desired semester by submitting the required deposit. (See Application Fee and Deposits.)

Students are advised to submit applications as early as possible to assure optimal admission and financial aid consideration.

Students requesting admission for the spring semester should start application procedures as soon after September 15 as possible.

Approval for summer study is limited to space available in the individual class requested. Applicants are encouraged to file the required forms as soon as they become available prior to the summer term.

Early Decision Admission Deadline – December 1

The Early Decision Option is available to academically talented students with strong high school records, including grade point average, SAT or ACT scores, and who select Florida Southern College as their first choice for college study.

Applicants for Early Decision are required to sign an agreement indicating their willingness to participate in the Early Decision process along with their confirmation that Florida Southern College is their first choice institution. This agreement also confirms that they will, upon acceptance, be prepared to pay the enrollment deposit and enroll at Florida Southern College. This agreement is binding between the applicant and Florida Southern College, certifying that upon acceptance to Florida Southern College, applications to other colleges and universities will be withdrawn and the applicant will enroll as a student at Florida Southern College. High school guidance counselors and parents also sign the agreement form.

The deadline for applying for Early Decision is December 1. Early Decision candidates will be notified of admission status by December 15. Students who are offered Early Decision admission are expected to commit to Florida Southern no later than January 15 by payment of a non-refundable deposit. Students who apply for Early Decision and receive a letter of deferment will be reevaluated with other applicants for regular admission to the college.

For additional information on Early Decision, please contact the Office of Admissions.

Transfer Admission Fall Priority Date – July 15; Spring Priority Date – Dec. 1

Students who have successfully completed work at a regionally accredited college or university may apply for admission to Florida Southern College. Applicants should submit a

personal statement indicating the reason for the transfer. Official transcripts are required from each post-secondary institution attended. When available, students should also submit SAT or ACT scores.

Applicants are evaluated primarily on the strength of their academic achievement at the post-secondary level, with emphasis placed on subject areas paralleling Florida Southern College's general education curriculum requirements. Particularly critical are courses in English and mathematics. Total credits attempted, credits earned, and grades posted serve as the basis for admission. (Students who wish to transfer before accumulating 25 semester hours of transferable credit must also submit high school transcripts and SAT or ACT scores.) A 'Report of Social Standing' form, available online, is required to complete a transfer application.

To be considered for transfer admission, a student must be eligible academically and socially to return to the last college or university attended. A student on academic or social dismissal from any institution is not eligible to enroll at Florida Southern College until reinstatement in good standing at the previous institution has been authorized.

Students transferring without an A.A. degree at the time of matriculation are required to complete all Florida Southern General Education courses not previously taken. Evaluation of transfer credit is on a course-by-course basis. Please see p. 59 for the General Education requirement.

Students who have earned an A.A. degree from a regionally accredited community college within the State of Florida will have met all of Florida Southern's general education requirements, if the degree was awarded after December, 1994. Under agreements with the State's community colleges, A.A. degree graduates who earned their degrees in 1995 or subsequent years enter Florida Southern College as juniors with a maximum of 62 transferable credits.

Once admitted to Florida Southern College, unofficial transcript evaluations are performed by the Admissions Office. Official evaluations are completed by the Registrar's Office once a student has paid their enrollment deposit declaring their intention to enroll at the college. Only courses in which a student earned a grade of "C" or higher are considered for transfer credit. The maximum number of credit hours transferable from a two-year college is 62, while a student transferring from a four-year institution may enter Florida Southern with as many as 93 hours. If a student has attended more than one college or university, each transcript is evaluated independently. Regardless of the amount of applicable transfer credit, students must complete at least 50% of their major and minor (if a minor is elected) in Florida Southern College coursework. Transient coursework, CLEP and other examination credits, and study abroad credits earned through an affiliation agreement with another institution are not considered FSC credit. In the case of students entering teacher education, no more than eight semester hours of coursework may be accepted in the professional education sequence at Florida Southern College.

Students who have attended institutions which are considered in-candidacy-for-accreditation, or students who have college credits more than ten years old may have their credits accepted provisionally and validated by completing at least 24 semester hours of Florida Southern College work while maintaining at least a 2.0 grade point average.

Transfer credit hours for specialist education programs in military service schools may be awarded. In such cases semester hours credit is determined by standards of the American Council on Education guide to the evaluation of experiences in the Armed Services up to a maximum of 18 hours.

Non-degree-seeking applicants who have already earned a bachelor's degree are required to submit only a college transcript from the degree-issuing institution.

Transfer students requesting admission to 3000-level coursework in the teacher preparation program of the School of Education must meet a minimum grade point average of 2.5 on a 4.0 scale for all courses taken in the liberal arts General Education courses and a passing score on all subtests of the General Knowledge Test. Florida resident students should complete this requirement before applying for admission to the teacher preparation program at Florida Southern College. Students transferring to Florida Southern College from colleges or universities outside the state of Florida should make arrangements to complete the General Knowledge Test in the first semester of their enrollment in the teacher preparation program at Florida Southern College. For additional information, see the section on Teacher Education in this Catalog, beginning on p. 107.

**International Student Admission Fall Priority Date – March 1;
Fall Deadline – July 15; Spring Deadline – December 1**

Florida Southern College welcomes international students who wish to study in the United States.

International students applying for admission to Florida Southern College degree programs are required to submit all documents required for either freshman or transfer admission, as well as a financial disclosure form (available online or from the Admissions Office). International students may be eligible for merit or talent-based scholarships and are encouraged to contact the Office of Admissions for appropriate information.

If the student is from a nation where English is not the standard for daily communication, scores on the Test of English as a Foreign Language (TOEFL) or the IELTS may be substituted for SAT and/or ACT test results. The TOEFL requirement may be waived for students who have completed at least one year of formal academic study at an institution where English is the language of instruction, but a standard test such as an SAT or ACT should be submitted. All transcripts from secondary and post-secondary institutions abroad must be translated into English. Students seeking credit for secondary exams (e.g. GCSE) or post-secondary coursework should have all transcripts from colleges or universities outside the United States evaluated by World Education Service or another similar approved transcript evaluation agency, prior to submission to Florida Southern.

All students who are required to submit results of a Test of English as a Foreign Language (TOEFL) or its equivalent for admission to Florida Southern College may be required to enroll in English as a Second Language (ESL) sections of freshman English courses, as available.

ENG 1000E (preparatory course for English 1003E or 1005E): TOEFL score less than 550 (paper version) or 213 for computer-based or 79-80 for Internet-based exams.

ENG 1003E or 1005E: 550+ TOEFL or successful completion of ENG 1000E

Readmission of Former Students

Any student who wishes to return to Florida Southern College following withdrawal or suspension must submit a re-admitting student application form to the Admissions Office.

The application includes a complete statement explaining the reasons for leaving and specifies the semester of intended re-enrollment. The application statement should also include a full explanation of activities (work, travel, academic work) which have occurred since leaving Florida Southern. If the student has undertaken any academic work at another institution, official transcripts and a Report of Social Standing form must be submitted prior to any decision by the Admissions Committee. To be eligible for readmission, students must have demonstrated a successful and positive adjustment to the campus community while at the college and must not have any outstanding accounts payable in the Business Office or any unresolved judicial matters.

The degree requirements listed in the Catalog in effect when readmission is approved shall be applicable to those readmitted that semester. Readmitted students should consult the Catalog for changes in requirements.

College work completed more than ten years prior to the date of readmission must be validated by the attainment of a 2.0 grade point average during the first 24 semester hours attempted after readmission.

Deferred Admission

Students who have been admitted to Florida Southern College for the fall or spring semester may defer admission for up to one year, provided that the request for a deferred date of enrollment is made in writing prior to the start of the semester for which admission was granted.

Candidates may request deferred admission to pursue non-academic goals, such as work and travel, only. Deferred admission is not granted to students who wish to enroll in another institution prior to attending Florida Southern College. (See Reactivation of Applications.)

Financial aid cannot be automatically deferred. Students should contact the Financial Aid

Office to assure that full consideration for financial aid is given for the designated semester of enrollment.

Reactivation of Applications

All applications to Florida Southern College remain on file for a period of one year. Students who do not enroll in the semester requested on the original application may reactivate an application for consideration for a subsequent semester within that period.

Students should submit a new application for admission and one reference from an appropriate academic professional written within a twelve-month period of reactivation of the application. If the applicant has undertaken additional formal study in the intervening period, official transcripts must be submitted showing all work completed or in progress. Candidates who have attended a post-secondary institution in the intervening period should file the appropriate 'Report of Social Standing' form, available from the Office of Admissions.

If already on file, the following items do not need to be submitted when an application is reactivated: the \$30.00 application fee or appropriate waiver, final official transcripts of all work completed at the secondary or college level, and official results from standardized testing.

Admission decisions are made according to the requirements and expectations pertaining to the class entering in the semester requested. Any decision rendered earlier by the Office of Admissions and the Admissions Committee is subject to review and modification.

Early Admission

Florida Southern College considers applications from high school juniors who have demonstrated outstanding ability and achievement and wish to begin their college careers before earning the high school diploma. In such cases, a student must submit a letter from the high school principal or school head granting Florida Southern College permission to enroll the applicant as a full-time student in lieu of attending high school during the senior year. In addition, the student must meet with a member of the Admissions staff for a personal interview to discuss the appropriate course of action.

Conditional Admission

Florida Southern College may consider applicants for conditional admission as part of the Gateway to Success program. The Gateway to Success program is designed to provide students with a gradual transition to college academia by reducing the number of credit hours in the first term to a maximum of 10 hours. Additionally, as part of the 10 credit hours, students may be asked to adhere to a prescribed course plan while enrolled in the program. Students who earn at least a 3.0 GPA in their first term in the program will be considered for traditional, full-time status. Students enrolled in the program are not eligible for institutional aid, and will be billed at the standard tuition rate for full time students. To be considered, students must have graduated from a regionally accredited high school; submit scores on either the SAT or the ACT; and submit one academic letter of recommendation. A personal interview may be required as part of the admission process.

Summer Session

Non-Florida Southern students who wish to attend Florida Southern College for a summer session only are required to submit a summer school application and appropriate documentation of academic eligibility. Enrollment is limited to the specific coursework requested on a space available basis. Students enrolled for only the summer session may not continue their studies in the fall semester unless an application for admission has been approved for fall semester. (See Special Admission.)

Admission Decisions, Procedures, and Deposits

Applications will be reviewed and admission decisions will be rendered as soon as all required credentials have been received. Written or verbal notification of admissions decisions may generally be expected within two to four weeks.

The Admissions Office reserves the right to hold an application until further information is available, such as end of semester grades or additional test results, before making a decision about an application for admission.

If accepted, applicants need to submit a deposit of \$500.00 (\$300.00 for commuters) to reserve both a place in the entering class and in on-campus housing. One hundred dollars of the initial deposit will serve as a continuing deposit as long as the student remains enrolled in the college. The remaining amount will be applied to tuition for commuters or will be equally distributed as a tuition and residence hall fee.

The College recognizes the date approved by the National Association of College Admission Counseling as the standard Candidate's Reply Date. For fall semester enrollment, the reply date is May 1. Applicants who have submitted deposits for enrollment may receive refunds if they decide not to attend the College and file written requests for refunds on or before May 1 (unless a student was admitted under the early decision option).

Prior to enrollment, a student must have completed and filed the following health forms: a medical form itemizing immunizations; a meningitis and hepatitis form; and a medical history form. These forms are available online.

The College reserves the right to withdraw any offer of admission, even after accepted by an applicant indicated by submission of the enrollment deposit, if the College learns of information regarding the applicant's academic achievement, aptitude, personal character, or performance in general citizenship, which would adversely reflect upon the applicant's ability to comply with the high expectations of the College.

Special Admission

A student who wishes to enroll for specific coursework is eligible to register as a non-degree-seeking student through the Registrar's Office.

Students holding non-degree status may not enroll full-time and may accumulate no more than 30 total hours of coursework at Florida Southern. Upon completion of 15 semester hours, non-degree students may seek degree status through the Office of Admissions. Students enrolled in a non-degree seeking status are not eligible for financial assistance.

A student who is a degree candidate at another institution and wishes to take courses for transfer credit should arrange with that college's office of admissions to submit a letter indicating good academic and social standing and granting permission to take specific courses at Florida Southern College. This transient permission serves as a substitute for the transcript required from other students.

Part-time Student Status

Students are considered part-time if they enroll in less than 12 credit hours per semester. Part-time students may lose eligibility for some or all financial aid sources and may not participate in intercollegiate athletics or other college-sponsored activities. Students in the college day program will also be charged per-credit hour fees if they elect to attend the college on a part-time basis.

Requirements for Non-traditional Undergraduate Students

- Submit a completed application form and a nonrefundable \$30.00 application fee.
- Provide official transcripts of all academic work taken previously at other colleges, universities or professional schools (e.g. nursing).
- Provide official transcript of high school record (or GED test score) if fewer than 60 credit hours have been earned from a regionally accredited college or university. The high school record should include applicant's SAT or ACT scores.

- Nursing applicants must be registered nurses currently licensed to practice in Florida and are required to complete the program within seven years of admission.
- Education applicants must meet additional requirements specified in the Education section of this Catalog.
- Students may be admitted provisionally or conditionally as specified below.

Non-traditional Student Provisional Admission

Undergraduate students may be admitted provisionally while awaiting the accumulation of required supporting documents. Documents must be provided within two terms, if enrolling for four (4) credit hours each term, or one term, if enrolling for eight (8) credit hours. Evaluation of transfer credits or military experience cannot be completed until the required documents are received by the Adult and Graduate Education Office. In addition, transcripts cannot be issued if a file is incomplete.

Non-traditional Student Conditional Admission

Florida Southern College recognizes that non-traditional undergraduate applicants may have been in the workforce for some time and are unable to provide sufficient academic records on which to base a decision for acceptance into a degree program. In such cases, in response to a student's application, FSC may admit the student on a conditional basis.

If an applicant cannot provide SAT or ACT documentation for admission to Florida Southern, the following conditions will apply:

- Students may register for up to 12 credit hours of coursework, over one semester or a period of several terms.
- Coursework must be completed in a satisfactory manner with at least a 2.0 GPA to demonstrate that the student can meet the academic performance requirements of the college.
- Students will be registered as non-degree seeking students and will not be eligible to receive state and federal financial aid during this period of conditional admission.

For applicants who wish to enter the program as degree-seeking students but who cannot provide SAT or ACT documentation, the following conditions apply:

- Students must take the ACT Residual examination. These exam results are only valid at Florida Southern College.
- An appeal process is provided. For information on the appeal process, please contact the Office of the Provost.

Credit for Military Service and Military Service Schools

The College may award seven (7) semester hours of military service credit after one year of active duty, if the credit is not duplicated by other earned credit in military science.

Credit for satisfactory completion of certain specialist education programs in military service schools may be awarded. Semester hours credit is determined by standards of the American Council on Education guide to the evaluation of experiences in the Armed Services up to a maximum of 18 hours. Any such credit must correlate reasonably with curricula of liberal arts programs generally, and not more than six hours will be awarded for any combination of technical electives such as radio, radar, navigation, and meteorology.

Credit for Correspondence and Extension Courses

Credit for up to six (6) semester hours may be awarded for approved courses taken by correspondence from a regionally accredited university. Florida Southern students wishing to take such courses must receive approval to do so in advance.

Credit by Examination, Including AICE, AP, CLEP, and IB

Credit is awarded on the basis of satisfactory scores for Advanced Placement (AP) courses. Credit is awarded on the basis of Advanced Placement Examination scores of three, four, or five. For further information about AP credit, contact the Admissions Office or Registrar's Office.

CLEP credit is credit by examination. Ordinarily, credit by examination is not awarded in any area in which comparable college coursework or more advanced work is being attempted or already has been attempted. Students who wish to attempt CLEP credit may not remain in the comparable course after the one-week schedule adjustment period is over; otherwise the CLEP credit will be invalid. Exact requirements and scores for FSC credit are published annually in the college's brochure on CLEP credit. Please consult the annual brochure which is available in the Registrar's Office or the FSC Testing Center in Ordway Building for specific information.

Florida Southern College will grant up to thirty (30) hours of college credit and sophomore standing to students earning the International Baccalaureate Diploma who have earned grades of four or better in their three Higher Level subject examinations. IB students who have not earned the full diploma may be awarded credit for certain Higher Level examinations upon which a student has earned a score of four (4) or better.

Credit by examination is recorded as transfer credit at Florida Southern College.

Dual Enrollment

The College grants permission to eligible high school sophomores, juniors and seniors to dual enroll at Florida Southern in the fall and spring terms. In order to be considered for admission, students must have at least a 3.5 GPA and submit a dual enrollment application, and receive signed permission from a parent, high school counselor, and principal; candidates may be asked to submit an official high school transcript and letter of recommendation. Students may be eligible to take one course at no charge; additional courses will be billed at the standard rate for part-time tuition. Students will be responsible for providing transportation to and from campus, acquiring all textbooks and materials needed for courses, and working with the registrar's office in order to register for courses.

Veterans

All baccalaureate degree programs currently offered at Florida Southern College are approved for veteran training by the State Approving Agency. Veterans are required to maintain standards of satisfactory progress and attendance. These include, but are not limited to, placing students on Academic Probation when their overall grade point average is less than 2.0, the average required to receive a degree, and suspension if they fail to meet the college's academic standards. Regular class attendance is required. In addition, the college continually monitors the progress of veterans to assure that they are taking courses needed for their degrees. This is a requirement for receiving VA benefits. Satisfactory progress means that students receiving VA benefits must take courses at a rate that permits graduation within 124 semester hours unless there are extenuating circumstances.

When the above standards of progress are not met by a veteran, the Veterans Administration is notified that the student is not making satisfactory progress toward the degree. Notices of Changes in Enrollment Status are sent to the Veterans Administration when the student withdraws during the semester or changes status from full-time to part-time.

FINANCIAL INFORMATION

The Undergraduate Day Program

Tuition and Fees

Students pay only a part of their costs – operating and instructional – at Florida Southern College. The remainder comes from endowment income and from alumni and friends, as well as from grants from foundations, businesses and the government, and from the Florida Conference of the United Methodist Church.

Florida Southern is committed to a residential learning community environment. As such, all students who live more than 30 miles from the campus are required to be a residential student. Requests for commuter status should be submitted to the Office of Student Development.

Below are the costs per semester for students for the 2014-15 academic year. Because economic conditions may change, the College reserves the right to revise fees.

Boarding Students	Semester	Commuting Students	Semester
Tuition	\$14,670	Tuition	\$14,670
Room and Board	\$5,000*	Activities Fee	\$75.00
Activities Fee	\$75.00	Technology Fee	\$250.00
Technology Fee	\$250.00	Total:	\$14,995
Total:	\$19,995		
		Food Service (Total)	
		\$2,130.00	20 meals a week**
		\$1,695.00	15 meals a week
		\$1,375.00	10 meals a week
		\$650.00	5 meals a week***

* Based on average cost of double occupancy room (rates vary per building) and 20-meal plan.

**20-meal plan required for all first-year residential students

***Commuter students or residential students with full kitchen access only

Tuition rates are for full-time loads of 12-18 credit hours. Additional charges are applicable above 18 hours.

Note: The college reserves the right to change fees due to economic conditions.

Full-time residential and commuter day students may use their residence hall room and/or meal service through the last final examination, except for holidays when the residence halls are closed. Participation in a meal plan is required for all residential students.

Full-time residential and day students are covered by accident insurance (up to \$2500 each with \$50 deductible) and may receive some on-campus health services, admission to college athletic and fine arts events, and college publications. Those not enrolled for both semesters, or who are enrolled in study-abroad programs, pay an additional fee for certain publications. Serious illness requiring hospitalization is not included in the accident insurance, but such coverage is automatically included on a separate student waiver basis. **Full-time students will be automatically provided with and charged for health insurance unless they complete a waiver/cancellation form available through a link on the Florida Southern College Website. Students will be required to provide proof of alternate insurance during the cancellation process. Information about United Health Care health insurance coverage is accessible on-line through www.uhcsr.com. For students beginning their enrollment in January, a pro-rated amount for health insurance coverage will be charged along with spring tuition and fees unless the coverage is waived.**

Activities fee money is allocated by the student government (SGA).

Additional Costs

Books and supplies, approximately, per semester	\$615.00
Credit hours (below 12 and above 18)	\$800.00 per hour
Graduation Fee	\$60.00
Illness insurance premium	\$1,229.00 annually
International Student Insurance	\$1,229.00 annually
Scuba lab fee	\$50.00
Security escort fee	\$50.00
Late registration fee	\$100.00
Late payment fee	\$100.00
Audit fee (per course by permission)	\$130.00
Orientation fee (new student only)	\$100.00
Technology fee (part-time students)	
Up to 4 credit hours	\$25.00
5-8 credit hours	\$50.00
9-11 credit hours	\$100.00

Additional fees will be assessed for students in the four-year BSN program (see p. 137) in this Catalog). Fees may also be assessed in courses where supplies must be purchased or where accompanying is required.

The fees for private music applied lessons are \$250.00 per semester for a weekly half-hour lesson. For full-time students majoring in music, the fee is \$400.00 for up to six credit hours per semester. The fee is \$100.00 for each credit hour of lessons over six credit hours. Students who withdraw from music applied lessons do not receive a refund of the tuition and fees unless the withdrawal is completed before the end of the first full week of classes. Please see the music section of undergraduate course descriptions for accompanying fees.

Florida Southern College is not responsible for loss or damage to personal items (including vehicles). It is recommended that students maintain appropriate vehicle insurance. Residential students are encouraged to maintain applicable renter's coverage for personal belongings.

Jeff Corwin, environmentalist, TV host, and author, spoke at the September Convocation.

Methods of Payment

All financial obligations are due before the beginning of the semester or term. Students may not attend classes until their financial affairs have been satisfactorily arranged. These include loans, grants, and/or scholarships. All current charges must be paid prior to student authorization to register for a future term. Checks for payment of student accounts should be made payable to Florida Southern College for the exact amount due. The College also accepts MasterCard, VISA, and American Express. Payments may be made in person, mailed to the Business Office, or made over the web at www.flsouthern.edu thru CashNet.

Also available for financing college expenses on monthly installments are programs offered by Florida Southern College through Tuition Management Services (TMS). Please visit their website at www.afford.com/options or telephone TMS at 1-800-722-4867.

If a student account is delinquent and it becomes necessary to submit the account to a collection agency, any collection fees, up to 40% of the assigned debt and/attorney fees incurred in the collection process will be added to the outstanding balance. Students with unpaid student accounts and/or past due student loan balances are not eligible to receive transcripts or diplomas.

Application Fee and Deposits

A nonrefundable application fee of \$30.00 is due with every student's application for admission.

Upon acceptance for admission, each student must send \$500.00 (\$300.00 for commuters) to FSC to reserve a place in the class and for on-campus housing. Of this \$500.00, \$200.00 is applied to the student's first semester tuition, \$200.00 holds a place in on-campus housing, and \$100.00 is repaid to students whose College account is paid in full, and 1) who graduate, or 2) who do not register for the following semester, or 3) whom the College does not permit to return. This payment is forfeited if the student withdraws from the College during the semester. The payments for the fall semester are refundable until May 1 prior to the fall semester, but are not refundable after that date. The payments for spring semester are refundable until December 1.

Transcript Requests

Students may request transcripts via www.flsouthern.edu using the quick link drop down – transcripts. A major credit card and an email account will be required to order online. Students may also send a request to the Registrar's Office with a fee of \$7.50 for each transcript. Requests must be signed as federal law requires legal signature. Identifying information in the request such as name (and any previous names), social security number, birth date, and dates of attendance or graduation is also required. Transcripts cannot be issued if a file is incomplete or if all financial obligations have not been settled in the Student Accounts Office.

General Information

Each student, by completing preregistration, becomes responsible for payment of all charges for the semester. A student who submits a written request to the Registrar's Office within three working days of the first day of class may cancel that registration and receive a full refund of tuition and fees paid. A parent or other sponsor accepts these terms and regulations as final and binding. All accounts must be paid in full before transcripts are released.

The College does not provide special diets and no refunds are made because of meals missed due to dietary restrictions. All residential students (defined as any student living in a college-owned facility) must participate in the campus meal program. All first-year residential students are required to have the 20-meal plan. Students living in apartments with a full kitchen may select the 5-meal plan (option not available to other residential students).

Refund Policy

In cases involving suspension, dismissal or expulsion, no financial refunds will be made by the College. In cases of voluntary withdrawal from Florida Southern College during a regular semester, the student may be eligible for a partial refund of tuition, room, board and fees:

If the student withdraws during the first three days of class of a regular semester, the student will receive a 100% refund. Beginning with the fourth day of classes through the tenth calendar day, there is a 90% refund on tuition, room, board, and fees. During the 11th through the 25th calendar day, a 50% refund is made. A 25% refund is made during the 26th through the 50th calendar day. After the 50th day, refunds are made only in cases of serious accident or illness with the recommendation of the college health center. In serious accident or illness cases extending beyond a two-week period, a student who withdraws receives a 75% refund of any unused tuition, room, board, and fees.

If the student withdraws during the first three days of class of a summer session, the student will receive a 100% refund. Beginning with the fourth day of classes through the seventh calendar day, there is a 50% refund of tuition. During the eighth through the 13th calendar day, a 25% refund is made. After the 13th day, refunds are made only in the case of serious accident or illness with the recommendation of the Student Health Committee. To qualify as a medical withdrawal and be eligible for refund consideration, documentation must be provided within 3 business days of the withdrawal, at which time this information will be reviewed by the Student Health Committee and the Dean of Student Development for consideration of refund.

The refund policies for evening and graduate programs are covered elsewhere in this Catalog and in the respective program guides. All withdrawals from Florida Southern College should begin in the Student Solutions Center.

No adjustment or refund is considered until a student files formal notice of withdrawal and is officially withdrawn. Formal withdrawal is the responsibility of the student. Students withdrawing to avoid the discipline process, or those who are suspended from the College, expelled from the College, or removed from campus housing, are not eligible for any refund.

The following conditions apply when a student withdraws from the College and has received financial aid for the term of withdrawal:

1. Financial aid funded by Florida Southern College is refunded (returned to source) on the same basis as the student charges are refunded. For example, a student receiving a 75% refund of charges will receive a credit of 25% of the financial aid awarded and 75% is withdrawn from his account and returned to the appropriate funding source. This policy does not include money a student earns under the Faculty Assistants Program (FAP) or the College work-study program.
2. A separate Return to Title IV formula applies to the federal loan and grant programs, including Pell Grant, SEOG, Perkins Loan, Stafford Loan, and Parent Loan Programs. Based upon the percentage of class days remaining in a given term/semester, this same percentage of the total federal funds must be refunded, firstly to loan programs. No refunds are required if the student remains in class for 60% of the semester.
3. Financial aid received by the student from private sources is refunded in accordance with the policy of the organization providing the funds. Lacking guidance from said organizations, funds are handled in the same manner as FSC funds.

A student who is administratively withdrawn from the College waives any rights to refunds under the college policy regardless of when the withdrawal occurs.

Financial Aid

Florida Southern College is the largest source of financial aid for its students. Ninety percent of FSC's students receive some form of grant or scholarship aid from the College. In addition to grants based upon financial need, leadership and community service, and church-related awards, Florida Southern provides academic scholarships to freshmen and transfer students.

State of Florida Programs

Florida Southern College students from Florida may receive aid from several state-funded programs, including the Florida Resident Access Grant, Bright Futures Scholarships, and benefits under the Florida Prepaid Tuition Program. Bright Futures payments are contingent upon the number of hours in which a student is enrolled. Bright Futures payments are reduced if a student withdraws from one or more classes. To receive any state funds, each year a student must complete the Free Application for Federal Student Aid.

Federal Programs

Florida Southern College students may receive aid from all of the major federal grant, loan and work programs based on financial need.

Important Dates and Conditions

- In order to maximize financial aid opportunities, students should complete the FAFSA and the FSC Financial Aid Application by April 1. Returning students must complete the FAFSA by April 15 to retain eligibility for the FSC grant. Additionally, incoming students should complete the admissions application process by February 1. While completing these steps will ensure consideration for all federal, state, and college aid programs, students are also encouraged to pursue scholarships through organizations in their home community.
- Financial aid award notifications will reflect the student's eligibility for federal, state, and institutional aid.
- Most awards are intended to be renewed annually until graduation. Typically, however, there are special renewal requirements detailed in the award notification.
- Florida Southern College scholarships and grants require full-time enrollment at FSC and cannot exceed charges due the college. Whenever possible during the academic year, FSC grants will be replaced with named scholarships as funding becomes available.
- Scholarship recipients are required to comply with all terms and conditions of their scholarship. If a student fails to meet scholarship terms or conditions, he or she will be subject to loss of the scholarship. In such cases, repayment of the scholarship may be required at the discretion of the donor. Students receiving scholarships must also adhere to the principles of the FSC Cornerstone to retain eligibility.
- Financial aid awards are predicated on full-time enrollment, which is 12 credit hours at FSC each semester. Students should consult the Financial Aid Office before withdrawing from classes.
- Students obtaining student loans must complete a master promissory note and must complete loan counseling prior to their first loan disbursement at FSC. Information on these processes are available on our website.

Additional Information

Please call (863) 680-4140 for additional information, or visit the Financial Aid Office.

STUDENT DEVELOPMENT

Florida Southern seeks to create a community of scholars who hold one another accountable to the high ideals, vision, and mission of the college. Choosing to join the community obligates each member to a code of behavior that reflects the highest personal and communal values to which the college is committed. This code of behavior is called "The Cornerstone."

Inspired by the Judeo-Christian principles on which the college was founded, a Florida Southern Scholar...

- will practice personal and academic integrity and excellence of character and expect the same from others.
- will respect the dignity, value, and worth of all persons while learning from the differences in people, ideas, and opinions.
- will respect the rights and property of others.
- will demonstrate concern for others, their feelings, and our collegial need for conditions that promote personal growth and academic success.
- will contribute to the rich heritage left by those who have preceded us and work to leave the college a better place for those who follow.

These expectations help create an environment that supports Florida Southern's living and learning both inside and outside the classroom. The Student Handbook, found online at <https://www.flsouthern.edu/student-life/student-handbook.aspx>, provides more descriptions of these tenets and details student life policies and expectations which contribute to a campus environment that is conducive to growth and learning.

Florida Southern strongly believes in its 4-year residency requirement for students. Our dynamic residential program allows our students to interact with a broad range of people. These interactions help to shape them as individuals. As such, we know the events, programs, and services we offer augment and supplement the more formal college curriculum. The programs offered in the residence halls are designed for the residents of that particular building or community. The programs we offer are ever evolving to meet student needs at each stage of the student's educational journey.

With more than 80 campus clubs and organizations, there are many ways for a student to become involved and connected. The college hosts honor societies, social Greek organizations, interest clubs, professional and pre-professional organizations, religious groups, service clubs, sport teams and intramural programs, and an active student government association. Student Government and the Association for Campus Entertainment are opportunities for service-minded leaders. The college newspaper and the yearbook are open to everyone, as are many music organizations – the orchestra, the chorale, the symphony band, and the jazz band. The Vagabonds theatre troupe is an active student drama group.

For the safety of Florida Southern students, there is 24-hour campus security. Other student services include the Student Health Center, the Counseling Center, and the Evett L. Simmons '79 Center for Multicultural Appreciation.

Athletics

Florida Southern's Athletics Department offers 19 NCAA Division II intercollegiate sports. FSC is a member of the nine-school Sunshine State Conference. Men's sports offered at FSC are: baseball, basketball, cross country, golf, lacrosse, soccer, swimming, tennis and track. Women's sports offered are: basketball, cross country, golf, lacrosse, soccer, softball, swimming, tennis, track and volleyball. Members of the SSC are Barry (Miami Shores), Eckerd (St. Petersburg), Florida Tech (Melbourne), Lynn (Boca Raton), Nova Southeastern (Ft. Lauderdale), Rollins (Winter Park), Saint Leo, and Tampa. Embry-Riddle (Daytona Beach) and Palm Beach Atlantic are provisional members and will have full membership in 2017.

Moccasin teams have won 27 NCAA Championships (12 in men's golf, 9 in baseball, 4 in women's golf and one each in men's basketball and softball), making the athletics program one

Alli Crenshaw won her third NCAA Division II Freestyle Championship in 2014

of the most successful in the country in Division II. In addition, FSC teams have captured 19 NCAA runner-up finishes, won 172 Sunshine State Conference regular season and post-season championships, with over 700 All-Americans, including 198 student-athletes who have been named to the Academic All-America or various All-American Scholar-Athlete teams.

Florida Southern also offers men's and women's water skiing as a club sport. Students compete under the National Collegiate Water Ski Association rules. Both teams have made several national championship appearances, including finishing third last season.

Most FSC student-athletes are recruited and receive some type of financial aid. However, walk-ons are welcome to try out for any sport. The cheerleading squad is also part of the athletics department.

FSC students are entitled to attend all home regular season athletic events free of charge with proper ID.

Career Center

Career planning is the process of identifying students' interests, skills, and values, while relating them to appropriate career options. Our four-year Career Action Plan gives students a blueprint for how to approach their college years. Career counselors are available to assist students in developing strategies towards their personal career path. The Career Center offers specific resources: choosing a major and career planning, writing a résumé and cover letter, internships, using resources in the GEICO Career Center Library, on-campus interviews, and numerous career events.

Fraternities and Sororities

There are seven national fraternities and six national sororities at Florida Southern College. Both fraternities and sororities recruit and initiate first-year students during the fall semester.

The national fraternities are: Alpha Gamma Rho, Lambda Chi Alpha, Pi Kappa Alpha, Pi Kappa Phi, Sigma Alpha Epsilon, Sigma Chi, and Theta Chi.

The national sororities are: Alpha Chi Omega, Alpha Delta Pi, Alpha Omicron Pi, Gamma Phi Beta, Kappa Delta, and Zeta Tau Alpha.

Each national fraternity is represented in the Interfraternity Council. Each national sorority is represented in the Panhellenic Council.

To be eligible for any aspect of Greek life, from recruitment to initiation, the College requires students to earn a cumulative grade point average of at least a 2.5, to be currently carrying at least 12 hours, and to be free from academic or social probation. Carry-overs (non-initiates) are limited to one semester. Eligibility must be certified by the Registrar and approved by the Center for Student Involvement or designee.\

Good Social Standing

A student is considered to be in **good social standing** at Florida Southern College unless one or more of the following conditions obtain:

- The student has existing accountability sanctions or probations.
- The student has a history of being found "responsible" for more than two accountability issues.
- The student presents a significant risk to self, others, or campus property.
- The student has lost leadership roles by failing to attain good academic, social, or professional standing in the previous or current semesters.
- The student would not be welcome to remain at or return to FSC without restrictions.

In some cases, institutional, local, state, or national agents or agencies may have the right to modify these requirements.

Honorary Societies, Professional Organizations, and Clubs

There are many local and national honorary organizations established to recognize outstanding students for leadership, service, and academic achievements. Each organization maintains scholastic standards.

Performing Arts

There are many opportunities for qualified students to participate in the Concert Choir, the Symphony Band, the Symphony Orchestra, and the Jazz Ensemble, as well as a number of chamber ensembles.

The dramatic production group of the College, the Vagabonds, is open to all students with potential ability in acting and writing. The group presents plays from the professional theatre repertoire and experimental plays directed and produced by the members.

Religious Life

Florida Southern College is a United Methodist-affiliated college. It encourages students, faculty and staff to enrich their lives by the regular practice of worship and by participating actively in religious affairs.

The College has a chaplain who serves as the coordinator of religious activities. These include a protestant worship service held in the Frank Lloyd Wright-designed Annie Pfeiffer Chapel each Sunday at 11:00 a.m., a Roman Catholic mass celebrated each Sunday afternoon, and many denominational and non-denominational worship services, Bible studies, and fellowship groups throughout the week.

The Chaplain visits the student health center and hospital when there is need and is available to all students for spiritual counseling. Information about local churches is available through the Chaplain's Office.

Service and Civic Organizations

There are several student organizations designed to give their members an opportunity to serve the community and become better-informed citizens. These include the American Red Cross, Best Buddies, Habitat for Humanity, Rotaract, Up 'Til Dawn, and TZeDeK, among others. The Volunteer Programs Office (located in the Center for Student Involvement) is available to help students find other avenues of service.

Special Recognitions and Awards

Each academic year a senior is selected as the Honor Walk Student on the basis of the student's academic record, campus leadership, and contribution to the college community. Additionally, an outstanding senior woman receives the Agnes Johnson Rowe Award, and an outstanding senior man receives the James C. Rogers Award.

In recognition of outstanding leadership, each year a number of students are awarded membership in Who's Who Among Students in American Colleges and Universities. Other campus-wide awards include the Alumni Association Award to an outstanding senior and the President's Medal, conferred at commencement for excellence in scholarship and campus involvement. Many departments also confer academic and service recognitions.

Wellness and Recreation

The Nina B. Hollis Wellness Center is home to wellness and recreation activities at Florida Southern College. The comprehensive program includes group exercise, aquatics, fitness, intramural sports and outdoor recreation programming. The Wellness Center features a 2200-square foot fitness facility with a complete line of equipment, free weights and cardiovascular machines, as well as a 2000 square foot group studio for fitness classes and other instructional programs. The eight-lane pool, full court gymnasium, and open lobby area provide the FSC community with several recreational options to pursue a holistic lifestyle. In addition to the Wellness Center facility, other recreation pursuits can be experienced in the FSC Rec Room, on the Sand Volleyball Courts, on the Intramural Sports Field, as well as on Lake Hollingsworth.

ACADEMICS

The academic experience at Florida Southern College places students at the center of their own education by providing them the resources necessary to achieve success in college and in life after college. Florida Southern's student-centered approach involves a commitment to engaged learning in the classroom and to a strong advising program that pairs students with faculty mentors.

Engaged Learning

Engaged learning is an approach to teaching and learning in which students are responsible for developing the skills, attitudes, and knowledge necessary for success in life. The role of the professor is to empower students to achieve these outcomes. The engaged learning method of teaching encourages learners to conduct meaningful inquiry, reflect, think critically, and develop learning strategies for dealing with real-world challenges. Engaged learning may take place in a variety of settings using approaches varying in complexity and tailored to diverse student learning styles.

Advising

Advising is an integral part of academic life at FSC. The advising program emphasizes the collaborative role of the student and the faculty member in the advising process and plays a vital role in empowering students to become responsible for their own education. Advisors work with students as mentors who help them develop a plan for college studies and for success in life beyond college. Since the partnership of student and advisor requires close cooperation, all FSC students are required to meet with their advisor at designated times during the academic year.

Upon arriving at FSC, each new student is assigned to an advisor, who serves as a mentor to help the student develop a plan for success. Throughout the course of the first year, advisors and new students work together to establish personal, educational, and professional goals for the student. After the first year, or if a student changes major, a student may select a new advisor who, together with the student, will continue to work toward the student's goals. Students requesting a change of academic major or advisor should contact the Registrar's Office.

Academic Resources

Florida Southern College offers support for out-of-class learning through Tutor Tables and Pens Central Writing Labs, both of which are peer tutoring programs. The Student Solutions Center provides additional academic success programs and one-on-one support to foster student achievement. Students are also encouraged to seek guidance and assistance from faculty course instructors and advisors. For more information, contact the Student Solutions Center (863) 680-4900.

ACADEMIC POLICIES

Attendance

First Day Attendance Policy

Students at Florida Southern College are required to attend the first scheduled class meeting of the semester in each course in which they are enrolled or they are subject to removal from the course. Students who will not be in attendance at the first class meeting must notify their academic dean to be approved for late arrival. A student's major field of study determines the dean he or she should notify. All majors fall into one of four schools, each of which is administered by an academic dean:

School of Arts and Sciences: Dr. Brad E. Hollingshead (bhollingshead@flsouthern.edu)

Barney Barnett School of Business and Free Enterprise: Dr. William L. Rhey
(wrhey@flsouthern.edu)

School of Education: Dr. Tracey D. Tedder (ttedder@flsouthern.edu)

School of Nursing and Health Sciences: Dr. Loretta Rinehart (lrinehart@flsouthern.edu)

General Policies on Attendance

Students are expected to attend all class and laboratory sessions on time and should be absent only for unavoidable documented reasons. Individual programs and professors will establish course attendance policies and publish them in the syllabus.

When absences are due to participation in authorized college activities, the directors of the various college activities will send advance notice to all faculty members whose students are involved. Although opportunity to make up the work ordinarily is extended at the discretion of the professor, students absent for one of the above mentioned legitimate reasons should be allowed, when practical, to complete makeup work. If, in the judgment of the professor, even those absences incurred by reason of college activities are placing satisfactory academic performance in jeopardy, the professor should notify the director, coach, or instructor of the activity.

As a matter of information to a faculty member, the Office of Student Development or the Student Health Center will issue to a student, upon request, an official explanation of absence when an absence is due to: (1) illness treated by the Student Health Center, or (2) a documented, unavoidable serious personal emergency. It is necessary for the student to request an Explanation of Absence letter from the Office of Student Development or the Student Health Center and to give it to the faculty member whose class was missed. This does not necessarily excuse the absence; it only provides information to the faculty member. It is the student's responsibility to inform the faculty member a minimum of one week in advance of any college-sponsored events that may result in absence from class or labs. In general, all missed class activities will be made up at the discretion of the professor in accordance with the policies in the course syllabus.

Students having a prolonged period of absences for any reason must obtain written permission from their academic dean, in consultation with the professor, to return for the remainder of the current semester. A student may be withdrawn from a class at the discretion of the professor. Reasons for withdrawal may include, but are not limited to, lack of attendance or inappropriate classroom behavior.

If a serious personal emergency has occurred which required medical or psychological hospitalization, the College may or may not choose to invoke a medical interim suspension. If the College does not choose to invoke such a suspension, it can however still require a student who wishes to return to class and campus life participation to provide documentation from an outside mental health or medical professional. Please see Clearance Procedures under Medical and Mental Health Withdrawals for specifics. In the case of an interim suspension, the student is not allowed to stay in college housing and the college will not provide alternative housing for the student.

Convocation

The Faith and Life Convocation Series brings the college community together on a regular basis for outstanding presentations and programs. Attendance is required because Florida Southern College believes that an educational institution based on the liberal arts should expose students to a broad range of issues – religious, aesthetic, moral, as well as intellectual. It is one of the many ways in which the college is committed to providing educational excellence.

It is the responsibility of the student to be aware of all convocation dates, which are publicized through a variety of means. Convocations are held twice a semester. While attendance is required, the College recognizes that, on occasion, unforeseen circumstances require that a student miss attending a Convocation program. In order to make up the Convocation requirement, a recorded version of the event will be available for students to view at a designated time and location the week following Convocation. It is the student's responsibility to obtain this information from the Office of Student Development. If a student does not review the recorded Convocation within the specified time, a \$100 fine will be placed on his/her student account. Seniors are permitted non-attendance during their final semester.

The College Schedule

The undergraduate day programs of the college function on the semester system with two fifteen-week semesters, a four-week May Option term for study abroad opportunities, two five-week summer sessions, and one ten-week summer session. The academic calendar is published annually and may be found at the beginning of this volume.

An instructional week begins on Monday morning and continues through Friday afternoon. During final examinations, in the evening programs, and for purposes of administering standardized examinations, the instructional hours may be extended through Saturday evening of any given week. The college reserves the right to assign classes or laboratory hours throughout the week.

Emergency Class Cancellation Policy

The college's class cancellation policy is guided by our overriding concern for the safety of students. To ensure a clear line of authority, the president has authorized the provost to make decisions about class cancellations in the event of weather or other emergencies. If class cancellation is deemed necessary, the provost will inform the president and the vice president of finance and administration. The vice president of finance and administration will in turn launch the college's communication program, alert campus safety, and post information about cancellations on the college website. If the provost is not available, the associate provost or another designee shall make the decision whether to cancel classes. In the event that classes are not cancelled but weather conditions pose a safety concern for students traveling to campus, this fact will be taken into consideration in assessing their attendance records.

Commencement and Academic Traditions

Academic achievement of collegiate degrees is recognized by the awarding of the degree during formal commencement ceremonies. Each candidate's diploma is bound in a red vellum folder and signed by college officials. The official seal of the college is affixed. Students who have completed all degree requirements are expected to attend their commencement ceremony. Formal ceremonies are held in December and April/May. Students may also officially graduate in August and are invited to participate in the December ceremony. Students who have not completed all degree requirements are not eligible to participate in commencement.

Honorary degrees may be given by the college from time to time accompanied by the presentation of diplomas and of academic hoods bearing chevrons of red and white, the college colors. Each year since 1934, the college has selected an outstanding person as Honorary Chancellor as part of its annual Founders Week program. The college's Honorary Chancellors are listed toward the end of this Catalog.

College Academic Honors

Degree candidates with final cumulative grade point averages of 3.50-3.69 are graduated cum laude; 3.70-3.84 magna cum laude; and 3.85-4.00 summa cum laude. To be eligible for these honors within the graduating class, students must have earned 62 or more hours at Florida Southern College. CLEP, AP, transfer, transient, and other non-Florida Southern credit does not meet this requirement.

In the undergraduate day program, academic recognition is also provided by naming students as President's Scholars. They are students who achieve grade point averages of 4.0 on a minimum of fifteen graded semester hours in any one semester.

Students in the day or evening programs may be named to the Dean's List when they have achieved grade point averages of 3.7 or better on a minimum of twelve graded semester hours in any one semester. Courses taken pass/fail or audit do not count in the calculation.

Students may be honored for academic and leadership achievement with election to one or more of the college's honor societies. These organizations are listed in the Student Life section of this Catalog.

Roux Library

The Roux Library is an integral part of the intellectual life of the college and seeks to educate students in developing lifelong, critical information-seeking skills through its staff, collections, and services. Librarians provide group and individual instruction in using library resources. Students have access to over 175,000 volumes, more than 7,000 full-text electronic journals in over 100 electronic databases, access to 29,000 electronic books, a 15,000 item media collection that includes videocassettes, CDs, DVDs, and CD-ROMS, as well as a substantial microform collection of over 458,000 items. Students may request items from nearly 54,000 libraries in 96 countries and territories in over 400 languages through the international online network of the Online Computer Library Center (OCLC).

Unit of Academic Credit

Florida Southern College utilizes the semester hour as the basic unit of academic credit. The semester hour represents the equivalent of 14 clock hours of classroom instruction. Two to three clock hours of laboratory or studio instruction are generally understood to be equivalent to one clock hour of classroom instruction. Most of the college's baccalaureate degree requirements specify 124 semester hours for graduation. In some cases, degree programs may require more than 124 semester hours, as noted in those degree program listings. In the course lists and descriptions in this Catalog, the use of the word "hour" means semester hour unless otherwise noted.

For each credit hour, students are expected to invest a minimum of two hours of work outside the classroom each week. For other academic activities, labs, internships, practica, studio work, online and other academic work leading to the awarding of credit, an equivalent amount of work as required for a face-to-face course is expected. For each type of course or academic activity, Florida Southern has established guidelines that are available through the Provost's Office.

Classification of Students

The number of semester hours earned determines student classification.

Freshman 0-29

Junior 60-92

Sophomore 30-59

Senior 93 or more

Students are also classified as

- Degree-seeking full-time, when taking 12 hours or more in any one semester and making systematic progress toward the degree;
- Degree-seeking part-time, when taking less than 12 hours in any semester and making systematic progress toward the degree;
- Special, when taking less than 12 hours in any semester and not being admitted to degree status;

- Transient, when a student from another college or university is admitted to Florida Southern College upon presentation of an official statement attesting to good academic standing.

Course Loads

Full-time degree-seeking students in the undergraduate day program normally take 12-18 semester hour course loads, although a 16 semester hour load is considered typical. Only with written approval of the student's academic dean (or designee) and the advisor may a student register for more than 18 hours. The student should have a 3.0 GPA and circumstances that warrant such an arrangement. Residential students may not register for fewer than 12 hours and may generally not reduce the load below 12 hours during any semester. However, a student may be residential in his or her final semester while taking a course load less than 12 credit hours. Evening Program students may not take more than 8 hours in any one term.

Students may enroll in certain courses as auditors. Full participation in classwork is not expected and no credit is given. Courses taken as audit may not be established later for credit.

Residential day students ordinarily do not include Evening Program courses in their schedules of classes. However, students regularly registered in the residential day program of the college are permitted to register in an Evening Program course if the student's total credit-hour load is not excessive, if the student's grade point average is at least 2.5, and if the course is not available in the residential day program in either semester or summer sessions. When students are permitted to take courses in the Evening Program, additional tuition is assessed at the prevailing evening rate regardless of the total hours being carried in the residential day program. Forms for "cross-over" into the Evening Program may be obtained in the Registrar's Office.

Online Coursework

Florida Southern College offers a limited number of undergraduate courses using online delivery. Grading policies, academic integrity expectations, payment procedures, and general academic policies apply equally to both online and face-to-face courses, unless explicitly noted otherwise in the course syllabus. **Note that full-time students in the traditional day program are limited to a total of 6 (six) online courses at Florida Southern.**

Pass/Fail/A Option

Students, other than first-year students, may take one elective course per semester on a Pass/Fail/A basis. Students who earn an A in the course will have that grade recorded on their transcript and counted towards cumulative and term GPA. Students who receive the equivalent of a B or C in the course will have a Pass recorded on the transcript. Grades of Pass are not calculated into GPA. Students earning the equivalent of D or F will have a Fail recorded in the transcript. A grade of Fail is calculated into term and cumulative GPA.

Elective courses are defined as those courses that do not satisfy general education requirements, major or minor requirements, or degree requirements. Pass/Fail/A grading requires full participation of the student in all aspects of the class. Consent of the faculty member who is teaching the course is required and the signed consent form must be filed with the Registrar's Office by the deadline for adding a course. Once such an election has been made, it may not be reversed.

A student who elects to take a course or courses under the Pass/Fail/A option and who then transfers to a major or minor for which that course or courses are required may petition the appropriate Dean to allow a transfer of Pass/Fail/A courses for credit within the major. Such transfer will be at the discretion of the Dean of the School into which the student is transferring and after consultation with the appropriate department chairperson.

In keeping with the Liberal Arts tradition, students are encouraged to use this option to explore areas outside requirements within a student's major or minor. Pass/Fail/A consent forms are available in the Registrar's Office.

Cross-listed Courses

From time to time, students may wish to explore topics that are cross-listed (courses that are multi-disciplinary or that are accepted by multiple disciplines at Florida Southern College). Students may designate cross-listed courses on their transcripts by choosing the prefix for any cross-listed courses. To indicate which prefix will be recorded, the student registers for the course via the preferred prefix.

Grades and Quality Points

The following scale of letter grades is used by the undergraduate program at Florida Southern College: “A”, Excellent; “B”, Good; “C”, Satisfactory; “D”, Deficient; and “F”, Failing. The letter “I” is used to indicate incomplete; and the letter “G” is used to indicate that a grade has been deferred because the course is part of a sequence that has not yet been completed, e.g. HON 4955 and HON 4956. A grade of “W” is given in a course from which the student withdraws by the calendar date specified in each semester; courses dropped after this date will carry a grade of “F.” An “AU” indicates audit. Certain courses may be elected on a “P” (Pass) and “F” (Fail) basis. Grades of “P” do not affect the grade point average. Transfer course grades, AP credit, IB credit, and credit for CLEP examinations do not affect the grade point average. Grade point values are assigned to the letter grades for each semester hour of instruction: “A”, 4; “B”, 3; “C”, 2; “D”, 1; “F”, 0. In determining grade point averages, the total number of quality points earned is divided by the total number of semester hours attempted for which quality point values are assigned. At mid-semester, students enrolled in 1000 and 2000 level courses are informed of academic progress by mid-term grade reports. At the close of the semester, final grades are reported to students and become a part of the permanent academic record. Students who wish to determine their academic standing at any time other than when final grades are posted may consult an academic calculator program (to figure grade point averages) on the college web site through the Student Solutions Center.

Incompletes

At the end of the semester with most of the coursework complete, if a student is unable to complete coursework in one or more courses for non-academic reasons, the academic dean(s) to whom the course instructor(s) report will be notified. The appropriate academic dean then confers with the faculty member(s) under whom the student has been studying. Faculty members may then initiate procedures to establish an incomplete (grade of “I”). A form requesting permission to award the grade of “I” is filed with the faculty member(s)’ academic dean for approval and transmission to the Registrar. The incomplete course must be finished before the end of the next succeeding semester or term or within a briefer time frame established by the course instructor. For such courses not completed within the allowable time limit, the “I” grade will become an “F.”

Drop/Add Procedures

First semester students making changes in registration (drop, add, or both) must complete the change with a standard office form bearing course numbers and all required signatures. All other students may make changes to their schedule via the web until the close of registration.

After the first week of class, the student must obtain signatures from both the course faculty member and the student’s advisor on a drop form in order to drop a course. The student is responsible for submitting the drop form to the Registrar’s Office. Verbal notification to the faculty member or failure to attend class do not constitute a withdrawal. Students who abandon a course without filing the proper withdrawal form automatically receive a failing grade (grade of “F”). Students are reminded that a date shortly after mid-term grade distribution is designated as the final date for dropping courses without penalty.

Grades of “W” are recorded for all individual semester courses dropped after the first week of classes and before the mid-term date. Full tuition is not refunded after registration. Residential students may generally not reduce their total course load below 12 semester hours.

During summer school sessions, students must cancel their registrations prior to the first class meeting. If they do not do so, a “W” will be recorded for the course and certain published refund policies apply. See the college website for specific information.

Involuntary Withdrawal from the College: Overview

Florida Southern College expects and encourages students to behave in ways that promote their own well-being and the welfare of others. In rare cases, a student’s behavior becomes a “direct threat” to others or is otherwise inconsistent with the student being “qualified” to remain successfully enrolled at FSC for classroom, residential, or other college experiences. Under these circumstances, on an individualized and case-by-case basis that takes into account mitigating and aggravating circumstances, Florida Southern College reserves the right to require at any time the withdrawal of a student whose conduct, academic standing, or general influence Florida Southern College considers incompatible with the well-being of the individual student or the greater college community. This includes behaviors that disrupt the college or interfere with FSC’s educational mission, for which disciplinary action up to and including suspension or expulsion may occur. Such action will take place only after the college’s careful consideration of information pertinent to the matter at hand, and will be in accordance with the college’s policies and procedures.

Interim, Voluntary, and Involuntary Withdrawals

Introduction

Florida Southern College cares deeply about the health and safety of its students. Therefore, Health Center, Counseling Center, and Safety and Security Office services are available on campus. At times, students may exhibit such extreme behavioral conduct, medical conditions, or psychological situations that they pose a direct threat to members of the college community, or that their ability to function successfully and safely in the role of a student is significantly hindered. In such extreme cases, for an unknown period of time, a student might not be qualified to carry out the essential requirements and activities of college coursework or residency. Students are encouraged to prioritize their health and safety and take steps toward wellness, even if academic progress must be delayed. The college will support student-initiated self-care plans and/or initiate action that considers the welfare of the individual student and the college community. In order to address these issues, the college has in place a Student Health Committee (SHC). The SHC may include the Associate Vice President for Student Support (convener), the Assistant Dean of Student Development, the Dean of Student Success/Director of the Student Solutions Center, the Director of the Health Center, and/or the Director of the Counseling Center. The SHC may also request participation of other faculty or staff members who possess specific knowledge or expertise related to a student’s circumstances. Timing of the decision to withdraw, either by the student or by the college, may impact Federal Student Loan debt and reimbursement. Medical withdrawal documentation must be received by the Office of Student Development (telephone: 863-680-4209) within five business days of the initial request, or it will be classified as a non-medical withdrawal. All withdrawals follow the tuition and fee reimbursement policy as outlined in the Catalog.

Emergency Interim Suspension

The SHC may recommend to the Dean of Student Development implementing an Emergency Interim Suspension for up to one week upon a student’s behavior rising to the level of significant community disruption, hospitalization, emergency, if a Mandatory Assessment is pending (see below), or if the student has failed to comply with other Clearance Procedures (see below) within the allotted period. The college may extend the Emergency Interim Suspension to allow a student to complete Clearance Procedures. Students under Emergency Interim Suspension for any reason are temporarily not allowed to participate in any college activities, attend classes, reside in or visit on-campus student housing, and may not be on campus except to attend a meeting or hearing related to his/her case. This interim period allows time for a student to receive the needed

behavioral, medical, and/or psychological care, and for all parties to consider an evaluation of readiness to return to the college. The student must follow the Clearance Procedures listed below before returning. Failure to do so may result in the SHC recommending an Involuntary Withdrawal.

Students who are under Emergency Interim Suspension will be notified verbally or in writing and will have the opportunity to address the basis for the decision by contacting the Office of Student Development (telephone: 863-680-4206). Faculty will be notified of student absence from class (but not the cause of absence) with the intention that the student will be able to continue to make appropriate and adequate academic progress.

Voluntary Withdrawal

Students may seek a voluntary withdrawal when their behavioral, physical, or mental health situations are interfering with optimal college performance including successful engagement in, or completion of, academic course work; when individual safety or the safety of the community is in question; or when the demands of college life are interfering with the ability to recover from or adjust to a significant behavioral, physical, or mental health challenge. Students interested in pursuing a voluntary withdrawal may wish to discuss this option with providers at the Health Center (telephone: 863-690-4292), the Counseling Center (telephone: 863-680-6236), or they may independently initiate the process through the Office of Student Development (telephone: 863-680-4206) or the Student Solutions Center (telephone: 863-680-4900). Residential students will be required to move out of their room within 24 hours of withdrawing. Those who voluntarily withdraw for any reason are not allowed to participate in any college activities, attend classes, reside in or visit on-campus student housing, and may not be on campus except to attend a meeting or hearing related to his/her case. Students who opt for a Voluntary Withdrawal will undergo the appropriate Clearance Procedures (see below) in order to be reinstated as a student of the college. Students may be requested to provide, with the student's written permission, current documentation from an appropriate outside consultant. Examples of such "consultants" include physicians, mental health providers, and non-relatives who, because of their professional credentials and knowledge of the student, can provide recommendations about student readiness to return to college. This will provide the assurance the student is fully prepared to successfully resume all college activities and for the college to provide reasonable accommodations to foster student return. There is a form the college may require to be completed by the student's consulting information provider. An outside evaluator's recommendation is not a binding one for the college.

Involuntary Withdrawal

In rare circumstances, the SHC may recommend that a student be involuntarily withdrawn. Students who are involuntarily withdrawn for any reason are not allowed to participate in any college activities, attend classes, reside in or visit on-campus student housing, and may not be on campus except to attend a meeting or hearing related to his/her case. Examples of situations that might result in an Involuntary Withdrawal include, but are not limited to: A student poses a "direct threat" risk to the health or safety of others (see below); a student has an uncontrolled contagious disease or infection; a student fails to complete the required steps during an Emergency Interim Suspension (see above) or associated Clearance Procedures (see below); a known condition has deteriorated (e.g., a student fails to take medication necessary for self-care and serious health concerns develop), rendering the student to be in possible imminent danger and/or incapable of functioning as a student; a student engages in behaviors that disrupt the college or interfere with FSC's educational mission; a student is not "otherwise qualified" to continue as a student at FSC (see below). In most cases, these situations can be handled through voluntary withdrawals; however, if the student is unwilling to pursue a voluntary withdrawal, the SHC may recommend to the Dean of Student Development to involuntarily withdraw a student. The SHC will recommend behavioral, assessment, documentation, and/or treatment conditions needed to return to Florida Southern College. Like students who voluntarily withdraw from FSC, Involuntary Withdrawal students will undergo the appropriate Clearance Procedures in order to be reinstated (see below).

Clearance Procedures: Preliminary Review

Except for cases of a Public Health Emergency, a member of the SHC or other college official (e.g., the Director of Campus Safety and Security) may conduct a Preliminary Review, learning about the student's situation and concerns, informing the student of college concerns, and making an initial determination about the student's readiness to resume college activities and the conditions under which this may occur. As part of the Preliminary Review, or if concerns about a student's readiness to resume college life persists after the Preliminary Review, the additional Clearance Procedures in this section may be implemented.

Determining if there is a "Direct Threat"

A "direct threat" exists when a student's conduct "poses a significant risk to the health or safety of others (with a) high probability of substantial harm, and not just a slightly increased, speculative, or remote risk." Students who are determined to be a direct threat will be supported in taking a Voluntary Withdrawal or may undergo Involuntary Withdrawal, disciplinary suspension, or expulsion. To determine if a student poses a direct threat to others, the following criteria established by the Office of Civil Rights are used:

- Using individualized and objective assessment based on reasonable medical judgment and relying on the most current information
- Evaluating the nature, duration, and severity of the risk
- Evaluating the probability that a potentially threatening injury will occur
- Determining whether reasonable accommodations will sufficiently reduce the risk

At Florida Southern College, these criteria are applied on a case-by-case basis and evaluated within the context of an individual student's circumstances, considering both mitigating and aggravating circumstances. Separation of the relationship between the student and the college will only be recommended in the absence of other opportunities to accommodate or resolve the situation. If the college remains concerned, a Mandatory Assessment (see below) may be required to further determine whether or not the student poses a direct threat. Thus, if the student is not already hospitalized, the student may be required to go to the hospital or other professional for evaluation. A student may decline to undertake a Mandatory Assessment but doing so may result in the college imposing an Emergency Interim Suspension, Involuntary Medical Withdrawal, disciplinary suspension, or expulsion. Pending clearance, a student may not be allowed to participate in any college activities, attend classes, reside in or visit on-campus student housing, and may not be on campus except to attend a meeting or hearing related to his/her case.

Determining if a Student is Currently "Otherwise Qualified" to Continue

The inability to meet essential requirements of a student in good academic, residential, or social standing can render a student, for an unforeseen period of time, as not currently qualified to remain a student at Florida Southern College. Such essential requirements include the ability to participate in Engaged Learning in and outside the classroom, maintaining adequate academic grades and progress, the ability to abide by the college's Cornerstone Values or code of conduct, or behaviors that do not interfere with individual or community safety. Based on any of these conditions, the SHC or other college official may conduct a Preliminary Review with the student and appropriate members of the college community to determine a student's qualifications to continue as an active student. The consequence of this determination may result in: directing students to appropriate behavioral, academic, health, or social support resources; Emergency Interim Suspension; helping the student move forward on an Voluntarily Withdraw; or Involuntary Withdrawal.

Mandatory Assessment

A student may need to complete a Mandatory Assessment if the student has been placed on Emergency Interim Suspension; the student has voluntarily withdrawn from the college and wishes to be reinstated; the student has undergone an Involuntary Withdrawal and wishes to be reinstated; if after a Preliminary Review the College remains concerned the student may pose a

direct threat to others; if after a Preliminary Review the college deems the student not “otherwise qualified” to continue as a student; under other conditions as determined by the college. These Mandatory Assessment steps are designed to ensure the student’s optimal performance in the college community, including that the student is not a direct threat to others, that a health emergency no longer exists, that a plan for sustained and appropriate behavior, good health, and safety is in place, and/or that the student is otherwise qualified to resume studies and community living.

Note: Depending on the situation, students may complete these procedures on different timelines. Some students may complete these steps within days of the Preliminary Review, Emergency Interim Suspension, or Withdrawal while others may wait several months before pursuing a return to the college.

The student must be assessed by an appropriate outside individual, whose opinions will be advisory to the college. The professional consultant, who is selected by the student, must be a licensed psychologist or psychiatrist if evaluating mental health concerns, a licensed physician if the evaluation is regarding other medical concerns, or must be a person that could reasonably be seen as having adequate knowledge, authority, and training to make such an evaluation under other conditions. The college reserves the right to evaluate the appropriateness of the consultant. Further, all providers must be unrelated to the student and must have specialty/credentials appropriate for the condition of concern (e.g., an eating disorder or substance abuse specialist). To make an accurate evaluation, the outside consultant may require access to information held by the college related to the precipitating events that led to the leave. This typically would involve the student signing a release allowing the college (e.g., the Health Center, Counseling Center, or Office of Student Development) to share information regarding relevant incidents or concerns and, if applicable, recent hospital records. The student will be responsible for any cost incurred by the evaluation. The outside mental health/medical professional (or consultant, for non-mental health/medical situations), with the student’s written permission, must provide directly to the college an assessment of current functioning of the student and provide written recommendations regarding: a) Given the precipitating events, the student’s readiness to return to the academic and co-curricular demands of college life; b) The student’s readiness to live in the on-campus residential community; c) Ongoing resource, testing, or treatment needs; d) Any conditions or restrictions that the college should impose; and e) The student’s readiness to return to competitive sports, if the student is a collegiate athlete. The college may require a form to be completed by the student’s health care provider or consultant. An outside evaluator’s recommendation is not a binding one for the college.

• *NOTE: The college athletic team physician, in consultation with the Florida Southern College Director of the Health Center and/or Counseling Center, may ultimately make the decision regarding athletic involvement and may consider associated outside evaluations in making such a determination.*

• *NOTE: Documentation of the Mandatory Assessment (conducted within 30 days of application for re-entry) and documentation of required intervention completion must be provided to the Office of Student Development no later than December 1 for the spring semester and July 1 for the fall semester. Those planning to return to a summer session must provide documentation no later than 30 days before the summer session begins.*

After the Mandatory Assessment results and resource/treatment documentation have been provided to the college, the student must meet with a SHC representative (typically the director or designee of the Counseling Center or Health Center). The Assessment results, associated documentation, and the student’s own perception regarding readiness to return, needs, and plans for support or treatment will be discussed. Additionally, the college representative will consider how the outside evaluator’s recommendations fit with the realities of student life at Florida Southern College and services that are available on campus or in the community.

The SHC will meet and consider a number of factors about the student’s ability to return to Florida Southern College, including the outside evaluator’s recommendation and the results of the student’s meeting with the SHC representative. The SHC will make recommendations to the Dean of Student Development and students will receive verbal or written notification of the decision about clearance return to the college.

Note: Neither a Voluntary nor an Involuntary withdrawal is considered to be a punitive action; however, any withdrawal becomes a part of a student's institutional record.

Appeal

A student may appeal the outcomes of any of the above processes by contacting the Office of Student Development, Student Life House, 960 Callahan Ct., Florida Southern College, Lakeland, FL 33801, telephone: (863) 680-4206.

Final Examinations

The final examination schedule is published at the beginning of each semester. College policy requires faculty members to give final examinations in all courses and to adhere to the published schedule. Any deviations from this regulation – canceling a final examination, changing the time or place of a scheduled final examination for the class, or adjusting the prescribed two-hour time limit on final examinations, or any other alteration – must become the subject of written memoranda between the faculty member and the faculty member's academic dean.

Academic Standing

Good Academic Standing

A student not on academic probation or academic suspension is considered to be in good academic standing. Academic standing is monitored at the end of each term, and students whose performance is unsatisfactory or at risk of becoming unsatisfactory are notified of their status as well as the implications of loss of good academic standing for continued progress to the degree. Students are also advised of any steps they can or should take to improve their performance.

Students receiving financial aid need also to be aware of the satisfactory progress requirements for continued eligibility for financial aid.

Standards of Academic Progress

Degree-seeking students at Florida Southern College are required to comply with the college's standards of academic progress in order to remain in good academic standing. A student's compliance with the college's standards of academic progress depends on both qualitative and quantitative measures. Students who are not in compliance with the college's academic standards, according to either qualitative or quantitative measures, are subject to loss of good academic standing, suspension, or even expulsion from the College.

Qualitative Measures of Academic Progress

Qualitative measures of academic progress are based on a student's grade point average: Students are expected to maintain minimum grade point averages of 2.0 ("C") or better, both cumulatively and during each term. When semester, term, and/or the cumulative grade point averages drop below 2.0, students are at risk of not achieving academic success and are subject to provisions and sanctions ranging from academic alert to expulsion.

All periods of a student's enrollment at FSC are utilized in determining the cumulative grade point average. However, any grades earned in transfer courses do not enter into the grade point average calculation.

Quantitative Measures of Academic Progress

Once a student has earned 25 or more hours or has attended more than two regular semesters, a quantitative measure is used to review the academic progress of each student toward graduation. The quantitative measure of academic progress is based on a student's annual rate of course completion.

A course is said to be completed when a student receives a grade of A, B, C, D, or P for the course; hence, students do not complete a course for which they receive a grade of F, G, I, or W. (Audited courses for which a student receives a grade of AU are not included in the calculation.)

The completion rate is calculated in terms of credit hours: the rate of course completion equals the number of hours completed divided by the number of hours attempted. **Students are expected to successfully complete at least 67% of all credit hours attempted in the academic year.**

A student's rate of course completion is determined each year after the end of the spring semester. All periods of the student's enrollment are counted in determining the total number of credits earned and attempted, including credit hours transferred from other institutions.

Unsatisfactory Academic Progress

When term, semester, and/or cumulative grade point averages drop below 2.0, students are academically deficient and subject to the following provisions and interventions:

Academic Alert

An **academic alert** indicates a failure to maintain Florida Southern's academic progress requirements during a semester or term. Although academically deficient for the semester or term, students on academic alert remain in good academic standing. The status of academic alert applies to students under the following conditions:

Students at the end of the first semester of enrollment at FSC:

The student's cumulative grade point average is below 2.0 but at least 1.7.

Students with total earned hours up to and including 24 semester hours of credit:

The student's cumulative grade point average is at least 2.0 but term grade point average is below 1.7.

Students with total earned hours of 25-47 semester hours of credit:

The student's cumulative grade point average is at least 2.0 but term grade point average is below 1.8.

Students with total earned hours of 48-62 semester hours of credit:

The student's cumulative grade point average is at least 2.0 but term grade point average is below 1.9.

A student who is on academic warning or academic probation, and subsequently satisfies Florida Southern's academic progress requirements, will be placed on academic alert for the next regular semester of enrollment. (See below under "Academic Warning" and "Academic Probation.")

Students informed that they are on academic alert must meet with their advisor during the first two weeks of the next succeeding semester and devise a plan for improvement with the advisor. Students on academic alert must also meet with their advisor one week after mid-term grades are posted that semester. A hold will be placed on registration for the following semester's classes until the student on academic alert has satisfied these advising requirements.

Academic Warning

An **academic warning** indicates a more serious failure to maintain Florida Southern's academic progress requirements than an academic alert and reflects deficiencies in cumulative performance and/or performance during a term or semester. The status of academic warning indicates that a student is at risk of not attaining success at FSC. However, although academically deficient, students on academic warning remain in good academic standing at the college. The status of academic warning applies to students under the following conditions:

Students at the end of the first semester of enrollment at FSC:

The student's cumulative grade point average is below 1.7 but above 0.0

Students with total earned hours up to and including 24 semester hours of credit:

The student's cumulative grade point average is below 2.0 but at least 1.7.

Students with total earned hours of 25-47 semester hours of credit:

The student's cumulative grade point average is below 2.0 but at least 1.8.

Students with total earned hours of 48-62 semester hours of credit:

The student's cumulative grade point average is below 2.0 but at least 1.9.

Students with total earned hours of 63 or more semester hours of credit:

The student's cumulative grade point average is at least 2.0, and the student's term grade point average is below 1.7.

Students informed that they are on academic warning must meet with their advisor during the first two weeks of the next succeeding semester and devise a plan for improvement with the advisor. Students on academic warning must also meet with their advisor one week after mid-term grades are posted that semester. A hold will be placed on registration for the following semester's classes until the student on academic warning has satisfied these advising requirements. Failure to satisfy the terms of the academic improvement plan developed with the advisor may result in either academic probation or suspension during the subsequent semester.

The status of academic warning means that students may not rush a sorority or fraternity nor may they hold positions of leadership in student organizations including, but not limited to, student publications, sororities, fraternities, ensembles, and other societies. An office held by a student placed on academic warning shall be declared vacant immediately.

A student who is on academic warning, and subsequently satisfies Florida Southern's academic performance requirements, will be placed on academic alert for the next regular semester of enrollment.

Academic Probation (Loss of Good Academic Standing)

The status of **academic probation** signifies loss of good academic standing at Florida Southern and is the most serious indication prior to suspension that a student's academic progress is in jeopardy.

Students are not subject to academic probation at the end of their first semester of enrollment at Florida Southern. However, at the end of two or more semesters, the status of academic probation applies to any student who fails to complete 67% of credit hours attempted over the previous academic year. (For students who fail to complete any credit hours attempted, see "Suspension.")

Additionally, at the end of two or more semesters of enrollment, the status of academic probation initially applies to students under the following conditions:

Students with total earned hours up to and including 24 semester hours of credit:

The student's cumulative grade point average is below 1.7.

Students with total earned hours of 25-47 semester hours of credit:

The student's cumulative grade point average is below 1.8.

Students with total earned hours of 48-62 semester hours of credit:

The student's cumulative grade point average is below 1.9.

Students with total earned hours of 63 or more semester hours of credit:

The student's cumulative grade point average is below 2.0.

Students whose term or semester grade point average falls below 1.0 are further subject to suspension. (See below, "Suspension.")

Students informed that they are on academic probation must meet with their advisor during the first two weeks of the next succeeding semester and devise a plan for improvement with the advisor. Students on academic probation must also meet with their advisor one week after mid-term grades are posted that semester. A hold will be placed on registration for the following semester's classes until the student on academic probation has satisfied these advising requirements. Failure to satisfy the terms of the academic improvement plan developed with the advisor will result in suspension during the subsequent semester. Hence a student who remains on academic probation for two consecutive semesters is subject to immediate suspension.

The status of academic probation means that students may not rush a sorority or fraternity nor may they hold positions of leadership in student organizations including, but not limited to, student publications, sororities, fraternities, ensembles, and other societies. An office held by a student placed on academic probation shall be declared vacant immediately. Additionally, the status of academic probation means that a student may not participate in internships.

Students on academic probation are usually not eligible to participate in intercollegiate athletics. Questions about intercollegiate athletic eligibility should be directed to the Department of Athletics.

A student who is on academic probation, and subsequently satisfies Florida Southern's academic performance requirements, will be placed on academic alert for the next regular semester of enrollment.

Academic Suspension

The status of **academic suspension** is the most serious academic sanction prior to expulsion. A student placed on academic suspension is no longer in good academic standing at Florida Southern and is not permitted to register for courses or to participate in any college-related opportunities until after the next regular semester (Fall or Spring).

Students may be placed on academic suspension for three reasons: (a) deterioration of grade point average below the level of academic probation (applicable only to students past the first semester of enrollment), (b) lack of clear progress towards completion of degree requirements, and (c) academic failure for the semester. These reasons are detailed below:

a. Grade point average below the level of academic probation

Following the first semester of enrollment at FSC, a student is subject to suspension at the end of a term under the following conditions:

Students with total earned hours up to and including 24 semester hours of credit:

- The student's cumulative grade point average is below 1.7.
- The student's term grade point average is below 1.0.

Students with total earned hours of 25-47 semester hours of credit:

- The student's cumulative grade point average is below 1.8.
- The student's term grade point average is below 1.0.

Students with total earned hours of 48-62 semester hours of credit:

- The student's cumulative grade point average is below 1.9.
- The student's term grade point average is below 1.0.

Students with total earned hours of 63 or more semester hours of credit:

- The student's cumulative grade point average is below 2.0.
- The student's term grade point average is below 1.0.

b. Lack of clear progress towards completion of degree requirements

Based on the 67% course completion standard of academic progress (see "Quantitative Measures of Academic Progress" above), students are expected to undertake a course of study, including general education, major, and degree requirements, that will eventuate in a bachelors degree by the end of at most twelve semesters of full-time enrollment. Failure to make clear progress towards completion of degree requirements may lead to a student's suspension.

c. Academic failure for the semester

Academic failure for the semester, as opposed to academic failure of a single course, occurs when a student receives all "F" grades in all academic courses in a given semester. The result is a term grade point average of 0.0. A student whose performance results in academic failure for the semester is placed on academic suspension for the following semester.

The first time students qualify for suspension, they may be allowed to appeal that suspension to their academic dean. It should be noted that approval of such an appeal is, however, in no way automatic and is subject to the discretion of the dean. A student whose appeal is successful may return to the college under the guidelines of academic probation (see above).

A student readmitted after Academic Suspension is automatically placed on academic probation for the readmission semester (Fall or Spring).

d. Multiple semesters of probation

After two consecutive semesters of academic probation, a student is subject to suspension.

Academic Expulsion

A student who has qualified for academic suspension a second time will not be eligible for future enrollment at Florida Southern College. A second suspension is permanent and is, in fact, academic expulsion.

Academic Progress Chart

The chart below summarizes the categories and criteria of unsatisfactory academic progress. The chart includes the following abbreviations:

CmlGPA = Student's cumulative grade point average

TermGPA = Student's term grade point average

CompRate = Student's annual course completion rate

LAP = Lack of academic progress (less than 67% course completion rate)

Term/Credit Hour of Enrollment at FSC	Academic Progress Classification			
	Academic Alert	Academic Warning	Academic Probation	Suspension
At the end of the first semester at FSC	CmlGPA below 2.0 but at least 1.7	CmlGPA below 1.7 but above 0.0	<i>Not Applicable</i>	TermGPA = 0.0
0-24 hours (at the end of second and subsequent semesters)	CmlGPA at least 2.0 and TermGPA below 1.7	CmlGPA below 2.0 but at least 1.7	CompRate below 67% or CmlGPA below 1.7	TermGPA = 0.0 [CmlGPA below 1.7 and TermGPA below 1.0]
25-47 hours	CmlGPA at least 2.0 and TermGPA below 1.8	CmlGPA below 2.0 but at least 1.8	CompRate below 67% or CmlGPA below 1.8	TermGPA = 0.0 or Two consecutive regular (fall + spring) semesters on probation or [CmlGPA below 1.8 and TermGPA below 1.0]
48-62 hours	CmlGPA at least 2.0 and TermGPA below 1.9	CmlGPA below 2.0 but at least 1.9	CompRate below 67% or CmlGPA below 1.9	TermGPA = 0.0 or Two consecutive regular (fall + spring) semesters on probation or [CmlGPA below 1.9 and TermGPA below 1.0]
63+ hours		CmlGPA at least 2.0 and TermGPA below 1.7	CompRate below 67% or CmlGPA below 2.0	TermGPA = 0.0 or Two consecutive regular (fall + spring) semesters on probation or [CmlGPA below 2.0 and TermGPA below 1.0]

Retaking Courses and the College “Forgiveness Policy”

Students may be assisted in the improvement of cumulative grade point averages by the privilege of retaking courses at Florida Southern in which grades were earned at Florida Southern. This privilege does NOT apply to courses in which a grade of “A” was earned. Upon completion of these courses, the original grades will no longer be counted in the determination of cumulative grade point averages although they will remain on the permanent academic record. It should be noted that even though any such course may be repeated as many times as necessary, it is only once that the original grade may be “forgiven.” In situations where the courses in question are not available or no longer offered, appropriate “like courses” may be substituted with the recommendation of the academic program coordinator or department chair and approval of the appropriate academic dean.

Permissions and Eligibility

Transient Student Permission

Students planning to take courses as transient students at other institutions (e.g., in summer sessions) should note that (1) they must have a minimum 2.0 grade point average at Florida Southern; (2) they must have advance approval to attend another institution from the Florida Southern College Registrar; (3) courses passed at the “C” level (but not at the “C-” level) or above at another regionally accredited institution may be transferred to Florida Southern College for credit of hours toward graduation but will not alter the student’s Florida Southern grade point average; (4) the maximum number of hours which can be transferred from a community or junior college is 62; (5) students who have or will have earned 75 semester hours credit are generally ineligible to attend a community or junior college. ; (6) after completing 93 hours, a student must finish the remaining credits at FSC. Questions concerning this policy should be referred to the Registrar's Office.

Academic Progress Requirements for Veterans

Students who are supported financially by the Veterans Administration, Department of Veterans Benefits, are subject to all academic performance requirements stated above for all students. However, the veteran who is on academic probation for more than two consecutive semesters or four evening program terms will no longer receive V.A. benefits.

Grade Grievance Procedures and Appeals

Florida Southern College has established a procedure for the resolution of grievances arising from disputes over grades. Cases in which resolution has not been achieved by informal or formal negotiations among the students, faculty members, department chairs, division chairs, or the appropriate academic dean may be remanded by the Provost's Office to the Religious Life and Student Life Committee for review.

Cases involving a disputed infraction of the Florida Southern College Honor Code will be remanded to the Honor Code Infraction Review Board prior to consideration by the Religious Life and Student Life Committee. (For information about the Honor Code Infraction Review Board, see p.49).

The Religious Life and Student Life Committee will consider each case, has the authority to make final recommendations, and will make every effort to preserve both the substance and the appearance of impartiality and fairness. In the event that a member of the committee is directly involved in the case, that member will not participate. If that member is the chair of the committee, the committee will elect a chair, pro tem.

The committee may make a determination without a hearing. In the event of a hearing by the committee, a vote will be taken by secret ballot. In either case the results will be communicated in writing by the chair to the Provost. The Provost will communicate the final decision to the student, the appropriate dean, the Registrar, and the faculty member.

Any student considering a grade appeal should understand that each faculty member has the academic freedom and responsibility to determine and assign grades according to any professionally acceptable method chosen by the faculty member, communicated to everyone in the class, and applied to all students equally.

An appeal must be made in writing to the faculty member who taught the course (copies to the appropriate academic dean and/or department chair, and Associate Provost) no later than the fifteenth calendar day of the next succeeding regular semester. A detailed grade appeals procedure is available in the Office of the Provost.

Academic Integrity

On joining the Florida Southern College academic community, students are expected to embrace the tenets of liberal learning – critical thinking, intellectual exploration, and academic honesty.

Academic dishonesty, cheating, plagiarism, and other violations of academic integrity are causes for suspension or expulsion from the college. Responsibility for dealing with violations initially lies with the faculty member. Where further action is needed, cases fall under the jurisdiction of the Honor Code. Each case of academic dishonesty, however handled, is reported to the Office of the Provost as a matter of record.

The Florida Southern College Honor Code

I will practice academic and personal integrity and excellence of character and expect the same from others.

I. Introduction

I.A. Policy

As an academic community, Florida Southern College (FSC) is firmly committed to honor and integrity in the pursuit of knowledge. Therefore, as members of this academic community, all students acknowledge responsibility for their actions and commit themselves to the highest standards of integrity, thereby making a covenant with the college and all members of the academic community not to engage in any form of academic dishonesty as defined immediately below. This covenant—FSC’s Honor Code—lies at the heart of learning, inquiry, and the critical exploration and dissemination of ideas. Through it, students affirm the authorship of their own work, and when work is not their own, appropriately attribute ideas, concepts, data, words, and artistic and creative expressions. Formal subscription to the Honor Code by all students assures the academic community that breaches of academic integrity will not be tolerated and fosters learning at its best.

I.B. Definition of Academic Dishonesty

Academic dishonesty is any act of cheating, assistance in cheating, plagiarism, academic theft, falsification, or misrepresentation. The following definitions, adapted from the University of Pennsylvania’s Code of Academic Integrity (available online at www.vpul.upenn.edu/osl/acadint.html), shed further light on the full meaning of academic dishonesty. Academic dishonesty includes but is not necessarily limited to:

Cheating: using or attempting to use unauthorized assistance, material, or study aids in examinations or other academic work or preventing, or attempting to prevent, another from using authorized assistance, material, or study aids. Examples: using a cheat sheet in a quiz or exam, altering a graded exam and resubmitting it for a better grade.

Plagiarism: using the ideas, data, or language of another without specific or proper acknowledgment in oral, written or electronic media/formats. Examples: copying another person’s paper, article, or computer work and submitting it for an assignment, cloning someone else’s ideas without attribution, failing to use quotation marks where appropriate.

Fabrication: submitting contrived or altered information in any academic exercise. Examples: making up data for an experiment, fudging data, citing nonexistent articles, contriving sources.

Multiple submission: submitting, without prior permission, any work submitted to fulfill another academic requirement.

Misrepresentation of academic records: misrepresenting or tampering with or attempting to tamper with any portion of a student's transcripts or academic record, either before or after coming to Florida Southern College. Examples: forging a change of grade slip, forging a signature, tampering with computer records, falsifying academic information on one's résumé.

Facilitating academic dishonesty: knowingly helping or attempting to help another violate any provision of the Code. Example: working together on a take-home exam.

Failure to report academic dishonesty: not reporting an observed violation. Example: failing to report witnessing cheating on an exam.

Unfair advantage: attempting to gain unauthorized advantage over fellow students in an academic exercise. Examples: gaining or providing unauthorized access to examination materials, obstructing or interfering with another student's efforts in an academic exercise, lying about a need for an extension for an exam or paper, continuing to write even when time is up during an exam, destroying or keeping library materials for one's own use.

I. C. Notification

FSC's new student orientation includes a written explanation of FSC's academic policies, in particular, a complete explanation of the Honor Code. Upon enrollment, all new students, including Evening Program and graduate students, are to adhere to the Honor Code and its implications to academic honesty.

The Honor Code is published in the Academic Catalog and posted at the FSC web site and throughout various locations on campus. Faculty members should remind students about the Honor Code at the beginning of each academic term or semester and place the Honor Code in course syllabi, including any information specific to the faculty member's use of the Honor Code.

A student's failure to be aware of the Honor Code or to understand its provisions does not excuse the student from the jurisdiction, process, or penalties of the Honor Code. Furthermore, if a student is unclear about whether his or her actions might be an infraction of the Honor Code, the student is responsible for contacting the faculty member for clarification.

I.D. Jurisdiction

The Honor Code specifically applies to all academic transactions at FSC—those that are academically related, as well as those in which students represent the college or themselves as students of the college (e.g., competitions, internships, field experiences, practica, research projects, poster displays, and the like), even when classes are not in session. However, the Honor Code does not supersede or, in any manner, impinge upon the jurisdiction, procedures, and penalties enforced under applicable state and federal laws.

II. Roles, Responsibilities, and Reporting Procedures

II.A. Roles and Responsibilities

Adherence to the Honor Code is assured by the participation and action of all students, faculty members, staff members, and members of FSC's senior administration, in their roles as outlined in Sections II and III.

II.A.1. Students

As members of the FSC academic community, students should never tolerate any form of academic dishonesty, whether committed by themselves or by others. Therefore, a student who observes an act of academic dishonesty is responsible for reporting that possible offense either to the faculty member who is teaching the course in which it occurred or a Dean. If a student's report is made directly to a Dean, the Dean will notify the faculty member involved and forward a copy

of the report to that faculty member. The report should be made immediately and should follow the procedure outlined in Section II.B.

II.A.2. Faculty, Staff, and Administrators

Faculty and staff members or administrators discovering a possible offense against the Honor Code, either through investigation, through normal operations, or by report from a student, should report the possible offense to a Dean immediately. Reporting should follow the procedure outlined in Section II.B.

II.B. Reporting Procedures

The student, faculty member, or other person reporting the possible offense should do so in writing using the Honor Code report form available at FSC's website www.flsouthern.edu/registrar/forms.htm. If a faculty member is reporting a case of possible plagiarism, the faculty member should also include the original assignment (or photocopy), marking plagiarized passages and citing the original source(s). The report must be signed. Faculty members who have received a report of academic dishonesty are required to take action immediately. The Faculty member receiving an Honor Code infraction report should report the matter to their Dean immediately and within five days of receipt, the faculty member must inform the accused of the content of the allegation. Full confidentiality is maintained during these steps; however, if the accused student decides to appeal a course-related penalty, the student(s) or other person(s) reporting the incident may be required to be present at the hearing. The faculty member may choose one of two options and should report his or her choice of option to their Dean:

- 1) a specific course-related penalty
- 2) forwarding for hearing by the Honor Code Infraction Review Board, in a timely manner but no later than the end of the semester in which the event took place.

II. C Appeal Faculty Decision

Should the faculty member choose not to forward the case to the appropriate Dean for a hearing and decide to impose a course-related penalty, the accused student retains the right to appeal the faculty member's penalty. See Section III.B., "Types of Cases."

III. Hearing Procedures and Outcomes

III.A. Hearing Body: The Honor Code Infraction Review Board (HCIRB)

The HCIRB is composed of eight faculty members and two students, all serving with the right to vote. Any HCIRB member who has an involvement with a particular case or whose participation would result in a conflict of interest may not hear that case.

III.A.1. Student Members

The two student representatives are elected by vote of the faculty members within four weeks of the start of the academic year. Faculty may nominate students and provide nominees' majors, GPAs, and any additional pertinent information. Before being nominated, students must agree to serve, if elected, and must be available to serve through the summer break following the academic year, if necessary. Student terms are for one year; however, a student member may be elected for additional one-year terms so long as that student remains a degree-seeking student in good academic and disciplinary standing at the college. A student who has been sanctioned for an Honor Code violation cannot serve on the HCIRB. In the event that a student HCIRB member is sanctioned during the year, the faculty members from his or her unit will elect a replacement.

III.A.2. Faculty Members

The HCIRB will have eight faculty representatives: one from each division of the School of Arts and Sciences and one from each of the other schools.

- A. School of Arts and Sciences
 - i. Social Sciences (Criminology, History, Political Science, Sociology)
 - ii. Communication
 - iii. Humanities (English, Modern Languages, Religion and Philosophy)
 - iv. Fine Arts (Art, Music, Theatre)
 - v. Natural Sciences (Biology, Chemistry and Physics, Mathematics and Computer Science)
- B. School of Business
- C. School of Education
- D. School of Nursing and Health Sciences

III.B. Types of Cases

The HCIRB serves as the hearing board in the following types of cases:

- Cases referred by faculty members to the appropriate Dean, instead of a course-related penalty
- Cases referred to the appropriate Dean by other members of the academic community (e.g., deans, division chairs, registrar, library director, admissions director, or internship supervisor).
- The HCIRB serves as an appeals board when the faculty member has sanctioned the student by means of a course-related penalty, but the student wishes to appeal the decision on grounds of challenging the evidence or capriciousness on the part of the faculty member.

III.C. Hearing Process

The hearing process begins when a Dean refers a case and provides pertinent information representing both sides to the HCIRB.

III.C.1. Appellant Hearing Process

When the HCIRB serves as an appeals board, it will meet in a pre-hearing to determine if there is sufficient reason to warrant review of the faculty member's decision. Sufficient reason would include evidence of capriciousness on the part of the faculty member, questions of fact, or new evidence since the faculty member invoked the penalty. The HCIRB chair or members of the HCIRB at the chair's direction will investigate the case, collect all pertinent materials, and notify the parties involved in the case at least 72 hours in advance of the scheduled hearing. Every effort should be made to investigate the allegations and to collect all pertinent materials in a reasonably expeditious manner. If the HCIRB determines not to hold a full hearing, the faculty member's decision stands. Should the HCIRB hear the case on appeal, the hearing procedures outlined below are followed.

III.C.2. Process for Hearing

HCIRB hearings proceed in the following manner:

A quorum is 6 (at least 2 faculty members and 2 students). If the case involves a graduate student, the quorum must include the graduate student representative unless the representative has an interest in the case.

Proceedings are recorded by an audio recording device.

The meetings are closed. Parents or guardians are not allowed to be present. No attorney may be present. The student may have an advisor selected from among the faculty members of the ASAI. Such an advisor may not speak for the student, but may offer counsel and explanation to the student. Rules of law and evidence do not apply to FSC hearings.

The two parties are permitted to bring no more than two witnesses to the hearing. Both sides may provide additional written testimony relevant to the case. The accused student may question witnesses who speak at the meeting and may challenge any written witness statements presented at the meeting. Witnesses must have personal involvement with, have personally observed, or have otherwise relevant knowledge of, the incident in question. The HCIRB reserves the right to call additional witnesses.

Faculty members and/or accused students are responsible for providing the time and location of the hearing to their witnesses and ascertaining if the witnesses will be present. The hearing process will be scheduled when both parties are available, and both parties must be available within 14 days of the HCIRB's announced decision to hold a hearing. If either party fails to appear, the hearing process will proceed.

III.C.3. Honor Code Infraction Review Board Meeting Procedures

Outline of HCIRB Meeting:

1. The Chair will call the meeting to order and outline the purpose of the HCIRB. The Chair will ask all persons present to identify themselves and state the reason for their presence.
2. The Chair will read the charge(s) and ask the student to give a statement of "Responsible" or "Not Responsible" to each charge. If the student enters a plea of "Not Responsible" for any or all charges, the meeting will continue to the Determination of Responsibility phase of the meeting. If the student enters "Responsible" for all the charges, the meeting will continue to the Sanctioning phase of the meeting.

Determination of Responsibility Phase:

1. The College's case may be presented by witnesses or by written documents or reports.
2. The charged student will then state his or her case.
3. The HCIRB may ask questions of either the person presenting the charge(s) or the student being charged.
4. Witnesses for the person presenting the charge(s) will be called in one at a time. Each witness will be asked to present information relevant to the case. Each witness may be questioned by the HCIRB, the person presenting the charges, or the charged student.
5. The same process will be followed for the charged student.
6. After all witnesses have been heard, the HCIRB may ask for additional information.
7. The person presenting charge(s) will give a closing statement.
8. The charged student will give a closing statement.
9. All persons, except the HCIRB, will be excused from the room.
10. The HCIRB will determine accountability of "Responsible" or "Not Responsible" for each charge presented. The College and the accused student will then be brought back into the room. The HCIRB will read the findings.
11. If found not responsible for all charges, the proceedings are closed and everyone is dismissed.
12. If found responsible, the proceedings continue with the sanctioning phase.

Sanctioning Phase:

The Sanctioning Phase of the HCIRB will take place at the hearing if the student has stated or been found responsible for any of the charges.

1. The HCIRB chair will present information related to the prior accountability record of the charged student and present recommended sanctions.
2. The charged student may then make a statement on his or her behalf
3. The HCIRB may ask questions of either the person presenting the charge(s) or the charged student.
4. After all witnesses have been heard, the HCIRB may ask for additional information.
5. The person presenting the charge(s) will give a closing statement.
6. The charged student will give a closing statement.
7. All persons, except HCIRB, will be excused from the room.
8. Then the HCIRB will open discussion of sanction(s).

9. A determination as to the appropriate sanction(s) will be made. All sanctions except suspension and expulsion may be passed by a simple majority of the HCIRB voting members present. Suspension and expulsion decisions must be passed with a supermajority vote of 75% of the voting members present.
10. The person presenting charge(s), charged student, and advisor will be asked to return to the room. The HCIRB Chair will read the findings.
11. After the sanction is read, the information in the catalog detailing the appeal process is noted (if appropriate). Sanctions go into effect immediately.
12. Everyone is dismissed.

Student Appeal from an HCIRB Decision

An appeal is defined as a request for review of the original case determination by the HCIRB. A student is entitled to appeal a decision rendered by the HCIRB in cases where the HCIRB is not the appellate body. In cases where HCIRB is acting as an appellate body (i.e. when the HCIRB is acting as appellate body after a faculty member has sanctioned a student by means of a course-related penalty) there is no further appeal from the HCIRB decision. During the appeal process, sanctions are in effect until such time as they might be reversed, modified, or upheld.

Appeals must be clearly and concisely written and must state clearly what the student is appealing and why.

1. A decision must be appealed by the student within three business days of the meeting. Failure to pick up mail will not be grounds for an extension of the deadline for appeal. Such appeals shall be in writing.
2. Appeal letters should be written to the Provost.
3. Except as required to explain the basis of new evidence, an appeal shall be limited to review of the record of the initial meeting and for either of the following purposes:
 - a. The student provides evidence that was not available at the original meeting and can defend why said evidence was not made available in a timely manner.
 - b. There were procedural irregularities in the original meeting.
4. A disagreement with the sanction issued is not, in itself, sufficient reason for appeal.
5. The Provost may undertake a review of the HCIRB's decision or may appoint a committee to review the case and make a recommendation, following which the Provost may modify, uphold, or reverse the decision. There is no further avenue of appeal.

Exception: The Provost may require a student whose case is under appeal, or pending meeting, to leave the campus in the interim should the student's presence on campus create a situation which, in the opinion of the appropriate Dean, could be detrimental to the student involved or to the College community.

III.D. Sanctions

Depending upon the severity of the offense, the strength of the evidence, the ability of the offender to continue working within the Honor Code, prior violations of the Honor Code by the offender, and/or any extenuating circumstances, the HCIRB may recommend a course-related sanction (grade reduction, failure), on-campus probation and/or required counseling, suspension with the possibility but not the guarantee of readmission, or expulsion. Expulsion is the permanent removal of the student from FSC. Other sanctions may be considered and imposed as well.

III.E. Appeal

In cases where the HCIRB serves as an appellate board, its findings and decisions are binding and no further appeal is possible.

III.F. Records

All records of the HCIRB will be maintained in the Office of the Registrar, including the audio recording of the hearing.

PROGRAMS OF STUDY

Majors in the Liberal Arts, Sciences, and Professional Degree Programs

Consistent with Florida Southern's essential mission as a comprehensive college and its commitment to a liberal education, its academic program is designed to provide opportunities for students to major in the liberal arts and sciences as well as in professional academic programs.

Regardless of major, a Florida Southern education is grounded in a general education curriculum that helps students acquire the knowledge, skills, and confidence necessary for success. The goals of liberal learning are also integrated into coursework across the curriculum. One advantage of this is to facilitate changes in vocation which often occur after graduation or even after a number of years in a profession. In many of the professional programs, field experience is an integral part. Coursework is also designed to enable students to proceed directly to graduate work upon completion of the bachelor's degree.

Majors vary in the number of semester hours required; however, at least fifty percent of the major requirements must have been completed at Florida Southern College.

Self-Designed Majors

To serve the expectations and needs of academically qualified students, Florida Southern College has implemented "Venture into the Adventure" – a major designed by the student to meet his or her particular needs. This major is for academically qualified students; therefore, the student must hold sophomore standing, have taken some courses in the areas of interest, and have maintained a minimum cumulative GPA of at least 3.0. The student will generate the idea for the major after discussion with faculty members in the relevant areas of interest. The student will then invite faculty members to serve as an advisory committee to assist in framing the degree proposal and advising the student towards degree completion.

The proposed self-designed major will build upon the existing strengths of the Florida Southern College faculty and programs. Each self-designed major must be built upon the requisite number of lower- and upper-division courses.

A successful proposal will contain the following items:

- Goals for the degree
- Required courses (30 semester hours minimum)
- Student learning outcomes and assessments
- A significant focus on interdisciplinary inquiry and critical thinking
- A senior research (or comparable creative) component to serve as a capstone experience

For more information about the Self-Designed Major, see p. 149.

Interdisciplinary Degree Programs

Florida Southern College offers several interdisciplinary degree programs.

The major in Music with a Concentration in Music Management is designed to meet the needs for music management among college graduates knowledgeable and proficient in both music and business. It is a combination of music and business courses carefully selected to prepare the graduate for successful achievement in the many-faceted music management field. In addition to the required courses, an internship program is provided for practical in-field application.

The major in Recreational Turfgrass Management combines a solid foundation in the natural sciences and horticulture along with courses in accounting, business administration, economics, sport management, and planning and maintaining facilities for students seeking employment in a wide variety of recreational venues including country clubs and golf resorts.

Other interdisciplinary degree programs include Computer Science/Mathematics, Environmental Studies, Humanities, Political Communication, and Social Sciences.

Minors

Minors are offered in a variety of disciplines in which majors are offered as well as Advertising Design, Integrated Marketing, Latin American Studies, Military Science and Leadership, Physics, Pre-Law, and Women's Studies.

Students are required to complete fifty percent of the minor requirements at Florida Southern College.

Students at Florida Southern College may elect a minor as specified in this Catalog.

Minors typically require at least eighteen semester hours (and no more than 24 hours) of coursework that count toward the major, successfully completed with a 2.0 grade point average. Specific information about particular minors is included in the introductory section of each discipline found later in this Catalog. In many cases, the particular courses for a minor are specified by the program.

Interdisciplinary Minors

In addition to interdisciplinary majors, interdisciplinary academic programs are available that take the form of minors, concentrations within majors, and career paths in the major that may be planned with a student's faculty advisor. These interdisciplinary programs draw on faculty across academic disciplines, integrating diverse perspectives to broaden the scope for studying critical issues in a rapidly changing world. The interdisciplinary approach emphasizes independent and critical thinking, which will enrich the liberal arts experience and provide excellent preparation for graduate education in a number of fields. The programs complement most academic majors and provide the opportunity to expand and enhance career opportunities.

Advertising Design – The minor in Advertising Design provides students with design practices and creative strategies needed to excel within the field of advertising design. Hands-on coursework will present students with challenges faced in the industry and the skills and knowledge necessary to face those challenges.

Integrated Marketing Communication – The minor in Integrated Marketing Communication blends coursework in marketing, advertising and public relations to better prepare students for careers in the professional communication industry. Students will gain hands-on experience in gathering & applying research to strategically coordinate messages and establish relationships with target audiences.

Latin American Studies – The United States finds itself increasingly involved in Latin American culture, as a trading partner with nineteen Spanish speaking countries in the world and in recognition that the largest minority population in this nation is Hispanic. The Latin American Studies minor offers a student the opportunity to blend language studies with studies in culture, film, and history along with multi-disciplinary courses in Latin American studies. Contact Dr. José Garcia for further information.

Pre-Law – The pre-law minor covers the basic foundation courses relevant to problem solving and analysis generally associated with the legal profession. Students on a trajectory for graduate study in law, legal issues, public administration and management will find this a useful minor. It is inclusive of courses that prepare the student for LSAT testing (Logic; Accounting) as well as socialization to the profession itself.

Women and Gender Studies – The Women and Gender Studies minor provides an interdisciplinary framework for exploring the role of women throughout history and the ways in which gender influences cultural, social, political, and economic relations. Students will gain skills in analytical and critical thinking through the study of gender from diverse academic perspectives, such as literature, religion, economics, communication, sociology, psychology, and criminology. Faculty members from a number of academic departments support and teach in the Women and Gender Studies program. A minor in Women and Gender Studies will complement almost any major field of study. Students who complete the minor will enhance their problem-solving, leadership, and communication skills.

Pre-professional Programs

Within the traditional liberal arts and sciences majors and the pre-professional programs described below, student academic programs may be tailored to meet the varying requirements of graduate and professional schools. These pre-professional programs include the following:

Pre-Medical, Pre-Dental, Pre-Veterinary, and Pre-Pharmacy Studies – The student who plans to study medicine, dentistry, veterinary medicine, or pharmaceutical science should plan a program to prepare for the broader responsibilities expected of the physician, dentist, veterinarian, or pharmacist closely related to, although separate from, his or her professional competence. Professional schools provide adequately for this training, but they do not offer the broad and essential liberal arts and sciences education.

Pre-professional students may often major in any program; however, there are certain courses required for admission to medical, dental, veterinary, and pharmacy schools. The majority require the following in natural sciences: sixteen semester hours of chemistry, including organic chemistry; eight semester hours of physics, and eight semester hours of biology. Florida Southern College advises pre-medical, pre-dental, pre-veterinary students to meet more than this suggested minimum, but to avoid overemphasis in the natural sciences. Recommended programs include two to three years of chemistry, two years of biology, one year of physics, and one to two years of psychology.

Regardless of choice of major, all students pursuing professional school are encouraged to enter into the Pre-Professional Program. The aim of the Pre-Professional Program is to assess the abilities of students planning careers in the health professions and to assist them with academic and career goals. In this respect, “Pre-Professional” refers to most medically related fields, including pre-medical studies, pre-dental studies, pre-veterinary studies, pre-physical therapy studies, pre-physician assistant studies and related disciplines. In general, it does not apply to nursing or athletic training career paths. This program also does not apply to pre-law or pre-engineering studies and other paths that lie outside of the natural sciences and the health professions. Students planning on pursuing professional school in health related careers should declare their intent to their advisors in their first year at FSC, so the advisor can help them navigate the appropriate coursework necessary for success. Students are encouraged to apply for the Pre-Professional Program at the conclusion of their third semester (or equivalent) at FSC, or, for transfer students with three or more semesters at other institutions, at the conclusion of their first semester at FSC.

A student interested in the Pre-Professional Program should consult Dr. Nancy Morvillo, Chair of the Pre-Professional Committee, for further information.

The Florida Southern College Honors Program – University of South Florida College of Medicine Medical Education Program – Qualified students in the Honors Program may take part in the FSC Honors Program – USF College of Medicine Medical Education Program. If program qualifications are met, students are guaranteed admission to the University of South Florida College of Medicine. The student attends FSC for three years and receives a B.S. in Biology after the successful completion of the first year of medical school. Contact Dr. Nancy Morvillo, Chair of the Pre-Professional Committee, or Dr. Erica Bernheim, Director of the Honors Program for more information and program requirements.

Pre-Physical Therapy Studies – Pre-Physical Therapy is a four-year program under the guidance of the Biology program, that includes over 200 hours of supervised internships in physical therapy. The program is geared for entering freshman only and is limited to 30 students. Students accepted for the program must have a 3.5 GPA by the end of their third semester at Florida Southern to be eligible for internship opportunities.

Due to the competitive nature of this program, all applications must be received by February 1 with final decisions made no later than March 1. Contact Dr. Nancy Morvillo, Chair of the Department of Biology, for more information.

Pre-Law and Legal Studies – The pre-law pre-professional program at Florida Southern is a three-part preparatory program aimed for student success in legal studies. The three main components are 1) a formal pre-law minor, which includes study in a familiarity with the US judicial system, accounting, logic, the written word, and oral presentation; 2) a fully-realized internship program, where students intern with local law firms, the Public Defender’s office, the

State's Attorney's (prosecutor's) office; initially for a single credit hour, and, as your particular interest becomes more focused, a guided 4-hour summer internship; 3) LSAT preparation, including practice tests from first year onward, and a formal LSAT exam preparation course during junior or senior year. Mentorship by local practitioners has become an integral part of the program, as well as a first year "living/learning community" based on legal studies and political science. All majors are welcome in the pre-law program.

Pre-Theological Studies – A minister needs a broad liberal arts and sciences education. While there is no specific program for pre-theological study, the Association of Theological Schools recommends courses in the following subjects be included: English literature, European history, political science, economics, psychology, religion, and the history of philosophy. Members of the Religion faculty can provide additional information about graduate study in theology.

Pre-Engineering Studies – The pre-engineering curriculum is less flexible than other pre-professional areas of study and requires courses in mathematics, chemistry, and physics. Students planning to pursue pre-engineering should consult their engineering school of choice for specific prerequisites and requirements for entry. Students interested in pre-engineering should consult Dr. Jason Montgomery, Pre-engineering Coordinator.

Junior Journey

All day program undergraduate students who entered Florida Southern in the fall of 2010 or later are guaranteed a travel experience after the completion of their fourth full semester at Florida Southern. Students must remain in good academic and social standing. Trips will be offered during May Term, Summer Term, and/or other periods such as fall break or spring break.

Each Junior Journey destination has course-related requirements to satisfy a one credit hour, pass/fail course. For more details on trips and eligibility contact the Office of Student Travel.

May Term

May Term is an opportunity to take an innovative, engaging, and exciting course immediately after the spring semester ends. This format will allow for creative exploration of course material that is not always possible during the traditional semester. Some May Term courses are approved to satisfy General Education requirements.

Guaranteed Internship Experience

Florida Southern guarantees an internship experience to all Day Program students in good academic, social, and professional standing who enroll at Florida Southern starting in fall 2010. Students should consult with their faculty advisor and are encouraged to visit the Career Center to plan their internship experience prior to graduation.

Washington Semester

Florida Southern College participates in the Washington Semester of the American University in Washington, D.C. Junior students, selected on the basis of character and high academic achievement, may spend a semester in Washington studying government and international relations.

Approximately fifteen hours of credit may be earned toward a Florida Southern College degree. Credit earned in the Washington Semester is recorded as transfer credit. Students interested in applying for the Washington Seminar should contact Dr. R. Bruce Anderson.

Study Abroad

Florida Southern has a long-standing relationship with Harlaxton College and Regent's College in England. Because Florida Southern College is committed to transforming lives through global education, we offer study abroad travel opportunities during fall, spring, and summer terms. Since 1999, Florida Southern has sent students to the Estudio Sampere Spanish language institute, where students have lived with Spanish families as they studied in Madrid, Alicante, and Salamanca. The Art History program sponsors trips each summer to cultural sites around the world.

Florida Southern students can also take advantage of study abroad programs taken directly through universities in Europe, Asia, Australia, South America, and Central America. Some curricula abroad require fluency in the language of the host country. Other programs offer intensive intermediate or advanced study in the language as the initial phase of the program. Florida Southern students have studied French in Nice and Angers, Spanish in Spain, Mexico, and Costa Rica, a host of subjects in England, marine biology in the Bahamas and Belize, and art, business, and literature throughout Europe and the Far East. Contact the Student Travel Office for further information.

In all cases, students must be in good academic and social standing in order to participate in Study Abroad programs. At both the time of application and departure, the student must have a 2.0 GPA. Course equivalencies must have been approved in advance to assure the appropriate transfer credit.

Honors Program

The mission of the Florida Southern College Honors Program is to offer academically talented and highly motivated students challenging opportunities to explore special topics through carefully constructed courses, enrichment workshops, internships, service learning projects, and study abroad programs. The Honors Program fosters an active and engaged learning environment within a community of scholars.

Honors Curriculum

The Honors Program at Florida Southern College is composed of scholars who thrive on challenge. Over the past decade, nearly two hundred Florida Southern Honors students have entered the great conversation of scholarship that takes place not only between professors and students, but among the students themselves, as they seek out people who challenge their minds, who force them to defend their opinions, and who inspire them to exceed their own expectations.

Honor Code and Academic Expectations

To remain in the Honors Program, Honors students, as academic leaders on the campus, must maintain the highest standards of academic integrity and quality. As is expected of all Florida Southern College students, Honors students will avoid committing any acts of academic dishonesty such as cheating or plagiarizing. Should a student in the Honors Program be found guilty of Honor Code violations, the student will be permanently suspended from the Honors Program and liable for other sanctions. Also, Honors students must achieve a cumulative grade point average of 3.5 by graduation so that they graduate cum laude or higher. Contact the Honors Program Director for further information.

Army Reserve Officers Training Corps (ROTC)

The objective of the Army ROTC is to produce officers possessing leadership qualities and attributes essential to their progressive development in the active Army, Army Reserve or Army National Guard. It provides instruction in basic officer competencies; teaches basic life skills pertaining to fitness and interpersonal communication; introduces Army values and expected ethical behavior; presents the unique duties and responsibilities of officers and the expectation of selfless service; and teaches the basic soldier skills required for squad level tactical operation.

The ROTC curriculum is separated into two phases: the Basic Course and the Advanced Course. The Basic Course encompasses the freshman and sophomore years and incurs no service obligation unless on ROTC scholarship. Upon completion of the Basic Course the ROTC student who elects, and is selected, enters the Advanced Course, which comprises the junior and senior years. During these two years cadets continue to develop the leadership knowledge and skills required to be a commissioned officer. All classes are supplemented by a two-hour Leadership Lab each week, during fall and spring semesters.

The ROTC department at Florida Southern College offers great opportunities for adventure. In addition to indoor rock climbing, paint ball and firing an M-16 rifle, cadets can find themselves

jumping out of airplanes, rappelling out of helicopters or even training with cadets from the United Kingdom. Each year cadets are sent to Airborne School, Air Assault School, the Leader's Training Course (LTC), the Leadership Development Assessment Course (LDAC), and Cadet Troop Leadership Training (CTLT).

Entrance into the Advanced Course is not open to all students completing the Basic Course, but only to those whose ROTC and academic records are such to warrant the belief they will become commissioned officers in the U.S. Army. Students with prior military service and with at least 60 semester hours may enroll in the Advanced Course if physically and academically qualified. Advanced Course students are required to sign a contract with the U.S. government whereby the student agrees, in return for subsistence payment, to complete the entire Advanced Course and to accept a commission as an officer in the U.S. Army, Army National Guard or Army Reserve.

Florida Southern College awards a military science minor for completion of all ROTC classes. Financial aid is available through the ROTC department. Qualified students may receive a monthly financial stipend ranging from \$300 to \$500 a month. Interested individuals may also apply for ROTC scholarships. These scholarships provide the financial assistance above, as well as full tuition and full room and board. Students attending the Leader's Training Course (LTC) and the Leadership Development Assessment Course (LDAC) also receive payment for their attendance.

ROTC Spring Commissioning Ceremony, 2014

UNDERGRADUATE DEGREE REQUIREMENTS

Undergraduate Degree Requirements

Florida Southern College offers courses in the Day Program leading to the Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music, Bachelor of Music Education, Bachelor of Science, and Bachelor of Science in Nursing degrees. The specific nature of the academic major program pursued by the student determines which degree is to be awarded. However, candidates for each of these degrees fulfill the following academic requirements and standards:

- A. A minimum of one hundred twenty-four (124) semester credit hours from Florida Southern College and other regionally accredited colleges or universities. A maximum of one-half the required semester credit hours (62) may have been earned at a junior/community college. After completing 93 hours, a student must finish the remaining credits at Florida Southern College. Some degree programs require more than 124 semester hours. For details see requirements listed under specific majors.
- B. Completion of Florida Southern College's General Education Curriculum.
- C. Grade point average of 2.0 ("C") in all academic work attempted at Florida Southern College.
- D. Grade point average of 2.0 in all coursework in the major and minor department. Some majors require a higher GPA than 2.0 in the major. Please consult the appropriate major to determine applicability of this requirement.
- E. An academic major in a program, division, or school of the College.
- F. Fifty percent of the designated major or minor requirements (if the student has chosen a minor) must be completed in Florida Southern College courses.

The General Education Curriculum

Florida Southern College's General Education Curriculum is designed to help students master and integrate the critical knowledge areas, skills, attitudes, and habits of mind that are necessary for success in life. As such, the General Education Curriculum forms the core of the College's entire transformational approach to education, which is grounded in the philosophy of engaged learning.

Courses in each category of the General Education Curriculum provide students the opportunity for meaningful achievement of key learning outcomes in three broad areas— (i) knowledge of the cultural and natural world, (ii) intellectual and practical skills, and (iii) personal and social responsibility. Each broad learning outcome category includes one or more specialized sub-areas. Students may choose from a variety of courses to achieve the outcomes in each area.

Every student at Florida Southern College is expected to complete the General Education Curriculum requirements below, totaling 40 semester hours of academic credit, with passing grades. Up to 12 of the 40 hours of General Education courses may be completed in the student's own major. Students pursuing more than one major may count up to 16 hours from their majors towards General Education requirements with no more than 12 hours coming from either major.

Note on using a course to satisfy multiple requirements (also known as "double-dipping"): The General Education Curriculum allows students to satisfy more than one curricular requirement with a single course if that course has been approved to satisfy the requirements. Such "double-dipping" (and even triple- or quadruple-dipping) is permissible unless there are regulations preventing it in the specific case. Thus, a course may count towards the satisfaction of a both General Education and major (or minor) requirements. A course may also count towards the satisfaction of two or more General Education student learning outcomes (SLOs). However, there are limits to this practice: *a given course may never be used to satisfy both General*

Education requirements and specific requirements pertaining to the Bachelor degrees granted by FSC: Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music, Bachelor of Music Education, Bachelor of Science, or Bachelor of Science in Nursing.

Note on the application of three credit-hour courses to General Education requirements: Three-credit-hour courses deemed equivalent to four-hour General Education courses may be approved for transfer from other institutions. Day students enrolled at Florida Southern may also use three-hour courses equivalent to current four-hour General Education courses, if taken prior to 2010-11, to satisfy the relevant four-hour General Education SLO. Evening Degree Program students enrolled at Florida Southern may likewise use three-hour courses equivalent to current four-hour General Education courses, if taken prior to 2011-12, to satisfy the relevant four-hour General Education SLO. In such cases, for every three-hour course applied towards a General Education SLO, one hour of the requirement is reduced.

The following pages list and define the SLO categories comprising the General Education Curriculum. The explanation of the SLO categories is followed by the list of courses that may be taken to fulfill the categories. Individual courses that may be used to satisfy General Education SLO categories are also identified in the Catalog’s section containing undergraduate course descriptions.

General Education Curriculum 40 hours

I. Knowledge of Human Cultures and the Physical/Natural World

A. Meaning and Value 8 hours

Distribution: Only four (4) hours may be in the student’s own major. Students are encouraged to fulfill the Meaning and Value category through coursework in different disciplines when appropriate.

Student Learning Outcomes: To empower students to develop an understanding of academically significant historical and contemporary systems of thought and value and to promote students’ own academically informed responses to these systems.

To fulfill the Meaning and Value requirement, students will need to explore and grapple intellectually with fundamental and enduring questions of human concern. Courses enabling students to satisfy the Meaning and Value outcome will develop student competencies in the following areas:

1. Ultimate questions: Students will demonstrate understanding of and ability to articulate questions about ultimate purposes in human life, that is, purposes that are not themselves taken to be merely instrumental.
2. Levels of inquiry: Students will demonstrate understanding of and ability to articulate explorations of ultimate questions on three levels: the universal, the communal, and the personal.
3. System diversity: Students will demonstrate appreciation and understanding of diverse systems of thought and/or value (e.g., religious, philosophical, ethical, political, aesthetic, literary), as well as the ability to articulate and interpret those systems. Such systems may be historical or contemporary.
4. Analysis and evaluation: Students will critically analyze, evaluate, and formulate academically informed responses to systems of thought and/or value.

B. The Social World 8 hours

Distribution: Courses must be drawn from at least two (2) different disciplines (prefixes) of which one (1) may be the student’s major field of study. At least one course must have a global orientation.

Student Learning Outcomes: To have students develop an appreciation for and ability to

articulate and interpret diverse, changing systems of human activity.

To fulfill The Social World requirement, students will need to demonstrate the following competencies:

- (a) Awareness and (b) either Analysis or Application (i.e., one course from (a) and one from (b)).
1. Awareness of the social world: Competency in Awareness requires students to demonstrate general knowledge of the social, political, economic, personal, or cultural systems or historical development of their world.
 2. Analysis of the social world: Competency in Analysis requires students to demonstrate the ability to use discipline-specific empirical methodologies, quantitative or qualitative or both, to interpret information and articulate knowledge about the social, political, economic, personal, or cultural systems or historical development of their world.
 3. Application of knowledge about the social world: Competency in Application requires students to demonstrate mastery of discipline-specific, empirical methodologies, quantitative or qualitative or both, to investigate specific issues about the social, political, economic, personal, or cultural systems or historical development of their world.

C. The Natural World..... 4 hours

Laboratory requirement: Any course satisfying the Natural World requirement must include a laboratory component.

Distribution: Students are encouraged to fulfill the Natural World requirement through interdisciplinary coursework when appropriate.

Student Learning Outcomes: To empower students to develop an understanding of the scientific investigation of the natural world.

For students whose major does not require a strong natural science component (see below), the course must emphasize the following:

1. Philosophical understanding: To fulfill this outcome, students will demonstrate knowledge of the natural world by investigating how scientific inquiry is different from other types of investigation, focusing on the philosophy of science and notions of skepticism.
2. Scientific methodology: To fulfill this outcome, students will demonstrate knowledge of the natural world by utilizing scientific methodology, including experimental design and data interpretation and analysis (including quantitative components).
3. Investigation: To fulfill this outcome, students will demonstrate knowledge of the natural world by demonstrating proficiency in the basic skills necessary for lab or field work and using the tools of scientific inquiry to investigate real world problems.
4. Evolving systems: To fulfill this outcome, students will demonstrate knowledge of the natural world by applying the tenets of evolution as they pertain to the scientific discipline being studied (e.g., cosmological or biological evolution, evolutionary psychology, etc.).
5. Evaluation: To fulfill this outcome, students will demonstrate knowledge of the natural world by critically evaluating evidence pertaining to current scientific findings.
6. Practical relevance: To fulfill this outcome, students will demonstrate knowledge of the natural world by articulating how scientific discoveries and processes enhance everyday life.

It is expected that students whose majors require a significant number (16 or more) hours in the natural sciences will fulfill all these learning outcomes through their requirements. Therefore, no one course will need to fulfill all the above learning outcomes.

D. Fine Arts Appreciation 4 hours

Student Learning Outcomes: To empower students to develop appreciation for and ability to coStudent Learning Outcomes: To empower students to develop appreciation for and ability to communicate about and interpret diverse expressions of artistic creativity.

To fulfill the Fine Arts Appreciation requirement, students must meet at least one of the two outcomes below:

1. Interpretation: To fulfill this outcome, students will demonstrate through writing or verbal discussion their understanding of creative works of art, literature, theatre, and/or music.
2. Expression: To fulfill this outcome, students will demonstrate through the completion of a sequence of their own creative productions and through the discussion of these productions their understanding of creative works of art, literature, theatre, and/or music.

II. Intellectual and Practical Skills

A. Systematic and Creative Thinking8 hours

Student Learning Outcomes: To empower students to develop and refine their abilities to reason systematically and creatively.

To fulfill the Systematic and Creative Thinking component of Florida Southern College's general education requirement, students must take at least two courses, one course with a qualitative emphasis and one course with a quantitative emphasis, that promote competencies in the areas of critical and creative thinking. These courses will enable the student to recognize the distinction between qualitative and quantitative methods, understand their strengths and limitations, and apply each method in the appropriate context.

▪ Qualitative Course 4 hours

A qualitative course in Systematic and Creative Thinking requires students to develop key critical and creative thinking skills by teaching basic awareness and application of these skills. The course also empowers students to develop their own creative projects. The course promotes competencies in these two areas:

1. Critical thinking: To fulfill this outcome, students will demonstrate the capacity to reason logically (e.g., deductively, inductively, analogically, and abductively) about qualitative data, using appropriate qualitative methods, and to apply reasoning to solve concrete problems.
2. Creative thinking: To fulfill this outcome, students will demonstrate the capacity to develop original creative projects related to their application of critical reasoning.

▪ Quantitative Course 4 hours

A quantitative course in Systematic and Creative Thinking requires students to refine the development of key critical, quantitative, and creative thinking skills. Quantitative reasoning should include the use of quantitative modeling, calculation, and data analysis to solve applied problems in a variety of disciplines. The quantitative course must address competencies in the areas below:

1. Students will be able to interpret quantitative information presented in formulas, graphs, tables, and schematics, and draw inferences from them.
2. Students will be able to express quantitative information symbolically, visually, numerically, and verbally.
3. Students will be able to use quantitative tools to solve problems, estimate solutions, and check answers for reasonableness.
4. Students will be able to recognize and describe limitations of quantitative methods.

B. Effective Communication 12 hours

Distribution: At least one course from each category (A, B, C), no more than two courses within the major. One course is to be taken within the first year of a student's FSC career.

Student Learning Outcomes: To empower students to communicate effectively in English in both oral and written form.

Placement: Before fulfilling Effective Communication requirements, students must successfully complete a college-recognized placement process or complete an introductory English course (Introduction to College English (ENG 1000)).

▪ **Category A: Effective Written Communication Skills Development 4 hours**

A course fulfilling Category A will require a minimum of 3,000 written words in assignments with specific feedback. The course will provide students the opportunity to achieve the following competencies:

1. Students will identify and apply multiple approaches to the study of language, usage, grammar, diction, and style of standard written English.
2. Students will demonstrate knowledge of grammar and punctuation including: pronoun case and pronoun antecedent; verbs (forms, tenses, moods, voice, subject-verb agreement); adjectives and adverbs; avoiding common sentence flaws (sentence fragments, comma splices, fused sentences, shifts and dangling modifiers); diction and word choice.
3. Students will demonstrate mastery of elements of good writing, including paragraphing, composing essays, prewriting, outlining, drafting, revising, editing and proofreading, and the ability to organize ideas around a thesis or focal point using current relevant technologies.

▪ **Category B: Effective Oral Communication Skills Development 4 hours**

A course fulfilling Category B will require a minimum of two presentations, for a combined total of no less than 15 minutes. The course will provide students the opportunity to achieve the following competencies:

1. Students will demonstrate the ability to organize ideas around a thesis statement through a prepared speech.
2. Students will be able to identify a minimum of three types of organizational patterns for speeches, and properly utilize one (for example: chronological/historical; sequential; problem, cause, solution).
3. Students will demonstrate the ability to develop a polished speech presentation through the process of research, outlining, revision, and delivery, using relevant presentation technologies.
4. Students will be able to define the difference between informative and persuasive speaking and demonstrate the ability to construct a persuasive message with an audience-centered call to action.

▪ **Category C: Effective Written and Oral Communication Skills Application 4 hours**

Prerequisite: Students must complete courses to meet the requirements for Category A and Category B before taking a course in Category C.

A course fulfilling Category C will require a minimum of 3,000 written words in assignments with specific feedback and at least one presentation totaling no less than 7 minutes. The course will provide students the opportunity to achieve the following competencies:

1. Students will demonstrate the ability to organize ideas around a thesis or focal point and incorporate relevant content and evidence in written work and/or oral presentations using current relevant technologies.
2. Students will demonstrate mastery of elements of good writing, knowledge of field-specific vocabulary, and the ability to use major specific documentation in text (MLA, APA, Chicago, etc.) and/or properly cite materials in oral presentations.
3. Students will evaluate successful field-specific works (for example, peer reviewed academic journal articles) or successful field-specific oral presentations (for example, conference presentations, testimony, speeches, and sermons).
4. Students will demonstrate the ability to construct an informative presentation or persuasive argument (oral or written) based on real quantitative and/or qualitative data, and create and receive peer evaluation of oral presentations.

III. Personal and Social Responsibility

Personal Wellness 2 hours

Student Learning Outcomes: Courses satisfying the Personal Wellness category will empower students to meet at least three of the four outcomes below:

1. Lifestyle programs: To fulfill this outcome, students will participate in healthy lifestyle programs that incorporate mind, body, or spirit in order to enhance quality of life.
2. Risk factor control: To fulfill this outcome, students will demonstrate how to control various risk factors, thereby showing an understanding of how to promote healthy lifestyle behaviors.
3. Nutrition: To fulfill this outcome, students will demonstrate knowledge and practice of proper nutritional habits.
4. Reflection: To fulfill this outcome, students will demonstrate ability to reflect on how physical, psychological, social and/or spiritual well-being contributes to overall health.

General Education Courses

The courses in the table below have been approved to count towards completion of General Education Student Learning Outcome (SLO) categories. SLO categories are abbreviated as follows:

MV = Meaning and Value

Social World = Social World

- **Glb** = Global orientation
- **Aw** = Awareness of the Social World
- **An** = Analysis of the Social World
- **Ap** = Application of knowledge about the Social World

NW = Natural World

Fine Arts = Fine Arts

- **In** = Interpretation
- **Ex** = Expression

SystTh = Systematic and Creative Thinking

- **Ql** = Qualitative course
- **Qn** = Quantitative course

Eff. Comm. = Effective Communication

- **A** = Effective Written Communication course
- **B** = Effective Oral Communication course
- **C** = Effective Written and Oral Communication course

Well = Personal Wellness

Courses are listed by prefix, four-digit course number, and number of semester credit hours, with a check indicating each SLO category for which they have been approved. A course appearing under more than one category may be used to satisfy each SLO category under which it appears.

Additional Degree Requirements: B.A. and B.S. Degrees

Candidates for the Bachelor of Arts and Bachelor of Science degrees must fulfill additional degree requirements listed below.

A note on using a course to satisfy multiple requirements (also known as “double-dipping”): If a course required for a student’s major (or minor) field of study also satisfies Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) degree requirements, the student may use the course to fulfill both sets of requirements. Such “double-dipping” is permissible unless there are regulations preventing it in the specific case. **However, double-dipping is not permitted between Bachelor degree requirements and General Education requirements: A given course may never be used to satisfy both General Education and Bachelor of Arts degree requirements. Likewise, a given course may never be used to satisfy both General Education and Bachelor of Science degree requirements.**

Bachelor of Arts Degree Requirements..... 20 hours

1. Foreign Language (12 hours of a single language, or competency through 2203 in a modern or classical language*)
2. Additional hours in two different disciplines in the humanities, fine arts, performing arts, or other courses approved in the area of humanities by the Curriculum Committee (8 hours)

*Competency in the language requirement for the Bachelor of Arts degree is understood to be equivalent to successful completion of the second year of a foreign language accepted by Florida Southern College (proficiency at the 2203 level). For further information about meeting the requirement, contact the Dean of Arts and Sciences.

Bachelor of Science Degree Requirements 12 hours

1. Computer Science, Mathematics, or other course approved as quantitative by the General Education or Curriculum Committee (4 hours)
2. Natural Science (4 hours)
3. Social Science: One course selected from CRM, ECO, GEO, HIS, POS, PSY, or SOC or other course approved as social science by the Curriculum Committee (4 hours)

Major Requirements

An academic major is an integral part of the degree program. While declaration of a major is essential in the first year of some programs (athletic training, biology (pre-med), chemistry, education, music, and theatre, for example), for other major programs, declaration may be deferred until the end of the sophomore year.

Course requirements for each academic major are found in the undergraduate program requirements section of this Catalog. Majors vary in the number of semester hours required; however, fifty percent of the major courses must have been completed at Florida Southern College.

In order to complete the 124 semester hours required for graduation, students must complete all major requirements, all General Education requirements, any applicable Bachelor degree requirements, and possibly electives. Additionally, they may pursue coursework leading to a second major, a second concentration, and minors.

Programs Requiring more than 124 Semester Hours

Some programs of study require more than 124 semester hours for completion. Students in these programs may be obligated to spend additional semesters or summer sessions in residence in order to complete program requirements. Additionally, students who elect to pursue additional majors or minors will in many cases have committed to earning above 124 hours and, therefore, may also be obligated to spend additional semesters or summer sessions in residence.

The College may not be able to make available the opportunity for any student to take course work in all desired options within the student's eight semesters of college work. It will, however, make accommodations enabling students to achieve a reasonable range of educational objectives within eight semesters.

Minors

Minors are offered in a variety of disciplines in which majors are offered, as well as some in which no major is currently available. The availability of minors and requirements for completing them are found in the introductory paragraphs of each of the department-division course offerings in this Catalog.

Unless otherwise noted, a minor is fulfilled by passing eighteen hours applicable to the major (selected in consultation with the program coordinator) in a single subject area. Some minors require twenty hours. As with the major, some programs may specify the courses required for a minor. For minors without a corresponding major, the minor will typically require eighteen to twenty hours of courses in one or more specified disciplines.

Students are required to complete at least fifty percent of the minor course requirements at Florida Southern College and to maintain a grade point average in the minor of 2.0.

Prerequisites and Corequisites

Prerequisites and corequisites are indicated immediately before the description of the course in the course listing at the back of this Catalog. The hours printed after each course title are semester credit hours. Prerequisites and corequisites are binding.

Course Numbers

Courses in the Florida Southern College's curriculum are identified by program prefix and four-digit number. The following guidelines apply across the curriculum:

- **First digit:** The first digit of the course number designates the course level. Digits 1-4 may be used (as in the current FSC course numbering system): 1 = first-year level; 2 = sophomore level; 3 = junior level; 4 = senior level. (Digits "5" and "6" are reserved for Masters-level courses and "7" is reserved for doctoral-level courses.)

- **Second digit:** The second digit of the course number designates the subdiscipline as well as whether the course is intended for student majors or non-majors: 0 = Course for non-majors; digits 1-8 may be used for subdisciplines. (Digit "9" is reserved for special courses described below.)

- **Third and fourth digits:** The third and fourth digits are to be used to designate course sequences. Prerequisites: Sequences in which one course is a prerequisite for the next course typically end in "1" and "2". (Exceptions to this policy occur in the case of some special courses described below.)

Writing across the Curriculum

All non-computational 1000- and 2000-level courses of three or more hours of academic credit require a writing component of at least 1500 words. English 1005 and 2000-level courses require a writing component of at least 6,000 words. These requirements are equivalent to the Gordon Rule writing guidelines applying to public higher education institutions in the State of Florida.

Special Courses

In addition to the range of courses in each of the program offerings, teaching and learning opportunities may be arranged as follows:

- **Experimental Courses/Special Topics Courses – 1997-1998, 2997-2998, 3997-3998, 4997-4998**

From time to time programs may establish experimental, trial courses to meet the needs of certain groups of students, to test educational hypotheses about course offerings, or to create new course offerings in response to faculty interests within a creative curriculum. Establishment of these courses is contingent upon approval by the respective academic dean, and such courses may be offered a maximum of three times.

- **Departmental research and thesis (other than required for Honors) – 1951-1952, 2951-2952, 3951-3952, 4951-4952**

See specific program course listings.

- **Honors-in-the-Major research and thesis – 3953-3954, 4953-4954**

See specific program course listings.

- **Honors Program research and thesis – 3955-3956, 4955-4956**

See Honors Program course listings.

- **Directed Study – 1991-1992, 2991-2992, 3991-3992, 4991-4992, or current course number**

Students with excellent grade point averages may, with the approval of the instructor and the appropriate dean, register for advanced topics not listed among the current courses of instruction, or with extenuating circumstances, courses available in this Catalog. Weekly conferences with the faculty director of the project, oral or written examinations, and a paper of some substantial length are among the normal requirements for directed study courses.

- **Independent Study (other than research or thesis work) – 1993-1994, 2993-2994, 3993-3994, 4993-4994**

Students with junior or senior standing and superior grade point averages may, with the approval of a faculty member, the department chair and/or dean, register for independent study. Such study normally consists of research usually culminating in the presentation of a substantial paper representing independent scholarly effort. Written examinations may be specified.

- **Internships – 4960-4961**

The College may schedule courses that are defined as internships or student teaching as in Education. All internships, except in Education, involve a “learning contract” which must be completed by the student, faculty sponsor, and participating agency supervisor prior to the beginning of the internship; one hour of credit will be awarded for every forty hours of internship experience. Specific requirements may apply to the location of the internship.

- **Senior Seminars/Capstone Courses – 4999**

See specific program course listings.

Course Cancellation

The College reserves the right to withdraw a course from its semester schedule when enrollment is fewer than eight students. The College also reserves the right to change, add, or remove courses from its list without notice.

Effective Date of Requirements

Degree requirements are based upon the Catalog in effect at the time the student enrolls for a degree or is given degree status. With continuous enrollment, any student may elect, however, to be graduated under all the degree requirements of a later Catalog. One may not be graduated under the academic provisions of a Catalog more than seven years old. The degree requirements of the current Catalog shall apply to all students who are readmitted to degree status.

Completion of Graduation Requirements

While the College makes every attempt to assist the student in the completion of graduation requirements through academic advising, graduation checks by the Registrar's Office, etc., it is ultimately the student's responsibility to ensure that all graduation requirements are met.

Application for Graduation

Degree candidates must complete formal written application for a degree. Applications from candidates anticipating graduation in the spring semester are due in the Office of the Registrar on or before December 15. Applications from candidates anticipating graduation in the fall semester are due on or before May 1. An interview with a representative of the Registrar's Office is required in the semester immediately preceding that in which graduation is claimed in order to assure that all degree requirements are met. This is known as degree clearance and is required for graduation. All candidates for degrees are requested to attend the appropriate commencement exercise.

UNDERGRADUATE ADULT PROGRAMS

Evening Program General Information

Florida Southern College offers:

- Opportunities for adult students to earn a Bachelor of Science degree during evening hours.
- Evening and workshop courses for teachers needing certification, recertification and endorsement.

The School of Adult and Graduate Education supports and facilitates the progress of evening students in the completion of their degree requirements.

Most Florida Southern College academic policies, including those concerning academic progress and standing apply equally to all Florida Southern programs. (Please consult the "Academic Policies" section in this Catalog for additional information.)

Courses are available on a schedule of six, seven-week terms per year, or three, 14-week terms per year. Entry into the program can be made in any term. Classes are usually offered on Monday/Wednesday and Tuesday/Thursday evenings from 6:30 - 9:30 p.m., and on Saturdays (9:00 a.m. – 5:00 p.m.).

The following Bachelors degrees are offered through the School of Adult and Graduate Education:

- Bachelor of Science in Accounting
- Bachelor of Science in Business Administration
- Bachelor of Science in Elementary Education K-6
- Bachelor of Science in Nursing (RN-to-BSN)
- Bachelor of Science in Organizational and Interpersonal Communication

Admissions

Admission to the Adult and Graduate Education Program students is generally limited to students who are employed full-time or are at least twenty-five years of age or older. In considering applications, the admissions offices give careful consideration to each individual applicant, without regard to race, creed, color, gender, marital status, religion, age, disability, sexual orientation or nationality. Applicants are considered for admission in any of the six yearly terms: August (1A), October (1B), January (2A), March (2B), April (3A) or June (3B). Applications must be received at least five days in advance of a student's starting term. Early decision applicants may apply at any time. Written or verbal notification of admissions decisions may generally be expected within two weeks of application. Students are advised to submit applications as early as possible to assure optimal admission and financial aid considerations. A student on academic suspension from another academic institution will be denied entrance if they are unable to return to the institution which issued the suspension. No student who is a first time in college student may be enrolled on a full-time status (12 credit hours over two terms) for the first two terms for which the student is enrolled.

Part-time Student Status

Evening students are considered part-time if they enroll in fewer than 6 credit hours per term.

- Part-time students may have reduced eligibility for some or all financial aid.

Admission Requirements

- Submit a completed application.
- Provide official transcripts of all academic work taken previously at other colleges, universities or professional schools (e.g. nursing).

- Provide official transcript of high school record (or GED test score) if fewer than 60 credit hours have been earned from a regionally accredited college or university. The high school record should include applicant's SAT or ACT or residual ACT exam scores.
- Military service-connected, educational experiences may award transfer credits. Requests must be accompanied by documents describing the educational experience. (Seven (7) semester hours of credit may be awarded.)
- Nursing applicants must be registered nurses currently licensed to practice in Florida and are required to complete the program within seven years of admission.
- Education applicants must meet the additional requirement of the completion of a background check and background check clearance from the Polk County School Board (PCSB), must have a minimum GPA of 2.5 for all completed college coursework, schedule an academic interest inventory, and complete a personal interview prior to admittance. Refer to the Education program requirements section of the catalog.
- Students may be admitted provisionally or conditionally as specified below.

Readmission of Former Students

Students seeking to reenter the program after an absence of one full year or more are subject to the official Catalog under which they reenter. It will be necessary to submit a new application. Readmission applicants who have been absent for more than five years will be required to resubmit all transcripts and supporting documentation.

Provisional Admission

Undergraduate students may be admitted provisionally while awaiting the accumulation of required supporting documents. Documents must be provided by the end of the first term following the acceptance of the initial application. Evaluation of transfer credits or military experience cannot be completed until the required documents are received by the School of Adult and Graduate Education. In addition, transcripts cannot be issued if a file is incomplete. Students admitted on provisional admissions status are not eligible to receive state and federal financial aid during this period of provision admission.

Conditional Admission

Florida Southern College recognizes that non-traditional undergraduate applicants may have been in the workforce for some time and are unable to provide sufficient academic records on which to base a decision for acceptance into a degree program. In such cases, in response to a student's application, FSC may admit the student on a conditional basis.

If an applicant cannot provide SAT or ACT documentation for admission to Florida Southern, the following conditions will apply:

- Students may register for up to three courses.
- Coursework must be completed in a satisfactory manner with at least a 2.0 GPA to demonstrate that the student can meet the academic performance requirements of the college.
- Students admitted on a conditional admissions status are not eligible to receive state and federal financial aid during this period of conditional admission.
- Students who cannot provide SAT/ACT documentation and who desire full admission status may obtain full admission by taking the ACT residual examination or its equivalent.

Academic Advising

Every major in the Adult and Graduate Education program is under the leadership of a dean of the school. Each school has an assigned advisor in its academic area, and the advisors are available either in person, via email or through telephone contact to answer questions regarding course selection for progress toward a degree.

Education Majors

Although students are permitted to enter during any of the six terms throughout the year, it is recommended that students enter the Adult and Graduate Education program during term 1A in order to ensure continuous enrollment leading to their internships.

Adult Education degree students entering during terms other than 1A may encounter a waiting period before beginning internships. Students intern during term 1C or term 2C after ALL undergraduate coursework is completed with a grade of “C” or better, a 2.5 cumulative GPA, submission of a satisfactory Professional Teaching E-Portfolio, passing scores on all parts of the Florida Teaching Certification Exam (FTCE), and permission of the Dean of the School of Education.

Certified teachers and post-degree teacher certification candidates are welcome to take professional education coursework through Florida Southern College for initial certification, renewal or add-on certification. However, neither Florida Southern College nor the school of education accepts responsibility for advising postbaccalaureate degree students in course selection for teacher certification. It is the responsibility of the student to follow all certification requirements via the Florida Department of Education in order to meet the requirements to teach in locations outside the State of Florida.

Drop/Add Procedures

The last day to add a Monday/Wednesday course is Wednesday of the first week of classes, and the last day to add a Tuesday/Thursday course is Thursday of the first week of classes. A student wishing to drop a course must notify the Registrar’s Office in writing or by e-mail by the appropriate date. A student may NOT DROP A COURSE through an instructor or by simply not attending class.

Financial Information

Students pay only a part of their costs – operating and instructional – at Florida Southern College. The remainder comes from endowment income and from alumni and friends, as well as from grants from foundations, businesses and the government, and from the Florida Conference of the United Methodist Church.

Tuition, Fees, and Other Costs

Basic costs of the Adult and Graduate Education program include:

- *Tuition* \$285 per credit hour
- *Technology fee*
 - Up to 4 credit hours* \$25.00 per term
 - 5-8 credit hours* \$50.00 per term
 - 9-12 credit hours* \$100.00 per term
- *Parking fee* \$40.00 per year
- *Graduation fee* \$60.00
- *Cost of books and supplies, approximately, per term* \$250.00
- *Lab fees for some courses* variable

Note: The college reserves the right to change fees due to the economic conditions.

Refund Policy

A student who withdraws from college during an evening term will be granted a refund as follows:

- Withdraw from college during the first three (3) calendar days..... 100% refund
- Withdraw from college during the 4th to the 5th calendar days90% refund
- Withdraw from college during the 6th to the 13th calendar days50% refund
- Withdraw from college during the 14th to the 25th calendar days25% refund
- Withdraw from college after the 25th calendar day no refund due

Registration

Registration may be accomplished by:

- Registering online via Florida Southern College portal. Online registration is a fast, convenient method of registration available to all accepted Evening Degree students. Students registering for the first time will receive written instructions on how to complete registration. Payment must be made online, or in person to the Business Office prior to the first class session.
- Registering in person. The Registrar's Office is located on the second floor of the Buckner Building, off Johnson Avenue. Office hours are Monday – Friday, 8:00 a.m. – 4:00 p.m. The phone number is (863) 680-4127.
- If a student is not currently enrolled, but has been enrolled within the year, he or she may register via the portal or by calling the Registrar's Office, (863) 680-4127. Payment must be made to the Business Office prior to the first class session.

Orientation

New Evening Degree Program students will be required to attend orientation prior to the start of their first term. The orientation provides an overview of college services and programs, and introduces students to advisors.

Financial Aid

Florida Southern College participates in Federal and State financial aid programs. Information and forms may be obtained from Florida Southern College website or from the Financial Aid office. The phone number is (863) 680-3963. Adult and Graduate Education students must enroll in at least twelve (12) hours per semester (terms A, B and C) to be awarded Florida Resident Access Grant (FRAG).

Course Enrollment

The Adult and Graduate Education program is arranged so that a student may take one or two courses in any term. The program offers six terms per year offered in three semesters (fall, spring, and summer). Each semester has three terms: A, B and C:

- Semester 1 (Fall): Term A, Term B, Term C
- Semester 2 (Spring): Term A, Term B, Term C
- Semester 3 (Summer): Term A, Term B, Term C

A student who attends twelve (12) hours in any one semester (1 (Fall), 2 (Spring), 3 (Summer)) is considered full time. A full-time student may accumulate up to 48 semester hours of work in a single calendar year and may qualify for State and Federal Financial Assistance.

Adult and Graduate Education students may not enroll in more than 18 hours combined in Terms A, B, and C, without prior approval from their academic dean.

Additional Program Information

Information on transient credits, graduation, and academic honors is located elsewhere in this Catalog. Further information concerning admission, evaluation of credits, registration and other details may be obtained from:

School of Adult and Graduate Education

Programs of Study

- General Education Curriculumsee page 59
 Note: Because of the nature of the program for returning, working adults, convocation requirements do not apply.
- Accountingsee page 83
- Business Administrationsee page 95
 Note: Adult and Graduate Education students earn a Bachelor of Science in Business Administration degree. Because of the nature of the program for returning, working adults, BUS 1115 will be waived a degree requirement for Adult and Graduate Education students.
- Management Certificatesee page 97
 Note: The Management Certificate is awarded at the undergraduate level. The certificate requires completion of 10 core business management courses consisting of 30 credit hours of instruction. Students must complete a standard Adult and Graduate Education application and submit an official copy of high school transcripts. Upon completion of all courses students desiring the certificate must submit a "Management Certificate Completion" form available in the School of Adult and Graduate Education.
- Interpersonal and Organizational Communicationsee page 102
 Note: COM 3950 and COM/SPC 4960 are not offered in the evening degree program. Students must take SPC 4900 to complete the degree requirements. Additionally, only the BS is offered.
- Elementary Education (K-6)see page 109
 Note: Students must meet the same criteria for admission to teacher candidacy as the day program students and must provide evidence of current successful field experiences or be enrolled in a Florida Southern College School of Education field experience. Education majors must obtain a Letter of Clearance (fingerprint check) from the Polk County School Board must have a minimum GPA of 2.5 for all completed college coursework, schedule an academic interest inventory, and complete a personal interview prior to acceptance.
- Nursingsee page 137

Each Spring, graduating seniors get a chance to swim in the Water Dome Splash.

A sculpture of architect Frank Lloyd Wright sits in the Ruthven Plaza at the Sharp Family Tourism and Education Center. Florida Southern is home to the world's largest collection of Wright architecture.

UNDERGRADUATE PROGRAM REQUIREMENTS

ACCOUNTING

General Information

The accounting program at Florida Southern College provides relevant undergraduate and graduate education in accounting. With an emphasis on ethics, current accounting topics, engaged learning, and real-world applications, the program prepares students for professional certification, lifelong professional development, financial success, and leadership roles in a dynamic environment.

Special Programs

Students in accounting may wish to pursue honors in the major. Please see the section under Honors earlier in this Catalog for information about qualifying for honors in the major. Additionally students must successfully complete ACC 4953 – Departmental Honors in Accounting I and ACC 4954 – Departmental Honors in Accounting II.

Progress Requirements

Students who plan to take the Certified Managerial Accounting Examination (CMA) may do so in the senior year. Students who plan to pursue Certified Public Accountant (CPA) licensure need to complete the Bachelor of Science degree and the Master of Accountancy (MAcc) degree, which includes the required 150 semester credit hours. CPA licensure also requires passing the Uniform Certified Public Accountant exam and a year of supervised experience.

Accounting Minor Requirements

18 hours, including ACC 2111, 2112, 3111, 3211 and any other accounting course(s) to complete the required number of hours

Accounting Major Requirements

ART AND ART HISTORY

General Information

The Department of Art and Art History offers the B.A. and B.F.A. degrees in Graphic Design and Studio Art, the B.A. and B.S. degrees in Art Education, and the B.A. degree in Art History. The Department has excellent facilities, an outstanding faculty, and a talented and active student body. The Melvin Art Gallery has exhibitions of Florida Southern students and of many leading professionals. The Department also sponsors educational and social events on campus, field trips in the area, and Study Abroad programs each May.

Admissions Requirements

Upon application to and acceptance by the Florida Southern College Office of Admissions, a student may be accepted into a major program in Studio Art, Graphic Design, or Art History only through review of his or her portfolio of art and/or writings, as appropriate. Interviews and portfolio reviews are offered throughout the school year on an appointment basis. Applicants should contact the department office for information about the procedures that apply to them.

Progress Requirements.

All majors in the Department of Art and Art History must have a “C” or better in all major courses. Prior to four semesters before a student's scheduled graduation, the department will require a control examination, jury, or other procedure to determine the advisability of continuing a major in the Department of Art and Art History. Although it may be required at any time, such examination or procedure will typically be instituted near the end of the freshman year or the beginning of the sophomore year.

Art Programs: Graphic Design and Studio Art

The Graphic Design and Studio Art programs provide challenging, professional-level undergraduate course work for talented, motivated young artists. Students develop their skills and concepts, and in conjunction with the college curriculum, are further prepared to demonstrate the vital relationships between art and culture, art and emotion, and art and history. These programs provide appropriate preparation for graduate school and for entry into the job market.

Small classes are taught by top professionals and students enjoy working relationships with their professors in a nurturing environment. Art classes are held in eight fully equipped studio classrooms – each dedicated to a specific discipline: painting, figure drawing, printmaking, graphic design, photography, sculpture, ceramics, and design.

Additional Degree Requirements

Presentation of a senior exhibition is required for all degrees in Graphic Design and Studio Art.

Graphic Design

Graphic Design Minor Requirements – Print Emphasis

20 hours, including ART 1120, 1131, 1140, 2410, and 3410.

Graphic Design Minor Requirements – Web Emphasis

20 hours, including ART 1120, 1131, 1140, 2410, and 3510.

Graphic Design (B.A.) Major Requirements

The Bachelor of Arts (B.A.) in Graphic Design certifies the completion of major study in the visual arts, which has been undertaken as an integral part of a general liberal arts degree program. Graphic Design is the art of providing meaningful form to information. Combining intensive studio work with the traditional liberal arts, the graphic design program follows two tracks—one in print design and the other in web design. All students take both tracks. More broadly speaking, this degree represents study in some depth in a number of graphic design, studio art, and art historical disciplines. Such study may or may not prepare students for careers as art professionals. Career preparation is not a primary objective in programs leading to the B.A. A major part (over 50%) of a student’s education is in areas outside art, with substantial coverage in the humanities, social sciences, and physical sciences.

A. General Education Requirements	40 hours
B. Major Requirements	56 hours

ARH 2700	The Contemporary Artist
C. Bachelor of Arts Degree Requirements	20 hours
D. Electives	8 hours
E. Total	124 hours

Graphic Design (B.F.A.) Major Requirements

The Bachelor of Fine Arts (B.F.A.) degree in Graphic Design offers comprehensive training in art and design, focusing on the balance of theory and practice and culminating with the completion of a senior thesis exhibition and critique. Print and web design are the two design tracks followed by students in the program. These are supported by a broad education in art history and contemporary art in addition to a liberal arts foundation. Throughout required courses, students will demonstrate critical thinking, technical abilities, and communication skills, as well as be able to collaborate effectively with their peers and professors. Graduates will be prepared to submit a complete portfolio and enter competitive graduate programs in art and design. Graduates also will be prepared to enter the professional fields of commercial design and advertising. B.F.A. graduates will have developed technical competence, aesthetic judgment, and a strong commitment to artistic quality.

C. Bachelor of Arts Degree Requirements	20 hours
D. Electives	4 hours
E. Total	124 hours

Studio Art (B.F.A.) Major Requirements

The B.F.A. program in Studio Art provides professional education in art and design at the undergraduate level, to enable graduates to enter professional careers in such fields as design, painting, and sculpture after the award of the degree. Additionally, this program is designed to give students optimal preparation for admission to M.F.A. programs in Art. Students concentrate in relevant technical and aesthetic studies, which are a major portion of the program. B.F.A. graduates will have developed technical competence, aesthetic judgment, and a strong commitment to artistic quality.

A. General Education Requirements	40 hours
B. Major Requirements	76 hours

Art Education (B.A. or B.S.)

The Department of Art and Art History in conjunction with the School of Education offers the B.A. or B.S. degree in Art Education. The program provides challenging, professional-level undergraduate course work for talented, motivated young artists. Students develop their skills and concepts, and are prepared to teach art.

Small classes are taught by top professionals, and students enjoy working relationships with their professors in a nurturing environment. Art classes are held in eight fully equipped studio classrooms – each dedicated to a specific discipline: painting, figure drawing, printmaking, graphic design, photography, sculpture, ceramics, and design.

Art History (B.A.)

The Department of Art and Art History offers the B.A. degree in Art History. The B.A. in Art History represents the completion of a traditional liberal arts program. It represents preparation for life rather than for a specific job. We believe such preparation for life in fact represents some of the best preparation for careers in a world that is changing at an ever more rapid pace. Students who have earned the B.A. in Art History will have broad knowledge of the intellectual, cultural, and political history of the world. Students learn about major works of art; the history of art; technical skills in looking at, and handling, art; concepts about the role of art in human culture. They are able to see repetitive themes that are common to human beings in all places at all times. Art History majors are prepared to demonstrate the vital relationships between art and culture, art and emotion, and art and history. The Art History program provides appropriate preparation for graduate school and for entry into the job market.

Success in the field of Art History requires ability to write and to speak and to have facility with foreign languages. French and/or German are the research languages emphasized in the

field, but other languages may be appropriate depending on the student’s area(s) of interest. Students are taught in small classes and enjoy working relationships with their professors, who are knowledgeable professionals.

Progress Requirements

Beginning with the sophomore year, students majoring in Art History must maintain a 2.4 average overall. Students must earn a C or better on all course work in the major that is to count towards the degree.

Art History Minor Requirements

Twenty hours, including ARH 1100, and four additional ARH courses at the 2000-level or above chosen from ARH 2700, 3710, 3720, 3740, 3750, 3770, 3780, 3790, 4960-61, and 4999.

ART EDUCATION

See Art and Art History

ATHLETIC TRAINING PROGRAM

Accreditation

The Athletic Training Program is a CAATE (Commission on Accreditation of Athletic Training Education) accredited program.

General Information

The Florida Southern College Athletic Training Program prepares students to become certified athletic trainers by providing a comprehensive program based on creative didactic coursework, quality engaged learning opportunities, and unique clinical experiences. Integrating classroom and clinical experiences with collaborative learning enhances positive interpersonal skills, fosters confidence and professionalism and instills ethical decision making abilities resulting in competent allied health care professionals.

Athletic training students complete all educational competencies and clinical integration proficiencies to meet accreditation standards in preparation for successful completion of the Board of Certification Examination. Athletic training students progress through clinical education rotations while being supervised by preceptors to gain practical experience, acquire clinical skills and to learn to make informed medical decisions.

Special Requirements

Students are required to take an athletic training practicum class each semester which includes clinical education experiences at FSC and off-campus sites. Each athletic training student is responsible for obtaining transportation to the off-campus sites. It is recommended that athletic training students join the National Athletic Trainers Association (NATA). A program fee of \$100.00 will be charged each semester for all athletic training majors to cover the cost of E*Value, liability insurance, uniforms, first responder supplies, CPR cards, etc.

Admission Requirements:

First Year, Pre-Professional Admission

- Recommended 1100 SAT or 24 ACT (with a weighted GPA of 3.25)
- Transfer students. Recommended 3.0 College GPA.
- Must have current CPR certification.
- Must understand, meet, and sign the ATP Technical Standards.
(www.flsouthern.edu/FSC/media/Academics/AthleticTraining/ATPTechnicalStandards.pdf)
- Must have completed a physical examination and show proof of immunizations.

Professional Program Admission:

- May apply for admission after the completion of ATP 1277 and 1278 or approved equivalent
- Must have an overall 3.0 GPA.
- Earn a grade of "C" or better in all coursework required by Athletic Training.
- Successful completion of all required clinical education hours with satisfactory evaluations.
- Completion of all program requirements and evaluations.
- Completion of all required education competencies and clinical integration proficiencies
- Transfer students should have a minimum overall 3.0 GPA and have completed ATP 1277 and 1278 or approved equivalent.

Progress Requirements

- Athletic Training students must earn a grade of "C" or better in all required courses.
- Athletic Training students must achieve a minimum overall 3.0 GPA each year and for all remaining semesters.
- Athletic Training students must maintain current certification in CPR-PR and have yearly instruction in blood borne pathogens and HIPPA.
- Athletic Training students are to complete all educational competencies and clinical integration proficiencies and pass any required written or practical exams prior to advancing to the next level.
- Athletic Training students must complete all program requirements and evaluations
- Athletic Training students must successfully complete all required clinical education hours with satisfactory evaluations.

Probation

Students will be placed on probation the semester following non-compliance of the required academic standards. If still not compliant at the end of the probation semester, the student will be suspended from the program. Once placed on probation, the student must be compliant for two consecutive semesters to return to good standing in the program. Extenuating circumstances will be considered on a case-by-case basis.

Athletic Training Major Requirements

A. General Education Requirements.....	40 hours
B. Major Requirements	81-85 hours
ATP/HSC 1234	Medical Terminology
ATP 1277	Perspectives in Athletic Training I
ATP 1278	Perspectives in Athletic Training II
ATP 1305	Clinical Education Practicum
ATP 1306	Clinical Education Practicum
ATP 2305	Clinical Education Practicum
ATP 2306	Clinical Education Practicum
ATP/HSC 2308	Therapeutic Techniques I
ATP/HSC 2309	Therapeutic Techniques II
ATP/HSC 2323	Clinical Examination and Diagnosis of the Lower Body
ATP/HSC 2324	Clinical Examination and Diagnosis of the Upper Body
ATP 3305	Clinical Education Practicum
ATP 3306	Clinical Education Practicum
ATP/HSC 3333	Concepts of Nutrition and Pharmacology
ATP/HSC 3355	Administration of Athletic Training
ATP 4305	Professional Development Practicum
<i>or</i>	
ATP 4306	Professional Development Practicum
ATP 4960	Professional Development Internship
<i>or</i>	
ATP 4961	Professional Development Internship
ATP 4999	Primary Care of the Athlete
BIO 2215	Human Anatomy and Physiology I
BIO 2216	Human Anatomy and Physiology II
BIO/HMP/PED 3575	Exercise Physiology
HMP/PED 3560	Functional Human Movement
HMP 3735	Sport Psychology
HMP/PED/SPM 4510	Fitness and Prescription
C. Bachelor of Science Degree Requirements	12 hours
D. Electives	0 hours
E. Total	133-137 hours

BIOCHEMISTRY AND MOLECULAR BIOLOGY

General Information

The BMB program is interdisciplinary in nature, reflecting the complex modern study of life at the cellular level. Drawing on chemistry, biology and mathematics, the program allows students to utilize the resources and perspectives of multiple disciplines, which reflects the collaborative nature of current scientific research. The BMB program follows the guidelines specified by the American Society for Biochemistry and Molecular Biology (ASBMB). Graduates of this program are well prepared to enter professional schools, such as medical, dental and veterinary schools, as well as graduate programs in biochemistry, molecular biology and other related disciplines, and to enter careers in the pharmaceutical and biotechnology industries.

Admission Requirements

Students applying for the program must have an SAT score of 1100 or ACT score of 24 to enter as freshmen, or a GPA of 3.0 in basic biology and chemistry courses by the end of their freshman year.

Special Requirements

Due to the interdisciplinary nature of this program, students majoring in Biochemistry and Molecular Biology are not allowed to double major in Biology or Chemistry, and are not allowed to receive minors in Biology or Chemistry.

Biochemistry and Molecular Biology Major Requirements

A. General Education Requirements..... 40 hours

B. Major Requirements 68 hours

(Students must earn a C or better in courses which satisfy major requirements.)

BIO 1500	Biological Essentials
CHE 1111	Principles of Chemistry I
CHE 1112	Principles of Chemistry II
CHE 2221	Organic Chemistry I
CHE 2222	Organic Chemistry II
CHE 2335	Analytical Chemistry
BIO/CHE 3361	Biochemistry: Structure and Function
BIO/CHE 3362	Biochemistry: Molecular Biology
BIO 3700	Genetics
BIO 3800	Cell Biology
BIO 4561	Research: Molecular Biology

or

BIO 4562	Research: Molecular Biology
----------	-----------------------------

or

HON 4955	Honors Senior Thesis
----------	----------------------

or

HON 4956	Honors Senior Thesis
----------	----------------------

or

CHE 4410	Introduction to Research Methods and
CHE 4999	Senior Research in Chemistry
MAT 2311	Calculus I with Plane Analytic Geometry
PHY 2110	General Physics I (Calculus Based)
PHY 2120	General Physics II (Calculus Based)

Twelve hours selected from the courses below:

(may not be fulfilled with courses all beginning with the same prefix)

BIO 2230	General Zoology
----------	-----------------

or

BIO 2235	General Botany
BIO 3215	Advanced Human Anatomy and Physiology I
BIO 3216	Advanced Human Anatomy and Physiology II
BIO 3400	Microbiology
BIO 4150	Plant Physiology
BIO 4160	Developmental Biology
BIO 4960	Biology Internship

or

BIO 4961	Biology Internship
CHE 2355	Descriptive Inorganic Chemistry
CHE 3320	Advanced Inorganic Chemistry
CHE 3335	Instrumental Analysis
CHE 3341	Physical Chemistry I
CHE 3342	Physical Chemistry II
CHE 4425	Special Topics in Chemistry
CHE 4455	Advanced Inorganic Chemistry
CHE 4960	Internship in Chemistry

C. Bachelor of Science Degree Requirements	12 hours
D. Electives	4 hours
E. Total	124 hours

BIOLOGY

General Information

The Department of Biology offers a B.S. degree in Biology applicable to a variety of career and post-graduate educational opportunities. Students not only learn about biology; they experience it. Through engaged learning in the classroom, laboratory experiments with state-of-the-art equipment, field trips to local venues of interest, internships at local and national companies, and original research on the Florida Southern campus and beyond, biology students are provided with ample opportunities to practice what they learn, and learn what they practice.

Faculty work one-on-one with students, in areas of academics, research, advising and planning for the future, to ensure students have the tools necessary to succeed. Many biology graduates go on to professional or graduate school, and most are very successful in the pursuit of their advanced degree. For those students that apply to professional schools, the department boasts a nearly 100 percent placement rate.

Statement on Engaged Learning

The Department of Biology includes many types of engaged learning activities in its courses. All 1000 and 2000 level courses, as well as some 3000 level courses, have laboratory components, where students work in pairs or in groups to engage in various aspects of the scientific process such as problem solving, experimental design, manipulation of variables, and data interpretation. Field trips, mini labs, small and large group discussions, presentations, case studies, and use of specific scientific computer programs are other methods commonly employed in the classroom to engage students. All students majoring in biology are required to design and implement their own original research project.

Special Programs: Pre-Medical, Pre-Dental, and Pre-Veterinary Studies:

Although pre-professional students may major in any program, the number of courses in the natural sciences required to prepare students for this path means most students major in the natural sciences, usually biology. However, professional schools do recognize and encourage breadth in education, and the liberal arts emphasis at FSC, along with the strong natural sciences curriculum, provides an excellent background. All pre-professional students are strongly encouraged to work closely with their advisors to ensure the curricular, co-curricular and extra-curricular aspects of their education will provide the best opportunities for admission into a professional school (see page 55). Contact the Biology Department for more information.

The FSC Honors Program – USF College of Medicine Medical Education Program. Qualified students in the Honors Program may take part in the FSC Honors Program – USF College of Medicine Medical Education Program. If Program qualifications are met, students receive priority admission to the University of South Florida College of Medicine. Students interested in this program should contact Dr. Nancy Morvillo, Chair of the Department of Biology, or Dr. Erica Bernheim, Director of the Honors Program, as soon as possible.

Biology major with secondary education. Students meeting the departments' requirements for a major in biology who also complete the required professional courses, education courses, and other degree requirements specified by the School of Education will meet the certification requirements for teaching biology in the State of Florida. Students seeking state certification should meet with an advisor in the School of Education as soon as possible.

Pre-Physical Therapy. Students majoring in biology may be admitted to the Pre-Physical Therapy program, which includes coursework not only in biology but also in athletic training

and physical education to prepare for admission to a graduate program. Supervised internships in physical therapy are also required. Contact the Biology Department for more information.

Program Requirements

All Biology majors must earn a grade of "C" or better in all BIO courses and courses cross-listed with BIO.

Biology Minor Requirements

20 hours selected from Biology courses that count towards the major (all BIO courses except BIO 1000 and BIO 2280).

Biology Major Requirements

A. General Education Requirements..... 40 hours

B. Major Requirements 74 hours

BIO 1500	Biological Essentials
BIO 2230	General Zoology
BIO 2235	General Botany
BIO 3400	Microbiology
<i>or</i>

See Communication

BUSINESS ADMINISTRATION

General Information

Florida Southern College’s Barney Barnett School of Business and Free Enterprise provides relevant interdisciplinary undergraduate education through a number of career paths allowing students to specialize in finance, international business, marketing, management and sport management. The School prepares students for lifelong professional development, financial

success, and leadership roles in a dynamic global environment. The School includes an accomplished faculty committed to teaching and professional excellence, emphasizing practical applications, instructional development, and opportunities for student-faculty collaborative research.

Students are involved in relevant interdisciplinary education, given opportunities for student-faculty collaborative research, and encouraged to be committed to civic and social responsibility. Graduates will be prepared for career advancement, qualified for graduate candidacy, effective communicators, competent in the practical applications of current technology and prepared for leadership roles in the profession and the greater community.

Business Administration Minor Requirements

The minor in Business Administration is designed to provide students with an overview of the fundamentals of business including accounting, economics, finance or legal environment, management, and marketing. Knowledge of these areas is essential to students irrespective of major or career aspirations or profession.

- ACC 2111 Foundations of Financial Accounting
- BUS 2217 Principles of Management
- BUS 3160 Marketing Principles
- ECO 2205 Principles of Microeconomics
- BUS 3311 Legal Environment of Business

or

- BUS 3453 Managerial Finance

Total hours in the minor..... 20

Business Administration Major Requirements

The Business Administration Major provides students with a broad-based education in business. The major is designed to provide students a wide range of required business related courses including accounting, economics, management, marketing, finance, and law. In addition to the required courses listed below, students will select their elective courses based upon their post-graduate/career goals and in consultation with their advisor.

A. General Education Requirements..... 40 hours

B. Major Requirements 66 hours

- ACC 2111 Foundations of Financial Accounting
- ACC 2112 Foundations of Managerial Accounting
- BUS 1115 Business and Society
- BUS 2217 Principles of Management
- BUS 3125 International Business Environment
- BUS 3160 Marketing Principles
- BUS 3311 Legal Environment of Business
- BUS/ECO 3320 Applied Statistics of Business and Economics
- BUS 3453 Managerial Finance
- BUS 3705 Business Information Systems
- BUS 4999 Seminar in Strategic Management of the Business Enterprise
- ECO 2205 Principles of Microeconomics
- ECO 2207 Principles of Macroeconomics
- 16 hours in selected career paths

C. Bachelor of Science Degree Requirements 12 hours

D. Electives 6 hours

E. Total 124 hours

Management Certificate

The Evening Program in Business offers students who complete a common set of core business courses a “Management Certificate.” The Management Certificate is awarded at the undergraduate level. The certificate requires a completion of ten (10) core business management courses consisting of 40 credit hours of instruction. No more than two courses may be accepted as transient course credit for the certificate. The courses required for the Management Certificate are:

ACC 2111	Foundations of Financial Accounting
ACC 2112	Foundations of Managerial Accounting
BUS 2217	Principles of Management
BUS 3160	Marketing Principles
BUS 3311	Legal Environment of Business
BUS/ECO 3320	Applied Statistics of Business and Economics
BUS 3453	Managerial Finance
BUS 3705	Business Information Systems
ECO 2205	Principles of Microeconomics
ECO 2207	Principles of Macroeconomics

Students must complete a standard Evening Program application and submit an official copy of high school transcripts. Upon completion of all courses, students desiring the Management Certificate must submit a “Management Certificate Completion” form available in the School of Adult and Graduate Education and submit a \$25.00 processing fee.

CHEMISTRY

General Information

The fields of chemistry and physics are integrated into our daily lives in many ways. Behind the medicines we take, the plastics we use, the cars we drive, and the foods we eat stands a team of scientists responsible for designing, manufacturing, and safeguarding these products. Furthermore, the fields of chemistry and physics have experienced dynamic change and growth in the last century and have generated many of the most exciting and profound discoveries of modern times. The study of matter – and how it’s created, changed and manipulated – makes chemistry one of the most fascinating and fast-paced majors at Florida Southern. Our programs provide students with a broad-based understanding of the fundamental principles of chemistry and physics. The overriding objective is to provide students with the knowledge and skills needed for success as professional scientists. Many FSC chemistry majors have continued their education in medical, dentistry, pharmacy, and graduate schools, at institutions such as Duke University, Auburn University, the University of Florida, and the University of South Florida.

Students may pursue a major in chemistry with either a B.A. or B.S. degree. A minor is also available in physics. For information about the minor in physics, see “Physics,” p. 142.

Statement on Engaged Learning

In both the classroom and in the laboratory, students will participate in engaged learning activities that may include, but are not limited to, guided inquiry experiments, active learning exercises, computational exercises, collaborative learning and problem solving, team-based laboratory projects, experimental design, literature searches using library resources, web-based content, and discipline specific databases (such as SciFinder), and individual/small group peer teaching. All students majoring in chemistry are also required to conduct research, which is often presented at local, regional or national chemistry conferences.

Honors within the Major

Chemistry also offers an option for Honors within the Major. The purpose of the program is to provide an opportunity for highly achieving students who are motivated and talented to do an in-depth investigation of an area of interest in consultation with a professor having expertise in that area. During the senior year, students will register for CHE 4953 and CHE 4954. Please see the program coordinator during the first semester of the junior year for further information.

Program Requirements

A student must obtain a grade of "C" or better in all 1000 and 2000 level courses that are required for the major for the B.S. and B.A. degrees.

Special Requirements

Due to the similarities in the programs, students majoring in Chemistry are not allowed to double major in Biochemistry and Molecular Biology.

Chemistry Minor Requirements

24 hours including CHE 1111, CHE 1112, and 16 hours of chemistry courses at the 2000-level or above.

Chemistry (B.A.) Major Requirements

A. General Education Requirements 40 hours

B. Major Requirements 54 hours

CHE 1111	Principles of Chemistry I
CHE 1112	Principles of Chemistry II
CHE 2221	Organic Chemistry I
CHE 2222	Organic Chemistry II
CHE 2335	Analytical Chemistry
CHE 2355	Descriptive Inorganic Chemistry
CHE 3335	Instrumental Analysis
CHE 4410	Introduction to Research Methods

or

CHE 4960	Internship in Chemistry
CHE 4999	Senior Research
MAT 2311	Calculus I with Plane Analytic Geometry
MAT 2312	Calculus II with Plane Analytic Geometry
PHY 2110	General Physics I (Calculus Based)
PHY 2120	General Physics II (Calculus Based)

Seven hours chosen from the following:

CHE 2275	Forensic Chemistry
CHE 3320	Applied Physical, Analytical, and Inorganic Chemistry
CHE 3341	Physical Chemistry I
CHE 3342	Physical Chemistry II
CHE/BIO 3361	Biochemistry: Structure and Function
CHE/BIO 3362	Biochemistry: Molecular Biology
CHE 4425	Special Topics in Chemistry
CHE 4455	Advanced Inorganic Chemistry

COMMUNICATION

General Information

The mission of Communication is to prepare students for the dynamic and changing field of communication by offering a challenging academic program which prepares students for the professional world or graduate school. The program gives students the opportunity for hands-on exploration while they are exploring the theoretical underpinnings of the field.

Graduates of the communication program are conscientious and critical consumers and producers of mediated and professional communication. Communication majors graduate prepared with the skills and knowledge to excel across a broad spectrum of professions including advertising, public relations, print and broadcast journalism, law, education, business, and advanced graduate study.

Students majoring in Communication can choose from one of three concentrations:

- (i) Advertising and Public Relations—focuses on the development, creation, and placement of messages and how consumers process messages, as well as on the professional

development of relationships with internal and external publics, crisis management, image management, and promotion.

- (ii) Broadcast, Print, and Online Media—focuses on writing, reporting, editing, photography, electronic news gathering, and studio production for communication in print, broadcast, and online.
- (iii) Interpersonal and Organizational Communication—focuses on the interpersonal and behavioral elements of communication through a variety of courses in speech, interpersonal, organizational, persuasion, small group, and advanced public speaking.

Special Requirements

Communication majors are expected to participate in at least one of the following student organizations:

- Ad Fed/NSAC: American Advertising Federation/National Student Advertising Competition: advertising/public relations majors complete an entire campaign for a client
- FPRA: Florida Public Relations Association: public relations majors work with a variety of non-profit groups and network with area professionals.
- Florida Southern Forensics Society: Students participate in the 200-year-old tradition of oral competition through intercollegiate competitive speaking tournaments.
- *The Southern*: student newspaper
- *The Interlachen*: student yearbook
- FSCTV news

Progress Requirements

Communication majors are required to complete a three-hour internship. Internships are typically completed during the senior year. Requirements of the internship include completion of all 3000 level concentration courses, a 2.0 cumulative grade point average, application and permission of the internship coordinator. Interns must have their own transportation.

Only courses in which grades of “C” or higher are earned may count toward the major or minor in the degree programs.

Communication Minor Requirements

Twenty hours of SPC and COM courses, including SPC 1500.

Advertising and Public Relations

Majors in Advertising and Public Relations will graduate with the skills, knowledge, and experience necessary to excel within the professional communication industry. Coursework will enable students to develop the ability to create and implement targeted messages for a client, identify target publics and understand how consumers process messages. Majors will also learn to develop and maintain relationships with internal and external publics, manage crisis situations, plan and promote special events, and understand and apply persuasion theory.

Advertising and Public Relations Major Requirements

A. General Education Requirements..... 40 hours

B. Major Requirements 48 hours

COM 2500	Desktop Publishing
COM/SPC 2600	Principles of Advertising and Public Relations
COM 3410	Advertising Creative

Broadcast, Print, and Online Media

The mission of the mass communication program is to prepare students for the dynamic field of mass media by offering a challenging academic program focused on hands-on learning while exploring the theoretical underpinnings of the field. In response to an industry where the media distinctions have blurred, the program prepares students in print, broadcast and online journalism. Graduates of the mass communication program are conscientious and critical consumers and producers of mediated and professional communication.

Broadcast, Print, and Online Media Major Requirements

Interpersonal and Organizational Communication

We engage in interpersonal communication daily. A student interested in interpersonal communication will gain valuable insight and experience in understanding the theories and skills necessary for today’s world. Students hone critical thinking skills while covering communication in groups, intercultural relationships, intimate relationships, family relationships, and friendships. The interpersonal communication concentration affords students the opportunity to study, analyze, understand, and improve their communication skills and experiences.

Interpersonal and Organizational Communication Major Requirements

- A. General Education Requirements 40 hours**
- B. Major Requirements 40 hours**
- COM/SPC 3900 Special Topics in Communication
- COM/SPC 4550 Communication Research

- D. Bachelor of Science Degree Requirements 12 hours**
- E. Electives 24-32 hours**
- F. Total 124 hours**

COMPUTER SCIENCE

General Information

The Computer Science program offers the B.A. and B.S. degrees with a major in Computer Science. A minor in Computer Science is available for students majoring in disciplines other than Computer Science or Computer Science/Mathematics.

The Computer Science major provides both breadth and depth in computer science fundamentals and practical applications in a curriculum that is based on the recommendations from ACM, IEEE, and ABET/CS for undergraduate computer science degree programs. Graduates are prepared to enter the workforce as computer scientists or computing specialists in a wide variety of fields or to enter graduate programs in computer science or other computing disciplines.

Students enjoy small classes, highly qualified faculty committed to teaching and professional excellence, and modern computing laboratories. In addition to providing a sound theoretical base, the coursework includes many practical applications, including collaborative problem solving, software for robotics applications, computer game design, software engineering, service learning, and real-world group projects. Internships and undergraduate research opportunities are also available.

Computer Science Minor Requirements

- CSC 2231 Programming and Data Structures I
- CSC 2232 Programming and Data Structures II
- CSC 4400 Software Engineering
- Eight credit hours selected from the following courses:
 - CSC 3233 Programming and Data Structures III
 - CSC 3310 Computer Organization and Architecture
 - CSC 3335 Database Analysis and Design

Total hours in the minor 20

Computer Science Major Requirements

A. General Education Requirements 40 hours

B. Major Requirements 54 hours

- 26 hours in core computer science courses:
 - CSC 2231 Programming and Data Structures I
 - CSC 2232 Programming and Data Structures II
 - CSC 3233 Programming and Data Structures III
 - CSC 3310 Computer Organization and Architecture
 - CSC 3370 Programming Language Concepts
 - CSC 4400 Software Engineering
 - CSC 4999 Computer Science Senior Seminar

12 hours of computer science electives selected from the following courses:

- CSC 3335 Database Analysis and Design
- CSC 3336 Web Applications
- CSC 3350 Computer Game Design
- CSC 3951 Computer Science Research I

- CSC 4410 Operating Systems and Concurrency
- CSC 4640 Selected Topics in Computer Science
- CSC/MAT 4645 Selected Topics in Computer Science and Mathematics
- CSC 4952 Computer Science Research II
- CSC 4960 Internship in Computer Science

16 hours of mathematics, to include each of the following:

- CSC/MAT 2100 Discrete Structures
- MAT 2311 Calculus I with Plane Analytic Geometry
- Additional mathematics courses selected from the following:
- MAT 2022 Elementary Statistics

or

- MAT 2032 Biostatistics
- Mathematics courses at or above MAT 2312

- C. Bachelor of Arts Degree Requirements 20 hours**
- or*
- D. Bachelor of Science Degree Requirements 12 hours**
- E. Electives 10-18 hours**
- F. Total 124 hours**

COMPUTER SCIENCE/MATHEMATICS

General Information

The program in Computer Science/Mathematics offers the B.A. and B.S. degrees with a major in computer science/mathematics.

The Computer Science/Mathematics program provides a broad foundation in the theory and practice of computer science and mathematics. Graduates are prepared to enter the workforce as computer scientists or applied mathematicians or enter graduate programs in either computer science or applied mathematics. The students enjoy small classes, highly qualified faculty committed to teaching and professional excellence, and modern computing laboratories. In addition to providing a sound theoretical base, the coursework includes many practical applications, including collaborative problem solving, software for robotics applications, service learning, and real-world group projects. In addition, opportunities are available for academically talented and very motivated students to participate in undergraduate research.

- A. General Education Requirements 40 hours**
- B. Major Requirements 48-52 hours**
- CSC 2231 Programming and Data Structures I
- CSC 2232 Programming and Data Structures II
- CSC 3233 Programming and Data Structures III
- CSC 3310 Computer Organization and Architecture
- or*
- CSC 4410 Operating Systems and Concurrency
- CSC 4400 Software Engineering
- CSC/MAT 2100 Discrete Structures
- MAT 2311 Calculus I with Plane Analytic Geometry
- MAT 2312 Calculus II with Plane Analytic Geometry
- MAT 2505 Linear Algebra
- MAT 3205 Proof Techniques
- MAT 3313 Calculus III with Solid Analytic Geometry

- CSC 4999 Computer Science Senior Seminar
- or*
- MAT 4999 Mathematics Senior Seminar
- One course from the following if not taken above:
- CSC 3310 Computer Organization and Architecture
- CSC 3335 Database Analysis and Design
- CSC 3336 Web Applications
- CSC 3350 Computer Game Design
- CSC 3370 Programming Language Concepts
- CSC 4410 Operating Systems and Concurrency

<i>or</i>	
D. Bachelor of Science Degree Requirements	12 hours
E. Electives	12-24 hours
F. Total	124 hours

CRIMINOLOGY

General Information

Criminology offers two degrees: the Bachelor of Science in criminology and the Bachelor of Arts in criminology; a minor requires 20 hours in criminology.

Students will gain the ability to understand social policy, to critically assess proposed programs, and to recognize the complexity of crime-related issues, creating solutions, rather than relying on failed programs of the past. Criminology majors explore theoretical causes of crime, as well as practically apply concepts learned to real world situations in advanced courses. Students analyze situations, evaluate their causes, and recommend solutions. Criminology majors gain skills in analytical and critical thinking in understanding human behavior at the individual, group and societal levels, as well as competency in addressing cultural and social issues and solving crime problems. The criminology experience focuses on engaged, active, and service learning in diverse applications both in and out of the classroom, offering students opportunities to become involved in community and campus projects and programs; research projects; the use of instructional technology including data management and data analysis; group projects, discussions and presentations; and internships. Talented instructors from the community, who currently are or have been employed in a variety of criminology-related careers, support academic faculty members. Because the criminology program is based in the broad, liberal arts tradition, students have a wide variety of career choices and gain academic preparation for a number of advanced degrees. Advising is designed to reflect student interests and individual career paths. A diversity of internships is available in both the public and private sectors, including administration/management, education, social work/counseling, non-profit agencies, and criminal justice. Most criminology graduates go to local, state, or federal agencies, while some continue their schooling at criminal justice agencies, law schools, or graduate schools.

Criminology Minor Requirements

20 hours of CRM courses.

Criminology Major Requirements

A. General Education Requirements	40 hours
B. Major Requirements	48 hours
CRM 2280	Introduction to Criminal Justice
CRM 3340	Criminology
CRM 3350	Policing in American Society
CRM 3360	Juvenile Delinquency
CRM/SOC 4420	Methods of Social Research
CRM/PSY 4430	Criminalization of Mental Illness
CRM 4440	Judicial Processes
CRM 4450	Corrections and Rehabilitation
CRM 4960	Criminology Practicum
CRM 4999	Seminar in Criminology

ECONOMICS

General Information

Students exposed to the study of economics will be knowledgeable of the discipline and be able to critically analyze and evaluate social phenomena so that they may better contribute to the world community.

Progress Requirements

Students anticipating graduate study are advised to enroll in additional quantitative courses and other appropriate electives.

Economics Minor Requirements

A minor in Economics requires 18 hours of Economics coursework.

Economics Major Requirements

A. General Education Requirements	40 hours
B. Major Requirements	36 hours
ECO 2205	Principles of Microeconomics
ECO 2207	Principles of Macroeconomics
ECO 3305	Microeconomic Theory
ECO 3307	Macroeconomic Theory
ECO/BUS 3320	Applied Statistics of Business and Economics
16 hours in economics electives selected from the following:	
ECO 3308	Monetary Economics
ECO 3319	Labor Economics
ECO 3345	Economics and the Environment
ECO 4406	Public Economics
ECO 4407	International Trade and Finance
ECO 4415	Industrial Organization

EDUCATION

General Information

Florida Southern College offers teacher education programs in Elementary Education K-6, Physical Education K-12, Art Education K-12, Music Education K-12, Spanish K-12, Secondary Biology 6-12, Secondary English 6-12, Secondary Mathematics 6-12, and Social Sciences - History 6-12. These programs are approved by the Florida State Department of Education to satisfy the educational requirements for the baccalaureate degree and initial professional teacher certification in Florida. State mandated approved program changes are usually modest; however, prospective education students may expect changes to program requirements during their academic careers. Every effort will be made to assist students in completing program requirements within the normal four-year baccalaureate period. Florida Southern College offers state approved teacher education programs and is accountable to the Florida Department of Education for meeting all mandated general education, professional education and specialization requirements. The School of Education not only offers certificate seeking programs for State of Florida certification, it is also home to the Roberts Center for Learning and Literacy, Roberts Academy, and Early Learning Preschool Lab. Students in education programs will be engaged in a variety of field study experiences on and off campus including the Roberts Academy, the Early Learning Preschool Lab, and a variety of local schools.

Admission Requirements

Students who intend to study in any of the teacher education programs at Florida Southern must apply for admission to the program after completion of all program admission requirements. All students must pass the General Knowledge Test prior to enrolling in EDU 3323. Transfer students must apply for and be admitted to Teacher Education before enrolling in upper division classes. Application forms are available in the School of Education Office. The application deadline for each fall semester is March 15. The spring deadline is October 15.

Students who meet the following criteria are eligible for admission to teacher candidacy:

1. Submit a School of Education Application for admission.
2. Submit official FLDOE GKT score reports.
3. Earn an overall cumulative grade point average of at least 2.5 on a 4.0 scale for all undergraduate studies; or
4. Complete the requirements for a baccalaureate degree with a 2.5 GPA from any college or university accredited by a regional accrediting association as defined by state board rule.
5. Complete the Academic Interest Inventory at FSC.
6. Obtain fingerprint/background clearance check from the Polk County School Board.
7. Earn a grade of C or better in all courses required for the major.

Transfer Students

Transfer students beyond the sophomore year must meet all teacher education admission requirements before enrollment in professional education classes. Failure to pass all four sections of General Knowledge Test in that semester will result in the student being barred from further enrollment in professional education courses until the General Knowledge Test requirement is met.

Special Requirements

Roberts Center for Learning and Literacy

Education majors must attend a minimum of one (1) lecture per semester of the Distinguished Lecture Series hosted by the Roberts Center for Learning and Literacy.

Student Profiles

Students must maintain an electronic portfolio using the required software per the FSC School of Education.

Field studies courses (refer to the specific program descriptions below).

Requirements: Weekly attendance and approved fingerprints/background clearance check by the Polk County School District. Must pass GKT prior to enrolling in EDU 3323..

Elementary: All **Elementary** majors in the School of Education will take EDU 2200, EDU 3323, and EDU 4400 following the appropriate four-year degree schedule or transfer schedule. The Field Studies Director will assign education majors to one of the Polk County Public Schools. Field study students will report to the assigned school for the “full-day” on Tuesday of each week. Field study students are responsible for providing their own transportation. A grade of “C” or better must be obtained in all three field study courses for a teacher education candidate to be accepted for senior internship.

Secondary: All **Secondary** majors are required to take EDU 2200 and EDU 3323. The Field Studies Director will assign secondary education majors to the Polk County Public Schools. Secondary education students will be assigned a placement in their major field of study (e.g., English, Mathematics, etc.). Field study students are responsible for providing their own transportation. A grade of “C” or better is required to take the next level of field studies experiences. A grade of “W” or “F” will result in the course being repeated until a grade of “C” or better is obtained. A passing grade must be obtained in both sections of field experiences for a teacher education candidate to be accepted for the senior internship.

Senior internship – Twelve (12) credit hours.

Prerequisites for the senior internship:

1. Submit School of Education Internship application by October 15 for spring internships and March 15 for all fall internships.
2. Submit official score reports with passing scores on all parts of the FCTE.
3. Complete all required courses for the Education major.
4. Earn a grade of “C” or better in all Professional Education courses.
5. Earn a minimum grade point average of 2.5 on a 4.0 scale.
6. Submit approved fingerprints/background check conducted by the Polk County School District.

All approved senior interns will enroll in a senior internship course in the Polk County School District. The senior intern is responsible for providing transportation to the assigned school. The assignment will represent the major certification area of the candidate. The student will be under the direction of a Florida certified teacher who has received clinical supervision training and the recommendation of the school principal as a highly qualified teacher. A grade of “C” or better is required to pass the Senior Internship and meet State of Florida certification requirements.

FTCE

Education majors are required to pass all three Florida Teacher Certification Exams prior to the Senior Internship deadline dates for each semester (GKT-no later than the end of sophomore year, SAE and PED-no later than the end of junior year).

EDU 4486	Testing and Evaluation in ESOL

ENGLISH

General Information

An English major typically seeks intellectual growth; prefers independent work and study; is creative; is disciplined; values integrity; has a strong imagination; enjoys reading, thinking, and writing. English majors sharpen their reading skills – their observational and analytical acuity. They improve their writing skills – the ability to shape words to communicate more effectively with others. And they enhance their thinking skills – the ability to recognize problems and solve them creatively.

Our goals are to help majors develop the resources and methods needed to pursue independent inquiries and enjoy a lifelong appreciation for the value of the written word; to sharpen their critical skills in written and oral expression as they read, analyze, and evaluate representative works of American, English, and other world literature in their cultural and historical perspectives.

We offer a range of special topics and interdisciplinary courses in addition to an already impressive range of courses. The program sponsors a number of public readings from professional poets and writers; we also offer events such as “World Poetry Day” that allow students to share their own work. The program annually presents the Ryals award for outstanding poetry and short fiction by a student. Students can become involved in numerous organizations, such as *Cantilevers* (the FSC literary magazine), Sigma Tau Delta (the international English honor society), or the Undead Poets Society (the humanities club). In addition, the Pens Central Writing Laboratory offers opportunities to those students who want to acquire practical experience as tutors on all levels. We also have intern programs in the public schools for English majors in Secondary Education. Moreover, some students, in consultation with their advisors, create internships in the business community to meet their individual career goals.

Our graduates enter the work force with a full range of marketable skills: listening and reading acuity; clear, critical thinking; inventive expression; accurate writing; and persuasive speaking. Career opportunities for the English major abound in advertising, business writing and consulting, editing (for books and other media), fund-raising and grant-writing, journalism, teaching, and technical writing. English is also a natural pre-professional major for those who are planning to study business administration, law, or theology.

Special Programs

Teacher Certification

Students who meet both the requirements for an English major and the professional courses and other degree requirements specified by the Education Department will meet the certification requirements for teaching English in the state of Florida. For Florida Professional Teacher Certification, English majors must complete an additional 10 semester hours in ESOL.

Honors in the Major

The English program also offers an Honors within the Major option. The purpose of the program is to provide an opportunity for highly achieving students who are motivated and talented to do an in-depth investigation of an area of interest in consultation with a professor having expertise in that area. Please see the department chair during the first semester of your junior year for further information.

Area Concentration Achievement Test (ACAT)

In the first or second semester of their senior year, all English majors will take the ACAT in Literature, which is a standardized exam covering various periods of English and American literature. Test scores will be distributed to the faculty, and students' performance on this test will be considered by all professors who write recommendations for job, graduate school, and professional school applications.

English Minor Requirements

20 hours in English above the 1000 level, including at least one course at the 3000 level and at least one course at the 4000 level. CLEP credits may not be applied to the minor.

English Major Requirements

The English program offers concentrations in Literature and Writing. Core requirements for both concentrations are the same. Each student who declares English as a major either should have a full-time member of the English faculty as an academic advisor or, if a student has a double major and an official advisor from that other major, he/she should also meet with a full-time member of the English department before registering for the next semester's classes.

Literature

English Major Requirements: Literature Concentration

A. General Education Requirements..... 40 hours

B. Major Requirements 48 hours

Core requirements for the English major:

- ENG 2130 Introduction to English Studies
- ENG 2305 Masterpieces of World Literature
- ENG 3309 American Literature I: Pre-1600 to 1865
- ENG 3310 American Literature II: 1865-2000
- ENG 3313 British Literature from the Medieval to the Neo-Classical
- ENG 3314 British Literature from the Romantic Era to the Post Modern
- ENG 4999 English Senior Seminar

Four literature courses:

- ENG 3304 Major Authors
- ENG 4303 Studies in Literary Periods
- ENG 4304 Studies in Literary Genres
- ENG 4305 Special Topics in Literature

One 3000 or 4000-level English course chosen from:

- ENG 3200 Writing for Business
- ENG 3217 Creative Nonfiction Writing
- ENG 3219 Persuasive Writing
- ENG 3235 Creative Writing: Poetry
- ENG 3236 Creative Writing: Prose
- ENG 3263 Rhetoric and Writing
- ENG 3320 Special Topics in Drama and Film
- ENG 3370 Literature by Women
- ENG 4209 Special Topics in Nonfiction
- ENG 4303 Studies in Literary Periods
- ENG 4304 Studies in Literary Genres
- ENG 4305 Special Topics in Literature

C. Bachelor of Arts Degree Requirements 20 hours

D. Electives 16 hours

E. Total 124 hours

Writing

English Major Requirements: Writing Concentration

A. General Education Requirements	40 hours
B. Major Requirements	48 hours
Core requirements for the English major:	
ENG 2130	Introduction to English Studies
ENG 2305	Masterpieces of World Literature
ENG 3309	American Literature I: Pre-1600 to 1865
ENG 3310	American Literature II: 1865-2000
ENG 3313	British Literature from the Medieval to the Neo-Classical
ENG 3314	British Literature from the Romantic Era to the Post Modern
ENG 4999	English Senior Seminar
Writing concentration requirements (5 courses total):	
ENG 3263	Rhetoric and Writing
ENG 4209	Special Topics in Nonfiction
One additional 3000 or 4000-level ENG course, excluding internship	
One of the following creative writing courses:	
ENG 3217	Creative Nonfiction Writing
ENG 3235	Creative Writing: Poetry
ENG 3236	Creative Writing: Prose
One of the following multi-genre writing courses:	
ENG 3200	Writing for Business
ENG 3219	Persuasive Writing
C. Bachelor of Arts Degree Requirements	20 hours
D. Electives	16 hours
E. Total	124 hours

ENVIRONMENTAL STUDIES

General Information

Our use of natural resources impacts the environment on a local, regional and global scale. The management of these resources, and the solutions needed to overcome complicated challenges, requires broad knowledge of multiple disciplines. With the environmental studies major, students study important issues directly related to the consequences of human action on the natural landscape, and gain insight and understanding of governmental and economic policies and historical precedents that led us to this point. Students gain experience in methods of communication necessary for bridging the gap between disparate fields, such as research science and governmental agencies. The interdisciplinary nature of this major will equip students with an extensive and broad background to enter into a career with governmental agencies, local ecological organizations, the forestry service, or other environmental groups.

Students may also enroll in the FSC-Duke University Cooperative 3+2 program. Students successfully complete their first three years at FSC and are accepted into either the Master of Environmental Management or the Master of Forestry program. The student will be awarded the appropriate bachelor's degree upon satisfactory completion of one year of study at Duke. Contact Dr. Eric Kjellmark for more information.

Environmental Studies Minor Requirements

The minor in Environmental Studies is designed to provide students with a fundamental background in scientific aspects of studying the environment. This minor can complement a

number of majors where students would like to be knowledgeable of and active in environmental issues.

- BIO 1500 Biological Essentials
- BIO/ENV 2200 Environmental Issues
- BIO/ENV2201 Environmental Science
- BIO/ENV 3150 Ecology

4 hours selected from the approved list of elective courses outside of the natural sciences for the Environmental Studies major

Total hours in the minor..... 20

HEALTH SCIENCES

General Information

The Health Sciences major prepares students for a wide range of career pathways in health related settings. Potential jobs after graduation include health care administration and management, public relations, marketing, and quality/safety officer. There are wide range of settings where graduates may be employed including hospitals, clinics, long-term care facilities, government agencies, health related businesses and corporations. The Health Sciences major prepares students with a core science and liberal arts foundation and additional courses in health care systems, research, and ethics. There are two related pathways that incorporate additional courses in business or communications. A final capstone internship will place students in area health care agencies where they will apply the knowledge and skills from coursework.

HISTORY

General Information

The History program at Florida Southern College is designed to assist those students who are working toward a B. A. degree in developing the ability to think, speak and write in a clear, logical and critical manner as they search for answers to questions about the past. This search takes place in a variety of contexts. Each major works in close consultation with an advisor to select thirty-six hours (nine courses) of History, distributed across lower and upper level offerings and covering a variety of topics. Classroom activities include group projects, class discussions, presentations, and lectures, often enhanced by the use of appropriate technologies. Outside the classroom, faculty offices, the departmental lounge, or a favorite campus dining spot provide the opportunity for the exchange of ideas between students and faculty in a less formal setting. In addition, the History Club sponsors an annual field trip, picnic, and at least one movie night each semester; it also assists in hosting the Florida History Lecture Series. Faculty members work closely with students in directing research projects, some of them undertaken jointly, including the senior capstone or honors thesis. Internships are also available at several on-campus sites, such as the Lawton Chiles Center of Florida History, the Florida Citrus Hall of Fame, and the Archives of the Florida Conference of the United Methodist Church. Students often accompany members of the faculty to a professional conference, where they often present papers, or share the results of research projects. At graduation, History majors should be prepared for a wide variety of occupations requiring the ability to think logically and critically; they should also be able to perform successfully in graduate and professional school.

Special Programs

The History program also offers an Honors within the Major option in History. The purpose of the program is to provide an opportunity for highly achieving students who are motivated and talented to do an in-depth investigation of an area of interest in consultation with a professor having expertise in that area. Please see the department chair during the first semester of your junior year for further information. During the senior year, students should register for HIS 4953 and HIS 4954.

Students wishing to teach history in the state of Florida should contact the Chair of the Department of History and Political Science.

History Minor Requirements

To minor in History, a student must complete twenty hours within the discipline. No more than eight of these hours should be selected from lower-level course offerings (1000-2000), and no less than twelve should be selected from upper-level (3000-4000). There is no capstone requirement.

History Major Requirements

A. General Education Requirements..... 40 hours

B. Major Requirements 36 hours

HIS 4999 Philosophy and Methodology of History

Two courses selected from the following:

HIS 1115 The West and the World to the Early Modern Era

HIS 1125 The West and the World Since the Early Modern Era

HIS 2215 The American Experience through the Civil War

HIS 2225 The American Experience since the Civil War

One course selected from the following:

HIS/POS 3175 United States Foreign Policy

HIS 3225 Modern America, 1945-Present

HIS 3231 History of the Old South

HIS 3232 History of the New South

HIS 3355 History of Florida

HIS 3550 Selected Topics in United States or Latin American History

One course selected from the following:

HIS 3155 History of Germany

HIS 3165 History of Modern Europe

HIS 3185 History of England

HIS 3215 History of Russia and the Soviet Union

HIS 3455 Selected Topics in History of the Western World

One course selected from the following:

HIS 3275 History of East Asia

HIS 3365 History of Modern Latin America

HIS 3415 History of the Middle East

HIS 3555 Selected Topics in World or Thematic History

One course selected from the following:

HIS 4455 Seminar on Selected Topics in the History of the Western World

HIS 4550 Seminar on Selected Topics in U. S. or Latin American History

HIS 4555 Seminar in Selected Topics in World or Thematic History

One course selected from any 3000-level HIS offering

One HIS course (non-designated)

C. Bachelor of Arts Degree Requirements 20 hours

or

D. Bachelor of Science Degree Requirements 12 hours

E. Electives 28-36 hours

F. Total 124 hours

HONORS PROGRAM

General Information

The Honors Program offers opportunities for growth and knowledge beyond the ordinary. Honors students engage in pursuits such as building a web site for Florida Southern's Frank Lloyd Wright archives, interning at the Tennyson library in England, and participating in specialized community outreach initiatives, such as the Junior-to-Junior service learning project. When provided with the necessary resources, opportunities, and flexibility, our Honors students continue with their studies outside the classroom, through internships, studying abroad, continuing their education, and becoming engaged members of their communities. Florida Southern's Honors students may expect to be challenged academically; we also require that they participate in service learning community outreach opportunities, specially designed to help them become and remain aware of their responsibilities to a larger community outside the walls of academia. The Honors Program supports bright, highly motivated students and helps them find ways to succeed in a challenging academic environment. Florida Southern students who have accepted the challenge will enter a great conversation, not only between professors and students, but also among the Honors students themselves.

While Florida Southern's Honors students represent the top ten percent of their class, the college is committed to a holistic approach in evaluating and admitting well-rounded students. Incoming honors students will have: 1260 minimum combined score on the SAT (or a minimum composite score of 28 on the ACT) AND an un-weighted GPA of 3.75 or higher. In cases of exceptional incoming students with strong scholastic potential, aptitude, and attitude, we may also consider extracurricular activity, National Merit status, and other signs of academic excellence. If students' GPAs should fall below a 3.5 after their second year in the program, they are no longer eligible for membership in the Honors Program.

Incoming first-year students who meet the standards set by the Honors Committee will be invited into the program. Students who are already enrolled at Florida Southern and wish to apply to the program must do so by the end of their first semester at FSC. In order to be considered, students must have a minimum 3.5 GPA and a letter of recommendation from a faculty member. Please contact the Honors Program Director for additional information.

The Honors curriculum consists of a general education core, Honors seminars, and a senior Honors project. The Honors core consists of four carefully constructed, writing- and discussion-intensive interdisciplinary courses on subjects from the arts, the humanities, the natural sciences, and the social sciences: Artistic Investigations & Insights, Cultural Investigations & Insights, Environmental Investigations & Insights, and Social Investigations & Insights (AII, CII, EII, and SII). Each course includes a discussion or laboratory session. All four courses are taken over the first four semesters of the student's tenure at FSC. The student also chooses one four-hour quantitative course, one two-hour wellness course, and an additional ten hours of courses from those offered in the FSC General Education Curriculum. Honors students will turn their focus to their own specialized areas of interest during their junior year. Their fifth semester (ideally, fall of their junior year) will include research for a question/problem, culminating in a proposal for a senior thesis.

Students must submit a detailed proposal of their thesis before their final year in the Honors Program begins. During this time, students will have the option of taking one or two credit hours of thesis preparation courses, which will include research methodology, writing assistance, editing strategies, and other methods of taking their ideas to the next level. Students' final three semesters will be devoted to preparing, completing, presenting, and defending an Honors Project and/or Thesis. The projects they propose and design during this time will become the basis for their senior project. The senior project culminates with a presentation of the work in a public venue, either at Fiat Lux, FSC's celebration of student scholarship, or at a professional meeting.

Honor Code and Academic Expectations

To remain in the Honors Program, Honors students, as academic leaders on the campus, must maintain the highest standards of academic integrity and quality. In order to graduate from the Honors Program, Honors students must achieve a cumulative grade point average of 3.5. As is expected of all Florida Southern College students, Honors students will not commit any acts of academic dishonesty, such as cheating or plagiarizing. Should a student in the Honors Program be found guilty of Honor Code violations, the student will be permanently suspended from the Honors Program and liable for other sanctions. Contact the Honors Program Director (Dr. Erica Bernheim) for further information.

Other Honors Options

Several departments offer Honors within the Major, including accounting, biology, chemistry, English, history, music, philosophy, psychology, and religion. Please check departmental listings for specific information. Students may also choose to take a regularly scheduled course for honors credit. Advance approval from the Honors Program Committee is required for this option available to highly motivated students who wish to participate in a unique educational experience not otherwise available through regular course offerings, and who have found a faculty member able and willing to supervise. The faculty member and student must prepare a proposal outlining the expectations of the collaborative project. In order to earn honors credit for the course, the student must earn at least an "A" or a "B" in the course, including the project. For information about this honors option and for requirements for the proposal, contact the Honors Program Director.

Honors Program Requirements

HON 1173	Environmental Investigations and Insights	(6 hours)
HON 1174	Cultural Investigations and Insights	(6 hours)
HON 2285	Artistic Investigations and Insights	(4 hours)
HON 2286	Social Investigations and Insights	(4 hours)

One Quantitative course (4 hours)

One Meaning and Value course (4 hours)

One Personal Wellness course (2 hours)

(Up to twelve (12) hours of General Education courses may be completed in the major.)

HON 3XXX: One 3000-level Honors Option course (4 hours)

HON 4955, 4956 Honors Research and Thesis (6 hours)

For more information contact Dr. Erica Bernheim, Director of the Honors Program.

Total hours in the Honors Program 40

HORTICULTURAL SCIENCE

General Information

The Horticultural Science Department offers three majors: Citrus, Landscape Horticulture, and Recreational Turfgrass Management. The Recreational Turfgrass Management major is an interdisciplinary program offered in conjunction with the Barney Barnett School of Business and Free Enterprise. Students pursuing these majors will receive a Bachelor of Science degree upon graduation. The department also offers a minor in Horticultural Science.

A strong science-based academic program incorporates business courses coupled with field trips, and a professional internship prepares students for exciting, challenging, and high paying jobs.

Horticultural Science Minor Requirements

20 hours: HRT 2100 (Introduction to Horticultural Science) and 16 additional hours selected from CIT, HRT, and/or LND. HRT 1000 may not be used for the minor.

Citrus

Citrus Major Requirements

A. General Education Requirements.....	40 hours
B. Major Requirements	63 hours
BIO 2235	General Botany
BIO 4150	Plant Physiology
BUS 3160	Marketing Principles
CHE 1011	Chemical Foundations of the Biological Sciences I <i>and</i>
CHE 1015	Introduction to Organic and Biochemistry <i>and</i>
CHE 1017	Introduction to Chemical Analysis
<i>or</i>	
CHE 1111	Principles of Chemistry I <i>and</i>
CHE 1112	Principles of Chemistry II
CIT 3301	Introduction to Citrus
CIT 3302	Citrus Grove Management
CIT 3313	Citrus Postharvest Practices
CIT 4303	Citrus Pest and Disease Management
CIT 4999	Citrus Production and Business Practices
ECO 2205	Principles of Microeconomics
<i>or</i>	
ECO 2207	Principles of Macroeconomics
HRT 2100	Introduction to Horticultural Science
HRT 3301	Soil Science
HRT 3302	Plant Nutrition
HRT 4955	Career Development Skills for Internship
HRT 4960	Internship
<i>or</i>	
HRT 4961	Internship
One of the following courses:	
HRT 3325	Principles of Turf Management
HRT 3326	Tropical and Temperate Fruits
HRT 4320	Special Topics in Horticulture
LND 4999	Nursery Design and Management
C. Bachelor of Science Degree Requirements	12 hours
D. Electives	9 hours
E. Total	124 hours

Landscape Horticulture

Landscape Horticulture Major Requirements

A. General Education Requirements	40 hours
B. Major Requirements	63 hours
BIO 2235	General Botany
BIO 3100	Plant Taxonomy
BIO 4150	Plant Physiology

LND 2230	Ornamental Landscape Plants
LND 3330	Landscape Management
LND 4303	Horticultural Pest and Disease Management
SPM 2174	Management of Sport
SPM 3370	Administration of Sport
C. Bachelor of Science Degree Requirements	12 hours
D. Electives	0 hours
E. Total	127 hours

HUMAN MOVEMENT AND PERFORMANCE

General Information

The Human Movement and Performance (HMP) program explores the inner workings of movement and performance (physically and mentally) and engages students in various collaborative projects, clinical experiences, labs, and research. This approach challenges students to discover the nuances of how to control the outcomes of human movement and performance. This program will immerse students in experiential learning. Opportunities for collaboration with peers and faculty are a hallmark of the HMP program.

Human Movement and Performance majors will be prepared to sit for the National Strength and Conditioning Association's Certified Strength and Conditioning Specialist exam during their senior year. Attendance in the major's club, proposal submissions to professional conferences, presentations with faculty members and participating in funded collaborative projects are all highly encouraged activities outside the classroom. Preparing students for their next steps is the driving force behind this program, be it in the fields of biomechanics, kinesiology, ergonomics, industrial engineering, physical education, or human factors.

This degree is intended as an option for those persons seeking broad undergraduate preparation in the field of physical education. It is not designed to prepare an individual for teaching and does not include the college's professional endorsement for teacher certification. If a student later decides to complete certification requirements, all admission and program standards must be met prior to student teaching.

Special Requirements

All programs require students to be able to obtain transportation to clinical and internship experience after their freshman year.

Human Movement and Performance majors must be fingerprinted in Florida before they will be allowed to attend clinicals in the public schools.

Progress Requirements

Human Movement and Performance majors must maintain a 2.5 GPA in order to be eligible for HMP 4999.

Human Movement and Performance Major Requirements

A. General Education Requirements	40 hours
B. Major Requirements	56 hours
BIO 2215	Human Anatomy and Physiology I
BIO 2216	Human Anatomy and Physiology II
HMP/PED 2328	Games and Rhythmic Activities
HMP/PED 2380	Teaching Team and Individual Sports
HMP/PED 2575	Foundations of Physical Education
HMP/PED 2585	Care and Prevention of Injuries
HMP 2760	Nutrition for Performance
HMP/PED 3520	Motor Development
HMP/PED 3560	Functional Human Movement
BIO/HMP/PED 3575	Exercise Physiology
HMP 3735	Sport Psychology
HMP/PED 4508	Measurement and Epidemiology
HMP/PED/SPM 4510	Fitness and Prescription
HMP 4710	Motor Learning
HMP 4725	Human Performance Research
HMP 4999	Applied Seminar
MAT 2022	Elementary Statistics
PED 2077	First Aid and Safety
C. Bachelor of Science Degree Requirements	12 hours
D. Electives	16 hours
E. Total	124 hours

HUMANITIES

General Information

The Humanities B.A. degree offers students the opportunity to attain two goals: a broad immersion in the humanities—art, communication, English, foreign languages, music, philosophy, religion, and theatre—and a deeper study in two of these disciplines. Humanities graduates pursue careers in law, education, ministry, the arts, journalism, and business. Most important, students emerge as well-rounded, insightful human beings with the ability to think clearly and critically. Students interested in this major should contact the Department of Religion and Philosophy.

Humanities Major Requirements

A. General Education Requirements	40 hours
B. Major Requirements	52 hours
ARH 1100	Survey of Western Art and Architecture
ENG 2305	Masterpieces of World Literature
HUM 4999	Humanities Senior Capstone
MUS 1165	Great Works of Music
Any PHI course, except PHI 2208	
THE 1050	Introduction to Theatre
One of the following Religion courses:	
REL 2215	Old Testament

- REL 2216 New Testament
- REL 2218 Basic Christian Beliefs
- REL/PHI 2219 World Religions and Philosophies

Two emphases selected from the list below:

Art Emphasis

Three courses, including at least two selected from:

- ARH 3710 Ancient Art and Architecture
- ARH 3720 Medieval Art and Architecture
- ARH 3770 Eighteen and Nineteenth Century Art and Architecture
- ARH 3780 Twentieth Century Art and Architecture

English Emphasis

Three courses, two of which must be at the 3000 or 4000 level
(No 1000 level English courses may count toward this emphasis)

Modern Languages Emphasis

Three courses beyond the third-semester language course

Music Emphasis

- MUS 1151 Aural Skills I (1 hour)
- MUS 1173 Theory: Introductory Harmony (3 hours)
- MUS 3381 Music History I
- MUS 3382 Music History II

Philosophy Emphasis

Three courses, one of which must be at the 3000 or 4000 level

Religion Emphasis

Three courses, one of which must be at the 3000 or 4000 level

Theatre Emphasis

Three courses including:

- THE 4513 Theater History and Literature I
- THE 4523 Theater History and Literature II

C. Bachelor of Arts Degree Requirements	20 hours
D. Electives	12 hours
E. Total	124 hours

INTERDISCIPLINARY MINORS

General Information

Florida Southern College offers interdisciplinary minors in Advertising Design, Integrated Marketing Communication, Latin American Studies, and Women’s Studies. Please see the appropriate program director for more information.

Advertising Design

The minor in Advertising Design provides students with design practices and creative strategies needed to excel within the field of advertising design. Hands-on coursework will present students with challenges faced in the industry and the skills and knowledge necessary to face those challenges.

Advertising Design Minor Requirements

- ART 1120 Design Fundamentals
- ART 2410 Typography and Layout
- COM 2500 Desktop Publishing
- COM 3410 Advertising Creative
- COM/SPC 4400 Advertising and Public Relations Campaigns

One of the following courses:

- ART 3410 Advanced Print Design
- ART 3510 Web Design

Total hours in the minor 24

Integrated Marketing Communication Minor

The minor in Integrated Marketing Communication blends coursework in marketing, advertising and public relations to better prepare students for careers in the professional communication industry. Students will gain hands-on experience in gathering & applying research to strategically coordinate messages and establish relationships with target audiences.

Integrated Marketing Communication Minor Requirements

- BUS 3160 Marketing Principles
- BUS 4466 Marketing Research
- BUS 4488 Marketing Management
- COM/SPC 3400 Principles of Advertising and Public Relations
- COM/SPC 4400 Advertising and Public Relations Campaigns

One of the following courses:

- COM 2500 Desktop Publishing
- COM 3410 Advertising Creative
- COM 3420 Copy Writing
- SPC 3450 Public Relations Writing
- SPC 4350 Public Relations Strategies

Total hours in the minor 24

Latin American Studies Minor

The Latin American Studies Minor provide a comprehensive view of Latin America from the perspectives of political science, Spanish and Portuguese literatures, history, sociology, and other fields. Students are required to take 20 hours, which include 12 hours in Spanish or Portuguese or a combination of the two areas. In addition, students are required to take eight hours selected from other LAS offerings. Latin American Studies minors are strongly encouraged to study abroad in Latin America as any courses taken during a study abroad experience can also be counted for the minor.

Latin American Studies Minor Requirements

Twelve hours in Spanish or Portuguese or a combination of the two areas

Eight hours chosen from the following courses or a study abroad option in Latin America:

- LAS 2005 Latin American Culture
- LAS 2006 Latin America on Film I
- LAS 2007 Latin America on Film II
- SPA/LAS 3308 Topics in Hispanic Culture and Civilization
- SPA/LAS 3335 Latin American Film and Fiction
- HIS/LAS 3355 History of Florida
- HIS/LAS 3365 History of Modern Latin America

Total hours in the minor 20

Pre-Law Minor

The pre-law minor covers the basic foundation courses relevant to problem solving and analysis generally associated with the legal profession. Students on a trajectory for graduate study in law, legal issues, public administration and management will find this a useful minor. It is inclusive of courses that prepare the student for LSAT testing (Logic; Accounting) as well as socialization to the profession itself.

Pre-Law Minor Requirements

ACC 2111	Foundations of Financial Accounting
PHI 2208	Logic
POS 2500	Law and the Courts
SPC 1500	Fundamentals of Speech

One approved writing course outside of the student's major field of study that satisfies the Effective Communication C General Education SLO

At least one hour of internship credit with a law firm approved by the pre-law advisor

Total hours in the minor 21

Women and Gender Studies Minor

Women’s Studies offers a twenty credit hour interdisciplinary minor.

The Women and Gender Studies minor provides an interdisciplinary framework for exploring the role of women throughout history and the ways in which gender influences cultural, social, political, and economic relations. Students will gain skills in analytical and critical thinking through the study of gender from diverse academic perspectives, such as literature, religion, economics, communication, sociology, psychology, and criminology. Faculty members from a number of academic departments support and teach in the Women and Gender Studies program. A minor in Women and Gender Studies will complement almost any major field of study. Students who complete the minor will enhance their problem-solving, leadership, and communication skills.

Women and Gender Studies Minor Requirements

WST 2200	Introduction to Women’s and Gender Studies
WST 3550	Special Topics in Gender Studies
WST 4400	Women and Gender in Contemporary Culture

Eight hours selected from the following courses, or any other course cross-listed with WST:

WST/SOC 2220	Marriage and Family
WST/REL 2256	Gender, Interpretation and the Biblical Tradition
WST/ENG 3370	Literature by Women
WST 3550	Special Topics in Gender Studies (under a different topic than above)

Total hours in the minor 20

LANDSCAPE HORTICULTURE

See Horticultural Science

MARINE BIOLOGY

General Information

Marine biology is the study of the organisms that reside in the world’s ocean environments. Marine ecosystems cover more than 70% of the Earth’s surface, and the diversity of life that exists in these environments is astounding. The Marine Biology major allows students to explore the variety of life in the world’s oceans, estuaries, and coral reefs. Graduates of this program are well prepared to enter Marine Biology graduate programs or gain employment as marine scientists with county, state, and federal agencies, aquaria/museums, universities, and private marine organizations or consulting firms.

Statement on Engaged Learning

The Department of Biology includes many types of engaged learning activities in its courses. Most courses required in the major have laboratory or field components, where students work in pairs or in groups to engage in various aspects of the scientific process such as problem solving, experimental design, manipulation of variables, and data interpretation. Field trips, mini labs, small and large group discussions, presentations, case studies, and use of specific scientific computer programs are other methods commonly employed in the classroom to engage students. All students majoring in Marine Biology are required to design and implement their own original research project.

Program Requirements

All Marine Biology majors must earn a grade of "C" or better in all BIO courses and courses cross-listed with BIO.

Special Requirements:

Due to the similarities in the programs, students majoring in Marine Biology are not allowed to double major or minor in Biology.

Marine Biology Major Requirements

A. General Education Requirements..... 40 hours

B. Major Requirements 72-73 hours

BIO 1500	Biological Essentials
BIO 1520	Introduction to Marine Biology
BIO 1820	Oceanography
BIO 2230	General Zoology
BIO 2320	Aquatic Microbial Diversity
BIO 3150	Ecology
MAT 2032	Biostatistics

Choose three of the following:

BIO 2120	Biology and Conservation of Marine Mammals
BIO 2220	Biology of the Fishes
BIO 3120	Biology of Amphibians and Reptiles
BIO 3720	Techniques in Nucleic Acid Research and
BIO 3725	Techniques in Cloning
BIO 3920	Marine Invertebrate Zoology

Six hours selected from the following:

BIO 4460	Introduction to Ecology Research <i>and</i>
BIO 4461/4462	Research: Ecology

or

BIO 4560	Introduction to Molecular Biology Research <i>and</i>
BIO 4561/4562	Research: Molecular Biology

or

HON 4955	Honors Senior Thesis <i>and</i>
HON 4956	Honors Senior Thesis

Choose one of the following chemistry sequences:

CHE 1011	Chemical Foundations for the Biological Sciences I <i>and</i>
CHE 1015	Introduction to Organic and Biochemistry <i>and</i>
CHE 1017	Introduction to Chemical Analysis

or

CHE 1111	Principles of Chemistry I <i>and</i>
CHE 1112	Principles of Chemistry II

Sixteen semester hours chosen from the following:

- BIO/ENV 2200 Environmental Issues
- BIO/ENV 2201 Environmental Science
- BIO 2235 General Botany
- BIO 2750 Evolution
- BIO/CHE 3362 Biochemistry: Molecular Biology
- BIO 3700 Genetics
- BIO 3850 Parasitology
- BIO 3900 Animal Behavior
- BIO 4150 Plant Physiology
- BIO 4461 or 4462 or 4561 or 4562 Research (1 semester)
- BIO 4960/4961 Internship

- C. Bachelor of Science Degree Requirements 12 hours**
- D. Electives 0 hours**
- E. Total 124-25 hours**

MATHEMATICS

General Information

The program in mathematics offers the B.A. and B.S. degrees with a major in mathematics and the B.S. degree for students seeking certification in teaching mathematics in secondary school. (To teach in secondary school, additional coursework leading to teacher certification is required in the School of Education.) A minor in mathematics is available for students majoring in other disciplines.

The mission of the program is to promote the full potential of each student through the exploration of the world of mathematics and the mastery of the mathematics discipline necessary to be a contributing citizen in this highly technical society.

To accomplish this mission, the program's objective is to provide mathematical expertise for the Florida Southern community by offering diverse engaging programs that allow students the opportunity to explore these fields. Student-faculty collaborative research and internships are available for mathematics majors. The program provides up-to-date computer laboratories that enable students to learn and practice skills required for the pursuit of a modern liberal arts education within our technologically oriented society.

Progress Requirements

Only courses in which grades of "C" or higher are earned may count toward the major or minor in Mathematics.

Mathematics Minor Requirements

Twenty (20) hours chosen from the following:

- MAT 2311 Calculus I with Plane Analytic Geometry
- MAT 2312 Calculus II with Plane Analytic Geometry
- MAT 2505 Linear Algebra
- MAT 3205 Proof Techniques
- MAT 3313 Calculus III with Solid Analytic Geometry
- MAT 3350 Differential Equations
- MAT 3442 Probability and Statistics
- MAT 4205 Algebraic Structures
- MAT 4315 Elementary Analysis
- MAT 4630 Selected Topics in Mathematics
- MAT 4645 Selected Topics in Mathematics and Computer Science

Mathematics Major Requirements

A. General Education Requirements	40 hours
B. Major Requirements	48 hours
CSC 2231	Programming and Data Structures I
MAT 2311	Calculus I with Plane Analytic Geometry
MAT 2312	Calculus II with Plane Analytic Geometry
MAT 2505	Linear Algebra
MAT 3205	Proof Techniques
MAT 3313	Calculus III with Solid Analytic Geometry
MAT 4205	Algebraic Structures
<i>or</i>	
MAT 4315	Elementary Analysis
MAT 4999	Mathematics Senior Seminar
16 hours from the following, if not taken above:	
MAT 3350	Differential Equations
MAT 3442	Probability and Statistics
MAT 4205	Algebraic Structures
MAT 4315	Elementary Analysis
MAT 4630	Selected Topics in Mathematics
MAT 4645	Selected Topics in Computer Science and Mathematics
MAT 4960/61	Senior Internship in Mathematics (four hours maximum)
C. Bachelor of Arts Degree Requirements	20 hours
<i>or</i>	
D. Bachelor of Science Degree Requirements	12 hours
E. Electives	16-24 hours
F. Total	124 hours

MILITARY SCIENCE

The Department of Military Science offers leadership courses with two-, three-, and four-year programs of instruction leading to a commission as an officer in the United States Army. The MSL 1000- and 2000-level courses offer introductory leadership instruction to all students without incurring any military or service obligation. These courses are an excellent introduction to leadership techniques that are applicable for business, academia, and the military. The military science and leadership curriculum is designed to be sequential, with one semester building upon the lessons and information learned in the previous semester.

For those students who wish to pursue a program of study leading to a commission, qualified students may receive a monthly stipend. A limited number of military scholarships are available each year which provide financial assistance, full tuition, as well as financial assistance for book fees and full room and board. Upon successful completion of the required program of study, students are commissioned as Second Lieutenants in the Army, Army Reserve, or Army National Guard.

For more information on MSL courses, contact the Department of Military Science.

Minor in Military Science and Leadership

The minor helps students acquire leadership and management skills that make them a sought-after commodity in any environment, civilian or military. Emphasis is placed on strengthening values and ethical leadership. The minor provides the student a fundamental understanding of human behavior and the process of leading, motivating, and inspiring people to accomplish common goals. Students develop their mental, physical, and emotional capabilities. They also

develop their conceptual and interpersonal skills. Also, they learn how to communicate effectively; make good decisions; motivate others; plan, execute, and assess operations; develop and build teams; and improve themselves and the organizations they lead. The student learns basic factors, principles, ethics, styles, and competencies of leadership that affect what he/she must be, know, and do to be an effective leader. It is the most comprehensive leadership development program in the nation.

Military Science and Leadership Minor Requirements

MSL 1001	Leadership and Personal Development
MSL 1002	Introduction to Tactical Leadership
MSL 2001	Innovative Team Leadership
MSL 2002	Foundations of Tactical Leadership
MSL 2006	American Military History
MSL 3001	Adaptive Tactical Leadership
MSL 3002	Leadership in Changing Environments
MSL 4001	Developing Adaptive Leaders
MSL 4002	Leadership in a Complex World

Total hours in the minor 28

MODERN LANGUAGES

General Information

The Modern Languages Department offers a major and minor in Spanish and provides courses in French for students interested in it as a second language. The program equips students with the necessary foreign language skills, cultural understanding, and sensitivity to prepare them for graduate studies, employment, and to function in our increasingly global and diverse society. The program provides high quality instruction from elementary through advanced levels and offers a wide variety of courses in language, literature, film and culture, as well as study abroad experiences to accommodate students’ needs. The program strives to ensure that FSC students gain a working knowledge of a second language, which is a vital and practical skill for many careers in business, education, social services, health care, and the government.

The Modern Languages Department also offers a Critical Languages Program via the NASILP (National Association of Self-Instructional Language Programs) format for languages that are not offered in the regular classroom setting. Courses in Arabic, Chinese (Mandarin), German, and Portuguese are currently being offered. Major emphasis is on the development of oral and aural skills with class time spent in oral drills and conversation practice with a native speaker. Class is conducted almost entirely in the target foreign language. Tests are given by a qualified external examiner.

Students participating in the Critical Languages Program must have a cumulative GPA of at least 2.5 or approval from the program director. Prior to the first class, students will be required to attend a class orientation with the program director and sign a course agreement emphasizing their responsibility for and commitment to self-instruction. For more information about the Critical Languages Program, contact the Modern Languages Department.

Spanish Minor Requirements

A minor in Spanish requires at least 20 hours of courses counting towards the major.

Spanish Major Requirements

A. General Education Requirements	40 hours
B. Major Requirements	38 hours
SPA 1101	First Semester Spanish

SPA 1102	Second Semester Spanish
SPA 2203	Second Year Spanish
SPA 4999	Senior Capstone Project
At least one Composition and Conversation course:	
SPA 2205	Composition and Conversation I
SPA 2207	Composition and Conversation II
One Culture and Civilization course:	
SPA/LAS 3308	Topics in Hispanic Culture and Civilization
One Literature course:	
SPA 3320	Introduction to Literature in Spanish
SPA 3323	Survey of Spanish Literature
SPA 3334	Survey of Spanish-American Literature
SPA 3335	Latin American Film and Fiction
SPA 4408	Special Topics in Hispanic Literature
12 additional hours of Spanish electives chosen from the following:	
SPA 3340	Cinema for Spanish Conversation
SPA 3345	Spanish for Business
SPA 4960/4961	Internship

C. Bachelor of Arts Degree Requirements	20 hours
D. Electives	26 hours
E. Total	124 hours

MUSIC

General Information

The Department of Music offers courses of instruction leading to the Bachelor of Music degree, Bachelor of Music Education degree, and Bachelor of Arts degree. A program in Music with a Concentration in Music Management, which the department offers in conjunction with the School of Business and Economics, leads to the Bachelor of Science degree. Florida Southern College is an accredited institutional member of the National Association of Schools of Music.

Admission Requirements

Upon application to and acceptance by the Florida Southern College Office of Admissions, a student may be accepted into the music major program only through an audition in his or her applied music area. Auditions are offered throughout the school year on an appointment basis. Applicants should contact the department office for procedures which apply to them. All programs of study in music are structured in four-year formats; therefore, students intending to major in any music area should consult the department concerning appropriate courses for the first college semester.

Progress Requirements

All music majors with scholarships must be enrolled in a major ensemble in their major applied area throughout their program of study (music education majors and music management majors until the internship semester). Music majors are subject to supplementary departmental policies printed in the Department of Music Student Policies Guide, available on the FSC website and from the department office. Prior to four semesters before a student's scheduled graduation, the department will require a control examination, jury, or other procedure to determine the advisability of continuing the major in music. Although it may be required at any time, such examination or procedure will typically be instituted near the end of the freshman or sophomore year.

Minor in Music

The Minor in Music provides students majoring in other disciplines with the opportunity to learn the fundamental principles of music. Courses are selected from music theory, music history, ensembles, and applied lessons.

Music Minor Requirements

Music Theory: Five hours

- MUS 1151 Aural Skills I
- MUS 1152 Aural Skills II
- MUS 1173 Theory: Introductory Harmony

Music History: Four hours

- MUS 3381 History of Music I
- or
- MUS 3382 History of Music II

Applied – Lessons: Six hours chosen from:

- MUS 1131 – 4432 Strings (violin, viola, cello, string bass)
- MUS 1133 – 4434 Piano
- MUS 1135 – 4436 Woodwinds (flute, clarinet, oboe, bassoon, saxophone)
- MUS 1137 – 4438 Brass (trumpet, French horn, trombone, tuba)
- MUS 1139 – 4440 Percussion
- MUS 1143 – 4444 Voice
- MUS 1147 – 4448 Classical Guitar

Ensembles: Five hours chosen from:

- MUS 1101 – 4402 Chamber Singers
- MUS 1103 – 4404 Women’s Chorale
- MUS 1105 – 4406 Men’s Chorale
- MUS 1109 – 4410 Concert Choir
- MUS 1111 – 4412 Symphony Band
- MUS 1121 – 4422 Orchestra

Total hours in the minor 20

Bachelor of Arts in Music

The Bachelor of Arts in Music provides a student with a liberal arts education with an emphasis in applied music, enabling the student to teach applied music privately and/or to enter graduate school for more specialized studies. Through study in an applied music area, students develop and apply skills in their primary instrument or voice. Studies in theory, music history, and piano proficiency enable students to explore and express the structure of music and the historical context of musical genres. In chamber and large-scale ensemble experiences, students learn to collaborate with one another, musical coaches, and/or conductors in the analysis, preparation and performance of significant works of music. Students in this degree program must satisfy the B.A. requirements of the General Education curriculum.

Music (B.A.) Major Requirements

A. General Education Requirements 40 hours

B. Major Requirements 48-52 hours

Music Theory: 16 hours:

- MUS 1151 Aural Skills I
- MUS 1152 Aural Skills II
- MUS 1173 Theory: Introductory Harmony
- MUS 2251 Aural Skills III
- MUS 2252 Aural Skills IV
- MUS 2271 Theory: Advanced Harmony I

- MUS 2272 Theory: Advanced Harmony II
- MUS 3371 Theory: Form and Analysis
- Music History: Eight hours:
 - MUS 3381 History of Music I
 - MUS 3382 History of Music II
- Conducting: Two hours:
 - MUS 3386 Fundamentals of Conducting I
- Applied – Piano proficiency (non-piano majors): 0-4 hours:
 - MUS 133C – 234C Keyboard Musicianship I-IV or by performance examination
- Applied Lessons and Recitals: 14 hours (one hour required from MUS 4490)
 - MUS 1131 – 4432 Strings (violin, viola, cello, string bass)
 - MUS 1133 – 4434 Piano
 - MUS 1135 – 4436 Woodwinds (flute, clarinet, oboe, bassoon, saxophone)
 - MUS 1137 – 4438 Brass (trumpet, French horn, trombone, tuba)
 - MUS 1139 – 4440 Percussion
 - MUS 1143 – 4444 Voice
 - MUS 1147 – 4448 Classical Guitar
 - MUS 4490 Senior Recital

Ensemble: Eight hours total

At least five ensemble hours must be chosen from the following major ensembles:

- MUS 1101 – 4402 Chamber Singers
- MUS 1103 – 4404 Women’s Chorale
- MUS 1105 – 4406 Men’s Chorale
- MUS 1109 – 4410 Concert Choir
- MUS 1111 – 4412 Symphony Band
- MUS 1121 – 4422 Orchestra

Three additional hours must be chosen either from the major ensembles listed above or the chamber ensembles listed below:

- MUS 1107 – 4408 Opera Theatre
- MUS 1113 – 4414 Jazz Ensemble
- MUS 1117 – 4418 Wind Ensemble
- MUS 1119 – 4420 Piano Ensemble (two hours required for piano majors)
- MUS 1123 – 4424 Chamber Ensemble (variable selections)

- C. Bachelor of Arts Degree Requirements 20 hours**
- D. Electives 12-16 hours**
- E. Total 124 hours**

Bachelor of Music in Performance

The Bachelor of Music in Performance enables a student to enter a graduate school for further study, teach applied music privately, and/or enter a professional career in music performance. Through comprehensive studies in their applied music areas, students develop and apply advanced skills on their primary instrument or voice. With studies in theory, music history, and piano proficiency, students explore the structure of music and the historical context of musical genres. In chamber and large-scale ensemble experiences, students learn to collaborate with one another, with musical coaches, and/or with conductors in the analysis, preparation and performance of significant works of music.

Bachelor of Music in Performance Major Requirements

- A. General Education Requirements..... 40 hours**
- B. Major Requirements 70-74 hours**
 - Music Theory: 16 hours:
 - MUS 1151 Aural Skills I
 - MUS 1152 Aural Skills II

- MUS 1173 Theory: Introductory Harmony
- MUS 2251 Aural Skills III
- MUS 2252 Aural Skills IV
- MUS 2271 Theory: Advanced Harmony I
- MUS 2272 Theory: Advanced Harmony II
- MUS 3371 Theory: Form and Analysis
- Music History: Eight hours:
 - MUS 3381 History of Music I
 - MUS 3382 History of Music II

- Conducting: Two hours:
 - MUS 3386 Fundamentals of Conducting I

Six hours chosen from one of the tracks below:

- | | | | |
|-------------|------------------|--------------------|--|
| Vocal Track | | Instrumental Track | |
| MUS 1184 | English Diction | MUS 3372 | Theory: Counterpoint |
| MUS 1185 | German Diction | | or |
| MUS 1186 | Italian Diction | MUS 4471 | Orchestration |
| MUS 1187 | French Diction | | |
| MUS 3377 | Vocal Pedagogy | | Four additional hours of Music electives |
| MUS 3383 | Vocal Literature | | |

Applied – Piano proficiency (non-piano majors): 0-4 hours

- MUS 133C – 234C Keyboard Musicianship I-IV or by performance examination

Applied Lessons and Recitals: 22 hours (one hour required from MUS 3390 and one hour required from MUS 4490)

- MUS 1131 – 4432 Strings (violin, viola, cello, string bass)
- MUS 1133 – 4434 Piano
- MUS 1135 – 4436 Woodwinds (flute, clarinet, oboe, bassoon, saxophone)
- MUS 1137 – 4438 Brass (trumpet, French horn, trombone, tuba)
- MUS 1139 – 4440 Percussion
- MUS 1143 – 4444 Voice
- MUS 1147 – 4448 Classical Guitar
- MUS 3390 Junior Recital
- MUS 4490 Senior Recital

Ensemble: Eight hours total

At least five ensemble hours must be chosen from the following major ensembles:

- MUS 1101 – 4402 Chamber Singers
- MUS 1103 – 4404 Women’s Chorale
- MUS 1105 – 4406 Men’s Chorale
- MUS 1109 – 4410 Concert Choir
- MUS 1111 – 4412 Symphony Band
- MUS 1121 – 4422 Orchestra

Three additional hours must be chosen either from the major ensembles listed above or the chamber ensembles listed below:

- MUS 1107 – 4408 Opera Theatre
- MUS 1113 – 4414 Jazz Ensemble
- MUS 1117 – 4418 Wind Ensemble
- MUS 1119 – 4420 Piano Ensemble (two hours required for piano majors)
- MUS 1123 – 4424 Chamber Ensemble (variable selections)

Language Requirements: Eight hours

To be fulfilled through the Modern Language Department’s offerings
(German, Italian or French preferred.)

- C. Electives 10-14 hours**
- D. Total 124 hours**

Bachelor of Music Education

Approved by the Florida State Department of Education to satisfy the educational requirements for the baccalaureate degree and initial teacher certification in Florida, the Bachelor of Music Education degree prepares a student to enter a professional teaching career in the K-12 setting, vocal and instrumental. Through a rigorous and comprehensive music education curriculum that includes courses in conducting, pedagogy, and technology, extensive field studies as well as professional education courses, students learn to structure and apply music for meaningful and effective class and ensemble instruction. Students must earn a grade of “C” or better in all music education, professional education, and conducting courses.

Bachelor of Music Education Major Requirements

A. General Education Requirements	40 hours
B. Major Requirements	95-99 hours
	*(97-101 Voice)

Music Theory: 16 hours

MUS 1151	Aural Skills I
MUS 1152	Aural Skills II
MUS 1173	Theory: Introductory Harmony
MUS 2251	Aural Skills III
MUS 2252	Aural Skills IV
MUS 2271	Theory: Advanced Harmony I
MUS 2272	Theory: Advanced Harmony II
MUS 3371	Theory: Form and Analysis

Music History: Eight hours

MUS 3381	History of Music I
MUS 3382	History of Music II

Conducting: Four hours

MUS 3386	Fundamentals of Conducting I
MUS 3387	Fundamentals of Conducting II

Music Education: 12 hours

MUS 2275	Strings Pedagogy
MUS 2276	Woodwind Pedagogy
MUS 2277	Choral Pedagogy
MUS 3375	Brass Pedagogy
MUS 3376	Percussion Pedagogy
MUS 4476	Elementary Methods and Materials
MUS 4477	Secondary Methods and Materials
MUS 4889	Music Education Seminar

Applied – Piano proficiency (non-piano majors): 0-4 hours

MUS 133C – 234C	Keyboard Musicianship I-IV or by performance examination
-----------------	--

Applied Lessons and Recitals: 14 hours (one hour required from MUS 4490)

MUS 1131 – 4432	Strings (violin, viola, cello, string bass)
MUS 1133 – 4434	Piano
MUS 1135 – 4436	Woodwinds (flute, clarinet, oboe, bassoon, saxophone)
MUS 1137 – 4438	Brass (trumpet, French horn, trombone, tuba)
MUS 1139 – 4440	Percussion
MUS 1143 – 4444	Voice
MUS 1147 – 4448	Classical Guitar
MUS 4490	Senior Recital

Ensemble: Seven hours total

At least five ensemble hours must be chosen from the following major ensembles:

MUS 1101 – 4402	Chamber Singers
MUS 1103 – 4404	Women’s Chorale

- MUS 1105 – 4406 Men’s Chorale
- MUS 1109 – 4410 Concert Choir
- MUS 1111 – 4412 Symphony Band
- MUS 1121 – 4422 Orchestra

Two additional hours must be chosen either from the major ensembles listed above or the chamber ensembles listed below:

- MUS 1107 – 4408 Opera Theatre
- MUS 1113 – 4414 Jazz Ensemble
- MUS 1117 – 4418 Wind Ensemble
- MUS 1119 – 4420 Piano Ensemble (two hours required for piano majors)
- MUS 1123 – 4424 Chamber Ensemble (variable selections)

Professional education: 34 hours

- EDU 1107 Foundations of Education I
- EDU 2200 Field Study Level I
- EDU 2203 Foundations of Education II
- EDU 2210 Foundations in Special Education
- EDU 2235 Technology Infused Teaching and Educational Assessments and Measurements
- EDU 3279 Foundations of ESOL I
- EDU 3323 Field Study Level II
- EDU 3333 Foundations of Education III
- EDU 4454 Special Methods in Education
- EDU 4457 Reading and Writing in the Content Areas in the Secondary School
- EDU 4889 Student Teacher Intern Seminar
- EDU 4990 Senior Internship

*Other requirements for voice concentration majors only: Two hours

- *MUS 1185 German Diction for Applied Voice
- *MUS 1186 Italian Diction for Applied Voice

C. Electives	0 hours
D. Total	135-139 hours *(137-141 Voice)

Bachelor of Science in Music with a Concentration in Music Management

The Bachelor of Science in Music with a Concentration in Music Management is an interdepartmental degree program that provides a student with a carefully selected combination of music, economics, and business courses that enable the student to enter a career in music business: music retail, music marketing, artist management, hall management, music publishing, record production (non-technical), and similar areas. Through studies in applied music, music theory, music history, and ensemble, students gain insight about the challenges and demands of music study and performance. Studies in business and economics provide students with a foundation in business administration that serves to prepare them for the pursuit of a professional music business career. The final semester of study will culminate in a music management internship. Students in this degree program must satisfy the B.S. requirements of the General Education curriculum.

Music (B.S.) with a Concentration in Music Management Major Requirements

A. General Education Requirements	40 hours
B. Major Requirements	85 hours

Music Theory: Nine hours

- MUS 1151 Aural Skills I
- MUS 1152 Aural Skills II
- MUS 1173 Theory: Introductory Harmony
- MUS 2251 Aural Skills III

MUS 2271	Theory: Advanced Harmony I
Music History:	Twelve hours
MUS 1164	History of Jazz
MUS 3381	History of Music I
MUS 3382	History of Music II
Keyboard Musicianship:	Four hours (non-piano majors)
MUS 133C	Keyboard Musicianship I
MUS 134C	Keyboard Musicianship II
MUS 233C	Keyboard Musicianship III
MUS 234C	Keyboard Musicianship IV
<i>(Note: Students testing out of Keyboard Musicianship classes will take a comparable number of credits in Applied Piano in addition to the required six hours of Applied Lessons.)</i>	
Applied Lessons:	Six hours
MUS 1131 – 4432	Strings (violin, viola, cello, string bass)
MUS 1133 – 4434	Piano
MUS 1135 – 4436	Woodwinds (flute, clarinet, oboe, bassoon, saxophone)
MUS 1137 – 4438	Brass (trumpet, French horn, trombone, tuba)
MUS 1139 – 4440	Percussion
MUS 1143 – 4444	Voice
MUS 1147 – 4448	Classical Guitar
Pedagogy:	Four hours
MUS 2275	Strings Pedagogy
MUS 2276	Woodwind Pedagogy
MUS 3375	Brass Pedagogy
MUS 3376	Percussion Pedagogy
Ensemble:	Seven hours total
At least five hours must be chosen from the following ensembles:	
MUS 1101 – 4402	Chamber Singers
MUS 1103 – 4404	Women's Chorale
MUS 1105 – 4406	Men's Chorale
MUS 1109 – 4410	Concert Choir
MUS 1111 – 4412	Symphony Band
MUS 1121 – 4422	Orchestra
Two additional hours must be chosen either from the major ensembles listed above or the chamber ensembles listed below:	
MUS 1107 – 4408	Opera Theatre
MUS 1113 – 4414	Jazz Ensemble
MUS 1117 – 4418	Wind Ensemble
MUS 1119 – 4420	Piano Ensemble (two hours required for piano majors)
MUS 1123 – 4424	Chamber Ensemble (variable selections)
Business and Music Management:	43 hours
ACC 2111	Foundations of Financial Accounting
ACC 2112	Foundations of Managerial Accounting
BUS 2217	Principles of Management
BUS 3160	Marketing Principles
BUS 3311	Legal Environment of Business
ECO 2205	Principles of Microeconomics
ECO 2207	Principles of Macroeconomics
MUS 2253	Introduction to Music Business
MUS 4455	Music Product and Retailing
MUS 4459	Music Management
MUS 4462	Music Management Internship

C. Bachelor of Science Degree Requirements	12 hours
D. Electives	0 hours
E. Total	137 hours

NURSING

General Information

Florida Southern College offers three separate programs in Nursing. They are: 1) BSN (Pre-licensure), 2) BSN (RN to BSN) and 3) MSN (Nurse Practitioner, Clinical Nurse Specialist and Nurse Educator Tracks). These programs are approved by the Florida State Board of Nursing (FBON) and accredited by the Commission on Collegiate Nursing Education (CCNE), One Dupont Circle, NW, Suite 530, Washington, DC 20036-1120. Information about the BSN (pre-licensure) and BSN (RN-BSN) programs appears below. For information about the MSN programs, see p. 269.

BSN (Pre-licensure) – Day Program

The BSN program prepares students for a career in nursing. Upon graduation, students are qualified to apply to take the National Council Licensure Exam for RNs (NCLEX-RN) to obtain licensure as a Registered Nurse (RN), which allows them to practice in many different roles across a wide variety of health care settings such as hospitals, clinics, home care, hospice or other administrative or educational settings. The BSN curriculum includes general education and prerequisite courses to support the student's health care focus. Nursing courses begin in the freshman year with initial clinical practice commencing in the sophomore year. In the junior and senior years of the BSN program, students take a variety of clinical courses such as pediatrics, obstetrics, adult health, psychiatric and community health nursing. Students participate in extensive clinical simulation laboratories throughout the course of study and have a wide range of internship opportunities in the senior year of the program. Students may also participate in the nursing focused junior journey trips to domestic and international locations, where they will engage in health care and nursing activities under the supervision of a nursing faculty member.

Admission Requirements

There are three entry pathways into the BSN pre-licensure program:

Direct entry applicants: High school students may apply to the BSN program and begin their nursing education in the freshman year to be completed over a four year time period. In order to apply for direct entry a student must first be admitted to the College and, at minimum, should meet the academic criteria which follow. Admission to the program is competitive, and a comprehensive review of application materials will determine admittance.

Criteria for direct entry:

- Academic GPA of 3.25
- and*
- 1000 SAT (M+CR); 500 on math section
- or*
- 22 ACT; 22 on math section

Students offered a direct entry seat are admitted provisionally for the first year. Provided that they complete all course requirements, including the first nursing course (NUR 1100), with a GPA of 3.0 or better, and complete all prerequisite courses with a grade of C or better, students do not need to re-apply to the BSN program. In all subsequent years, students should maintain an overall Florida Southern GPA of 3.0, a final grade of C or better in all BSN major and prerequisite courses, and pass a midterm assessment exam during the sophomore year with an overall grade of 76% or better. Students who are unable to maintain the required GPA and these stated standards may be unenrolled from the BSN program.

Internal transfer applicants: Students currently enrolled at Florida Southern in different majors may apply for a change of major into the BSN program. Students must meet all requirements for direct entry, have met or will meet all prerequisite course requirements, and have an overall GPA of 3.0 and a C or better in all prerequisite courses. The Dean of the School of Nursing and Health Sciences will review all internal applicants and make a final decision for a change in major

based on merit and available space in the program. There is no guarantee for transfer into the BSN major from other majors even if the student meets academic eligibility.

External transfer applicants: In order to apply for admission to the BSN program, a transfer student must first be admitted to the College and, at minimum, should meet the following academic criteria:

- Overall college GPA of 3.0 for completed courses received as transfer credits;
- Completion of at least three prerequisite courses including the Anatomy/Physiology courses, all with a grade of C or higher;
- Additional requirements dependent on placement within the nursing major.

Application deadline for the BSN program is March 1 for the following fall semester. If admitted to the BSN program, students should maintain an overall Florida Southern GPA of 3.0 and a final grade of C or better in all BSN major and prerequisite courses. Students who are unable to maintain the required GPA and these eligibility standards may be unenrolled from the BSN program.

Special Requirements

- All pre-licensure BSN students are required to participate in clinical education experiences at off-site locations. Each BSN student is responsible for obtaining reliable transportation to the clinical sites. Students may be assigned clinical rotations in the evening or weekend hours.
- Each pre-licensure BSN student is required to complete a criminal background screening including finger printing prior to starting the first clinical. NOTE: any student with a prior arrest or conviction history may be denied entry into the BSN program due to our agency contract agreements or may be denied licensure as a registered nurse per Florida Statute 464 (Nurse Practice Act). Students who apply to the BSN program with a prior criminal background check must be further screened by the Undergraduate Program Director and approved by the Dean of the School of Nursing and Health Sciences prior to acceptance into the BSN pre-licensure program. Failure to disclose prior criminal history on application or report any subsequent criminal arrest after enrollment at Florida Southern College to the Dean of the School of Nursing and Health Sciences may disqualify the student from the BSN program.
- Each nursing student is required to complete a ten-panel drug screen prior to starting the first clinical. Any student may be requested to repeat the urine drug screen as required by any clinical site or as part of a drug testing program. The cost of the background check and drug screenings is the responsibility of the student. NOTE: Students who have a positive drug test may be denied acceptance into the BSN program or be unenrolled from the BSN program.
- Successful completion of an assessment exam of general college-level knowledge during the sophomore year.
- A blanket student nursing liability insurance policy will cover all nursing students for the time he or she is providing patient care as part of a supervised clinical education experience. The student will be billed the annual fee.
- All BSN students must have a current BLS certification with A.E.D. and maintain certification through the end of the program of study.
- Each nursing student is required to provide proof of immunization prior to entering any clinical site. The following are required:
 - a) Mantoux tuberculin test (2-step method if more than one year has passed since the last Mantoux tuberculin test)
 - b) Measles/Mumps/Rubella (MMR) titers
 - c) Hepatitis B titer
 - d) Hepatitis C titer
 - e) Varicella titer
 - f) Pertussis (Tdap booster within past 10 years) vaccination record
 - g) Tetanus booster every 10 years

- h) Annual flu vaccine or declination
- i) Health statement of physical fitness from health care provider stating student may participate in clinical experience assignments
- The student is responsible for all related costs for immunization. No student will be allowed to begin clinical experiences until all immunizations or proof of immunity (titers) has been submitted to the nursing office.
- Students who have positive antibodies for Hepatitis C or HIV or other chronic infective diseases that may compromise patient safety, must be further screened and counseled. Because students will have direct contact with patients during the course of their clinical assignments in hospitals and other care settings, specific safeguards or other restrictions to practice may be imposed on the student to protect patients and themselves. The clinical agencies will have final say whether infected students can practice or attend clinical assignments.

Progress Requirements

An overall GPA of 3.0 or higher is required for progression in the major. A grade of “C” or higher is required in all coursework for the nursing major. A student will be placed on probation in the semester following non-compliance of the required academic or professional conduct standards. Students who do not meet GPA requirements in subsequent semesters may be dismissed from the BSN program. Standardized testing is used to monitor student progress throughout the program, and students must pass a final exit examination to meet BSN major graduation requirements. See the Nursing Student Handbook for specific policies. Because BSN students will participate in actual patient care in hospitals and other health care settings, there is an expectation of a high standard of conduct and professional behavior for all students. Students who do not maintain the expected level of academic and professional performance may be unenrolled from the nursing program.

Estimated Nursing Fees

Immunization Tracker	\$25.00
FDLE Background Check and 10-panel urine drug screen	\$145.00
Immunizations (varicella, Tdap, PPD, HEp C titer)	\$315.00
Entrance or progress exam	\$ 45.00
Uniforms (2) and shoes (estimate).....	\$240.00
Nursing skills kit (stethoscope, scissors, BP cuff, etc. (estimate).....	\$125.00
Content mastery modules and testing (sophomore, junior, and senior years)	\$325.00 per semester

Nursing (B.S.N.) Major Requirements

RN-BSN – Evening Program

General Information

The RN to BSN program is available to currently licensed registered nurses who would like to complete their BSN degree. The RN to BSN program provides a contemporary curriculum that (1) provides the student with a value based liberal arts foundation for the first professional degree (BSN); (2) prepares the student for lifelong learning; (3) advances individual critical thinking skills; and (4) prepares the student for graduate school.

Special Requirements:

The following special requirements apply for all RN-BSN students:

- All students in the RN to BSN program must have a valid and unrestricted Registered Nurse license from the state of Florida.
- All accepted nursing students are required to participate in clinical education experiences at FSC and off-site locations. Each RN to BSN student is responsible for obtaining reliable transportation to the clinical sites.
- If the student is not currently employed as a registered nurse, then he or she is required to successfully complete a ten-panel drug screen and criminal background screening inquiry (including finger printing for Pre-licensure students) prior to enrolling in any professional nursing course. Any student may be requested to repeat the urine drug screen periodically while enrolled in the nursing program. The drug screen may be repeated at random, for cause or as required by any clinical site. The cost of background and drug screenings is the responsibility of the student.
- Each nursing student is required to provide proof of immunization prior to entering any clinical site (see pre-licensure BSN requirements above). There may be additional requirements based on the specific agency agreement for any clinical placement the student may participate.
- A blanket student nursing liability insurance policy will cover all nursing students for the time he or she is providing patient care as part of a supervised clinical education experience. The student will be billed the annual fee.

Evening Program Admission Requirements

Students who have earned an Associate of Arts degree from a regionally accredited community college in Florida will have met all General Education requirements and may have earned up to 62 hours towards their degree. For students who have earned a diploma in nursing or an Associate of Science degree, a maximum of 62 semester hours from a regionally accredited community

college may be applied towards the BSN degree, including 30 semester hours awarded for prior nursing courses upon verification of a valid transcript from an accredited college or university. Courses towards the FSC General Education requirement are awarded on a course-by-course basis if an A.A. was not earned at another institution prior to matriculation at Florida Southern. The Registrar will have final say regarding which courses will be awarded transfer credit towards the BSN.

Progress Requirements

- A grade of “C” or higher is required in all coursework for the nursing major.
- The entire program must be completed within seven years of admission.

A student will be placed on probation in the semester following non-compliance of the required academic or professional conduct standards. If still not compliant at the end of the probation semester, the student may be suspended from the program. Once placed on probation, the student must be compliant for two consecutive semesters following the initiation of the probation to return to good standing in the program. (See the Nursing Student Handbook for specific policies.)

Nursing (R.N. - B.S.N.) Major Requirements

A. General Education Requirements.....	40 hours
B. Major Requirements	40 hours

NUR 4590	Leadership and Management
NUR 4999	Capstone Seminar in Nursing
C. Electives.....	44 hours
D. Total	124 hours

PHILOSOPHY

General Information

Students who pursue the B.A. in Philosophy will deal with fundamental questions about the nature of reality, knowledge, and value: Is there a God? Is the soul something different from the body? Do human beings have free will? Are there objective standards of morality? What are the grounds and limits of human knowledge? Philosophy addresses these kinds of questions using critical reasoning methods that develop students’ problem-solving skills. Philosophical reasoning skills are portable: you can adapt them to various kinds of practical and theoretical problems. Philosophy is especially useful as a major or minor for students considering graduate study or career fields requiring abstract reasoning and creative problem solving abilities.

Special Programs

Academically exceptional students majoring in Philosophy may pursue Honors in the Major. Students must maintain a minimum GPA of 3.66 in the major and a cumulative GPA of 3.5. At least half of their total coursework must have been completed at FSC. Candidates must apply for acceptance into Honors in the Major no later than the third semester prior to graduation, and if

accepted, begin the Honors course sequence, PHI 4953 and 4954: Honors in Philosophy. Working under a project director in these courses, students will prepare a major paper to be presented to their thesis committee during the final semester. Please see the Religion and Philosophy Department Chair by the first semester of the junior year for further information.

Philosophy Minor Requirements

20 hours selected from PHI courses applicable to the major.

Philosophy Major Requirements

A. General Education Requirements.....	40 hours
B. Major Requirements	42 hours
PHI 2204	Ethics
PHI 2208	Logic
PHI/REL 2219	World Religions and Philosophies
PHI 3109	Great Philosophers I
PHI 3309	Great Philosophers II
PHI 4999	Philosophy Capstone Seminar
Eight hours selected from the following:	
PHI 4459	Knowledge, Truth, and Reality
PHI 4479	Special Topics in Philosophy (may be taken more than once with different topics)
Twelve additional hours selected from the following if not selected above:	
PHI 1109	What Is Philosophy?
PHI 2224	Business Ethics
PHI 3359	Aesthetics
PHI/REL 3365	Theological and Philosophical Themes in Contemporary Literature
PHI/REL 3388	Fundamental Questions in Theology and Philosophy
PHI 3500	Social and Political Philosophy
PHI 4459	Knowledge, Truth, and Reality

D. Electives	22 hours
E. Total	124 hours

PHYSICS

General Information

A minor in Physics is available through the Computer Science and Physical Science Department. The Physics minor introduces students to the basics of contemporary physics. Students can have the opportunity to deepen their understanding of the foundations of physics and its applications in other fields. At Florida Southern College, the Physics minor is intended to provide students with a strong background in the principles of physics and the application of those principles to new and emerging technologies. It provides an understanding of both a classical and quantum description of matter. The Physics minor is particularly effective in preparing students for graduate study and careers in chemistry, physics, engineering, applied mathematics, research, and/or teaching.

Physics Minor Requirements

MAT 2311	Calculus I
PHY 2110	General Physics I (Calculus Based)
PHY 2120	General Physics II (Calculus Based)
PHY 3070	Modern Physics I
Four hours selected from the following	
PHY 3050	Special Topics in Physics
PHY 3080	Modern Physics II

Total hours in the minor 20

POLITICAL COMMUNICATION

General Information

Political Communication is the study of information flow through political processes and institutions. Majors gain the practical and theoretical knowledge necessary to compete in multitude of industries connected to the political arena. With exposure to social science research methods, journalism practices, speech writing, and debate experience, majors develop a strong set of marketable skills. Students will graduate prepared for careers in industries including business and political consulting, public affairs, political journalism, and public diplomacy.

Political Communication Major Requirements

Only courses in which grades of “C” or higher are earned may count toward the major.

A. General Education Requirements..... 40 hours

B. Major Requirements 48 hours

COM 4550	Communication Research
ENG 3200	Writing for Business
<i>or</i>	
ENG 3217	Creative Nonfiction Writing
<i>or</i>	
ENG 3219	Persuasive Writing
MAT 2022	Elementary Statistics
POS/COM 4905	Politics and the Media
POS 4960/4961	Internship (4 hours)
SPC 1500	Fundamentals of Speech

Select two courses from one Political Science concentration and one course from the other Political Science concentration:

American Politics Concentration

POS 1125	The American Political System
POS 2500	Law and the Courts
POS 3320	The Presidency and Congress
POS 3325	U.S. Campaigns and Elections
POS 3400	Political Parties and Interest Groups
POS 4429	Political Theory

International Relations Concentration

POS 2400	National and International Political Economy
POS 2900	Introduction to International Relations
POS/HIS 3175	United States Foreign Policy
POS 3323	International Organizations
POS 3345	Conflict and War
POS 3500	The International Relations of the Developing World
POS 3600	Topics in International Relations

Select one Communication concentration below:

Media Concentration

- COM 3300 News Reporting
- COM 3330 Feature and Opinion Writing

or

- COM/SPC 3900 Special Topics in Communication
- COM 4500 Communication Law and Ethics

Public Affairs Concentration

or

D. Bachelor of Science Degree Requirements 12 hours

E. Electives 16-24 hours

F. Total 124 hours

POLITICAL SCIENCE

General Information

The Department of Political Science offers the B.A. and B.S. degree in Political Science. Courses focus on American Politics and International Relations. Students are encouraged to take a variety of courses in both areas and not become too specialized at the undergraduate level. The Department offers Honors in the Major and Internship opportunities for those who qualify.

Progress Requirements

Students must have at least a 2.5 GPA in the major and either instructor's permission or 18 hours of political science courses to register for POS 4960 or 4961 (Internship).

Political Science Minor Requirements

To earn a minor in Political Science, students must complete a minimum of 20 hours of political science coursework, subject to the following restrictions:

1. Eight of the twenty hours of coursework must be earned the 1000- and 2000--level.
2. Twelve of the twenty hours of coursework must be earned at the 3000- and 4000-level.
3. Students must complete two courses of any level in American Politics and two of any level in International Relations (see below).
4. An internship is NOT required for the minor.
5. Only one hour of internship credit (POS 4960 or 4961) may be applied toward the minor.

American Politics Courses

- POS 1005 Summer Odyssey 20XX: FSC in D.C.
- POS 1125 The American Political System
- POS 2500 Law and the Courts
- POS 3100 Southern Politics

POS 3325	U.S. Campaigns and Elections
POS 3320	The Presidency and Congress
POS 3400	Political Parties and Interest Groups
International Relations Courses	
POS 1005	Summer Odyssey 20XX: FSC in D.C.
POS 2400	National and International Political Economy
POS 2900	Introduction to International Relations
POS 3175	Foreign and Security Policy of the United States
POS 3323	International Organizations
POS 3345	Conflict and War
POS 3500	The International Relations of the Developing World
POS 3600	Topics in International Relations

Political Science Major Requirements

A. General Education Requirements..... 40 hours

B. Major Requirements 37-41 hours

POS 1125	The American Political System
POS 4960	Internship (1-5 hours)
POS 4999	Senior Seminar in Political Science
MAT 2022	Elementary Statistics

Majors must complete an additional 24 hours of course work in Political Science, subject to the distribution requirements below:

At least one course chosen from the following:

POS 2500	Law and the Courts
POS 3320	The Presidency and Congress
POS 3325	U.S. Campaigns and Elections
POS 3400	Political Parties and Interest Groups

At least one course from the following:

POS/HIS 3175	United States Foreign Policy
POS 3323	International Organizations
POS 3345	Conflict and War
POS 3500	The International Relations of the Developing World
POS 3600	Topics in International Relations

At least one course from the following:

HIS 3165	History of Modern Europe
HIS 3275	History of East Asia
HIS 3365	History of Modern Latin America
HIS 3415	History of the Middle East

C. Bachelor of Arts Degree Requirements 20 hours
or

D. Bachelor of Science Degree Requirements 12 hours

E. Electives 23-35 hours

F. Total 124 hours

PSYCHOLOGY

General Information

Psychology offers two degrees: the Bachelor of Science in psychology and the Bachelor of Arts in psychology. A minor in psychology is also available (20 hours of PSY courses). Psychology majors have the opportunity to work in collaboration with energetic faculty in building a thorough understanding of the major areas and issues in psychology. The psychology program

provides opportunities for student engagement and active learning through classroom activities, internships and student-faculty collaborative research projects. Where possible, students are supported in presenting projects at scholarly meetings and venues. The program encourages student involvement in discipline-related campus and community service projects, as well as actively participating in psychology student organizations. The psychology program is based in the empirical research tradition and offers preparation for both graduate school and entry into the job market.

Special Programs

The Psychology program offers an Honors within the Major option. The purpose of the program is to provide an opportunity for highly achieving students who are motivated and talented to do an in-depth investigation of an area of interest in consultation with a professor having expertise in that area. Please see the program coordinator during the first semester of the junior year for further information. Students should register for PSY 4953 and PSY 4954 in their senior year.

Psychology Minor Requirements

Twenty hours selected from PSY courses applicable to the major.

Psychology Major Requirements

A. General Education Requirements..... 40 hours

B. Major Requirements 44 hours

MAT 2022	Elementary Statistics
PSY 1106	Psychology and the Social World
PSY 1110	Psychology and the Natural World
PSY 3310	Research Design and Statistics
PSY 4450	Research Practicum

or

PSY 4960/4961	Internship
PSY 4999	Capstone Seminar

One four-hour PSY elective

One course selected from social-cognitive group:

PSY 2206	Social Psychology
PSY 2209	Developmental Psychology
PSY 3314	Psychology of Personality
PSY 3315	Cognitive Psychology

One course selected from natural sciences group:

PSY 2220	Sensation and Perception
PSY 2230	Ecological Psychology
PSY 3305	Learning/Behavioral Psychology
PSY 3309	Behavioral Neuroscience

Either two courses selected from applied psychology and professional issues group:

PSY 2210	Tests and Measurements
PSY 2214	Abnormal Psychology
PSY 3300	Clinical/Counseling Psychology
PSY 3336	Industrial/Organizational Psychology
PSY 3350	Professional Issues in Psychology

or

RELIGION

General Information

The Religion program offers the Bachelor of Arts degree in Religion and the Bachelor of Arts degree in Religion with a Concentration in Youth Ministry. Students who pursue the B.A. in Religion will encounter a balanced and challenging curriculum offering courses in the traditional areas of Biblical and Christian theological studies, as well as exposure to non-Christian religious traditions. Through critical engagement with Biblical, theological, and religious concepts, students will develop an understanding and appreciation for religious faith and how this faith engages and transforms culture, history, and the human experience, while at the same time comprehending its implications for both ethical conduct and self-understanding as responsible citizens of the global community. The curriculum is driven by student-focused learning, instructional technology, and student guided discussions, seminars and research.

Students who pursue the degree in Religion with a Concentration in Youth Ministry will build on the solid foundation provided by the above curriculum by critically applying it in the youth ministry setting while also developing an understanding of teaching and learning theories for youth ministry and its leadership and administration. This Religion major with Youth Ministry concentration allows students to advance their understandings of youth ministry through practical applications culminating in an internship.

Special Programs

Academically exceptional students majoring in Religion have the option of pursuing Honors in the Major. Students must maintain a minimum GPA of 3.66 in Religion and a cumulative GPA of 3.5. At least half of their total coursework must have been completed at FSC, as well. Candidates must apply for acceptance into Honors in the Major no later than the third semester prior to graduation, and if accepted, begin the Honors course sequence, REL 4953 and 4954: Honors in Religion. Working under a project director in these courses, students will prepare a major paper to be presented to their Honors thesis committee during their final semester at FSC. Please see the department chair by the first semester of the junior year for further information.

Religion Minor Requirements

20 hours selected from REL courses applicable to the major. One four-hour course must be at the 3000-4000 level.

Religion Major Requirements

A. General Education Requirements.....	40 hours
B. Major Requirements	42 hours

SELF-DESIGNED MAJOR

To serve the expectations and needs of academically qualified students, Florida Southern College has implemented “Venture into the Adventure” – a major designed by the student to meet his or her particular needs. This major is for academically qualified students; therefore, the student must hold sophomore standing, have taken some courses in the areas of interest, and have maintained a minimum cumulative GPA of at least 3.0.

Students interested in the self-designed major should contact Dr. Lisa Carter, Interdisciplinary Programs Coordinator. The student will generate the idea for the major after discussion with the Interdisciplinary Programs Coordinator and faculty members in the relevant areas of interest. The student will invite faculty members to serve as an advisory committee to assist in framing the degree proposal and advising the student towards degree completion.

The proposed self-designed major will build upon the existing strengths of the Florida Southern College faculty and programs. Each self-designed major must be built upon the requisite number of lower- and upper-division courses.

A successful proposal will contain the following items:

- Goals for the degree
- Required courses (30 semester hours minimum)
- Student learning outcomes and assessments
- A significant focus on interdisciplinary inquiry and critical thinking
- A senior research (or comparable creative) component to serve as a capstone experience

Once the proposal has been approved by the student’s committee, it will be sent to the Interdisciplinary Programs Coordinator, who will post it for review and comment by the appropriate deans, division chairs, and interested faculty. The appropriate dean (or deans) will make the final decision on the quality of the self-designed major and the elements of the plan in consultation with the Interdisciplinary Programs Coordinator and will either approve or not approve the proposal. If approved, the appropriate dean (or deans) will notify all parties and file the degree plan with the Registrar. Degree audits will be based on the plan, and transcripts of students who have completed the self-designed major will duly show the program of study.

SOCIAL SCIENCES MAJOR

General Information

The Social Sciences major provides students with a broad-based education in the social sciences. The major, when taken in conjunction with the secondary education requirements as listed under Education in this Catalog, prepares students for secondary education certification as regulated by the Florida State Department of Education. The major is designed to provide students a broad range of required social sciences courses, from psychology to history, which, combined with required education courses, provide students with the foundational knowledge to become effective educators at the secondary level. Students interested in this major should contact the Department of History and Political Science.

SPORTS COMMUNICATION AND MARKETING

General Information

The major in Sports Communication and Marketing blends coursework in communication, business, and sports marketing to prepare students for the dynamic industry of sports. Because the business of sports is a \$200 billion industry in the United States, the demand for students with knowledge of business and communication is growing. Students will gain hands-on experience in digital media production and design and implement this experience in sports-related projects. Graduates of the major can pursue jobs in sports broadcasting, sports management, or sports information.

Program Requirements

Only courses in which grades of “C” or higher are earned may count toward the major.

THEATRE ARTS

General Information

The Department of Theatre Arts offers a B.F.A. in Theatre Performance, a B.F.A. in Technical Theatre/Design, a B.F.A. in Musical Theatre, and a B.A. in Theatre Arts. The Department provides a nurturing yet challenging environment within which students may strive to achieve their highest intellectual, artistic, and professional potential. Through a rigorous and comprehensive theatre curriculum, the department focuses on discipline-specific student needs and goals while contributing in meaningful ways to the cultural life of the College and local community through productions and community service. Highly qualified faculty artists collaborate with students in the classroom, rehearsal hall, and on stage, fostering excellence in performance, directing, design, and technical production.

The goal of Florida Southern's Theatre Arts Department is to train and prepare students for professional careers in the theatre. A B.F.A. candidate has opportunities to perform major roles on the mainstage beginning in his or her first year at the College, and B.F.A. Technical Theatre/Design candidates have the opportunity to see their work realized on our mainstage.

We emphasize one-on-one instruction, hands-on experience, individual mentoring and a high degree of professionalism. Our programs are aimed at providing students with the knowledge and skills needed to succeed at any level of theatre, whether it is further graduate study or a career as a performer, professional designer, stage manager, or technician. Our aim is to see you succeed, and we will give you the tools you will need to do so.

Special Programs

The department presents four mainstage productions each year, including an annual musical. There are also many opportunities for additional student productions. The mainstage productions are presented in the beautiful Loca Lee Buckner Theatre, an intimate 336-seat thrust stage outfitted with three full-stage hydraulic lifts and high-end lighting and sound equipment and software. Student productions are mounted in the newly renovated Frank Lloyd Wright Theatre-in-the-Round, which serves as our lab theatre and is entirely student run. Additionally, Florida Southern's Festival of Fine Arts program brings in world-class productions and concerts in the third theatre facility on campus, the 1800 seat proscenium theatre, Branscomb Auditorium.

Admission Requirements

Upon application to and acceptance by the Florida Southern College Office of Admissions, a student may be accepted into the Theatre B.F.A. program only through an audition/interview in his/her area of expertise. Auditions are offered throughout the school year on an appointment basis. The prospective student for the B.F.A. Performance degree will need to prepare two

monologues of a contrasting style, the prospective student for the Musical Theatre B.F.A. will need to prepare two songs of contrasting style, and candidates for the B.F.A. in Technical/Design will need to present a portfolio and have an interview.

No audition/interview is necessary for admission to the B.A. program. However, it should also be noted that scholarship assistance is available for any student majoring in Theatre Arts. Scholarships are awarded based on an audition and interview by the theatre faculty. B.F.A. auditions will automatically be considered for scholarship eligibility. Theatre Studies B.A. candidates may present either audition or portfolio.

All programs of study in Theatre are structured in four-year formats; therefore, students intending to pursue the B.F.A. should consult the department concerning appropriate courses for the first college semester.

A. General Education Requirements..... 40 hours

B. Major Requirements 75 hours

- THE 1101-1106 Production Practicum I - VI
 THE 1130 Vocal Technique Master Class
 THE 1213 Acting I
 THE 1220 Stage Movement
- or*
- THE 2220 Voice and Dialect for the Actor
 THE 1231-1238 Applied Voice for the Theatre
 THE 1240 Improvisation and Creative Expression
 THE 1413 Stagecraft and Production Practice
 THE 2210 Acting II
 THE 3110 Musical Theatre Audition
 THE 3120 Musical Theatre Scene Study
 THE 4210 Acting IV: Advanced Acting Topics
 THE 4110 Musical Theatre History and Literature
 THE 4513 Theatre History and Literature I

or

- THE 4523 Theatre History and Literature II
 THE 4199 Senior Project - Musical Theatre
 THE 4650 Musical Theatre Dance

or

- THE 4660 Musical Theatre Choreography
 Two hours from (according to the student's skill set):
 THE 2610 Beginning Ballet
 THE 2611 Beginning Ballet II
 THE 3610 Intermediate Ballet
 THE 3611 Advanced Ballet

- Two hours from (according to the student's skill set):
 THE 2620 Beginning Jazz
 THE 2621 Beginning Jazz II
 THE 3620 Intermediate Jazz
 THE 3621 Advanced Jazz

- Two hours from (according to the student's skill set):
 THE 2630 Beginning Tap
 THE 2631 Beginning Tap II
 THE 3630 Intermediate Tap
 THE 3631 Advanced Tap

- Two hours from (according to the student's skill set):
 THE 2640 Beginning Modern Dance
 THE 2641 Beginning Modern Dance II
 THE 3640 Intermediate Modern Dance
 THE 3641 Advanced Modern Dance

- MUS 1070 Introduction to Music Theory
 MUS 1151/1152 Aural Skills I/II

- Two hours from (according to the student's skill set):
 MUS 133C/134C/233C/234C Keyboard Musicianship

or

- MUS 1133/1134, 2233/2234, 3333/3334, 4433/4434 Piano

Two hours selected from:

- MUS 1107/1108 Opera Theatre
- MUS 1109/1110 Concert Choir (or other vocal ensemble)
- MUS 1143/1144 Voice=

C. Electives	9 hours
D. Total	124 hours

Theatre Arts: B.F.A. in Theatre Performance

Theatre Performance Major Requirements

A. General Education Requirements.....	40 hours
B. Major Requirements	72 hours

- THE 1101-1106 Production Practicum I–VI
- THE 1213 Acting I
- THE 1220 Stage Movement
- THE 1240 Improvisation and Creative Expression
- THE 1413 Stagecraft and Production Practice
- THE 2210 Acting II
- THE 2220 Voice and Dialect for the Actor
- THE 2313 Script Analysis
- THE 2413 Scene Design
- THE 2420 Lighting Design

or

- THE 2430 Costume Design
- THE 3323 Directing
- THE 4210 Acting IV: Advanced Acting Topics
- THE 4513 Theatre History and Literature I
- THE 4523 Theatre History and Literature II
- THE 4299 Senior Project - Performance

One of the following courses:

- THE 3110 Musical Theatre Audition
- THE 3120 Musical Theatre Scene Study
- THE 3214 Acting III: Acting for the Camera

Five hours selected from:

- THE 2153 Applied Production Experience (repeatable up to 6 hours and may be used as elective hours)
- THE 3153 Applied Production Experience (repeatable up to 12 hours and may be used as elective hours)

Four hours selected from:

- THE 1231–1238 Applied Voice for the Theatre

C. Electives	12 hours
D. Total	124 hours

Theatre Arts: B.F.A. in Technical Theatre/Design

Technical Theatre/Design Major Requirements

A. General Education Requirements..... 40 hours

B. Major Requirements 72 hours

THE 1101-1106 Production Practicum I - VI

THE 1213 Acting I

or

THE 1214 Acting for Non-Majors

THE 1240 Improvisation and Creative Expression

THE 1413 Stagecraft and Production Practice

THE 2313 Script Analysis

THE 2413 Scene Design

THE 2420 Lighting Design

THE 2430 Costume Design

THE 3323 Directing

THE 3330 Theatre Management

THE 3410 Drafting for the Stage

THE 4513 Theatre History and Literature I

THE 4523 Theatre History and Literature II

THE 4410 Advanced Technical Topics

THE 4499 Senior Project - Technical/Design

Five hours selected from:

THE 2153 Applied Production Experience (repeatable up to 6 hours and may be used as elective hours)

THE 3153 Applied Production Experience (repeatable up to 12 hours and may be used as elective hours)

Two courses (totaling eight hours) from one of the following areas:

a. Scene Design

ART 1131 Drawing I

and

One of the following three courses:

ARH 1100 Survey of Western Art and Architecture

ART 2100 Painting I

ART 3150 Watercolor

b. Lighting Design

ART 1120 Design Fundamentals

and

One of the following three courses:

ART 1140 Introduction to Digital Photography

ART 2410 Typography and Layout

ART 2570 Video Art

c. Stage Management

SPC 2250 Interpersonal Communication

and

One of the following two courses:

BUS 2217 Principles of Management

SPC 2260 Small Group Communication

d. Sound Design

MUS 1165 Great Works of Music

and

One of the following two courses:

ART 2570 Video Art

MUS 1164 History of Jazz

e. Costume Design

ART 1131 Drawing I

and

One of the following three courses:

ART 2100 Painting I

ART 2170 Figure Drawing I

ART 3150 Watercolor

C. Electives 12 hours

D. Total 124 hours

UNDERGRADUATE COURSE DESCRIPTIONS

Course descriptions for undergraduate courses are provided below. Courses that may be taken to fulfill General Education student learning outcomes (SLOs) are indicated with the following abbreviations:

Meaning and Value: MV
Social World: SW
 Global (Glb)
 Awareness (Aw)
 Analysis (An)
 Application (Ap)
Natural World: NW
Fine Arts Appreciation: FA
 Interpretation (In)
 Expression (Ex)
Systematic and Creative Thinking – Qualitative: Ql
Systematic and Creative Thinking – Quantitative: Qn
Effective Communication (EC)
 Written (A)
 Oral (B)
 Written/Oral (C)
Personal Wellness: Well

ACCOUNTING – ACC

ACC 2111 FOUNDATIONS OF FINANCIAL ACCOUNTING

Four hours. To understand accounting for corporations.

Gen Ed: Qn

ACC 2112 FOUNDATIONS OF MANAGERIAL ACCOUNTING

Four hours. Prerequisite: ACC 2111. Managerial accounting and analysis.

ACC 3111 FINANCIAL ACCOUNTING I

Four hours. Prerequisite: ACC 2112. A detailed study in the conceptual framework of accounting, the development of generally accepted accounting principles, the preparation of financial statements, the determination of income, and the procedures related to accounting for assets and liabilities.

ACC 3112 FINANCIAL ACCOUNTING II

Four hours. Prerequisite: ACC 3111. Required in the Accounting major. A detailed study of the procedures related to accounting for stockholders' equity, earnings per share, pensions, leases, income recognition, preparation of the statement of cash flows, accounting for income taxes, and accounting for consolidations.

ACC 3211 COST ACCOUNTING

Four hours. Prerequisite: ACC 2112, computer competency. A study of cost accounting for manufacturing and non-manufacturing entities, covering cost terminology and concepts. Cost accounting systems including activity-based costing and differential costs for decision-making purposes are studied.

ACC 4411 FEDERAL TAXATION

Four hours. Prerequisite: ACC 2112 or permission of the faculty. A study of concepts of federal income taxation for individuals. Includes an introduction to the procedures for tax research.

ACC 4511 AUDITING

Four hours. Prerequisite: ACC 3112 or permission of the instructor. Required in the Accounting major. An examination of all aspects of auditing, including auditing standards, accepting and planning the audit, evaluating internal controls, verifying account balances and financial statement assertions, reporting on audited financial statements, and the legal liabilities and ethical responsibilities of auditors.

ACC 4715 INTERNATIONAL ACCOUNTING

Four hours. Prerequisite: ACC 2112. A detailed study of the standards and procedures related to accounting for international organizations, including the differences and similarities in reporting amongst countries, particular issues of analyzing foreign financial statements, and the current issues in the development of international auditing standards and reporting standards.

ACC 4960/4961 ACCOUNTING INTERNSHIP

Two to four hours. Prerequisites: Senior standing, permission of the instructor, minimum 2.5 grade point average. Correlating theory and accounting practices in two operational settings; supervision by cooperating practitioners and faculty in several areas of application.

ARABIC - ARA

Each course is an enhanced self-study program in the NASILP (National Association of Self-Instructional Language Programs) format, which relies heavily upon the student's motivation and discipline. Major emphasis is on the development of oral-aural skills. Class time will be spent in oral drills and conversation practice with a native-speaking (or equivalent) tutor. Classes will be conducted almost entirely in Arabic. Students will study the grammar independently, using the NASILP format with the help of the assigned text and workbook, as well as in the lab. Students are expected to work outside of class and in the lab each week and come to class prepared.

ARA 1101 FIRST SEMESTER ARABIC

Four hours. Prerequisite: Cumulative GPA of at least 2.5 or approval from the Critical Languages Program director.

ARA 1102 SECOND SEMESTER ARABIC

Four hours. Prerequisite: ARA 1101 proficiency.

ARA 2203 SECOND YEAR ARABIC

Four hours. Prerequisite: ARA 1102 proficiency.

ART - ART**ART 1120 DESIGN FUNDAMENTALS**

Four hours. This course offers an introduction to the elements and principles of design, including line, shape, color, value, texture, balance, emphasis, rhythm, and unity.

Gen Ed: FA (In, Ex)

ART 1131 DRAWING I

Four hours. An introduction to various drawing media and methods of representation in line and tone.

ART 1132 DRAWING II

Four hours. Prerequisite: ART 1131 or permission of the instructor. Exploration of color and mixed media drawing techniques; emphasis on forms of personal expression and representational development.

ART 1140 INTRODUCTION TO DIGITAL PHOTOGRAPHY

Four hours. This course will cover aspects of digital photography such as image capture and digital processing, design, lighting, and digital technology. Assignments will be given to explore creativity, problem solving, and understanding the camera. Students will focus on capturing their surroundings using specific techniques for landscape, architectural, and cultural (i.e., people) photography. A critique will occur at the end of each assignment to discuss solutions, problems, and successes. Applications and printing will also be covered in this class.

Gen Ed: FA (Ex)

ART 1160 NEW MEDIA

Four hours. Introduces students, both through learning about existing new media artworks and through the construction of projects, to new and unconventional and/or unfamiliar forms of visual art. Seeks to instill appreciation for contemporary art forms, to open students to new media and new creative avenues, and to enlighten students to their own expressive abilities.

ART 2100 PAINTING I

Four hours. Prerequisite: ART 1131. Introduction to acrylic painting; exploration of various painting techniques, painting surfaces, and elements of color.

ART 2110 PAINTING II

Four hours. Prerequisite: ART 2100 or permission of the instructor. Introduction to oil painting; an investigation of various techniques using the oil medium; assignments in color relationships.

ART 2170 FIGURE DRAWING I

Four hours. Prerequisites: ART 1131 or permission of the instructor. Studio class emphasizing drawing from the human figure and includes the study of human anatomy.

ART 2210 SCULPTURE I

Four hours. Prerequisite: ART 1120. Introduction to the use of traditional and contemporary sculptural media, modeling and plaster casting, clay and paper casts.

ART 2220 CERAMICS I

Four hours. Creative pottery making, using various methods of hand building. Students learn to load and fire the kiln.

ART 2310 PRINTMAKING I

Four hours. Prerequisite: ART 1120 or 1131 or permission of the instructor. Introduction to intaglio and relief printmaking techniques. Monotypes will also be explored.

ART 2410 TYPOGRAPHY AND LAYOUT

Four hours. Prerequisites: ART 1120 and either ART 1140 or COM 2500. We will cover a breadth of topics in two-dimensional design from language used in critiques to basic seeing and technical skills behind the formal elements of design—more specifically, composition, shape, line, value, texture, and color. Students will work in a variety of mediums to explore concepts introduced in the class. Students are also expected to produce a weekly visual journal that will be updated with class assignments. Weekly readings will be mandatory part of the class, as well as discussions and critiques.

ART 2570 VIDEO ART

Four hours. Prerequisite: ART 1120 or permission of the instructor. This course provides an introduction to the use of video as a medium for artistic expression, visual communication, and social inquiry. Emphasis is on the creation, modification and activation of space and time. Includes investigations into narrative structure, visual abstraction, advertising formats, and video art installation.

ART 3110 PAINTING III

Four hours. Prerequisite: ART 2110. An exploration of various directions in painting with a concentration in one area. Assignments relative to traditional space and the picture plane.

ART 3120 CERAMICS II

Four hours. Prerequisite: ART 2220. Advanced pottery making, including throwing on the potter's wheel, glaze formulation, and testing of clay bodies.

ART 3150 WATERCOLOR

Four hours. Prerequisites: ART 1131 or permission of the instructor. An exploration of approaches and techniques in painting with transparent watercolor.

ART 3170 FIGURE DRAWING II

Four hours. Prerequisite: ART 2170. Advanced projects in drawing from the human figure and in the study of human anatomy.

ART 3210 SCULPTURE II

Four hours. Prerequisite: ART 2210. Concentration in selected areas of work: modeling and casting, ceramic sculpture, construction, or carving.

ART 3310 PRINTMAKING II

Four hours. Prerequisite: ART 2310. Continuation of more advanced intaglio and relief processes including multi-plate color printing techniques. Monotypes and monoprints will be combined in various mixed media prints.

ART 3410 ADVANCED PRINT DESIGN

Four hours. Prerequisite: ART 2410. The focus of this course is on the design process and print production. Assignments are directed toward problem solving in the one, two, three, four color print production areas. Critiques at the end of each assignment address design solutions, problems, and successes. Creativity, solving communication problems, understanding the applications on a deeper level, working directly with a client, understanding briefs, and bringing a job to press are covered in this class.

ART 3440 ADVANCED DIGITAL PHOTOGRAPHY

Four hours. Prerequisite: ART 1140. This course will cover aspects of digital photography such as image capture and digital processing, design, lighting and digital technology. Assignments will be given to explore creativity, problem solving, and understanding the camera; we will focus on capturing our surroundings using specific techniques for landscape, architectural and cultural (i.e. people) photography. A critique will occur at the end of each assignment to discuss solutions, problems and successes. Applications and printing will also be covered in this class.

ART 3510 WEB DESIGN

Four hours. Prerequisite: ART 2410. Basic elements of web design, including html language, digital sound, 2-D animation, and non-linear editing. Aesthetic and practical aspects of creating web pages. As his or her major project, each student will build a personal, multilayered web page on the Art Department's server using the latest software.

ART 4110 PAINTING IV

Four hours. Prerequisite: ART 3110 or permission of the instructor. This course emphasizes organization and variations of format in painting and explores color as an expressive basis for painting.

ART 4170 FIGURE DRAWING III

Four hours. Prerequisite: ART 3170. Further emphasizes advanced projects in drawing the human figure and in the study of anatomy.

ART 4411 ADVANCED GRAPHIC DESIGN STUDIO I

Four hours. Prerequisite: Junior status in the Department of Art and Art History and permission of the instructor. Advanced projects with emphasis on the development of a personal direction of expression.

ART 4412 ADVANCED GRAPHIC DESIGN STUDIO II

Four hours. Prerequisite: ART 4411 and the permission of the instructor. Advanced projects in a selected medium and stylistic approach.

ART 4499 GRAPHIC DESIGN SENIOR THESIS

Four hours. Prerequisites: ART 3410 and 3510, Graphic Design major, senior standing, and successful completion of coursework that satisfies Effective Communication SLOs A and B. Building on all their previous experiences, students will finish complex individual and collaborative projects for their professional portfolios. Emphasis placed on independence, professional habits and attitudes, and personal design development.

Gen Ed: QI, EC-C

ART 4899 ART FOR TEACHERS K-12

Four hours. Prerequisite: Senior status in the Art program. A senior seminar for the development of: 1) a senior exhibition; and 2) a portfolio suitable for presentation to graduate schools, prospective clients, and/or employers.

ART 4911 ADVANCED STUDIO I

Four hours. Prerequisite: Junior status in the Department of Art and Art History and permission of the instructor. Advanced projects with emphasis on the development of a personal direction of expression.

ART 4912 ADVANCED STUDIO II

Four hours. Prerequisite: ART 4911. Advanced projects in a selected medium and stylistic approach.

ART 4913 ADVANCED STUDIO III

Four hours. Prerequisite: ART 4912. Continued study in advanced projects in a selected medium and stylistic approach.

ART 4960-4961 ART INTERNSHIP

Four hours each. Prerequisite: Permission of supervising faculty. Internship is intended to provide on-the-job training during the last three semesters of study. Following departmental internship guidelines and in coordination with the faculty, students will secure an appropriate internship assignment in the field of their concentration. Summer internships are encouraged.

ART 4999 SENIOR SEMINAR

Four hours. Prerequisites: Senior status in the Art program and successful completion of coursework that satisfies Effective Communication SLOs A and B. A senior seminar for the development of: 1) a senior exhibition; and 2) a portfolio suitable for presentation to graduate

schools, prospective clients, and/or employers. This is the capstone course for the B.A. and B.F.A. in Studio Art, and is designed to prepare one to create professional artwork and make a scholarly thesis presentation, whether in preparation for graduate school or for other life activities. In this course, the student will write a ten-page research paper associated with his or her senior thesis exhibition and will present a ten- to fifteen-minute oral presentation and defense of his or her thesis exhibition at the senior thesis exhibition critique. The student will undertake and complete the research and writing of the thesis in consultation with the thesis advisor. The thesis advisor will assign the final grade.

Gen Ed: QI, EC-C

ART HISTORY – ARH

ARH 1100 SURVEY OF WESTERN ART AND ARCHITECTURE

Four hours. An introduction to painting, sculpture, and architecture from prehistory to the present in the context of social, cultural, religious, and political history.

Gen Ed: SW (Glb, Aw); FA (In)

ARH 2700 THE CONTEMPORARY ARTIST

Four hours. Prerequisites: ARH 1100, ART 1120, ART 1131, and sophomore standing. Art Theory and Practice is a sophomore seminar course designed to provide a survey of contemporary theory and practice from the artist's perspective and to prepare the student for portfolio development. Students will explore specific directions and methods of contemporary art practice, will engage in art making as an aspect of their exploration of contemporary media, will discuss health hazards associated with making art, and will prepare a curriculum vita and portfolio representing themselves as contemporary artists.

ARH 3710 ANCIENT ART AND ARCHITECTURE

Four hours. Prerequisite: ARH 1100. An introduction to painting, sculpture, and architecture of the Ancient Mediterranean in the context of social, cultural, religious, and political history.

ARH 3720 MEDIEVAL ART AND ARCHITECTURE

Four hours. Prerequisite: ARH 1100. An introduction to painting, sculpture, and architecture of the Medieval period in the context of social, cultural, religious, and political history.

ARH 3740 RENAISSANCE ART AND ARCHITECTURE

Four hours. Prerequisite: ARH 1100. An introduction to painting, sculpture, and architecture of the Renaissance period in the context of social, cultural, religious, and political history.

ARH 3750 BAROQUE ART AND ARCHITECTURE

Four hours. Prerequisite: ARH 1100. An introduction to painting, sculpture, and architecture of the Baroque period in the context of social, cultural, religious, and political history.

ARH 3770 EIGHTEENTH-AND NINETEENTH-CENTURY ART AND ARCHITECTURE

Four hours. Prerequisite: ARH 1100. A period-survey of European and American painting, sculpture, and architecture of the eighteenth and nineteenth centuries in the context of social, cultural, religious, and political history.

ARH 3780 TWENTIETH-CENTURY ART AND ARCHITECTURE

Four hours. Prerequisite: ARH 1100. A period-survey of European and American painting, sculpture, and architecture of the twentieth century in the context of social, cultural, religious, and political history.

ARH 4790 CONTEMPORARY ART AND ARCHITECTURE

Four hours. Prerequisites: ARH 1100 and standing as a junior or senior; additionally, ARH 3780 is highly recommended, but is not required. An introduction to painting, sculpture, architecture, and new media from mid-twentieth-century minimalism to the present in the context of contemporary social, cultural, religious, and political history. This course has extensive writing and oral presentation components.

ARH 4960-4961 ART HISTORY INTERNSHIP

Four hours. Prerequisites: ARH 1100 and permission of supervising faculty. This course is intended to provide supervised, on-the-job training during one or more the last three semesters of a student's studies. Following departmental internship guidelines and in coordination with the supervising faculty member, the student will secure an internship assignment that will provide an appropriate learning experience in his or her field of concentration. Summer field experiences are encouraged. Most Art History internships are in museum or gallery settings.

ARH 4999 ART HISTORY SENIOR THESIS

Four hours. Prerequisites: Senior standing in the Department of Art and Art History, ARH 1100, an ARH period-survey course at the 3000-level or higher, permission of a thesis advisor, and successful completion of coursework that satisfies Effective Communication SLOs A and B. This is the capstone course for the B.A. in Art History, and is designed to prepare one to do scholarly writing about art history and make a scholarly slide- or digital-image-presentation, whether in preparation for graduate school or for other life activities. The course may be taken by non-majors who wish to have this research and writing experience. In this course, the student will write a twenty-page research paper of the type commonly assigned in graduate art history courses. This course will be deemed to be cross-listed with any upper-division period-survey course taught during the same semester. The student will register for ARH 4999, will be responsible for attending a chosen period-survey course, and will complete the exams and other projects of that period-survey—except for the research paper required for the period-survey. Instead of the research paper required for the period-survey, in consultation with a faculty member chosen to be the thesis advisor, the student will select for his or her senior thesis a topic that is related to the content of the period-survey. The student will undertake and complete the research and writing of the thesis in consultation with the thesis advisor. In addition to the thesis paper, the student will give a ten- to fifteen-minute presentation on the subject of the thesis paper to the students and faculty of the Department of Art and Art History at one of the departmental critiques. The thesis advisor will assign the final grade. Four hours credit will be given for this course, and four hours credit will be given separately for the period-survey course.

Gen Ed: QI, EC-C

ASTRONOMY – AST**AST 1010 DESCRIPTIVE ASTRONOMY**

Four hours. Prerequisite: High school geometry, physics, or physical science. A survey of the astronomical universe including planets, stars, galaxies, old cosmology, and new cosmology. Activities include use of binoculars and portable telescopes, planetarium demonstrations, problem solving, and investigations.

Gen Ed: NW

ATHLETIC TRAINING PROGRAM – ATP

Most Athletic Training courses are listed under the ATP designator. Courses with the Health Science designator (HSC) are designed to offer an introduction to the knowledge and skills required of various medical professions. These courses provide an opportunity to become familiar with the concepts and thought processes required to be successful in the Health Sciences.

ATP 1234 MEDICAL TERMINOLOGY

Two hours. Same as HSC 1234. Introduction to the language, rules and concepts needed to interpret and understand the terminology of medicine.

ATP 1277 PERSPECTIVES IN ATHLETIC TRAINING I

Two hours. Prerequisite: majors only. This course introduces students to the profession of athletic training. The emphasis of the course will be on pre-season and emergency preparation, heat illness and learning and practicing the evaluation, treatment and rehabilitation of the lower body. OSHA and HIPPA regulations will be included.

ATP 1278 PERSPECTIVES IN ATHLETIC TRAINING II

Two hours. Prerequisite: majors only. This course is an overview of the profession of athletic training. The emphasis of the course will be on general medical conditions, heat illness and learning and practicing the evaluation, treatment and rehabilitation of the upper body.

ATP 1305-1306 CLINICAL EXPERIENCE PRACTICUM

One Hour. Prerequisite: majors only. This practicum course requires students to gain clinical experience under a certified athletic trainer or approved health care provider at FSC or an FSC affiliated site. The students have an opportunity to learn, observe and practice basic skills, procedures, and techniques used by athletic trainers in prevention, evaluation, treatment, and rehabilitation of injuries and illness. A minimum of 40 and a maximum of 80 clinical experience hours under the supervision of a Certified Athletic Trainer or Approved Health Care Provider are required.

ATP 2115 EMERGENCY MEDICAL RESPONDER

Four hours. Same as HSC 2115. This course is an entry-level emergency medical provider course that will prepare individuals for a variety of pre-hospital, industrial, and first-responder situations. The successful completion of a first responder course is a prerequisite to training as a firefighter, emergency medical technician/paramedic and many law enforcement programs.

Gen Ed: QI, Well

ATP 2305-2306 CLINICAL EXPERIENCE PRACTICUM

Two hours. Prerequisite: majors only. This practicum course requires students to gain clinical experience under a certified athletic trainer or approved health care provider at FSC or an FSC affiliated site. The students have an opportunity to learn, observe and practice intermediate skills, procedures, and techniques used by athletic trainers in prevention, evaluation, treatment, and rehabilitation of injuries and illness. A minimum of 80 and a maximum of 160 clinical experience hours under the supervision of a Certified Athletic Trainer or Approved Health Care Provider are required.

ATP 2308 THERAPEUTIC TECHNIQUES I

Four hours. Same as HSC 2308. Prerequisites: ATP 1277 and ATP 1278. Introduces students to the concepts, theories, rationale, and practical application of treatment and rehabilitative techniques, including therapeutic exercise procedures as well as the application of physical agents and electrotherapeutic modalities. Emphasis on the lower body.

ATP 2309 THERAPEUTIC TECHNIQUES II

Four Hours. Same as HSC 2309. Prerequisites: ATP 1277 and ATP 1278 or permission of the instructor. This course introduces students to the concepts, theories, rationale, and practical application of treatment and rehabilitative techniques, including therapeutic exercise procedures as well as the application of physical agents and electrotherapeutic modalities. Emphasis on the upper body.

ATP 2323 CLINICAL EXAMINATION AND DIAGNOSIS OF THE LOWER BODY

Four hours. Same as HSC 2323. Prerequisites: ATP 1277 and 1278. Evaluation and diagnosis of common lower body injuries with attention to prevention. Laboratory sessions introduce muscle testing of the lower extremity, and various wrapping and taping techniques with an emphasis on immediate care given to traumatic injuries.

Gen Ed: QI

ATP 2324 CLINICAL EXAMINATION AND DIAGNOSIS OF THE UPPER BODY

Four hours. Same as HSC 2424. Prerequisites: ATP 1277 and 1278. Evaluation and diagnosis of common upper body injuries with attention to prevention. Laboratory sessions introduce muscle testing of the upper extremity, and various wrapping and taping techniques with an emphasis on immediate care given to traumatic injuries.

Gen Ed: QI

ATP 3305-3306 CLINICAL EXPERIENCE PRACTICUM

Three hours. Prerequisite: majors only. This practicum course requires students to gain clinical experience under a certified athletic trainer or approved health care provider at FSC or an FSC affiliated site. The students have an opportunity to learn, observe and practice advanced skills, procedures, and techniques used by athletic trainers in prevention, evaluation, treatment, and rehabilitation of injuries and illness. A minimum of 120 and a maximum of 240 clinical education hours under the supervision of a Certified Athletic Trainer or Approved Health Care Provider are required.

ATP 3333 CONCEPTS OF NUTRITION AND PHARMACOLOGY

Three hours. Same as HSC 3333. Prerequisite: majors only or permission of the instructor. Emphasis is on the application of nutrition to enhance sports and physical activity, and the effects of therapeutic medications, performance enhancing drugs. Attention is directed toward optimal performance including dietary modifications, issues dealing with alcohol, tobacco, illicit drugs, and pharmacology.

Gen Ed: QI, Well

ATP 3355 ADMINISTRATION OF ATHLETIC TRAINING

Three hours. Prerequisite: majors only. This course will provide students the opportunity to learn the principles of organization and administration as they apply to the many different employment settings in athletic training. Students will learn about human resource issues, resume design and interviewing, budgeting and financial management, facility design, planning, and evaluation, information management including injury reporting systems, emergency care plans, research methods, pre-participation examinations, insurance issues and legal considerations, professional development and public relations.

Gen Ed: SW (Aw)

ATP 4305-4306 PROFESSIONAL DEVELOPMENT PRACTICUM

Three hours. Prerequisite: majors only. This practicum course requires students to gain experience under a certified athletic trainer or approved health care provider at FSC or an FSC affiliated site. The students have an opportunity to learn, observe and practice advanced skills, procedures, techniques, and/or administrative duties used by athletic trainers in prevention, evaluation, treatment, and rehabilitation of injuries and illness. A minimum of 120 and a maximum of 240

contact hours under the supervision of a Certified Athletic Trainer or Approved Health Care Provider are required.

ATP 4960/4961 PROFESSIONAL DEVELOPMENT INTERNSHIP

Twelve to sixteen hours. Prerequisite: majors only. Completion of all ATEP Clinical Proficiencies plus current certification in CPR/PR. Must be in good academic standing. A full semester Internship (minimum of 40 hours week) at an FSC approved site, under the supervision of a certified athletic trainer or medical professional. 480 to 640 clinical experience hours required.

ATP 4999 PRIMARY CARE OF THE ATHLETE

Four hours. Prerequisite: ATP majors only and successful completion of coursework that satisfies Effective Communication SLOs A and B. Senior capstone course linked with ATP 4305/4306. Topics include medical pathology, pharmacology, sports epidemiology, and statistical analysis.

Gen Ed: EC-C

BIOLOGY – BIO**BIO 1000 BIOLOGY FOR YOUR LIFE**

Four hours. Does not count toward major or minor. This course focuses on how biological concepts impact our daily lives. Topics include the cell, ecology, evolution, and heredity.

Gen Ed: NW

BIO 1500 BIOLOGICAL ESSENTIALS

Four hours. The first in a three-course sequence required for biology majors. A rigorous introduction to the principles that lay the foundations for the biological sciences. Examines the relationships between metabolism, genetics, cell biology, and evolution. Students learn the mechanics and style of scientific reporting on laboratory exercises in cell and molecular biology utilizing techniques such as spectrophotometry and electrophoresis.

Gen Ed: NW

BIO 1520 INTRODUCTION TO MARINE BIOLOGY

Four hours. Pre- or Corequisite: BIO 1500. This foundational course provides an introduction to the interrelated physical, chemical, geological, and biological processes of the oceans, atmosphere, and coasts, with a focus on Florida waters.

BIO 1820 OCEANOGRAPHY

Four hours. Prerequisites: BIO 1520. An overview of the sub disciplines of ocean sciences including the sea floor, waves, tides, currents, the physical and chemical properties of seawater and their distribution in the sea, and planktonic life and its relation to nutrient cycling. This course will focus on how we study and use the ocean as well as the impact of human activities on the oceans.

BIO 1900 HUMAN GENETICS

Four hours. No credit awarded if student has completed BIO 3700. Explores the basic principles of inheritance and their applications to medicine, behavior, forensics and populations.

Gen Ed: NW

BIO 2120 BIOLOGY AND CONSERVATION OF MARINE MAMMALS

Five hours. Prerequisites: BIO1820. An introduction to the biology of marine mammals, including cetaceans, pinnipeds, sirenians and sea otters on topics including physiology, behavior, evolution, and ecology, with particular attention paid to the conservation of marine mammals.

BIO 2200 ENVIRONMENTAL ISSUES

Four hours. Same as ENV 2200. A study of public policy; environmental conservation and preservation; and current environmental issues, their origins, their consequences and possible solutions.

BIO 2201 ENVIRONMENTAL SCIENCE

Four hours. Same as ENV 2201. Prerequisite: BIO 1500. An introduction to the methods, technology, and equipment used to collect, analyze, and interpret environmental data. Students will apply the techniques they learn to an investigation of an environmental problem.

BIO 2215 HUMAN ANATOMY AND PHYSIOLOGY I

Four hours. No credit awarded if student has completed BIO 2209, BIO 2210, or BIO 4408. Structure and function of the following major organ systems of the human body: integumentary, skeletal (including joints), muscular, and nervous.

Gen Ed: NW

BIO 2216 HUMAN ANATOMY AND PHYSIOLOGY II

Four hours. Prerequisite: BIO 2215. No credit awarded if student has completed BIO 2209, BIO 2210, or BIO 4408. Structure and function of the following major organ systems of the human body: endocrine, cardiovascular, respiratory, urinary, digestive, and reproductive.

BIO 2220 BIOLOGY OF THE FISHES

Five hours. Prerequisites: BIO1820. A comparative analysis of fish anatomy, taxonomy, physiology, behavior, ecology, evolution, and conservation and management, with a focus on the fishes found in Florida waters.

BIO 2230 GENERAL ZOOLOGY

Four hours. Prerequisite: BIO 1500 or permission of the instructor. Adaptational biology of animals, with emphasis on the vertebrates; group relationships of major phyla; principles of development, ecology, and evolution.

BIO 2235 GENERAL BOTANY

Four hours. Prerequisites: BIO 1500 or HRT 2100 or permission of the instructor. The flowering plant, major plant groups, metabolism, genetics, ecology, and economic botany.

BIO 2280 APPLIED MICROBIOLOGY

Four hours. Prerequisites: BIO 1000 or BIO 1500 and CHE 1011 or CHE 1111. Pre- or corequisite: CHE 1012 or CHE 1112. Does not count towards the Biology major. Morphology and physiology of microorganisms, particularly bacteria, with emphasis on clinical disease.

BIO 2320 AQUATIC MICROBIAL DIVERSITY

Four hours. Prerequisites: BIO1820 or BIO2201. An overview of aquatic microbial diversity, morphology, and physiology, particularly viruses, prokaryotes, and fungi, with a focus on marine systems.

BIO 2750 EVOLUTION

Four hours. Prerequisites: BIO 2230 and BIO 2235. Theory, patterns, and processes in the biological evolution of organisms.

BIO 3100 PLANT TAXONOMY

Four hours. Prerequisite: BIO 2235. Nomenclature, classification, and identification of flowering plants, especially those of Central Florida.

BIO 3120 BIOLOGY OF AMPHIBIANS AND REPTILES

Five hours. Prerequisites: BIO 2230 and permission of instructor. This course provides a modern survey of the amphibians and reptiles, including life history, physiology, behavior, ecology, evolution, and conservation with a focus on the amphibians and reptiles (especially sea turtles) of Florida.

BIO 3150 ECOLOGY

Four hours. Same as ENV 3150. Prerequisites: BIO 2230 and BIO 2235, or permission of the instructor. Relationship of living organisms to their biological, physical, and chemical environments with emphasis on ecosystems.

BIO 3215 ADVANCED HUMAN ANATOMY AND PHYSIOLOGY I

Four hours. Prerequisites: BIO 1500 and CHE 1111 or permission of the instructor. No credit awarded if student has completed BIO 2209 or BIO 2210 or BIO 2215 or BIO 2216 or BIO 4408. The first semester in a two semester sequence where students will investigate the structure and function of the major organ systems of the human body with emphasis on pathology and pharmacology. Topics covered will include homeostasis, cells, biochemistry, obtaining energy, tissues, integumentary system, skeletal system, muscular system, nervous system, autonomic nervous system, peripheral nervous system, and special senses.

BIO 3216 ADVANCED HUMAN ANATOMY AND PHYSIOLOGY II

Four hours. Prerequisites: BIO 3215. No credit awarded if student has completed BIO 2209 or BIO 2210 or BIO 2215 or BIO 2216 or BIO 4408. The second semester of anatomy and physiology will investigate the structure and function of the major organ systems of the human body with emphasis on pathology and pharmacology. Systems covered will include endocrine system, respiratory system, cardiovascular system, renal system, reproductive system, immune system, and lymphatic system.

BIO 3302 PLANT NUTRITION

Four hours. Same as HRT 3302. Prerequisites: HRT 3301 and either BIO 2235 or HRT 2100. This course deals with the relationship of plants to soil in their acquisition of the mineral nutrients needed for life. Students will examine the chemical and physical properties of plant mineral nutrients, their reactions in the soil, and how the plant absorbs, transports, modifies, stores, and utilizes them. There will be an emphasis on Florida soils and crops.

BIO 3316 TROPICAL ECOLOGY

Four hours. Same as ENV 3316. Prerequisites: BIO 1500 or permission of the instructor. A field course studying the geology, history, vegetation, and ecology of a tropical region.

BIO 3360 MEDICAL BOTANY

Four hours. Prerequisite: BIO 1500. The history and uses of plants in medicine in the U.S. and other cultures around the world. Special emphasis is placed on plant medicine in European history and modern uses in other areas of the world.

BIO 3361 BIOCHEMISTRY: STRUCTURE AND FUNCTION

Four hours. Same as CHE 3361. Prerequisites: BIO 1500 and CHE 2222 or permission of the instructor. Biochemistry is the study of the molecules and chemical reactions of living systems. Topics covered include water, structure and function of biomolecules, enzymes, bioenergetics, major metabolic pathways, and metabolic regulation.

BIO 3362 BIOCHEMISTRY: MOLECULAR BIOLOGY

Four hours. Same as CHE 3362. Prerequisites: BIO 1500 and CHE 2222. Students will consider important topics in molecular genetics, including structure, function and manipulation of DNA, and selected topics in metabolism and signaling.

BIO 3378 DIALOGUES IN SCIENCE AND RELIGION

Four hours. Same as REL 3378. Prerequisites: any 1000 level or above course in the natural sciences and any 2000 level or above course in religion. Offered in the spring semester every other year. Considers the cultural, philosophical and intellectual factors that have contributed to the development of the relationship between science and religion in Western thought.

Gen Ed: MV, SW (Aw, An)

BIO 3400 MICROBIOLOGY

Four hours. Prerequisites: BIO 1500 and CHE 2221. Morphology and physiology of microorganisms, with particular emphasis on bacteria.

BIO 3575 EXERCISE PHYSIOLOGY

Four hours. Same as PED/HMP 3575. Prerequisites: BIO 2215 and BIO 2216. The effects of exercise on human physiological systems. Students will use didactic and psychomotor skills in a laboratory setting to reinforce physiological principles.

BIO 3700 GENETICS

Four hours. No credit will be awarded if student has completed BIO 1900. This course helps students explore the principles of heredity as applied to all living organisms, the use of genetics to investigate evolution, and the application of genetics to the topics of immunology, cancer, and development.

BIO 3720 TECHNIQUES IN NUCLEIC ACID RESEARCH

2 hours. Prerequisites: BIO2320 or BIO2280 or BIO3400. Techniques in DNA isolation and analysis, including purification, quantitation, PCR, RFLP, agarose gel electrophoresis and Southern blotting. Appropriate database analysis of DNA sequences.

BIO 3725 TECHNIQUES IN CLONING

2 hours. Prerequisites: BIO3720. Techniques in cloning DNA in prokaryotes, including use of plasmids, restriction digests, ligation, and transformation.

BIO 3750 TECHNIQUES IN TISSUE CULTURE

2 hours. Prerequisites: Permission of the instructor. The theory and practice of animal tissue culture. Students will develop laboratory skills in culturing cells, as well as microscopic observation, biochemical and cytological analysis of cultured cells. (Special course fee is required - \$50)

BIO 3770 BIOINFORMATICS

2 hours. Prerequisites: BIO 3400 or BIO 3700; MAT 2032. Techniques requiring the use of molecular biology databases, including DNA and protein sequence analysis, multiple sequence alignments, 3-D protein structure modeling and prediction, phylogenetic tree building, and RNA sequence analysis.

BIO 3800 CELL BIOLOGY

Four hours. Prerequisites: BIO 1500 and CHE 2221. Structure and functions of the cell as the basic unit of life, with emphasis on those features common to all living cells.

BIO 3850 PARASITOLOGY

Four hours. Prerequisites: BIO 2230. This course focuses on the identification and understanding of parasitic organisms and their hosts, including most of the major groups of animals with parasitic members. The course focuses on human parasites, tropical medicine, and epidemiology, but includes veterinary diagnostics and the parasites of wildlife.

BIO 3900 ANIMAL BEHAVIOR

Four hours. Prerequisite: BIO 1500 or permission of the instructor. Analysis of behavior patterns and their importance in the natural environment.

BIO 3920 MARINE INVERTEBRATE ZOOLOGY

Five hours. Prerequisites: BIO 2120 or BIO 2220. This course provides a modern survey of the major branches of marine invertebrates, focused on bauplans (body plans), ecology, and evolution (phylogenetics) of each fascinating phylum, with primary attention provided to organisms collected along Florida coastlines and the Caribbean.

BIO 3988, 3989 PROFESSIONAL SHADOWING

One hour. Prerequisite: permission of the instructor. Students shadow a professional (for example a physician, dentist or veterinarian) for at least forty hours to observe the profession, experience how professionals conduct themselves, and learn policies governing privacy issues in the profession.

BIO 4150 PLANT PHYSIOLOGY

Four hours. Prerequisites: BIO 2235 and either CHE 1011 or 1111, or permission of the instructor. Photosynthesis, respiration, and other metabolic processes, growth, and water relationships in vascular plants. Engaged learning activities include group work on demonstrations of concepts discussed in class as well as group work on multi-week experiments on which graded reports will be written.

BIO 4160 DEVELOPMENTAL BIOLOGY

Four hours. Prerequisite: BIO 3362 or BIO 3700, or BIO 3800, or permission of the instructor. A study of the developmental processes of invertebrate and vertebrate animals.

BIO 4200 HISTOLOGY

Four hours. Prerequisite: BIO 3800, or permission of the instructor. A study of the structure and function of human tissues.

BIO 4330 TECHNIQUES IN PROTEIN PURIFICATION

2 hours. Prerequisite: Permission of instructor. Techniques in protein purification, including protein expression in prokaryotes, column chromatography, acrylamide gel electrophoresis, and western blotting.

BIO 4350 TECHNIQUES IN CELL SIGNALING

2 hours. Prerequisites: Permission of the instructor. Students will investigate signal transduction pathways and molecules and how they relate to normal cellular function and disease. (Special course fee is required - \$50)

BIO 4460 INTRODUCTION TO ECOLOGY RESEARCH

Two hours. Prerequisites: Permission of instructor. Introduction to and preparation for research in ecology, resulting in the generation of a research proposal at the conclusion of the semester.

BIO 4461, 4462 RESEARCH: ECOLOGY

Four hours. Prerequisite: BIO 4460 or permission of the instructor, and successful completion of coursework that satisfies Effective Communication SLOs A and B. Students will learn basic techniques in ecological research, and design and carry out research in ecology.

Gen Ed: EC-C

BIO 4560 INTRODUCTION TO MOLECULAR BIOLOGY RESEARCH

Two hours. Prerequisites: Permission of instructor. Introduction to and preparation for research in molecular biology, resulting in the generation of a research proposal at the conclusion of the semester.

BIO 4561, 4562 RESEARCH: MOLECULAR BIOLOGY

Four hours. Prerequisite: BIO 4560 or permission of the instructor, and successful completion of coursework that satisfies Effective Communication SLOs A and B. Students will learn basic

techniques in molecular biology research, and design and carry out research in molecular biology.
Gen Ed: EC-C

BIO 4960, 4961 BIOLOGY INTERNSHIP

One to eight hours (eight hours maximum). Prerequisites: Junior or Senior standing; permission of and consultation with a full time faculty member the semester prior to the internship; minimum 3.0 grade point average. Correlating theory and practice in at least one operational setting; supervision by cooperating professionals and faculty.

BUSINESS ADMINISTRATION – BUS

BUS 1105 PERSONAL FINANCE

Four hours. An overview of personal and family financial planning with an emphasis on financial record-keeping, spending, budgeting, tax planning, consumer credit, buying decisions, purchasing insurance, selecting investments, and retirement and estate planning.

BUS 1115 BUSINESS AND SOCIETY

Four hours. A survey course designed for taking a first look at business in society. An interdisciplinary systems approach is used to explore the nature of business and its role in society emphasizing several business disciplines in the overall context of the enterprise. Ethics and values are emphasized, and the interfaces of business with its environment, the issues of work, careers, and the parameters for success in life are explored. The development of basic business related vocabulary is used to understand and interpret business news and information. This course may not be taken after earning credit for upper-level business core classes.

BUS 2217 PRINCIPLES OF MANAGEMENT

Four hours. Concepts, principles, and functions of management applicable to all types of organizations; different managerial styles.

BUS 3115 SALES MANAGEMENT AND PERSONAL SELLING

Four hours. Prerequisite: BUS 3160. The course addresses sales management methods and concepts applicable to the efficient recruitment, deployment, and retention of an effective sales force in the twenty-first century business environment. Class demonstrations in different facets of selling and exercises in the art of persuasion will illustrate theories of buyer motivation, and help students develop a command of the language of sales. The course follows a process model of selling that applies across product concepts. There is an emphasis on participative exercises including classroom discussion of written assignments, presentations and role playing exercises.

BUS 3125 INTERNATIONAL BUSINESS ENVIRONMENT

Two hours. This course is designed to provide students with an initial examination of the differences between business in a domestic context and business in an international context. Content will include exposure to culture, political, and social environment considerations, as well as trade theory, government influence on trade, and global management strategy.

Gen Ed: SW (Glb, Aw, An)

BUS 3160 MARKETING PRINCIPLES

Four hours. Prerequisites: ECO 2205 (Interdisciplinary majors/minors are eligible for prerequisite substitutions or waivers). Marketing principles, functions, organizations, methods, and problems involved in the exchange process known as marketing; a managerial perspective that revolves around the marketing concept and the marketing mix.

Gen Ed: QI

BUS 3175 INTERNATIONAL MARKETING STRATEGIES

Four hours. Prerequisites: BUS 3125 and BUS 3160. The course is intended to provide undergraduate students with awareness, an analysis of global, international, and multicultural issues as they relate to companies and countries with an integrated course project that is applied to an actual organization. The integrated project requires students to learn, analyze, and creatively solve a marketing problem followed by determining the best method(s) to use to communicate the solution to the client organization.

BUS 3311 LEGAL ENVIRONMENT OF BUSINESS

Four hours. Introduction to commercial, property, administrative, constitutional and liability law, and the American court system, with special emphasis on how it affects people in business. Students will engage in evaluation, analysis, and application of legal doctrines to business and personal situations.

BUS 3312 COMMERCIAL LAW

Two hours. Prerequisite: BUS 3311. In-depth study of the legal issues and principles inherent in business transactions, including sales, commercial paper, contracts, secured transactions, real property, business organizations, and trusts and estates; with heavy emphasis on applications of principles to problems.

BUS 3320 APPLIED STATISTICS OF BUSINESS AND ECONOMICS

Four hours. Same as ECO 3320. Prerequisite: MAT 2022 or its equivalent or permission of the instructor. Mathematical statistical tools for managerial analysis, research, and decision making, data collection and presentation, multivariable hypothesis testing, regression analysis, time series analysis, forecasting, decision analysis, inventory management, modeling and simulation, and project management.

Gen Ed: Qn

BUS 3453 MANAGERIAL FINANCE

Four hours. Prerequisites: ACC 2112 and ECO 2205 and ECO 2207. Planning and controlling sources and uses of a firm's funds. Includes capital budgeting, dividend policies, determination of optimal capital structure, and internal vs. external financing of expansion.

BUS 3455 FINANCIAL PLANNING AND POLICY

Four hours. Prerequisites: BUS 3453. Study and analysis of the financial planning process including client interactions, assessment of investor risk profiles, construction of comprehensive personal financial statements and financial plans, ethics and responsibilities of professional financial planners, and the regulation of the financial services industry.

BUS 3575 NEW VENTURE CREATION

Four hours. A study of the entrepreneurial aspects of business management including financial understanding as well as all of the activities in managing a business. Analyzes how entrepreneurs help shape and energize the free-enterprise system with innovation and job creation. Global considerations and entrepreneurship are included. The student will discover the advantages and pitfalls of entrepreneurship through the comprehensive development of a business plan assignment.

BUS 3666 LEADERSHIP COMPETENCIES

Four hours. Prerequisite: BUS 2217. Study and application of cases, concepts, and theories related to leadership. Experiential exercises are used to simulate leadership situations and facilitate growth in leadership skills and abilities.

BUS 3670 FINANCIAL RISK MANAGEMENT

Four hours. Prerequisites: ACC 2112 and ECO 2205 and ECO 2207. The course presents the fundamentals of financial risk management. It provides a realistic and conceptually motivated

overview of risk management for global corporations. Techniques to identify, measure and manage financial risk including use of futures, options, swaps, real options, financial engineering, value-at-risk and other risk measures are studied and applied.

BUS 3705 BUSINESS INFORMATION SYSTEMS

Four hours. Provides an overview of business data processing and management information systems. Covers introductory concepts of systems analysis techniques, nature of computer applications in business, problem solving, and discusses the future of information technology.

BUS 3888 PRINCIPLES OF REAL ESTATE ANALYSIS AND VALUATION

Four hours. Prerequisites: ACC 2112 and ECO 2205 and ECO 2207. This course will provide a survey of real estate assets, markets, and decisions. The emphasis will be on the development of analytical techniques and information required for implementation; the course will also cover institutional features of real estate markets and transactions.

BUS 3960 PROFESSIONAL DEVELOPMENT FOR INTERNSHIPS AND CAREERS

Two hours. Does not count toward the business administration major. This course is designed for students who wish to prepare for an internship experience and position themselves for future employment in the field of their choice. Students will have the opportunity to gain key skills preparing them in locating a professional internship/future career. Topics range from setting career goals and understanding personal skills, to conducting job searches and identifying target experiences, to résumé and cover letter writing and polishing interviewing skills.

BUS 4110 LAW IN FILM I: LEGAL ISSUES AND PROCEDURES

Two hours. Prerequisites: Junior standing and BUS 3311 and other approved criminology or political science course, or permission of the instructor. Seminar style course which provides an in-depth examination of legal issues and procedures, and the perception versus the reality of the American legal system and the practice of law through the use of mainstream films and television shows.

BUS 4115 INTERNATIONAL MANAGEMENT

Four hours. Prerequisites: BUS 2217 and BUS 3125. This is a seminar-style course covering global labor markets, staffing, training and development, performance appraisal, and compensation. The course also examines the key competencies of global leaders and the challenges of managing global assignments.

BUS 4120 LAW IN FILM II: ETHICS AND PERCEPTIONS

Two hours. Prerequisites: Junior standing and BUS 3311 and other approved criminology or political science course, or permission of the instructor. Seminar style course which provides an in-depth examination of legal and business ethics and the perception of lawyers, businessmen, and the legal system created by cinematic depictions.

BUS 4188 INVESTMENTS

Four hours. Prerequisite: BUS 3453. Emphasis from standpoint of individual investor in corporate and government securities; investment objectives; appraisal of investment risks; valuation of securities; portfolio management.

BUS 4205 SPREADSHEET MODELING AND QUANTITATIVE BUSINESS DECISIONS

Four hours. Prerequisites: BUS/ECO 3320 and BUS 3453. The course provides a complete and modern treatment of management science methodology and the use of spreadsheet applications. Topics include decision theory, linear programming, network analysis, transpiration & assignment, PERT/CPM, forecasting, inventory control and queuing theory.

BUS 4255 INTERNATIONAL FINANCIAL MANAGEMENT

Four hours. Prerequisites: BUS 3125 and ACC 2112. Examination of the international financial environment of business. Emphasis is on the financial decision making process relating to foreign exchange risk management, hedging, arbitrage, currency futures and option markets, management of foreign investments, country risk analysis, international sources of financing and international money and capital markets.

BUS 4430 BUSINESS ETHICS, COMMUNICATION, AND RISK MANAGEMENT

Four hours. Prerequisites: Junior standing, and BUS 2217 and 3311 or permission of the instructor. This course integrates legal research, writing, and document creation with business ethics. It is designed to prepare business students to effectively address and avert the legal and ethical challenges they will face in day-to-day business operations.

Gen Ed: MV

BUS 4466 MARKETING RESEARCH

Four hours. Prerequisites: BUS 3160 and BUS/ECO 3320 (Interdisciplinary majors/minors are eligible for prerequisite substitutions or waivers). Marketing research is a vehicle for students to use what they have learned with what they will do when they graduate. The course focuses on the use of research methods in formulating marketing policies and strategies; analysis and evaluation of research results; student surveys and research studies with cooperating organizations.

BUS 4488 MARKETING MANAGEMENT

Four hours. Prerequisites: BUS 2217 and BUS 4466. Management of marketing functions and analysis of problems of representative companies, including product development, pricing, promotion, and distribution; uses of computer in market management.

BUS 4960/4961 BUSINESS ADMINISTRATION INTERNSHIP

Two to four hours. Prerequisites: Senior standing; permission of the instructor; minimum 2.5 GPA. Correlating theory and practice in an operational setting, supervision by cooperating practitioners and faculty in approved areas of application.

BUS 4999 SEMINAR IN STRATEGIC MANAGEMENT OF THE BUSINESS ENTERPRISE

Four hours. Prerequisites: Senior standing, all other courses in the major, and successful completion of coursework that satisfies Effective Communication SLOs A and B. The capstone course of the business administration major. The course integrates knowledge of all business disciplines from other courses. Uses case studies and team-based projects to identify problems and formulate strategic policies that shape the destiny of organizations. The course emphasizes analysis, decision-making, and implementation of business strategies.

Gen Ed: EC-C

CHEMISTRY – CHE**CHE 1000 PREPARATION FOR PRINCIPLES OF CHEMISTRY**

Two hours. A review and practice in those basic principles and mathematical skills needed by students planning to take CHE 1111 and CHE 1112. Coursework includes active learning exercises and collaborative problem solving.

CHE 1011 CHEMICAL FOUNDATIONS FOR THE BIOLOGICAL SCIENCES I

Four hours. A review and study of chemical concepts that includes atomic structure, chemical reactions, chemical bonding, acidity and basicity and oxidation-reduction reactions. The laboratory portion will contain experiments that reinforce the principles introduced in the classroom.

Gen Ed: NW

CHE 1012 CHEMICAL FOUNDATIONS FOR THE BIOLOGICAL SCIENCES II

Four hours. Prerequisite: CHE 1011. A study of organic compounds that includes structure, properties, and reactions of functional groups followed by an examination of the role these molecules play in biological structures and processes. Concepts presented correlate to other sciences such as ecology, agriculture, biochemistry and medicine.

CHE 1015 INTRODUCTION TO ORGANIC AND BIOCHEMISTRY

Two hours. Prerequisite: CHE 1101. A study of organic compounds that includes structure, properties, and reactions of functional groups followed by an examination of the role these molecules play in biological structures and processes. Concepts presented correlate areas such as environmental science, ecology, agricultural chemistry, marine chemistry and biochemistry. Coursework includes active learning exercises, collaborative problem solving, discovery based experiments, team projects, and peer instruction.

CHE 1017 INTRODUCTION TO CHEMICAL ANALYSIS

Two hours. Prerequisite: CHE 1101. Introductory principles for chemical analysis will be covered with an emphasis on quantitative measurements and data analysis. Topics may include acid-base and equilibrium chemistry, volumetric analyses, spectrophotometry, and electrochemical methods of chemical analysis with a particular emphasis on analyses relevant to environmental and agricultural systems. Theoretical aspects of these topics will be addressed in the classroom, and practical aspects of these topics will be explored in the laboratory.

CHE 1111 PRINCIPLES OF CHEMISTRY I

Four hours. Prerequisites: CHE 1000 or one year of high school chemistry. Quantitative treatment of the principles of chemistry including stoichiometry, states of matter, energy, atomic structure, periodicity, ionic compounds, and molecular structure.

Gen Ed: NW

CHE 1112 PRINCIPLES OF CHEMISTRY II

Four hours. Prerequisite: CHE 1111. The topics covered in this course will include: intermolecular forces, kinetics, equilibrium, acid, bases, buffers, thermodynamics, electrochemistry, nuclear chemistry, and introduction to basic organic chemistry.

CHE 2110 PHYSIOLOGICAL CHEMISTRY

Four hours. A survey and study of chemical concepts that includes atomic structure, chemical reactivity, chemical bonding, and acid/base chemistry. Special emphasis is placed upon the study of organic compounds that includes structure, properties, and reactions of functional groups followed by an examination of the role these molecules play in biological structures and processes. For RN to BSN students only.

CHE 2221 ORGANIC CHEMISTRY I

Four hours. Prerequisite: CHE 1112. Detailed study of carbon compounds approached through the study of structure, functional groups, reactions, and mechanisms. In the laboratory, emphasis is placed upon illustrating chemical reactivity through experimentation and molecular characterization utilizing state-of-the-art instrumentation.

CHE 2222 ORGANIC CHEMISTRY II

Four hours. Prerequisite: CHE 2221. Continuation of the study of carbon compounds approached through the study of structure, functional groups, reactions, and mechanisms. In the laboratory, emphasis is placed upon synthesis illustrating chemical reactivity and molecular characterization utilizing state-of-the-art instrumentation.

CHE 2275 FORENSIC CHEMISTRY

Four hours. Prerequisite: CHE 1012 or CHE 1112. This course will focus on the applications of chemistry to forensic science. Through the use of case studies such as the Kennedy assassination,

Napoleon's death, the shroud of Turin, etc., the topics of trace evidence (soils, glass, and heavy metals poisons); toxicology and pharmacology (analysis of alcohol, poisons and drugs) will be explored. Students will gain experience with analytical and instrumental methods used in investigating crimes, with an emphasis on the measurement accuracy and traceability required in criminalistics.

CHE 2335 ANALYTICAL CHEMISTRY

Four hours. Prerequisite: CHE 1112. Principles of analytical chemistry will be covered with an emphasis on quantitative measurements and statistical data analysis. Topics may include gravimetric analysis, volumetric, and potentiometric methods of analysis with a focus on acid-base, reduction-oxidation, and complexometric chemistry.

CHE 2355 DESCRIPTIVE INORGANIC CHEMISTRY

Four hours. Prerequisite: CHE 1112. Fundamental topics in inorganic chemistry will be explored, among them: atomic theory and periodicity, the structure of simple solids, main group elements, and structure and bonding of coordination compounds. The laboratory component of the course will give students experience with various laboratory techniques used in the synthesis and characterization of inorganic compounds.

CHE 3320 APPLIED PHYSICAL, ANALYTICAL, AND INORGANIC CHEMISTRY

Three hours. Pre-requisite: CHE 3341. The objective of this course is to integrate the theory and application of methods in physical chemistry, instrumental analysis, and inorganic chemistry, with an emphasis on inorganic synthesis and the characterization of the inorganic products using spectroscopy, thermodynamics and kinetics.

CHE 3335 INSTRUMENTAL ANALYSIS

Three hours. Pre-requisite: CHE 2335. The objective of this course is to apply the principles of quantitative chemical analysis to instrumental techniques. Electrochemical, chromatographic, and spectroscopic techniques will be covered in theory and in practice through a combination of lecture and hands-on experimentation. However, as there is no laboratory component to this course, lectures will, when appropriate, integrate use of instrumentation as engagement within the classroom.

CHE 3341 PHYSICAL CHEMISTRY I

Four hours. Prerequisites: CHE 2222 and PHY 2120 and MAT 2312 and successful completion of coursework that satisfies Effective Communication SLOs A and B. The topics covered in this class include foundations of quantum mechanics, atomic and molecular structure and the chemical bond, atomic and molecular spectroscopy.

CHE 3342 PHYSICAL CHEMISTRY II

Three hours. Pre-requisite: CHE 3341. The topics covered in this class include properties of gases, statistical mechanics and thermodynamics, phase and chemical equilibria, solutions, kinetics and reaction dynamics.

CHE 3361 BIOCHEMISTRY: STRUCTURE AND FUNCTION

Four hours. Same as BIO 3361. Prerequisite: BIO 1500 and CHE 2222 or permission of the instructor. Biochemistry is the study of the molecules and chemical reactions of living systems. Topics covered include water, structure and function of biomolecules, enzymes, bioenergetics, major metabolic pathways, and metabolic regulation.

CHE 3362 BIOCHEMISTRY: MOLECULAR BIOLOGY

Four hours. Same as BIO 3362. Prerequisites: BIO 1500 and CHE 2222. Students will consider important topics in molecular genetics, including structure, function and manipulation of DNA, and selected topics in metabolism and signaling.

CHE 4410 INTRODUCTION TO RESEARCH METHODS

Two hours. Prerequisite: Senior standing and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course will encompass the exploration of a scientific research topic under the supervision of a professor having expertise in that area. It will consist of library and laboratory investigations that will culminate in the dissemination of the research methods via a written research report and oral presentation.

Gen Ed: EC-C

CHE 4425 SPECIAL TOPICS IN CHEMISTRY

Two to four hours. Prerequisite: Permission of instructor. This course allows for an upper level examination of current or advanced topics in chemistry.

CHE 4455 ADVANCED INORGANIC CHEMISTRY

Three hours. Prerequisites: CHE 2355 and CHE 3341. This course will cover coordination chemistry and reaction mechanisms, group theory and symmetry as applied to the understanding of bonding and spectroscopy of inorganic compounds, fundamentals of organometallic reactions, catalysis, and special topics in bioinorganic and material science. Students will be involved in engaged learning activities including guided inquiry projects, collaborative problem solving, team-based research projects, and searching the literature using discipline specific databases.

CHE 4960 INTERNSHIP IN CHEMISTRY

Two hours. Prerequisite: Senior standing and permission of the instructor and successful completion of coursework that satisfies Effective Communication SLOs A and B. A full- or part-time work-study appointment in a clinical, commercial, governmental, or industrial laboratory supervised jointly by an on-site supervisor and Department of Chemistry faculty member.

Gen Ed: EC-C

CHE 4999 SENIOR RESEARCH

Two hours. Prerequisite: Senior standing and CHE 4410 or CHE 4960 and successful completion of coursework that satisfies Effective Communication SLOs A and B. A capstone course that will engage the student in the exploration of a scientific research topic under the supervision of a professor having expertise in the areas of interest. It will consist of library and laboratory investigations that will culminate in a written research report and the dissemination of the research methods and findings at a scientific or scholarly meeting.

Gen Ed: EC-C

CHINESE - CHN

Each course is an enhanced self-study program in the NASILP (National Association of Self-Instructional Language Programs) format, which relies heavily upon the student's motivation and discipline. Major emphasis is on the development of oral-aural skills. Class time will be spent in oral drills and conversation practice with a native-speaking (or equivalent) tutor. Classes will be conducted almost entirely in Chinese. Students will study the grammar independently, using the NASILP format with the help of the assigned text and workbook, as well as in the lab. Students are expected to work outside of class and in the lab each week and come to class prepared.

CHN 1101 FIRST SEMESTER CHINESE

Four hours. Prerequisite: Cumulative GPA of at least 2.5 or approval from the Critical Languages program director.

CHN 1102 SECOND SEMESTER CHINESE

Four hours. Prerequisite: CHN 1101 proficiency.

CHN 2203 SECOND YEAR CHINESE

Four hours. Prerequisite: CHN 1102 proficiency.

CITRUS – CIT**CIT 3301 INTRODUCTION TO CITRUS**

Four hours. Pre- or corequisite: HRT 2100 or permission of the instructor. This is the introductory course in citrus production. It discusses the botany of citrus, its varieties, and rootstocks, soils suitable for citrus and development of a young citrus grove, as well as Florida hydrology and meteorology and their effects on water availability for citrus production.

CIT 3302 CITRUS GROVE MANAGEMENT

Four hours. Prerequisite: CIT 3301 or permission of the instructor. This course is the logical continuation of CIT 3301. It includes discussion of commercial citrus production methods, such as frost protection, nutrient requirements, citrus pests, irrigation, cultivation and weed management, and rehabilitation of bearing citrus groves of all major varieties.

CIT 3313 CITRUS POSTHARVEST PRACTICES

Four hours. Prerequisite: CIT 3301 or permission of the instructor. This course is an examination of the operations and technology involved in citrus processing (juice) plants and citrus by-products. It also includes the physiology of citrus fruits, packinghouse operations for fresh fruit varieties, postharvest diseases and disorders, and legal maturity tests and standards.

CIT 4303 CITRUS PEST AND DISEASE MANAGEMENT

Four hours. Prerequisite: CIT 3301 or permission of the instructor. This course examines the insects, mites, and nematodes affecting citrus, as well as the fungal, bacterial, and viral diseases of the crop. It considers biological, cultural, and chemical controls, planning spray programs, as well as pesticide safety and “best management practices.”

CIT 4999 CITRUS PRODUCTION AND BUSINESS PRACTICES

Four hours. Prerequisites: CIT 3302 and 4303 and HRT 3302, or permission of the instructor, and successful completion of coursework that satisfies Effective Communication SLOs A and B. This is the capstone course for the Citrus major. The objective will be to develop a full production plan for a commercial citrus operation in Florida, using knowledge from all of the other courses offered in the departmental curriculum.

Gen Ed: EC-C

COMMUNICATION – COM**COM 2100 MASS MEDIA AND SOCIETY**

Four hours. An in-depth look at the influences of the mass media on American culture. Emphasis will be placed on the historic, social and political impact of the media, both print and electronic.

Gen Ed: SW (Aw, An)

COM 2101 NEWS MEDIA PRACTICUM I

One hour. Prerequisite: Sophomore status or permission of the instructor. A team-taught course across multiple media platforms that provides students practical experience in newspaper writing and production, broadcast studio production and broadcast performance, depending on student preference.

COM 2102 NEWS MEDIA PRACTICUM II

One hour. Prerequisite: COM 2101 or permission of the instructor. A team-taught course across multiple media platforms that provides students practical experience in newspaper writing and production, broadcast studio production and broadcast performance, depending on student preference.

COM 2110 MEDIA WRITING

Two hours. Effective writing for the mass media. Includes style and format and differences amongst the media. Mastery of spelling, punctuation, and grammar through in-class writing assignments. Students will also produce material for student media.

COM 2500 DESKTOP PUBLISHING

Four hours. Using a simulated office environment, acquaint students with the basics of news media, public relations, and advertising electronic document layout for newspapers, brochures, magazines and on-line publications. Students learn basic management skills via peer centered critiques, coaching and mentoring.

COM 2600 PRINCIPLES OF ADVERTISING AND PUBLIC RELATIONS

Four hours. Same as SPC 2600. Four hours. Prerequisites: SPC 1500 and COM 2500 and completion of Effective Communication SLO A for majors; completion of Effective Communication SLOs A & B for Integrated Marketing Communication or Advertising Design Minors; or permission of the instructor. Survey of advertising and public relations methods. Emphasis on preparation of advertisements, professional communication strategies and tactics, use of relevant research methodologies, and communication campaigns

COM 3101 NEWS MEDIA PRACTICUM III

One hour. Prerequisite: COM 2102 or permission of the instructor. A team-taught course across multiple media platforms that provides students practical experience in newspaper writing and production, broadcast studio production and broadcast performance, depending on student preference.

COM 3102 NEWS MEDIA PRACTICUM IV

One hour. Prerequisite: COM 3101 or permission of the instructor. A team-taught course across multiple media platforms that provides students practical experience in newspaper writing and production, broadcast studio production and broadcast performance, depending on student preference.

COM 3300 NEWS REPORTING

Four hours. Prerequisite: Successful completion of Effective Communication SLO A. Writing and researching news for delivery through print, broadcast and online outlets.

COM 3310 BROADCAST WRITING

Four hours. Prerequisite: COM 3300 or permission of the instructor. Introduces and develops writing for broadcast readers, voice-overs, and news packages. Emphasizes writing for video and wrapping around audio in a real-world deadline environment. Includes broadcast producing.

COM 3320 INTRODUCTION TO BROADCAST JOURNALISM

Four hours. Prerequisite: COM 3300. An introduction to the process of electronic newsgathering, video editing, and production of news packages. Live-to-tape studio production is also introduced.

COM 3330 FEATURE AND OPINION WRITING

Four hours. Prerequisite: COM 2110 or SPC 3450. The process and style of writing profiles, narrative non-fiction, travel features and opinion articles.

COM 3340 ADVANCED BROADCAST PRODUCTION

Four hours. Prerequisite: COM 3320. Continues the process of electronic newsgathering and producing newscasts with anchor stories and reporter packages. In-depth, hands-on instruction of digital editing and multimedia graphics software.

COM 3353 EDITING FOR MEDIA

Two hours. Prerequisite: COM 3300 or permission of instructor. Study of the principles and practices of copyediting, with a focus on selection of material, editing for grammar and appropriate style and accuracy.

COM 3355 PUBLICATION DESIGN AND PRODUCTION

Two hours. Prerequisites: COM 2500. The study of the principles and practices of effectively designing and producing publications, including newspapers, magazines and newsletters.

COM 3360 ONLINE MEDIA

Four hours. Prerequisite: COM 3300 and junior status. The study of how to prepare and display news information online. How to critically evaluate content for and on the web. Produce multimedia stories.

COM 3365 INTRODUCTION TO DOCUMENTARY FILMMAKING

Four hours. Concentrated study around the field of documentary filmmaking. This course investigates various approaches to documentary genre in film and television and guides students in their own application of selected approaches, i.e. in their own thinking, writing, production, and speaking about documentary.

COM 3370 PHOTOJOURNALISM

Four hours. Prerequisite: COM 2500 or permission of the instructor. Acquaint students with the techniques of digital photography and the skills needed for all areas of news photography. Class discussions center around the skills, knowledge and attitudes necessary to be successful in life and a career in photojournalism. They include critiquing, coaching, training and mentoring others; best practices in photographing specific genres of news items; how to avoid legal entanglements; ethical issues of publishing; personal safety; and relevant topical issues of the day. A goal of the class is to have a photograph published during the semester.

COM 3410 ADVERTISING CREATIVE

Four hours. Prerequisites: COM 2500 or ART 1120. A non-art course emphasizing the deadline-driven elements of advertising design in the professional world with an emphasis on agency needs.

COM 3420 COPYWRITING

Four hours. Prerequisite: COM 2500 and COM 2600. Provides an emphasis on developing the writing skills that are necessary for effective advertising copy, including writing for traditional and non-traditional media.

COM 3500 ADVANCED DESKTOP PUBLISHING

Four hours. Prerequisite: COM 2500. Prepares aspiring communication professionals for real-world desktop publishing environments requiring professional software applications. Emphasis is placed on project asset management and integration of applications as they are used in a professional environment. Students practice basic management skills via peer centered critiques, coaching and mentoring. Creation of a portfolio is required.

COM 3900 SPECIAL TOPICS IN COMMUNICATION

Four hours. Same as SPC 3900. Prerequisites: Successful completion of coursework that satisfies Effective Communication SLOs A and B. Concentrated study of a special topic in communication, including health communication, rhetoric of the 1960s, rhetoric of the women's movement,

narrative inquiry, communication as performance, communicating addiction, or ethnography. May be repeated twice with different topics.

COM 3955 PROFESSIONAL DEVELOPMENT FOR COMMUNICATION CAREERS

One hour. Prerequisites: Majors only. Must have completed or be concurrently enrolled in all 3000-level courses required for major. This course is a precursor to a student's required communication internship and must be completed in the semester preceding this internship. It will focus on career development and job search skills, culminating in students securing internships for the following semester.

COM 3960-3961 COMMUNICATION FIELD EXPERIENCE

One hour. Prerequisite: Permission of the instructor. Pre-internship experience working in a professional communication setting. Supervision by cooperating practitioners and department faculty. 40 hours of on-the-job experience is required.

COM 4300 NEWS MEDIA PROJECTS

Four hours. Prerequisite: COM 3360. Special project topics that refine and apply skills learned in previous journalism classes. The production of broadcast feature segments for television and online. Real-world media convergence is emphasized in group projects.

COM 4400 ADVERTISING AND PUBLIC RELATIONS CAMPAIGNS

Four hours. Same as SPC 4400. Prerequisites: Either COM 3410 or SPC 4350 for majors. Either ART 3410 or ART 3510 or BUS 4148 for interdisciplinary minors. The orchestration of research, planning and communication skills for a client or employer seeking to achieve measurable outcomes that influence target publics.

COM 4401 ADVERTISING AND PUBLIC RELATIONS CAMPAIGNS I

Two hours. Same as SPC 4401. Prerequisites: Either COM 3410 or SPC 4350 for majors. Either ART 3410, 3510, or BUS 4148 for interdisciplinary minors. The orchestration of research, planning and communication skills for a client or employer seeking to achieve measurable outcomes that influence target publics.

COM 4402 ADVERTISING AND PUBLIC RELATIONS CAMPAIGNS II

Two hours. Same as SPC 4402. Prerequisites: SPC/COM 4401 or permission of instructor. The orchestration of research, planning and communication skills for a client or employer seeking to achieve measurable outcomes that influence target publics.

COM 4500 COMMUNICATION LAW AND ETHICS

Four hours. Prerequisites: COM/SPC 2600 or COM 3300 or permission of the instructor, and successful completion of coursework that satisfies Effective Communication SLOs A and B. An examination of major legal issues facing participants in the mass media, including First Amendment rights, libel and defamation, privacy and open access to government information. In addition, the course will explore ethical principles as they relate to media ethics.

Gen Ed: EC-C

COM 4550 COMMUNICATION RESEARCH

Four hours. Same as SPC 4550. Prerequisites: Either SPC 3210 OR SPC 4350 OR COM 3360 OR COM 3410 OR COM 4500 and successful completion of four hours of the Systematic and Creative Thinking: Quantitative SLO. Students are introduced to quantitative and qualitative research methodologies used by communication professionals and researchers. The course focuses on proper application of methodologies and interpretation of data.

Gen Ed: QI

COM 4905 POLITICS AND THE MEDIA

Four hours. Same as POS 4905. Prerequisite: COM/SPC 4550 or at least junior status, and successful completion of coursework that satisfies Effective Communication SLOs A and B. A systematic description and analysis of the media's role and impact within the American political arena. Attention will be paid to the impact of the changing processes and modes of the media on citizen involvement, political campaigns, and governing.

Gen Ed: SW (Ap), QI, EC-C

COM 4960 COMMUNICATION INTERNSHIP (FALL SEMESTER)

Three hours. Same as SPC 4960. Prerequisites: COM 3955 or permission of internship coordinator and a minimum 2.0 cumulative GPA. On-the-job experience in specific concentration. Supervision by cooperating practitioners and department faculty. Oral report and written reports on field experience required. 40 hours of on-the-job experience are required for each one semester hour of credit.

COM 4961 COMMUNICATION INTERNSHIP (SPRING SEMESTER)

Three hours. Same as SPC 4961. Prerequisite: COM 3955 or permission of internship coordinator and a minimum 2.0 cumulative GPA. On-the-job experience in specific concentration. Supervision by cooperating practitioners and department faculty. Oral report and written reports on field experience required. 40 hours of on-the-job experience are required for each one semester hour of credit.

COM 4999 SPEECH AND MASS COMMUNICATION THEORY

Four hours. Same as SPC 4999. Prerequisites: COM/SPC 2600 or COM 3300 or SPC 3210, and successful completion of coursework that satisfies Effective Communication SLOs A and B. Seminar in speech and mass communication theory and its role in the study of mediated and human communication. This course will explore foundations of communication research, memes in the literature, and current trends. Students will be responsible for writing a research paper focused on a topic of significance within the field of communication.

Gen Ed: EC-C

COMPUTER SCIENCE – CSC**CSC 1010 VISUAL BASIC PROGRAMMING (for non-majors)**

Two hours. Introduction to design and development of computer programs using Visual BASIC. Topics include design of visual human-computer interfaces, calculations, decision making, and loops. Does not count towards the Computer Science major or minor or the Computer Science/Mathematics major.

CSC 1020 BITS, BOTS AND GAMES (for non-majors)

Two hours. An introduction to current computer science topics such as human-computer interaction, robotics, computer games, and societal issues. Does not count towards the Computer Science major or minor or the Computer Science/Mathematics major.

CSC 2100 DISCRETE STRUCTURES

Four hours. Same as MAT 2100. An introduction to discrete mathematics. Topics include logic, set theory, basic proofs, mathematical induction and recursion, counting principles and probability.

Gen Ed: Qn

CSC 2231 PROGRAMMING AND DATA STRUCTURES I

Four hours. Concepts, terminology, and methods of object-oriented programming, algorithms and problem-solving, fundamental data structures. Java Programming.

CSC 2232 PROGRAMMING AND DATA STRUCTURES II

Four hours. Prerequisite: CSC 2231. Abstract data types and recursion. Algorithmic complexity analysis. Analysis, implementation, and practical application of fundamental data structures and sorting and searching algorithms. Student will complete at least one substantial Java programming project.

CSC 3233 PROGRAMMING AND DATA STRUCTURES III

Four hours. Prerequisite: CSC 2232. Programming principles and practices using C and C++ programming languages. Memory, addresses, pointers, arrays, and vectors. Containers and iterators. Introduction to embedded systems programming. Student will complete at least one substantial C++ programming project..

CSC 3310 COMPUTER ORGANIZATION AND ARCHITECTURE

Four hours. Prerequisite: CSC 1010 or CSC 2231 or sophomore standing. Introduces students to digital systems, logic circuits, and the organization and architecture of computer systems, beginning with the standard von Neumann model and then moving forward to more recent architectural concepts.

CSC 3335 DATABASE ANALYSIS AND DESIGN

Two hours. Prerequisite: CSC 1010 or CSC 2231 or sophomore standing. Introduction to the theory and practice of database systems. Focus on analysis and design of relational databases, including distributed systems and large business and scientific databases.

CSC 3336 WEB APPLICATIONS

Two hours. Prerequisite: CSC 3335. Introduction to the theory and practice of web applications including how to design and develop web sites and web based applications. Topics will include web development tools, languages, and models.

CSC 3350 COMPUTER GAME DESIGN

Four hours. Prerequisites: CSC 2232. Storyboarding, technology, science, and graphics involved in the creation of computer games. Emphasis on hands-on design and development of games.

Gen Ed: EC-B

CSC 3370 PROGRAMMING LANGUAGE CONCEPTS

Four hours. Prerequisites: CSC 2232 and CSC/MAT 2100. Study of the fundamental concepts of modern programming languages. Comparison of programming language design, implementation, and use in different programming language paradigms. Design and implementation of simple programming languages.

CSC 3951 COMPUTER SCIENCE RESEARCH I

Two or three hours. Prerequisites: CSC 2232 and permission of the instructor and minimum 3.0 grade point average. Directed research in a computer science topic to be selected in consultation with the faculty. Semester-long project culminating in a formal presentation and detailed technical documentation of the research process and results.

CSC 4400 SOFTWARE ENGINEERING

Four hours. Prerequisites: CSC 2232 and successful completion of coursework that satisfies Effective Communication SLOs A and B. Concepts and methods of large-scale software development. Requirements analysis, specification, design, implementation, testing, and documentation. Professional and ethical responsibilities. Risks and liabilities of computer-based systems. Individual responsibility, teamwork, professionalism, and effective written and oral technical communication are emphasized in a semester-long project.

Gen Ed: EC-C

CSC 4410 OPERATING SYSTEMS AND CONCURRENCY

Four hours. Prerequisite: CSC 2232. Components of an operating system, processes, scheduling, memory management, and file systems. Concurrent programming and synchronization.

CSC 4640 SELECTED TOPICS IN COMPUTER SCIENCE

Two to four hours. Prerequisite: CSC 2232 or permission of the instructor. Covers contemporary topics in computer science. (For example: Artificial intelligence, robotics.) Course may be repeated for credit with a different topic.

CSC 4645 SELECTED TOPICS IN COMPUTER SCIENCE AND MATHEMATICS

Two or four hours. Same as MAT 4645. Prerequisite: Permission of instructor. Covers contemporary topics at an advanced level in applied mathematics and computer science. (For example: numerical methods, graph theory.) Course may be repeated for credit with a different topic.

CSC 4952 COMPUTER SCIENCE RESEARCH II

Two or three hours. Prerequisites: Senior standing and CSC 3951 and permission of the instructor, and minimum 3.0 grade point average. Directed research in a computer science topic to be selected in consultation with the instructor. Semester-long project culminating in a formal presentation and detailed technical documentation of the research process and results.

CSC 4960 INTERNSHIP

Three hours. Prerequisites: Senior standing and permission of the instructor and minimum 2.5 grade point average. Correlating theory and practice in an operating setting; supervision by cooperating practitioners and faculty in several areas of application. Does not count towards the Computer Science/Mathematics major.

CSC 4999 COMPUTER SCIENCE SENIOR SEMINAR

Two hours. Prerequisite: Senior standing. Presentation and delivery of papers from the current computer science literature. In-depth study of a computer science topic culminating in a formal presentation and paper.

CRIMINOLOGY – CRM**CRM 2280 INTRODUCTION TO CRIMINAL JUSTICE**

Four hours. A survey of the American criminal justice decision network with emphasis on the principles and values which undergird it.

Gen Ed: SW (Aw)

CRM 3310 CRIME SCENE INVESTIGATION

Four hours. This course provides students with a general overview and understanding of forensic science and the mechanics of examining the various crime scenes to which a CSI typically responds. The course will explore different types of physical evidence and how to properly collect and preserve this evidence for laboratory testing. The processing of living victims, suspects, and the postmortem examination will be covered. Report writing and courtroom testimony for the CSI also will be addressed.

CRM 3340 CRIMINOLOGY

Four hours. Prerequisite: MAT 2022 or equivalent or permission of the instructor. The nature and extent of crime, criminal typologies, and criminological theory.

Gen Ed: SW (Aw)

CRM 3350 POLICING IN AMERICAN SOCIETY

Four hours. Prerequisite: CRM 2280. The functions and responsibilities of police with emphasis on issues and problems of American police. This course is designed to introduce undergraduate students to the principles and processes of the police as a part of the criminal justice decision network, the values and value conflicts which are inherent in police decisions, and issues related to crime control in a democratic society. Students will study the approaches and methods of various disciplines as they apply to the study of police structure and decision-making.

CRM 3360 JUVENILE DELINQUENCY

Four hours. The nature and extent of juvenile delinquency, theories of causation, prevention, and treatment.

CRM 4420 METHODS OF SOCIAL RESEARCH

Four hours. Same as SOC 4420. Prerequisites: Twelve hours in criminology or sociology and MAT 2022. The application of the scientific method in researching social phenomena, focusing on the foundations of quantitative, empirical methodologies. Students will participate in the entire research process, including conceptualization, research design, sampling, measurement, data collection, computer software, statistical analysis, report writing, oral presentation.

Gen Ed: SW (Ap), Qn

CRM 4430 CRIMINALIZATION OF MENTAL ILLNESS

Four hours. Same as PSY 4430. Prerequisites: CRM 3340 or PSY 1106 or PSY 1110. This course explores how the criminal justice system has become the de facto mental health system and examines reasoned, collaborative solutions to this dilemma.

CRM 4440 JUDICIAL PROCESSES

Four hours. The jurisdictions, policies and procedures of American courts. Rules of evidence and the impact of appellate court decisions on criminal justice processes.

CRM 4450 CORRECTIONS AND REHABILITATION

Four hours. The history and philosophy of correctional programs, theory and research will be examined. Exploration of sentencing guidelines, probation, parole and intermediate punishments will be undertaken. Current issues and future projections will be discussed.

CRM 4960 CRIMINOLOGY PRACTICUM

Four hours. Prerequisites: PHI 2204 and senior criminology major status and permission of the instructor. Practical experience in one or more criminal justice agencies or in research. Class will focus on integrating theory and practice. The Criminology Practicum is a required course for Criminology majors and is to be taken during the last year of a student's coursework. It consists of 120 hours in an agency as a professional intern. Normally, the practicum would be taken during the summer before the student's senior year, the last semester, or next-to-last semester of a student's academic career at Florida Southern College.

CRM 4999 SEMINAR IN CRIMINOLOGY

Four hours. Prerequisites: PHI 2204 and senior standing, permission of the instructor, and successful completion of coursework that satisfies Effective Communication SLOs A and B. Readings, research, and class discussion on crime-related topics of contemporary importance such as corporate, environmental or political crime, violence, drugs, prison over-crowding, etc.

Gen Ed: EC-C

CRITICAL LANGUAGES

An enhanced self-study program in the NASILP (National Association of Self-Instructional Language Programs) format in languages that are not offered in the regular classroom setting. Major emphasis is on the development of oral and aural skills. Class time will be spent in oral drills and conversation practice with a native speaker. Class will be conducted almost entirely in the target foreign language. Tests will be given by a qualified external examiner.

Languages currently offered include Mandarin Chinese, Arabic, German, and Portuguese. Check with the Modern Languages Program for offerings.

ECONOMICS – ECO

ECO 2205 PRINCIPLES OF MICROECONOMICS

Four hours. Consumer behavior and aggregation to markets, Producer behavior, theory of the firm, and aggregation to markets analysis: production and pricing of goods, factors of production and their attendant input markets and distribution of output, elasticities and incidence of a tax.

ECO 2207 PRINCIPLES OF MACROECONOMICS

Four hours. National income and product accounts; theory of aggregate supply and demand, employment, consumption, investment, price level, economic growth, money, currency exchange, the Federal Reserve, interest rates, and comparative economic systems.

ECO 3305 MICROECONOMIC THEORY

Four hours. Prerequisite: ECO 2205. Decision making in a market-oriented economy. Consumer theory, production theory, and pricing and output under differing market structures.

ECO 3307 MACROECONOMIC THEORY

Four hours. Prerequisite: ECO 2207. National income and product accounts; IS-LM models; theory of aggregate supply and demand, employment, consumption, investment, price level, and economic growth.

ECO 3308 MONETARY ECONOMICS

Four hours. Prerequisites: ECO 2205 and ECO 2207. An analysis of the monetary and banking systems and the impact of the financial sector upon real economic variables. Topics include the Federal Reserve System, monetary policy and implementation, and the relation of domestic and international financial markets and monetary problems.

ECO 3319 LABOR ECONOMICS

Four hours. Prerequisites: ECO 2205 and ECO 2207 or equivalents. Economic theory and analysis dealing with the allocation of labor as an input to the production process. Wage rate determination, micro and macro unemployment, and income differentials are integrated topics throughout the course. The theory of human capital and valuation is covered in depth.

ECO 3320 APPLIED STATISTICS OF BUSINESS AND ECONOMICS

Four hours. Same as BUS 3320. Prerequisite: MAT 2022 or its equivalent or permission of the instructor. Mathematical statistical tools for managerial analysis, research, and decision making. Data collection and presentation, hypothesis testing, regression analysis, time series analysis and forecasting.

Gen Ed: Qn

ECO 3345 ECONOMICS AND THE ENVIRONMENT

Four hours. Prerequisite: ECO 2205. Topics include valuing environments, property rights, externalities, population problems, renewable and non-renewable resource, and pollution.

ECO 4406 PUBLIC ECONOMICS

Four hours. Prerequisites: ECO 2205 and ECO 2207. An examination of the public sector and its contribution to and interference with economic welfare. The course will include an analysis of expenditures and revenues with regard to their allocation and distribution effects; the concept and significance of private goods and social goods; the role of regulatory agencies; and an examination of fiscal policy as a means of promoting economic stabilization and growth.

ECO 4407 INTERNATIONAL TRADE AND FINANCE

Four hours. Prerequisites: ECO 2205 and ECO 2207. An analysis of the causes and consequences of international trade and investment. Topics include theories of trade; U.S. trade policy; the balance of payments; exchange rates; and the international monetary system.

ECO 4415 INDUSTRIAL ORGANIZATION

Four hours. Prerequisite: ECO 2205. A study of policy approaches to the problems of monopoly; industrial market structures and how they influence firm conduct and economic performance; welfare implications of oligopoly pricing and non-price competition; government regulation and antitrust policies in theory and practice.

ECO 4999 CONTEMPORARY ISSUES IN ECONOMICS

Four hours. Prerequisite: Final semester senior status or permission of the instructor. Selected topics. Opportunity for original research in economics. Major research paper with formal public presentation.

EDUCATION – EDU**EDU 1107 FOUNDATION OF EDUCATION I**

Four hours. An introduction to the study of public and non-public education systems, past, and present, in the United States and in other countries. Emphasis on problems, issues, and trends in contemporary American education as viewed from historical, sociological, psychological, and economic perspectives will be examined. This course will also serve as a prologue to comprehensive classroom management.

EDU 2200 FIELD STUDY LEVEL I

One hour. Prerequisite: EDU 1107. Supervised field studies taken simultaneously with major elementary and secondary education courses. Block scheduling with specific courses and schools will be arranged each semester. Students will participate in instructional activities, classroom planning, classroom management exercise, an ESOL activity, and follow all the guidelines and requirements of the classroom teacher.

EDU 2203 FOUNDATIONS OF EDUCATION II

Two hours. Prerequisite: EDU 1107. An introduction to the study of public and non public education systems emphasizing legal, professional and ethical issues in education, curriculum, and instruction, education psychology and classroom management.

EDU 2210 FOUNDATIONS IN SPECIAL EDUCATION

Two hours. This is a major requirement that included Florida Exceptional Student Education Competencies K-12 as required by the Florida Department of Education. A study of the various exceptionalities found among children in public and private school, including the history, characteristics, etiology, terminology, incidence, eligibility guidelines and issues related to

assessment, behavior management, and academic programming. Field-based activities are required in this course.

EDU 2235 TECHNOLOGY INFUSED TEACHING AND EDUCATIONAL ASSESSMENTS AND MEASUREMENTS

Four hours. Students in this course explore technology infused teaching, learning and assessment in the broad context of educational foundations and learning theories. A clinical experience is a major component of the course.

EDU 2240 TEACHING LANGUAGE ARTS LEVEL I

Four hours. Preprofessional teachers will master the theoretical and practical foundations for teaching the six language arts within the context of a culturally diverse and technologically complex environment. They will engage in cooperative analysis of classroom presentations, develop teaching strategies and master the teaching vocabulary of the language arts as well as integrating technology in the development of their lesson plans.

EDU 3279 FOUNDATIONS OF ESOL I

Four hours. Planning, implementing, and evaluating developmentally appropriate methods and unique experiences to meet the needs of children who speak a language other than English. Characteristic of second language learner. Second language acquisition processes, and oral language development. Discussions of major trends in ESOL teaching as well as appropriate resources in ESOL methodologies. Exploration of various social contexts that maximize language and literacy development for second language learners such as collaborative groups and teacher-student conferencing. Focus on instructional strategies that effective teachers use to promote literacy development in all students.

EDU 3323 FIELD STUDY LEVEL II

One hour. Prerequisite: EDU 2200 and passing scores on all parts of the General Knowledge Test (GKT). Supervised field studies taken simultaneously with major elementary and secondary education course. Block scheduling with specific courses and schools will be arranged each semester. Student will participate in instructional activities, classroom planning, classroom management exercise, an ESOL activity, and follow all the guidelines and requirements of the classroom teacher

EDU 3333 FOUNDATIONS OF EDUCATION III

Two hours. Prerequisite: EDU 2203. An introduction to the study of public and non-public education systems emphasizing the philosophical foundations of education trends in contemporary American education, educational psychology and classroom management.

EDU 3339 INSTRUCTIONAL METHODS I

Four hours. In this course the student will use 21st century technology tools to promote the engaged teaching and learning of concepts in elementary mathematics. The emphasis will be on the real number system and its subsystems, relating these systems to basic concepts of algebra and geometry.

EDU 3343 CHILDREN'S LITERATURE

Four hours. Prerequisites: EDU 2235 and EDU 2240 and EDU 3279. Preprofessional teachers will master the theoretical and practical foundations for teaching the Language Arts within the context of a culturally diverse and technologically complex environment. They will apply these concepts in a laboratory school setting.

EDU 3347 TEACHING LANGUAGE ARTS II

Four hours. Prerequisites: EDU 2235 and EDU 2240. Pre-professional teachers will master theoretical and practical foundations for teaching the Language Arts within the context of a culturally diverse and technologically complex environment. Engaging in the systematic problem-

solving process, they will demonstrate understanding on how to select and administer appropriate assessments and analyze data to inform reading instruction to meet the needs of all students.

EDU 3370 DIFFERENTIATED INSTRUCTION OF READING FOR ELEMENTARY STUDENTS

Four hours. Prerequisite: EDU 2240. Preservice teachers will have a broad knowledge of students from differing profiles in order to understand and apply research-based instructional practices by differentiating process, product, and context. Teachers will engage in the systematic problem solving process and implement learned practices in a field based setting.

EDU 4400 FIELD STUDIES III

One hour. Prerequisites: EDU 3323. Supervised field studies taken simultaneously with major elementary and secondary education courses. Block scheduling with specific courses and schools will be arranged each semester. Student will participate in instruction activities, classroom planning, classroom management exercises, an ESOL activity, and follow all the guidelines and requirements of the classroom teacher.

EDU 4407 INSTRUCTIONAL METHODS II

Four hours. Prerequisite: Admission into the Teacher Education Program. The content, materials, skills, and evaluation procedures in teaching social studies will be examined and emphasized.

EDU 4409 INSTRUCTIONAL METHODS III

Four hours. Prerequisite: Admission into the Teacher Education Program. The content, materials, methods and practices in the teaching of science will be examined and emphasized. The understanding of the scientific processes and how to teach these to children will be presented with each of the sciences.

EDU 4454 SPECIAL METHODS IN EDUCATION

One Hour. This course is designed to prepare for teaching in the secondary subject areas of Biology, Mathematics, English, Social Sciences, Foreign Languages, Art, Music, and Physical Education using a variety of research-based techniques, materials (including instructional technology), and teaching strategies. Special emphasis is given to the research based on effective teaching behaviors.

EDU 4457 READING AND WRITING IN THE CONTENT AREA

One hour. This course will focus on ways in which reading, writing, speaking, and listening are developed and used in the content areas in conjunction with the strategies and skills appropriate to the developmental levels and attitude typical of secondary school students. The course will involve lesson planning and design as well as group presentation, discussion, and critique.

EDU 4478 APPLIED LINGUISTICS – ESOL II

Four hours. Prerequisite: EDU 3279. The structure of the English language will be surveyed identifying areas that cause problems for non-native speakers. The various sources of these problems will be identified, including interferences, acquisition strategies, and inherent complexity. Because the class is designed for K – 12 ESOL teachers, it will focus on the sound system, vocabulary system, and the grammatical system as they apply to students. In addition to practical information concerning the structure of English, participants will learn various principles of second language acquisition and apply those principles to the teaching of English a second language. ESOL Endorsement only.

EDU 4483 ESOL CURRICULUM AND MATERIALS

Two hours. The course focuses on applications of the theories, principles, and current research related to second language acquisition, as well as instructional techniques and materials relevant to development of ESOL curriculum.

EDU 4484 CROSS CULTURAL COMMUNICATION AND UNDERSTANDING

Two hours. Designed to develop awareness and understanding of the major cultures represented by the different language minorities within the State. It will provide insights that will enable participants to plan and implement curriculum, instruction and assessment activities that will meet the special needs of LEP students who are speakers of other languages.

EDU 4486 TESTING AND EVALUATION IN ESOL

Two hours. Designed to improve and enhance the participant's knowledge to select and develop instruments of evaluation suitable for use with students who demonstrate limited English proficiency.

EDU 4889 STUDENT TEACHER INTERN SEMINAR

Two hours. Prerequisite: Completion of all major courses and permission of the instructor. Weekly seminar for interns. Discussion and analysis of general methods of teaching in schools, with an emphasis on classroom management, experience, and presentation.

EDU 4990 SENIOR INTERNSHIP

Ten hours. Prerequisites: Completion of all major courses. The senior internship is designed to be the culminating engaged learning experience for education majors regardless of age/grade level specialty, subject matter, and/or major. The internship is 14 weeks long and involves teaching, modeling, observing, and evaluating. The Coordinator of Field Studies at Florida Southern College and a representative of the Human Recourse Development Office of Polk County School assigns students to a Polk County Public School. The student will take over all responsibilities of a certified Florida classroom, teaching in his/her specialty area after receiving adequate preparation by the assigned teacher and supervisors.

Gen Ed: EC-C

ENGLISH – ENG**ENG 1000 INTRODUCTION TO COLLEGE ENGLISH**

Four hours. This course provides a concentrated study of the grammar and rhetoric of the English sentence. It is also designed to teach effective paragraph and short essay composition and to prepare students to deal more effectively with the larger elements of composition which are the focus of higher level writing courses.

ENG 1005 WRITING ABOUT TOPICS

Four hours. Instruction and practice in writing short personal, informative, and persuasive essays about a selected topic that is the focus for the semester. The selected topic will engage students intellectually and imaginatively while developing their skills as they consider various aspects of the course topic. Formal research is part of the course. Specific topic at the discretion of the instructor. *Course number can be taken more than once under different topics.*

Gen Ed: EC-A

ENG 2004 LITERARY LIFE: [VARIABLE SUBTITLE]

Four hours. The course will introduce students to the study and informed enjoyment of literature from a theme-based perspective. Each section will emphasize a specific theme or focus of the instructor's choosing, such as chick lit, multi-ethnic literature, literature of sport, fantasy and sci fi, war literature, vampires and zombies, graphic novels, protest literature, memoir and autobiography, Civil Rights literature, Florida literature, etc. Course may be repeated for credit with a different topic.

Gen Ed: FA (In), QI, EC-B

ENG 2023 CREATIVE LITERATURE, CREATIVE WRITING

Four hours. Practice in the reading, interpretation, discussion of, and writing of contemporary prose and poetry, including techniques and elements.

Gen Ed: FA (In, Ex)

ENG 2130 INTRODUCTION TO ENGLISH STUDIES

Four hours. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. Concentrated study of and application of theory, practice, and issues in English studies. Emphasis on interpretive and critical reading, scholarly modes and methods, research resources, source documentation, disciplinary technology, and oral presentation.

Gen Ed: QI, EC-C

ENG 2305 MASTERPIECES OF WORLD LITERATURE

Four hours. Study of distinctive works, in English translation, by eminent writers from the ancient world to the present, primarily in the Western tradition.

Gen Ed: SW (Glb, Aw), FA (In)

ENG 3200 WRITING FOR BUSINESS

Four hours. Study of all major forms of business communication, including letters, memoranda, formal reports, and oral presentations.

Gen Ed: EC- B

ENG 3217 CREATIVE NONFICTION WRITING

Four hours. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. Application of methods of effective writing as related to purpose within the broad genre of creative nonfiction writing. Focus on usage, structure, style, and rhetorical principles.

Gen Ed: FA (Ex), EC-C

ENG 3219 PERSUASIVE WRITING

Four hours. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. Study and practice of persuasive rhetorical techniques and the development of argumentative strategies.

Gen Ed: QI, EC-C

ENG 3235 CREATIVE WRITING: POETRY

Four hours. Practice in the writing of poetry, including techniques and elements characteristic of poetry.

Gen Ed: FA (Ex), QI

ENG 3236 CREATIVE WRITING: PROSE

Four hours. Practice in the writing of creative prose, including techniques and elements characteristic of creative prose.

Gen Ed: FA (Ex), QI

ENG 3263 RHETORIC AND WRITING

Four hours. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. The study of rhetorical theories and their application to specific genres of writing. Enhances the students' awareness of the connection between rhetorical theories and actual spoken or written discourse. In so doing, it hones their skill in using the most effective approaches to communicating orally and in writing.

Gen Ed: QI, EC-C

ENG 3304 MAJOR AUTHORS

Four hours. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. The in-depth study of major authors—fiction or non-fiction—who have made a significant impact on the history of literature. Authors may include, but are not limited to, Shakespeare, Chaucer, Milton, Woolf, Faulkner, and Hemingway. The major author focus in a given semester may include two or three authors, such as Hawthorne and Melville or Anne, Charlotte, and Emily Bronte. This course may be taken more than once to allow for study of more than one author or grouping of authors.

Gen Ed: FA (In), EC-C

ENG 3309 AMERICAN LITERATURE I: PRE-1600 TO 1865

Four hours. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. This course covers authors, works, and genres of American literature from pre-Colonialism to 1865.

Gen Ed: SW (An), FA (In), EC-C

ENG 3310 AMERICAN LITERATURE II: 1865-2000

Four hours. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. This course covers authors, works, and genres of American literature from approximately 1865 to 2000.

Gen Ed: FA (In), EC-C

ENG 3313 BRITISH LITERATURE FROM THE MEDIEVAL TO THE NEO-CLASSICAL

Four hours. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. Survey of major British authors and significant works from the beginning of literate culture (including, in some cases, oral texts stabilized after literacy) to the neo-classical Eighteenth Century.

Gen Ed: SW (Glb, Aw), FA (In), EC-C

ENG 3314 BRITISH LITERATURE FROM THE ROMANTIC TO THE POST MODERN

Four hours. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. Survey of major British authors and significant works from approximately the end of the Eighteenth Century to the present day.

Gen Ed: SW (Glb, An), FA (In), EC-C

ENG 3320 SPECIAL TOPICS IN DRAMA AND FILM

Four hours. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. This course will cover different genres, periods, countries or regions and styles or themes of the drama or film. Special attention will be paid to the drama or film in action. This course fulfills a portion of the literature concentration for English Majors or can act as an elective.

Gen Ed: FA (In), EC-C

ENG 3370 LITERATURE BY WOMEN

Four hours. Same as WST 3370. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. Survey of literature by selected women writers from the Middle Ages to the present.

Gen Ed: FA (In), EC-C

ENG 4209 SPECIAL TOPICS IN NONFICTION

Four hours. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. This course will allow students to study a wide array of nonfiction styles and genres, as well as extend their knowledge of new media writing on the advanced level.

Course topics may include, but are not limited to, biography writing, journal writing, technical writing, grant writing.

Gen Ed: EC-C

ENG 4303 STUDIES IN LITERARY PERIODS: [VARIABLE SUBTITLE]

Four hours. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. In-depth study of one of the following focused literary periods: Medieval Literature, The Renaissance, The Eighteenth Century, The Romantic Period, The Victorian Period, or The Twentieth Century and Contemporary British Literature. Course may be repeated for credit with a different topic.

Gen Ed: FA (In), EC-C

ENG 4304 STUDIES IN LITERARY GENRES: [VARIABLE SUBTITLE]

Four hours. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. Advanced study of specific literary genre(s) such as the novel (both traditional and graphic), the epic, short story, nonfiction prose, poetry. Course may be repeated for credit with a different topic.

Gen Ed: FA (In), EC-C

ENG 4305 SPECIAL TOPICS IN LITERATURE

Four hours. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. This course focuses on a specialized study of one or more related aspects of British and/or American literature: authors, themes, genres, or the literature of specific cultural groups.

Gen Ed: FA (In), EC-C

ENG 4960/4961 INTERNSHIP

Four hours. Prerequisites: Junior or senior standing and permission of the instructor. Application of communication – both written and oral – research, and analytical skills within a newspaper or magazine, law firm, government agency, publishing company, or other relevant organization. In addition to on-the-job tasks, written assignments and individual conferences shall be arranged with the faculty member who is overseeing the internship. Summer internships are encouraged.

ENG 4999 SENIOR SEMINAR

Four hours. Prerequisites: Senior standing in English and permission of the faculty. Required for majors, elective for Humanities majors and other interested students. English 4999 is an in-depth exploration of one or more literary topics with emphasis on written and oral presentation.

ENVIRONMENTAL STUDIES – ENV

ENV 2200 ENVIRONMENTAL ISSUES

Four hours. Same as BIO 2200. A study of public policy; environmental conservation and preservation; and current environmental issues, their origins, their consequences and possible solutions.

ENV 2201 ENVIRONMENTAL SCIENCE

Four hours. Same as BIO 2201. Prerequisite: BIO 1500. An introduction to the methods, technology, and equipment used to collect, analyze, and interpret environmental data. Students will apply the techniques they learn to an investigation of an environmental problem.

ENV 2214 DISASTERS, CIVILIZATION, AND ENVIRONMENT

Four hours. An analysis of the inter-relationships between human societies and their environment. The course compares case studies of historical civilizations that have degraded their environment.

Case material is then applied to current environmental problems. This course does not include a laboratory component.

ENV 3150 ECOLOGY

Four hours. Same as BIO 3150. Prerequisites: BIO 2230 and BIO 2235, or permission of the instructor. Relationship of living organisms to their biological, physical, and chemical environments with emphasis on ecosystems.

ENV 3316 TROPICAL ECOLOGY

Four hours. Same as BIO 3316. Prerequisites: BIO 1500 or permission of the instructor. A field course studying the geology, history, vegetation, and ecology of a tropical region.

FRENCH – FRE**FRE 1101 ELEMENTARY FRENCH I**

Four hours. This is an elementary course designed for students who wish to develop the basics of speaking, listening, reading and writing French. Students will learn beginning grammar concepts, gain a strong vocabulary base, practice nuances of pronunciation and explore the French culture as reflected in different French-speaking countries.

Gen Ed: SW (Glb, Aw), QI

FRE 1102 ELEMENTARY FRENCH II

Four hours. Prerequisite: FRE 1101 proficiency or permission of the instructor. This is an elementary course designed for students who wish to continue the development of basic grammar skills through reading, listening, comprehension, writing and speaking French. Students will learn beginning grammatical concepts, gain a strong vocabulary base, practice nuances of pronunciation and explore the French culture as reflected in different French-speaking countries.

FRE 2203 INTERMEDIATE FRENCH

Four hours. Prerequisite: FRE 1102 proficiency or permission of the instructor. The objective of this course is to continue to develop students' knowledge of the French language and Francophone cultures. Students will work on the development of the four basic language skills; speaking, listening, reading and writing. Classes will focus on the practical application of language in day to day situations, and on cultural awareness. Level of skills demonstrated should be more in depth than in French 1102.

FSC GENERAL COLLEGE COURSES – FSC**FSC 1050 CAREER DECISION MAKING**

Two hours. This course introduces the student to career development issues and the career decision making process. Lectures, discussions and active classroom activities focus on self-assessment, exploration of career options, goal setting, and self-marketing for future career opportunities. The course provides a framework for students as they navigate the career decision making process and supports them as they identify, evaluate and refine academic and career paths.

FSC 1070 EXPLORING SOCIETY THROUGH SERVICE

Two hours. This course introduces students to academic service learning. Students will explore local opportunities for service through agency speakers, interview, readings, and individual community service. As a group the classes will engage with local community agencies for a minimum of 20 service. Through differing service projects, focused around 2-3 agencies, students will learn how academic disciplines contribute to social capital. This course will be linked to a BUS, PSY, HIS or SOC class.

GEOGRAPHY – GEO

GEO 3320 HUMAN GEOGRAPHY

Four hours. A survey of the relationship between geography and culture, including critical analyses of human social issues and approaches to their solutions.

GEO 3340 WORLD/REGIONAL GEOGRAPHY

Four hours. A world and regional approach to physical, cultural, economic, and political geography, including emphases on how regional characteristics interact with each other.

GERMAN - GER

Each course is an enhanced self-study program in the NASILP (National Association of Self-Instructional Language Programs) format, which relies heavily upon the student's motivation and discipline. Major emphasis is on the development of oral-aural skills. Class time will be spent in oral drills and conversation practice with a native-speaking (or equivalent) tutor. Classes will be conducted almost entirely in German. Students will study the grammar independently, using the NASILP format with the help of the assigned text and workbook, as well as in the lab. Students are expected to work outside of class and in the lab each week and come to class prepared.

GER 1101 FIRST SEMESTER GERMAN

Four hours. Prerequisite: Cumulative GPA of at least 2.5 or approval from the Critical Languages program director.

GER 1102 SECOND SEMESTER GERMAN

Four hours. Prerequisite: GER 1101 proficiency.

GER 2203 SECOND YEAR GERMAN

Four hours. Prerequisite: GER 1102 proficiency.

GREEK – GRE

GRE 1101 HELLENISTIC GREEK I

Four hours. An introduction to the basic grammar, syntax, and vocabulary of Hellenistic Greek .

GRE 1102 HELLENISTIC GREEK II

Four hours. Prerequisite: GRE 1101. An advanced study of intermediate grammar, syntax, and vocabulary of Hellenistic Greek and the translation of New Testament texts.

GRE 2203 READINGS IN GREEK

Four hours. Prerequisite: GRE 1102. Translation of the Greek New Testament with an emphasis on the interpretation of the Greek text, and the analysis and application of textual criticism.

HEALTH SCIENCE – HSC

HSC 1100 PRINCIPLES OF HEALTH CARE

Four hours. Same as NUR 1100. Prerequisite: Nursing or health sciences major or permission of the instructor. This is an introductory course for nursing and health sciences students exploring health care systems, delivery, payment, professional roles, quality, safety and ethical principles of care. Students will complete a shadow experience during the course.

HSC 1234 MEDICAL TERMINOLOGY

Two hours. Same as ATP 1234. Introduction to the language, rules and concepts needed to interpret and understand the terminology of medicine.

HSC 2115 EMERGENCY MEDICAL RESPONDER

Four hours. Same as ATP 2115. This course is an entry-level emergency medical provider course that will prepare individuals for a variety of pre-hospital, industrial, and first-responder situations. The successful completion of a first responder course is a prerequisite to training as a firefighter, emergency medical technician/paramedic and many law enforcement programs.

HSC 2308 THERAPEUTIC TECHNIQUES I

Four hours. Same as ATP 2308. Prerequisites: ATP 1277 and ATP 1278. Introduces students to the concepts, theories, rationale, and practical application of treatment and rehabilitative techniques, including therapeutic exercise procedures as well as the application of physical agents and electrotherapeutic modalities. Emphasis on the lower body.

HSC 2309 THERAPEUTIC TECHNIQUES II

Four hours. Same as ATP 2309. Prerequisites: ATP 1277 and ATP 1278 or permission of the instructor. This course introduces students to the concepts, theories, rationale, and practical application of treatment and rehabilitative techniques, including therapeutic exercise procedures as well as the application of physical agents and electrotherapeutic modalities. Emphasis on the upper body.

HSC 2323 CLINICAL EXAMINATION AND DIAGNOSIS OF THE LOWER BODY

Four hours. Same as ATP 2323. Prerequisites: ATP 1277 and 1278. Evaluation and diagnosis of common lower body injuries with attention to prevention. Laboratory sessions introduce muscle testing of the lower extremity, and various wrapping and taping techniques with an emphasis on immediate care given to traumatic injuries.

Gen Ed: QI

HSC 2324 CLINICAL EXAMINATION AND DIAGNOSIS OF THE UPPER BODY

Four hours. Same as ATP 2424. Prerequisites: ATP 1277 and 1278. Evaluation and diagnosis of common upper body injuries with attention to prevention. Laboratory sessions introduce muscle testing of the upper extremity, and various wrapping and taping techniques with an emphasis on immediate care given to traumatic injuries.

Gen Ed: QI

HSC 3104 APPLIED PATHOPHYSIOLOGY

Four hours. Same as NUR 3104. Prerequisite: Nursing or health sciences major or permission of the instructor. Pathophysiology is the study of altered human physiology and disease processes. The course content provides a basis for nursing practice through learning body organ systems, homeostatic mechanisms, and the body's response to illness and injury.

HSC 3333 CONCEPTS OF NUTRITION AND PHARMACOLOGY

Three hours. Same as ATP 3333. Prerequisite: majors only or permission of the instructor. Emphasis is on the application of nutrition to enhance sports and physical activity, and the effects

of therapeutic medications, performance enhancing drugs. Attention is directed toward optimal performance including dietary modifications, issues dealing with alcohol, tobacco, illicit drugs, and pharmacology.

Gen Ed: QI, Well

HSC 4110 EVIDENCE BASED HEALTH CARE

Four hours. Same as NUR 4110. Prerequisites: MAT 2022 or MAT 2023 and nursing or health sciences major or permission of the instructor and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course integrates theory and concepts from health care and nursing that apply to the generation, appraisal, use, and dissemination of research that contributes to safe, effective, and high quality healthcare practice and delivery.

Gen Ed: EC-C

HSC 4550 TOPICS IN GLOBAL HEALTH CARE

One to eight hours. Same as NUR 4550. Prerequisites: Nursing or health science major and permission of the instructor. Students in other majors may be eligible to take this course with permission of the Dean of the School of Nursing and Health Sciences. This is an elective course that allows a student to experience health care in a global setting. Each course will be developed separately depending on availability of resources and suitability of the experience for students. Variable credit will reflect the amount of time expended by each student as 1 credit hour for each 40 clock hours. Course work during the fall or spring semester may be tied to a trip abroad to various countries. Typical trips may be supporting a rural health clinic in Latin America, patient care in a small hospital in Africa, or community health projects in Asia or other parts of the world.

HSC 4590 LEADERSHIP PRACTICUM

Four hours. Same as NUR 4590. Prerequisites: Senior status and nursing or health science majors and permission of instructor. In this course the student examines his or her personal development as a health care professional and identifies goals for transitioning to practice. Leadership skills and life management skills are refined. Political, legal, and advocacy issues in nursing and health care are examined. Students will conduct an independent practicum at area health care facilities.

HSC 4960/4961 INTERNSHIP

One to sixteen hours. Same as NUR 4960/61. Prerequisites: Nursing or health science majors and permission of instructor. The internship provides an intensive experiential experience through supervised practice in a wide variety of health care settings. The course helps students to build self-confidence, to increase competency with the delivery of evidence-based care, and to perform in a professional role. To the degree possible, students request an internship site consistent with their area of interest and are guided by a preceptor in collaboration with a FSC faculty member.

HISTORY – HIS

HIS 1115 THE WEST AND THE WORLD TO THE EARLY MODERN ERA

Four hours. The study of western civilization and its development presented within the context of global history, from human origins to the early-modern era. In addition to looking at the contributions of prominent individuals, the course addresses political, social, economic, religious, intellectual, and aesthetic developments.

Gen Ed: SW (Glb, Aw), EC-B

HIS 1125 THE WEST AND THE WORLD SINCE THE EARLY MODERN ERA

Four hours. The study of western civilization and its development presented within the context of global history, from the beginning of the early modern era to the present. In addition to looking

at the contributions of prominent individuals, the course addresses political, social, economic, religious, intellectual, and aesthetic developments.

Gen Ed: SW (Glb, Aw), EC-B

HIS 2215 THE AMERICAN EXPERIENCE THROUGH THE CIVIL WAR

Four hours. The social, political, economic, and intellectual development of the United States from the Age of Discovery through the Civil War. Traditional topics are surveyed, with a special emphasis on the nation's ethnic and cultural diversity.

Gen Ed: SW (Glb, Aw), EC-B

HIS 2225 THE AMERICAN EXPERIENCE SINCE THE CIVIL WAR

Four hours. The social, political, economic, and intellectual development of the United States from the end of the Civil War to the present. Traditional topics are surveyed, with special emphasis on the nation's ethnic and cultural diversity.

Gen Ed: SW (Glb, Aw), EC-B

HIS 3155 HISTORY OF GERMANY

Four hours. Prerequisite: One year of college-level coursework and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course surveys the major themes in modern German history from the nineteenth century through the present. Major topics covered in the course include unification, the Kaiserreich, the two world wars, the Holocaust, the Cold War, and reunification. In addition to looking at the contributions of prominent individuals, the course addresses the role structural factors played in shaping the German experience, including culture, modernization, industrialization, imperialism, war, depression, racism, and gender.

Gen Ed: SW (Glb, An), QI, EC-C

HIS 3165 HISTORY OF MODERN EUROPE

Four hours. Prerequisite: One year of college-level coursework and successful completion of coursework that satisfies Effective Communication SLOs A and B. The course surveys the historical development of twentieth century Europe covering the main historical events in the continent. Topics covered include: the First World War, the Russian Revolution, the unstable interwar period and rise of totalitarian regimes, the Second World War and the Holocaust, the Cold War, the social welfare state in Western Europe since 1945, decolonization, domestic terror, the collapse of the Soviet Union, and the origins and development of the European Union. The course focuses on developments affecting the European continent and the world as a whole rather than on localized issues. In addition to looking at the contributions of prominent individuals, the course addresses the role structural factors played in shaping this most fascinating and yet complex period in human history, including culture, imperialism, war, depression, racism, and gender.

Gen Ed: SW (Glb, An), QI, EC-C

HIS 3175 FOREIGN AND SECURITY POLICY OF THE UNITED STATES

Four hours. Same as POS 3175. Prerequisites: One year of college-level coursework or permission of the instructor. This course examines the development of United States foreign policies, with an emphasis on the twentieth century. The course's focus is on the principles, aims, applications, and decision-making processes that shaped America's policies with other states.

Gen Ed: SW (Glb, An)

HIS 3185 HISTORY OF ENGLAND

Four hours. Prerequisites: One year of college coursework and successful completion of coursework that satisfies Effective Communication SLOs A and B. The study of English and British history from 1066 AD to the mid-twentieth century. The focus is on those political, social, economic, and cultural developments that have helped to shape constitutional government.

Gen Ed: SW (Glb, An), QI, EC-C

HIS 3215 HISTORY OF RUSSIA AND THE SOVIET UNION

Four hours. Prerequisites: One year of college coursework and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course surveys the political, social, economic, and cultural history of the Russia Empire and the Soviet Union from the origins of the first Russian state to the fall of the Soviet Union, with an emphasis on the late nineteenth and early twentieth century.

Gen Ed: SW (Glb, An), QI, EC-C

HIS 3225 MODERN AMERICA, 1945-PRESENT

Four hours. Prerequisites: One year of college coursework and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course provides students with an in-- depth examination of Modern America after the Second World War. America's political, economic, and social history will be examined. Among the major subjects included in the course will be the Cold War, Civil Rights, Vietnam War and anti--war movement, feminism, environmentalism, the crises of the 1970s, the neo--conservative revolution and global confrontations up to the first decade of the twenty first century.

Gen Ed: SW (Glb, An), QI, EC-C

HIS 3231 HISTORY OF THE OLD SOUTH

Four hours. Prerequisites: One year of college coursework and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course provides students with an in-depth examination of the South from its Colonial roots through the Civil War.

Gen Ed: SW (Glb, An), QI, EC-C

HIS 3232 HISTORY OF THE NEW SOUTH

Four hours. Prerequisites: One year of college coursework and successful completion of coursework that satisfies Effective Communication SLOs A and B. The course provides students with an in-depth examination of the South from the Civil War.

Gen Ed: SW (Glb, An), QI, EC-C

HIS 3275 HISTORY OF EAST ASIA

Four hours. Prerequisites: One year of college coursework and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course surveys the historical development of modern China and Japan with some attention to the surrounding regions. In addition to looking at the contributions of prominent individuals, the course addresses the role structural factors played in shaping the East Asian experience, including culture, modernization, industrialization, imperialism, war, depression, racism, and gender, with a focus on the differing responses of each civilization to westernization.

Gen Ed: SW (Glb, An), QI, EC-C

HIS 3355 HISTORY OF FLORIDA

Four hours. Same as LAS 3355. Prerequisites: One year of college-level coursework and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course surveys the history of Florida from the Spanish Period to the present. The course examines the major events and personalities in Florida history from chronological and political perspectives. Attention is given to economic, social, and environmental issues that have shaped Florida's history. Florida's unique landscape, geography and natural features are also a subject of inquiry in the course.

Gen Ed: SW (Glb, An), QI, EC-C

HIS 3365 HISTORY OF MODERN LATIN AMERICA

Four hours. Same as LAS 3365. Prerequisites: One year of college coursework and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course surveys the major events and personalities in Latin American History from the colonial era to the present. Attention is given to economic, social, geographical, and environmental issues that have

shaped the region's history. The region's unique landscape, geography and natural features are also a subject of inquiry in the course.

Gen Ed: SW (Glb, An), QI, EC-C

HIS 3415 HISTORY OF THE MIDDLE EAST

Four hours. Prerequisites: One year of college coursework and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course surveys the historical development of the Middle East, beginning with the emergence and spread of Islam before turning to the Muslim world's Golden Age, the invasions by Crusaders and Mongols, the rise and fall of the Ottoman Empire, and concluding with the region's transformation during the late-nineteenth and twentieth century's. In addition to looking at the contributions of prominent individuals, the course addresses the role structural factors played in shaping the Middle Eastern experience, including culture, modernization, industrialization, imperialism, war, depression, racism, and gender.

Gen Ed: SW (Glb, An), QI, EC-C

HIS 3455 SELECTED TOPICS IN THE HISTORY OF THE WESTERN WORLD

Four hours. Prerequisites: One year of college-level coursework or permission of the instructor, and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course provides students with an in-depth examination of topics in this history of the western world. Examples of topics include Renaissance and Reformation, French Revolution and Napoleon, Nineteenth-Century Intellectual History, or Europe Between the World Wars. Topics will change. Course may be repeated for credit with a different topic.

Gen Ed: SW (Glb, An), QI, EC-C

HIS 3550 SELECTED TOPICS IN US OR LATIN AMERICAN HISTORY

Four hours. Prerequisites: One year of college coursework or permission of the instructor. This course provides students with an in-depth examination of a particular topic, period, or region in US or Latin American history. Examples of such topics include US or Latin American women's history, Old South, New South, Civil War and Reconstruction, Jacksonian Era, African-American History, and History of Crime and Criminal Justice in the United States. Topics will change. Course may be repeated for credit with a different topic.

Gen Ed: SW (Glb, An), QI, EC-C

HIS 3555 SELECTED TOPICS IN THE WORLD OR THEMATIC HISTORY

Four hours. Prerequisites: One year of college coursework or permission of the instructor. This course provides students with an in-depth examination of a particular topic, period, or region in world or thematic history. Examples of topics include women's history, twentieth century genocides, an introduction to cultural history, oil and politics in world history, or the atomic bomb and the nuclear age. Topics will change. Course may be repeated for credit with a different topic.

HIS 3705 HISTORY OF WAR AND SOCIETY IN THE MODERN ERA

Four hours. Prerequisites: One year of college coursework and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course explores the historical development of warfare in the modern era. It focuses the evolution of military forces and their technology, organization, strategy, and tactics, and the relationship between armed forces and society, especially the link between military service and citizenship. The specific focus of the course will vary, but generally will consider the experiences of western militaries and those regions of the world which they affected.

Gen Ed: SW (Glb, An), QI, EC-C

HIS 3755 SCREENING HISTORY

Four hours. Prerequisites: One year of college coursework and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course studies the use,

misuse, and value of historical subjects depicted in films. Students will use films from a variety of genres, times, and places as test cases for analysis of historical events, periods, and personalities. In doing so they will learn to view critically while exploring the use of film to teach and learn history. The specific topic of the course will change. The course may be taken for credit toward the major only once.

Gen Ed: SW (Glb, An), QI, EC-C

HIS 4455 SEMINAR ON SELECTED TOPICS IN HISTORY OF THE WESTERN WORLD

Four hours. Prerequisites: History majors, students with two years of college coursework, or permission of the instructor, and successful completion of coursework that satisfies Effective Communication SLOs A and B. This intensive reading and writing course provides students with an in-depth examination of selected topics and themes in the history of the western world. The course emphasizes the review of relevant literature and analysis of the methodologies, interpretations, values, evidence, and conclusions contained therein. Topics and themes may be drawn from the entire western historical experience, from the ancient world of the Greeks and Romans to Europe today. Active engagement with and discussion of an extensive set of readings is expected of all students. Course may be repeated once for credit with a different topic.

Gen Ed: SW (Glb, Ap), QI, EC-C

HIS 4550 SEMINAR ON SELECTED TOPICS IN US HISTORY OR LATIN AMERICA

Four hours. Prerequisites: History majors, students with two years of college coursework, or permission of the instructor, and successful completion of coursework that satisfies Effective Communication SLOs A and B. This intensive reading and writing course provides students with an in-depth examination of selected topics and themes in US or Latin America history. The course emphasizes the review of relevant literature and analysis of the methodologies, interpretations, values, evidence, and conclusions contained therein. Topics and themes may be drawn from the US or Latin American experience from colonial times to the present. Active engagement with and discussion of an extensive set of readings is expected of all students. Course may be repeated once for credit with a different topic.

Gen Ed: SW (Glb, Ap), QI, EC-C

HIS 4555 SEMINAR ON SELECTED TOPICS IN WORLD OR THEMATIC HISTORY

Four hours. Prerequisites: History majors, students with two years of college coursework, or permission of the instructor, and successful completion of coursework that satisfies Effective Communication SLOs A and B. This intensive reading and writing course provides students with an in-depth examination of selected topics and themes in world and thematic history. The course emphasizes the review of relevant literature and analysis of the methodologies, interpretations, values, evidence, and conclusions contained therein. Active engagement with and discussion of an extensive set of readings is expected of all students. Course may be repeated once for credit with a different topic.

Gen Ed: SW (Glb, Ap), QI, EC-C

HIS 4999 THE PHILOSOPHY AND METHODOLOGY OF HISTORY

Four hours. Prerequisites: History majors or students with two years of college coursework or permission of the instructor, and successful completion of coursework that satisfies Effective Communication SLOs A and B. Focus is on readings and discussion of the major schools of historical thought and the methodologies, both qualitative and quantitative, that have been adopted for the study of the past. Readings are chosen to reflect a variety of perspectives, interpretations, and methodologies. Students will also research, prepare, and present a major research assignment utilizing both primary and secondary source materials. History majors should have completed one of the 4000-level topics seminars before enrolling in this course.

Gen Ed: SW (Glb, Ap), QI, EC-C

HONORS PROGRAM – HON

HON 1173 ENVIRONMENTAL INVESTIGATIONS AND INSIGHTS

Six hours. Prerequisite: Entry into Honors Program. Honors students will explore how humans interact with the physical environment while influenced by political and scientific endeavors and the unique qualities of the natural environment. Practical applications of theory will be emphasized in a laboratory component.

Gen Ed: NW, QI, EC-A

HON 1174 CULTURAL INVESTIGATIONS AND INSIGHTS

Six hours. Prerequisite: Entry into Honors Program. What we seek is to explore how the great ideas helped shape the various periods of Western culture and in turn were shaped by them. To what extent have they been consistent down through the ages, and in what ways have they evolved or been modified. Have the changes been for the better or worse? To what extent can this wisdom of the past still guide us, or must it be discarded as now woefully inadequate for the tasks of our own time?

Gen Ed: SW (Glb, Aw), EC-B

HON 2285 ARTISTIC INVESTIGATIONS AND INSIGHTS

Four hours. Prerequisite: Entry into Honors Program. Honors students will attend exhibitions and performances in music, art, architecture, theatre, and the belles-lettres, as they increase their understanding of arts.

Gen Ed: FA (In)

HON 2286 SOCIAL INVESTIGATIONS AND INSIGHTS

Four hours. Prerequisites: Entry into Honors Program and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course is designed to engage FSC Honors students in the study and appreciation of the cultural diversity of Florida and the struggles for justice inherent in that diversity as explored primarily through the disciplines of history and criminology.

Gen Ed: SW (An, Ap)

HON 3XXX HONORS OPTION COURSE

A student may add an Honors option to a non-Honors course for Honors credit. The Honors Program at Florida Southern College has instituted this policy in order to provide opportunities for highly motivated students to participate in unique educational experiences not otherwise available through regular course offerings. Reflecting the vision of the Honors Program, adding an Honors Option to a course results in a collaborative project between student and faculty member. The design of such an option is tailored by both the student's and a sponsoring faculty member's interest. The Honors Option requires a written contract between student and sponsoring faculty member. The contract and sponsoring faculty member must receive approval from the Honors Program Committee. Honors Option is not available for freshman or for courses that have Honors equivalents. Students should not take more than one Honors Options per semester and are limited to three during their career.

HON 4955/4956 HONORS SENIOR THESIS

Six hours distributed over 2 semesters. Prerequisite: Restricted to seniors in the Honors Program. Seniors must have a cumulative 3.5 GPA and have completed at least half of coursework at FSC. A two-semester sequence required of all Honors Program students. Students in the sequence will work with the professor teaching the course on research projects centered on a particular theme.

HORTICULTURE – HRT

HRT 1000 PLANTS AND SOCIETY

Four hours. Does not count toward the major or minor. This course examines plant biology and function as they apply to human use. It considers the role of modern agriculture in nutrition and health. Specific crops are discussed as they relate historically and for the future to hunger, poverty, and economics.

Gen Ed: SW (Glb, Aw, An), NW

HRT 2100 INTRODUCTION TO HORTICULTURAL SCIENCE

Four hours. This is the introductory course to all of the horticulture-related majors. It considers the fundamental principles and practices underlying the propagation and growing of horticultural crops. This course fulfills the Natural World student learning outcome and will empower students to develop an understanding of the scientific investigation of the natural world.

Gen Ed: NW

HRT 3301 SOIL SCIENCE

Four hours. Prerequisite: CHE 1011 or 1111. This course considers the soil as a natural body including its chemical and physical properties, tillage, water management, organic matter, ecology, and principles of soil conservation. Florida soils and horticultural crops are emphasized.

HRT 3302 PLANT NUTRITION

Four hours. Same as BIO 3302. Prerequisites: HRT 3301 and either BIO 2235 or HRT 2100. This course deals with the relationship of plants to soil in their acquisition of the mineral nutrients needed for life. Students will examine the chemical and physical properties of plant mineral nutrients, their reactions in the soil, and how the plant absorbs, transports, modifies, stores, and utilizes them. There will be an emphasis on Florida soils and crops.

HRT 3325 PRINCIPLES OF TURF MANAGEMENT

Four hours. Prerequisite: HRT 2100 or permission of the instructor. This course considers turfgrasses for recreational and landscape use, including their growth characteristics and methods of propagation. Basic management requirements, including control of important pest, disease, and weed problems are discussed. Questions of water management and turf irrigation, including water quality and availability, will also be examined.

HRT 3326 TROPICAL AND TEMPERATE FRUITS

Four hours. Prerequisite: HRT 2100 or permission of the instructor. This course discusses fruit crops, other than citrus, that can be grown in Florida, from the standpoint of commercial production, as well as use in the home garden. The flowering and fruiting physiology, water and weed management, pest management and other aspects of their culture will be studied.

HRT 4320 SPECIAL TOPICS IN HORTICULTURE

Four hours. Prerequisite: HRT 2100 or permission of the instructor. This course will discuss specialized topics of one or more related aspects of horticulture. The course may be taken more than once.

HRT 4955 CAREER DEVELOPMENT SKILLS FOR INTERNSHIP

One hour. Prerequisite: Junior or Senior status or departmental permission. This course prepares the student for HRT 4960, Internship, including developing learning objectives for the contractual agreement, resumes, application letters, interviewing skills, job searches, and developing the contract with the employer.

HRT 4960 INTERNSHIP

Two hours. Prerequisites: Junior or senior status and departmental permission. This course applies horticultural theory and business in an operational setting, with supervision by cooperating practitioner and faculty.

HRT 4961 INTERNSHIP

Two hours. Prerequisites: HRT 4960. This course applies horticultural theory and business in an operational setting, with supervision by cooperating practitioner and instructor.

HUMAN MOVEMENT AND PERFORMANCE – HMP**HMP 2087 WILDERNESS FIRST AID**

Two hours. Same as PED 2087. Wilderness First Aid provides individuals with a foundation of first aid principles and skills to be able to respond to emergencies and give care in areas that do not have immediate emergency medical services response, such as wilderness and remote environments, including urban disasters, such as earthquakes and hurricanes. Students wishing to receive certification for this course must have current adult CPR/AED certification through the American Red Cross prior to taking this course. Students will be learning these life-saving skills in a wilderness type environment in conjunction with the outdoor recreation program.

HMP 2100 SERVING HIGHER

Two hours. Same as PED 2100. Students will study the human body and the impact of altitude while performing various physical tasks. First-hand knowledge will be gained on how and why our bodies respond to altitude. Other experiences will include discovering what happens to the body when you climb up a 5,000 foot mountain peak and what happens when you hike up a hill to work alongside monks at a local monastery. Students will gain insight on how their bodies respond when they are physically serving versus physically performing.

Gen Ed: Well

HMP 2150 GERMANY'S APPROACH TO SPORTS PERFORMANCE

Six hours. Same as PED 2150. Students will travel, study and participate in various activities with students from a partner college while exploring Germany's unique approach to Sports Performance. During this course, students will engage in collaborative projects with German students and professors from several Universities. Also, students will be involved service learning projects in three of the cities.

Gen Ed: Well

HMP 2328 GAMES AND RHYTHMIC ACTIVITIES

Two hours. Same as PED 2328. Instructional materials and methods for teaching games and rhythmic activities in elementary schools.

HMP 2380 TEACHING TEAM & INDIVIDUAL SPORTS

Two hours. Same as PED 2380. Skills, strategies, rules, and teaching techniques of traditional sports for instructors in schools and other sport settings.

HMP 2575 FOUNDATIONS OF PHYSICAL EDUCATION

Two hours. Same as PED 2575. History and philosophy of physical education, exercise science, sport and sub-disciplines within the field. Clinical experiences in schools, recreation centers, rehabilitation centers, fitness centers as well as several related facilities within the field of Physical Education and Human Movement Performance is required.

HMP 2585 CARE & PREVENTION OF INJURIES

Two hours. Same as PED 2585 This course is designed to introduce students to the recognition and evaluation skills of common injuries and their subsequent prevention. Emphasis will be on immediate care given to traumatic sports-related injuries. Classroom theory and research will be combined with practical skills and applications to provide an inclusive base of knowledge.

HMP 2760 NUTRITION FOR PERFORMANCE

Two hours. The application of nutrition principles to improve health and enhance sport and physical activity performance.

Gen Ed: Well

HMP 3520 MOTOR DEVELOPMENT

Four hours. Same as PED 3520. Prerequisite: HMP/PED 2328. This course examines the principles of motor development, including pre- and post-natal developmental stages, perceptual motor development, sensory development and basic motor skills. A practical understanding of the progression of these stages through the lifespan is explored through numerous activities and clinical experiences. Clinical experiences in the school system is a requirement, thus all students in this class MUST obtain proper fingerprint documentation from a local law enforcement agency.

HMP 3560 FUNCTIONAL HUMAN MOVEMENT

Four hours. Same as PED 3560. This course approaches human movement from a multiple-disciplinary perspective combining the broad tenets of kinesiology with a strong influence of biomechanical principles; the outcome is a practical understanding and working knowledge of how and why the human body moves, with emphasis placed on the internal and/or external forces that may be involved.

HMP 3575 EXERCISE PHYSIOLOGY

Four hours. Same as BIO 3575 and PED 3575. Prerequisites: BIO 2215 and BIO 2216. The effects of exercise on human physiological systems. Students will use didactic and psychomotor skills in a laboratory setting to reinforce physiological principles.

HMP 3735 SPORT PSYCHOLOGY

Two hours. Understanding and application of the mental aspects of human performance. This course is applicable to undergraduate physical education majors and minors, psychology majors and minors, coaching majors and minors, athletes interested in improving their performance and anyone interested in the psychology of sport and human performance.

HMP 4508 MEASUREMENT AND EPIDEMIOLOGY

Four hours. Same as PED 4508. This course explores the statistical techniques, test construction, and assessment tactics that are frequently used to understand human activity; while also applying basic principles of epidemiology to draw conclusions on how, when and where trends emerge.

Gen Ed: Qn

HMP 4510 FITNESS AND PRESCRIPTION

Four hours. Same as PED 4510 and SPM 4510. Prerequisites: HMP/PED 2575 or SPM 2174 or permission of the instructor. Specific principles, concepts and theories of strength training and conditioning and their applications to performance. Course will prepare students to take the CSCS certification exam.

HMP 4710 MOTOR LEARNING

Two hours. Prerequisites: HMP/PED 3520 or permission of the instructor. This course will provide students with numerous opportunities to explore a practical approach to understanding human movement: the connection between mind and body. Ongoing activities will assist the student in developing a keen understanding of how to apply motor learning principles in various settings.

HMP 4725 HUMAN PERFORMANCE RESEARCH

Four hours. Prerequisites: HMP/PED 3520 and HMP/PED 4508 and a GPA of 2.5 or permission of the instructor, and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course is designed to engage and mentor the student through a self-directed research topic in the broad scope of human performance. The student will perform an entire research study from conception and design to presentation and/or publication.

Gen Ed: EC-C

HMP 4999 APPLIED SEMINAR

Four hours. Prerequisites: HMP/PED 2575, HMP/PED 2585, HMP/PED 3520, HMP/PED 3560, BIO/HMP/PED 3575, HMP 3735, and HMP/PED 4508 or approval by Chair of Physical Education Department. This course provides opportunities for students to observe and participate in various professional capacities related to Human Movement Performance. This course will serve as a capstone course for the Human Movement and Performance major and it will assist students in preparing to sit for the Certified Strength and Conditioning Specialist exam as well.

HUMANITIES – HUM**HUM 4999 HUMANITIES CAPSTONE**

Four hours. Prerequisite: Senior standing. Interdisciplinary capstone course required of all Humanities majors.

LANDSCAPE HORTICULTURE – LND**LND 2216 INTRODUCTION TO LANDSCAPING**

Four hours. This is the first course in the landscape design series. Students learn principles of design, as well as a palette of appropriate plants for the local landscape. Basic principles of landscape gardening and garden planning are taught. Other subjects include plant identification with their uses in different landscape situations and the development of a landscape plan.

LND 2230 ORNAMENTAL LANDSCAPE PLANTS

Four hours. Pre- or corequisite: HRT 2100 or permission of the instructor. This is the major plant identification class. Students learn not only the name of the plant, but also its environmental and horticultural requirements. This course involves identification, adaptation, and evaluation of trees, shrubs, vines, ground covers, and herbaceous bedding plants, as well as the study of their characteristics and landscape uses. Field trips are required.

LND 3316 RESIDENTIAL LANDSCAPE DESIGN

Four hours. Prerequisites: LND 2216 and 2230 or permission of the instructor. This course emphasizes residential landscapes and teaches drafting skills needed by a designer, including the principles and practices involved in preparing landscape plans and design. In addition, plant identification will be addressed. Individual projects allow students to apply this knowledge. Field trips are required.

LND 3330 LANDSCAPE MANAGEMENT

Four hours. Prerequisites: HRT 2100 and LND 2230, or permission of the instructor. This course studies landscape management practices for residential and commercial sites, including cost estimating, bidding, and record keeping. Factors, which affect the growth and care of landscape plants, such as irrigation methods and weed management, will be evaluated. Field trips are required.

LND 4303 HORTICULTURAL PEST AND DISEASE MANAGEMENT

Four hours. Prerequisite: HRT 2100 or permission of the instructor. This course examines the insects, mites, and nematodes affecting commercial, non-citrus horticultural crops of Florida, as well as the fungal, bacterial, and viral diseases of those crops. It considers biological, cultural, and chemical controls, planning spray programs, as well as pesticide safety and “best management practices.”

LND 4416 LANDSCAPE CONTRACTING AND DESIGN

Four hours. Prerequisite: LND 3316 and pre- or corequisite LND 3330 or permission of the instructor. This course considers the commercial aspects of landscaping public grounds, parks, and schools. Individual projects and field trips are required.

LND 4999 NURSERY DESIGN AND MANAGEMENT

Four hours. Prerequisites: LND 3316 or permission of the instructor and successful completion of coursework that satisfies Effective Communication SLOs A and B. This is the capstone course for the Landscape Horticulture major. It is a project-oriented discussion of commercial field- and container-grown nursery design and operation, cultural practices and crop scheduling, nursery management and financial planning. Field trips are required.

Gen Ed: EC-C

LATIN AMERICAN STUDIES – LAS**LAS 2005 LATIN AMERICAN CULTURE**

Four hours. An introduction to various aspects of life in Latin American countries from early times to the present. Focusing on the social and political development of Latin America, the course will reveal the unity and diversity that characterize contemporary Latin American culture. Typical topics for study include: the precolumbian civilizations and their cultural legacy; the conquistadores and the colonial period; the independence movements; the search for and the definition of an American identity; the twentieth-century dictatorships; and the move toward democracy.

LAS 2006 LATIN AMERICA ON FILM I

Four hours. This course introduces the student to some facets of the Latin American world through a detailed study of films and readings from diverse countries of the region such as Argentina, Chile, Brazil, Cuba and Guatemala. In tandem, it addresses topics such as religion in Argentina, dictatorship in Chile and Cuba and immigration from Guatemala.

LAS 2007 LATIN AMERICA ON FILM II

Four hours. This course introduces the student to some facets of Latin America through a detailed study of films and readings from diverse countries such as Mexico, Colombia, The Dominican Republic, Venezuela and El Salvador. In tandem, it addresses topics such as violence and the family in Mexican society, drugs and violence in Colombia, violence in Venezuela and the civil war in El Salvador. Latin America on Film I is not a prerequisite for this course.

LAS 3308 TOPICS IN HISPANIC CULTURE AND CIVILIZATION

Four hours. Same as SPA 3308. Prerequisite: SPA 2203 proficiency or permission of the instructor. This course will serve to introduce and expand the student’s understanding of Hispanic countries through a detailed study of an interdisciplinary topic that will incorporate history, culture, art, literature, current events, and various geographic regions. Students of SPA 3308 will read and write in Spanish, students of LAS 3308 will read and write in English. All class discussions will be held in English. May be taken more than once with a different topic.

Gen Ed: SW (Glb, Aw)

LAS 3335 LATIN AMERICAN FILM AND FICTION

Four hours. Same as SPA 3335. Prerequisite: SPA 2203 proficiency or permission of the instructor for students taking this as SPA 3335. This course examines major works of fiction in writing and film by Hispanic writers such as Azuela, Borges, Allende, Sábato, Cortázar, and García Márquez among others. It focuses on the historical, social and political context of their works. Students of LAS 3335 will read and write in English, students of SPA 3335 will read and write in Spanish. All class discussions will be held in English.

LAS 3355 HISTORY OF FLORIDA

Four hours. Same as HIS 3355. Prerequisites: One year of college-level coursework and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course surveys the history of Florida from the Spanish Period to the present. The course examines the major events and personalities in Florida history from chronological and political perspectives. Attention is given to economic, social, and environmental issues that have shaped Florida's history. Florida's unique landscape, geography and natural features are also a subject of inquiry in the course.

Gen Ed: SW (Glb, An), QI, EC-C

LAS 3365 HISTORY OF MODERN LATIN AMERICA

Four hours. Same as HIS 3365. Prerequisites: One year of college coursework and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course surveys the major events and personalities in Latin American History from the colonial era to the present. Attention is given to economic, social, geographical, and environmental issues that have shaped the region's history. The region's unique landscape, geography and natural features are also a subject of inquiry in the course.

Gen Ed: SW (Glb, An), QI, EC-C

MATHEMATICS – MAT**MAT 1000 PREPARATION FOR COLLEGE MATHEMATICS**

Two hours. A review and practice in basic mathematical principles and skills for use in a subsequent course. Coursework includes active learning exercises and individualized, self-paced problem sets. This course may be taken no more than two times, in preparation for different courses. This course does NOT meet any general education learning outcomes. This course is P/F/A.

MAT 1007 SOCIAL WORLD ALGORITHMS

Four hours. A study of various areas of modern mathematics with applications to the social world. Topics include voting, graph theory, fractal geometry, population growth models, and statistical sample bias.

Gen Ed: SW (Aw, An), Qn

MAT 1047 PRECALCULUS

Four hours. A study of polynomial, rational, exponential, logarithmic, and trigonometric functions and coordinate geometric techniques.

Gen Ed: Qn

MAT 2022 ELEMENTARY STATISTICS

Four hours. Students use statistical methods to analyze data from real world situations and make inferences. These methods involve descriptive analysis, probability distributions, correlation, linear regression, the Central Limit Theorem, confidence intervals, and hypothesis testing. Credit cannot be earned for both MAT 2022 and MAT 2032.

Gen Ed: Qn

MAT 2032 BIOSTATISTICS

Four hours. Applied statistical tools for analysis and decision making with applications for biology, environmental and agricultural sciences. Statistical terminology, collection and presentation of data, probability distributions, sampling, experimental design, parametric and nonparametric procedures, regression, correlation and analysis of variance. Class demonstrations of analysis using statistical software. Credit cannot be earned for both MAT 2022 and MAT 2032.

Gen Ed: Qn

MAT 2050 APPLIED CALCULUS

Four hours. Prerequisite: Competency in algebra or permission of the instructor. Basic analytic geometry; differentiation and integration of single variable functions; optimization and other applications of single variable calculus, differentiation and integration of multi-variable and trigonometric functions; differential equations, with emphasis on applications to real world problems

Gen Ed: Qn

MAT 2100 DISCRETE STRUCTURES

Four hours. Same as CSC 2100. An introduction to discrete mathematics. Topics include logic, set theory, basic proofs, mathematical induction and recursion, counting principles and probability.

Gen Ed: Qn

MAT 2311 CALCULUS I WITH PLANE ANALYTIC GEOMETRY

Four hours. The study of differentiation and integration of algebraic and transcendental functions. Applications of differentiation, Mean Value Theorem, maximum/minimum, problems and The Fundamental Theorem of Calculus. Topics in plane analytic geometry. Use of computer algebra system (CAS) required.

Gen Ed: Qn

MAT 2312 CALCULUS II WITH PLANE ANALYTIC GEOMETRY

Four hours. Prerequisite: MAT 2311. Continuation of MAT 2311. Techniques and applications of integration, Simpson's and Trapezoidal Rules, improper integrals, infinite series, and Taylor expansions of functions. Use of a computer algebra system required.

Gen Ed: Qn

MAT 2505 LINEAR ALGEBRA

Four hours. Prerequisites: MAT 2312. The study of matrices, solution of homogeneous and non-homogeneous systems of equations, vector spaces, linear mappings, determinants, eigenvalues, and eigenvectors.

MAT 3205 PROOF TECHNIQUES

Four hours. Prerequisite: MAT 2312. An introduction to the logic and methods of higher mathematics, emphasizing critical thinking and basic proof techniques.

MAT 3313 CALCULUS III WITH SOLID ANALYTIC GEOMETRY

Four hours. Prerequisite: MAT 2312. Solid analytic geometry, vector calculus, partial differentiation, and multiple integrals. Use of computer algebra system (CAS) required.

Gen Ed: Qn

MAT 3350 DIFFERENTIAL EQUATIONS

Four hours. Prerequisite: MAT 2312. Students use qualitative, numerical, and analytical techniques to study solutions of ordinary differential equations and systems of ordinary differential equations. Topics include analytic methods for solving separable and linear differential equations, numeric methods, existence and uniqueness theorems, systems of linear differential equations, stability of autonomous systems, discrete dynamical systems, and chaos. Use of a computer algebra system is required.

MAT 3442 PROBABILITY AND STATISTICS

Four hours. Prerequisites: MAT 2312. Study of probability models, random variables, discrete and continuous distributions, sampling estimation, multivariate random variables, hypothesis testing and confidence intervals.

MAT 4205 ALGEBRAIC STRUCTURES

Four hours. Prerequisite: MAT 3205. This course explores the basic properties of the fundamental structures found so very useful to algebraists, notably, rings, fields, and groups. It also entails a significant collaborative research and problem-solving capstone experience.

MAT 4315 ELEMENTARY ANALYSIS

Four hours. Prerequisites: MAT 3205 and MAT 3313. The beginning study of analysis including countability, sequences, convergence, limits, continuity, and differentiation.

MAT 4630 SELECTED TOPICS IN MATHEMATICS

Two or four hours. Prerequisite: Permission of instructor. Covers contemporary topics at an advanced level in mathematics (such as graph theory, group theory, knot theory, linear algebra, logic, modern algebra, real analysis, topology). Course may be repeated for credit with a different topic.

MAT 4645 SELECTED TOPICS IN COMPUTER SCIENCE AND MATHEMATICS

Two or four hours. Same as CSC 4645. Prerequisite: Permission of instructor. Covers contemporary topics at an advanced level in applied mathematics and computer science. (For example: numerical methods, graph theory.) Course may be repeated for credit with a different topic.

MAT 4960/4961 SENIOR INTERNSHIP IN MATHEMATICS

One to four hours. Prerequisites: 72 credit hours and completion of departmental approval procedure and MAT 4205 or MAT 4315 and a minimum cumulative GPA of 2.5 and a minimum GPA of 3.0 in the major and sign-off on career service fundamentals (resume writing, interview skills, and business etiquette). The internship must be local to allow for faculty supervision. One hour of credit may be awarded for every forty hours of on-the-job experience.

MAT 4999 MATHEMATICS SENIOR SEMINAR

Four hours. Prerequisites: Senior Standing, successful completion of coursework that satisfies Effective Communication SLOs A and B. This course entails a student led development of knowledge in a subject outside the scope of the existing mathematics curriculum. Students will work through the material and display their knowledge of the subject in oral presentations and written documentation.

Gen Ed: EC-C

MILITARY SCIENCE AND LEADERSHIP - MSL**MSL 1001 LEADERSHIP AND PERSONAL DEVELOPMENT (Fall)**

Two hours. Lab required. Introduces students to the personal challenges and competencies that are critical for effective leadership. Students learn how the personal development of life skills such as critical thinking, goal setting, time management, physical fitness, and stress management relate to leadership, officership, and the Army profession. The focus is on developing basic knowledge and comprehension of Army leadership dimensions while gaining a big-picture understanding of ROTC, its purpose in the Army, and its advantages for the student.

MSL 1002 INTRODUCTION TO TACTICAL LEADERSHIP (Spring)

Two hours. Lab required. Overviews leadership fundamentals such as setting direction, problem solving, listening, presenting briefs, providing feedback, and using effective writing skills.

Students explore dimensions of leadership values, attributes, skills, and actions in the context of practical, hands-on, and interactive exercises. Continued emphasis is placed on recruitment and retention of students. Cadre role models and the building of stronger relationships among the students through common experience and practical interaction are critical aspects of the course experience.

MSL 2001 INNOVATIVE TEAM LEADERSHIP (Fall)

Two hours. Lab required. Explores the dimensions of creative and innovative tactical leadership strategies and styles by examining team dynamics and two historical leadership theories that form the basis of the Army leadership framework (trait and behavior theories). Cadets practice aspects of personal motivation and team building in the context of planning, executing, and assessing team exercises and participating in leadership labs. Focus is on continued development of the knowledge of leadership attributes and core leader competencies through an understanding of Army rank, structure, duties, and basic aspects of land navigation and squad tactics. Case studies provide tangible context for learning the Soldier's Creed and Warrior Ethos as they apply in the contemporary operating environment (COE).

MSL 2002 FOUNDATIONS OF TACTICAL LEADERSHIP (Spring)

Two hours. Lab required. Examines the challenges of leading tactical teams in the complex contemporary operating environment (COE). The course highlights dimensions of terrain analysis, patrolling, and operation orders. Further study of the theoretical basis of the Army Leadership Requirement Model explores the dynamics of adaptive leadership in the context of military operations in a constantly changing world and applies these challenges to practical Army leadership tasks and situations. Cadets develop greater self awareness as they assess their own leadership styles and practice communication and team-building skills. COE case studies give insight into the importance and practice of teamwork and tactics in real-world scenarios..

MSL 2006 AMERICAN MILITARY HISTORY (Fall and Spring)

Four hours. Development and operations of the American military system from the colonial period to the present. Focuses on the evolution of professionalism in the American military and the place of the American military in society. Open to all FSC students.

MSL 3001 ADAPTIVE TEAM LEADERSHIP (Fall)

Four hours. Lab required. Challenges cadets to study, practice, and evaluate adaptive leadership skills as they are presented with the demands of preparing for the ROTC Leader Development Assessment Course (LDAC). Challenging scenarios related to small-unit tactical operations are used to develop self awareness and critical thinking skills. Cadets receive systematic and specific feedback on their leadership abilities. Cadets at the MSL III level begin to analyze and evaluate their own leadership values, attributes, skills, and actions. Primary attention is given to preparation for LDAC and the development of leadership abilities.

MSL 3002 APPLIED TEAM LEADERSHIP (Spring)

Four hours. Lab required. Challenges cadets to study, practice, and evaluate adaptive leadership skills as they are presented with the demands of preparing for the ROTC Leader Development Assessment Course (LDAC). Challenging scenarios related to small-unit tactical operations are used to develop self-awareness and critical-thinking skills. Cadets will receive systematic and specific feedback on their leadership abilities.

MSL 4001 ADAPTIVE LEADERSHIP (Fall)

Four hours. Lab required. Develops student proficiency in planning, executing, and assessing complex operations, functioning as a member of a staff, and providing leadership-performance feedback to subordinates. Students are given situational opportunities to assess risk, make ethical decisions, and provide coaching to fellow ROTC students. MSL IV cadets are measured by their ability both to give and receive systematic and specific feedback on leadership abilities. Cadets at the MSL IV level analyze and evaluate the leadership values, attributes, skills, and actions of

MSL III cadets while simultaneously considering their own leadership skills. Attention is given to preparation for the Basic Officer Leadership Course (BOLC) II and the development of leadership abilities.

MSL 4002 LEADERSHIP IN A COMPLEX WORLD (Spring)

Four hours. Lab required. Explores the dynamics of leading in the complex situations of current military operations in the contemporary operating environment (COE). Cadets will examine differences in customs and courtesies, military law, principles of war, and rules of engagement in the face of international terrorism. Cadets also explore aspects of interacting with non-government organizations, civilians on the battlefield, and host nation support. The course places significant emphasis on preparing cadets for the Basic Officer Leadership Course (BOLC) II and III, and their first unit of assignment. It uses case studies, scenarios, and “What Now, Lieutenant?” exercises to prepare cadets to face the complex ethical and practical demands of leading as a commissioned officer in the United States Army.

MSL 4960 LEADER’S TRAINING COURSE INTERNSHIP (Summer)

Three hours. Pass/Fail. Elective credit only. Beginning military science students who did not complete the first two years of Military Science and Leadership instruction may attend the Leader’s Training Course at Fort Knox, Kentucky. The course is approximately five weeks and attendees receive pay for the time spent in the course. The course introduces students to military life, provides challenging leadership scenarios, and requires participants to use their personal courage to overcome obstacles and difficult situations. Students must be physically and academically qualified to attend the course.

MSL 4961 LEADER DEVELOPMENT AND ASSESSMENT COURSE (Summer)

Three hours. Pass/Fail. Elective credit only. The Leader Development and Assessment Course is mandatory for students who have completed their junior year in the Military Science and Leadership program and are progressing to their senior year in the program. The course is 32 days at Fort Lewis, Washington, and attendees receive pay for the time spent in the course. The course tests student proficiency in military leadership skills in realistic scenarios. Students participate in the scenarios with students from other universities across the country. Students must be physically qualified to attend the course.

MUSIC – MUS

ENSEMBLE PARTICIPATION

One hour. This course focuses on group instruction in music with a major emphasis on skill development, conceptual understanding, and aesthetic appreciation of appropriate ensemble literature, culminating in live concert performance experiences. Ensembles carry one semester hour of credit for each semester of participation.

CHAMBER SINGERS

MUS 1101-1102, 2201-2202, 3301-3302, 4401-4402

Gen Ed: FA (Ex)

WOMEN'S CHORALE

MUS 1103-1104, 2203-2204, 3303-3304, 4403-4404

Gen Ed: FA (Ex)

MEN'S CHORALE

MUS 1105-1106, 2205-2206, 3305-3306, 4405-4406

Gen Ed: FA (Ex)

Ungraded lab required of all music majors. There is no credit for this lab.

MUS 3390 JUNIOR RECITAL

One hour. Prerequisite: Permission of instructor. This course combines individual instruction in voice or instrument with the preparation for, and performance of, the Junior Recital. Requirements for the recital are determined by candidate's major concentration area. An accompanying fee of \$100 for strings, voice, and winds will be assessed during the semester(s) of enrollment in junior recital.

MUS 4490 SENIOR RECITAL

One hour. Prerequisites: Permission of instructor; and, for candidates for the Bachelor of Music degree, successful completion of the Junior Recital. This course combines individual instruction in voice or instrument with the preparation for, and performance of, the Senior Recital. Requirements for the recital are determined by candidate's major concentration area. An accompanying fee of \$100 for strings, voice, and winds will be assessed during the semester(s) of enrollment in senior recital.

MUSIC APPRECIATION**MUS 1164 HISTORY OF JAZZ**

Four hours. Development of jazz as a medium of musical expression.

Gen Ed: FA (In)**MUS 1165 GREAT WORKS OF MUSIC**

Four hours. A comprehensive survey of western music.

Gen Ed: FA (In)**MUS 1166 CARIBBEAN MUSIC**

Four hours. This course will study and explore the history and social impact of music in Cuba, Puerto Rico, Dominican Republic, Haiti, and Jamaica from the late 18th century to the present. Characteristics and development of musical genres will be discussed along with their relationships to those of neighboring nations. No prior musical knowledge is required.

Gen Ed: FA (In)**MUSIC THEORY****MUS 1070 INTRODUCTION TO MUSIC THEORY**

Three hours. A comprehensive review of the fundamentals of music theory. This course does not count for credit towards the music major.

MUS 1151 AURAL SKILLS I

One hour. This course teaches about and gives practice in recognizing musical events and elements by ear and in singing musical elements or materials at sight.

MUS 1152 AURAL SKILLS II

One hour. Prerequisite: MUS 1151. This course builds on skills developed in previous aural skills courses. It teaches about and gives practice in recognizing musical events and elements by ear and in singing musical elements or materials at sight.

MUS 1173 THEORY: INTRODUCTORY HARMONY

Three hours. Prerequisite: A passing score on the Music Department's Basic Music Theory Exam. This course covers written diatonic harmony and basic chromatic harmony through part-writing, functional analysis, and original composition.

MUS 1179-1180, 2279-2280, 3379-3380, 4479-4480 COMPOSITION

One to three credit hours. Prerequisite: approval of instructor. This course consists of supervised composition for various media through both seminar sessions and individual instruction.

MUS 2251 AURAL SKILLS III

One hour. Prerequisite: MUS 1152 or permission of the instructor. This course builds on skills developed in previous aural skills courses. It teaches about and gives practice in recognizing musical events and elements by ear and in singing musical elements or materials at sight.

MUS 2252 AURAL SKILLS IV

One hour. Prerequisite: satisfactory completion of MUS 2251 or permission of the instructor. This course builds on skills developed in previous aural skills courses. It teaches about and gives practice in recognizing musical events and elements by ear and in singing musical elements or materials at sight.

MUS 2271 THEORY: ADVANCED HARMONY I

Three hours. Prerequisite: MUS 1173 or permission of the instructor. Study of modulation, chromatic and extended traditional harmonic practices, and advanced counterpoint.

MUS 2272 THEORY: ADVANCED HARMONY II

Three hours. Prerequisite: MUS 2271. Study of modulation, chromatic and extended traditional harmonic practices, and advanced counterpoint.

MUS 3371 THEORY: FORM AND ANALYSIS

Three hours. Prerequisite: MUS 2272. This course emphasizes detailed stylistic analysis of musical forms from the Baroque, Classical, Romantic and Modern Periods.

MUS 3372 THEORY: COUNTERPOINT

Two hours. Prerequisite: MUS 3371. The course consists of an in-depth study of contrapuntal processes from 18th Century practices to current procedures. Original compositions: Two-Part invention, Three-voice fugue, Chorale Prelude, and Twelve-Tone composition.

MUS 4471 ORCHESTRATION

Two hours. Prerequisite: MUS 3371. Techniques of effective scoring for orchestra.

MUSIC EDUCATION**MUS 2275 STRINGS PEDAGOGY**

One hour. Preparation for teaching and demonstrating all stringed instruments.

MUS 2276 WOODWINDS PEDAGOGY

One hour. Preparation for teaching and demonstrating all woodwind instruments.

MUS 2277 CHORAL PEDAGOGY

One hour. Techniques and materials for leading a choral music program in a secondary school classroom setting.

MUS 3375 BRASS PEDAGOGY

One hour. Preparation for teaching and demonstrating all brass instruments.

MUS 3376 PERCUSSION PEDAGOGY

One hour. Preparation for teaching and demonstrating all percussion instruments.

MUS 3377 VOCAL PEDAGOGY

One hour. Techniques and materials for teaching voice in the individual and the group lesson.

MUS 3378 PIANO PEDAGOGY

Three hours. Prerequisite: permission of the instructor. This course is designed to present concepts and materials for private piano teaching with emphasis on practical guidelines for studio work.

MUS 3385 MARCHING BAND TECHNIQUES

Three hours. Prerequisite: MUS 2271 or permission of the instructor. This course will familiarize students with procedures used to establish and maintain a marching band program in a secondary school setting. Students will gain knowledge and skill in marching fundamentals, field techniques, show design, and administrative procedures. A field study experience will be required with a public school marching band in Polk County.

MUS 4476 ELEMENTARY METHODS

Three hours. Prerequisite: permission of the instructor. Emphasizes the development of essential competencies for teaching music at the elementary level. Course includes survey of appropriate materials, research-based techniques and teaching strategies.

MUS 4477 SECONDARY METHODS AND MATERIALS

Three hours. Prerequisite: permission of the instructor. This course emphasizes the development of essential competencies for teaching music at the secondary level. Areas addressed in this course are – 1) Teaching Competencies, 2) Administrative Competencies, and 3) Literature.

MUS 4889 MUSIC EDUCATION SEMINAR

One hour. Prerequisite: Enrollment in EDU 4990. This course emphasizes the further development of essential competencies for teaching music in the public schools. Areas addressed in this course are - 1) Music Teaching Competencies, 2) Administrative Competencies, and 3) Repertoire.

MUSIC HISTORY AND LITERATURE**MUS 2281 HISTORY AND LITERATURE OF THE PIANO**

Two hours. Prerequisite: permission of the instructor. Development of the piano and its literature with stylistic approach to traditions and interpretation. Recommended for majors with piano concentration.

MUS 3381 HISTORY OF MUSIC I

Four hours. Prerequisite: six hours of music theory and successful completion of coursework that satisfies Effective Communication SLOs A and B. The development of musical thought from antiquity through the Baroque era, illustrated through study of representative compositions.

Gen Ed: SW (Glb, Aw), EC-C

MUS 3382 HISTORY OF MUSIC II

Four hours. Prerequisite: six hours of music theory. The development of musical thought from the end of the Baroque era through the present, illustrated through study of representative compositions.

Gen Ed: SW (Aw)

MUS 3383 VOCAL LITERATURE I

One hour. Examination of traditional Italian, German, and French repertory for voice.

MUS 3384 VOCAL LITERATURE II

One hour. Examination of repertory for voice by English and American composers.

MUSIC MANAGEMENT**MUS 2253 INTRODUCTION TO MUSIC BUSINESS**

Two hours. Introduction to Music Business examines the various aspects of the music industry including product oriented business, hall management and promotions, recording industry, and unions.

MUS 4455 MUSIC PRODUCT AND RETAILING

Two hours. Thorough acquaintance with piano, wind instruments, home and church organ, and string, percussion, and electronic instruments. Methods of retailing music products, including instruments, publications, and artist management.

MUS 4459 MUSIC MANAGEMENT

Two hours. Prerequisite: BUS 2217. Examination of music publishing, copyright regulations, finance contracts, governmental regulations, and concert management.

MUS 4462 MUSIC MANAGEMENT INTERNSHIP

Nine hours. Prerequisites: completion of all courses required in this curriculum and permission of the instructor. A nine week internship in the music industry is required of all students electing the Bachelor of Science degree in Music Management.

MUSIC: GENERAL OFFERINGS**MUS 1184 ENGLISH DICTION**

One hour. One semester of study of English diction for voice concentration majors.

MUS 1185 GERMAN DICTION

One hour. One semester of study of German diction for voice concentration majors.

MUS 1186 ITALIAN DICTION

One hour. One semester of study of Italian diction for voice concentration majors.

MUS 1187 FRENCH DICTION

One hour. One semester of study of French diction for voice concentration majors.

MUS 3386 FUNDAMENTALS OF CONDUCTING I

Two hours. Prerequisite: MUS 2272. This is a course in organizing and conducting choral and instrumental ensembles in which basic conducting technique (patterns, posture, subdivision of beats, starting, stopping, cues, and baton technique) is acquired.

MUS 3387 FUNDAMENTALS OF CONDUCTING II

Two hours. Prerequisite: MUS 3386. This course continues the conducting curriculum with: (A) further study of the techniques of choral and instrumental conducting, (B) score study and

preparation, (C) rehearsal planning, pacing and execution; (D) interpretative factors: group tone development; (E) ensemble literature.

MUS 3388 JAZZ IMPROVISATION

One hour. Improvisational techniques in actual jazz performance.

MUS 3389 ACCOMPANYING AND COACHING

One hour. Prerequisite: permission of the instructor. Instrumental and vocal accompanying for the pianist with emphasis on stylistic traditions and with special attention to the art song.

NURSING – NUR**NUR 1100 PRINCIPLES OF HEALTH CARE**

Four hours. Same as HSC 1100. Prerequisite: Nursing or health sciences major or permission of the instructor. This is an introductory course for nursing and health sciences students exploring health care systems, delivery, payment, professional roles, quality, safety and ethical principles of care. Students will complete a shadow experience during the course.

NUR 2202 NURSING FUNDAMENTALS

Six hours. Prerequisite: Nursing majors only. This course introduces students to the scientific basis for nursing practice and the safe care of patients with diverse needs. Nursing skills are simulated and practiced in the clinical skills assessment laboratory prior to performing in the actual clinical setting. This is a clinical course and students will have patient care experiences in area health care facilities under direct guidance of faculty and clinical preceptors.

NUR 3102 CONCEPTUAL FOUNDATIONS OF NURSING

Four hours. This course introduces the student to the rationale and values inherent in a baccalaureate education in nursing. It enables the student to explore professional nursing practice, philosophical perspectives of nursing, legal and ethical issues relevant to practice and the changing practice environment. This is generally the first nursing major course. RN to BSN Program only.

NUR 3104 APPLIED PATHOPHYSIOLOGY

Four hours. Same as HSC 3104. Prerequisite: Nursing or health sciences major or permission of the instructor. Pathophysiology is the study of altered human physiology and disease processes. The course content provides a basis for nursing practice through learning body organ systems, homeostatic mechanisms, and the body's response to illness and injury.

NUR 3106 BASICS OF HEALTH ASSESSMENT

Four hours. This course prepares the student to collect and document data accurately as required for a basic health assessment of patients across the life span. It includes a skills laboratory component.

NUR 3204 APPLIED PHARMACOLOGY

Four hours. Prerequisite: HSC/NUR 3104 and nursing or health science majors. In this course the student analyzes the principles of pharmacokinetics, pharmacodynamics, and pharmacotherapeutics of drugs commonly used in the management of acute and chronic illnesses. Emphasis is on developing critical thinking skill in drug administration and monitoring therapeutic response for a culturally diverse population. Student will be introduced to the use of electronic medication administrations systems and related information technology used to enhance safety.

NUR 3510 PSYCHIATRIC NURSING CARE

Four hours: Prerequisites: NUR 2202 and NUR 3106. This course explores mind, body, and spirit alterations in functional health patterns experienced by patients with acute and chronic mental

illness and examines psychopathology, psychopharmacologic therapies, community resources and the role of the nurse in psychiatry.

NUR 3522 NURSING CARE OF THE OLDER ADULT

Six hours. Prerequisites: Nursing majors and NUR 2202 and NUR 3106. In this course the student has the opportunity to differentiate normal aging from abnormal processes and conditions and to develop nursing interventions that are unique to the specific needs of the older adult. Social, ethical, financial and practical issues facing the older adult, frail elder, and caregiver are presented. This is a clinical course and students will participate in both hospital and community rotations.

NUR 3530 MATERNAL AND NEWBORN NURSING CARE

Four hours. Prerequisites: Nursing majors and NUR 2202 and NUR 3106. This course introduces students to the care of women during child bearing years, pregnancy, delivery, perinatal and newborn care. This is a clinical course and students will provide direct patient care in a variety of health care settings.

NUR 3540 PEDIATRIC NURSING CARE

Four hours. Prerequisites: Nursing majors and NUR 2202 and NUR 3106. Nursing concepts are presented related to the delivery of nursing care for the childrearing family and children from infancy through adolescence. Principles of growth and development are applied as the student learns to provide nursing care and health teaching for promoting, maintaining, and restoring health in infants, children, and adolescents.

NUR 4110 EVIDENCE BASED HEALTH CARE

Four hours. Same as HSC 4110. Prerequisites: MAT 2022 or MAT 2023 and nursing or health sciences major or permission of the instructor and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course integrates theory and concepts from health care and nursing that apply to the generation, appraisal, use, and dissemination of research that contributes to safe, effective, and high quality healthcare practice and delivery.

Gen Ed: EC-C

NUR 4210 SENIOR SEMINAR

Two credit hours. Prerequisites: senior status in nursing major and permission of the instructor. The senior seminar is a capstone class to prepare students for graduation, NCLEX licensing exam review, and entry into practice. Standardized testing is used to monitor progress and the final exit exam must be passed to qualify for completing the BSN major.

NUR 4550 TOPICS IN GLOBAL HEALTH CARE

One to eight hours. Same as HSC 4550. Prerequisites: Nursing or health science major and permission of the instructor. Students in other majors may be eligible to take this course with permission of the Dean of the School of Nursing and Health Sciences. This is an elective course that allows a student to experience health care in a global setting. Each course will be developed separately depending on availability of resources and suitability of the experience for students. Variable credit will reflect the amount of time expended by each student as 1 credit hour for each 40 clock hours. Course work during the fall or spring semester may be tied to a trip abroad to various countries. Typical trips may be supporting a rural health clinic in Latin America, patient care in a small hospital in Africa, or community health projects in Asia or other parts of the world.

NUR 4560 ADULT HEALTH NURSING CARE I

Six hours. Prerequisites: Nursing majors and NUR 2202 and NUR 3106. In this course, concepts from behavioral, biological and natural sciences are integrated applied to the treatment of adult patients in acute care settings. Students will have clinical placements primarily in area hospitals under the guidance of faculty to develop competent and safe therapeutic nursing interventions directed toward promoting, maintaining and restoring health or providing end of life care for a culturally diverse patient population in various settings.

NUR 4570 COMMUNITY HEALTH NURSING CARE

Four hours. Prerequisites: Nursing majors and NUR 2202 and NUR 3106. Students will apply concepts, theories, and practice from nursing and public health sciences to assess the health and health care delivery for culturally diverse and vulnerable populations. Students will assess physical, social, and cultural environments, identify populations at risk, and implement and evaluate appropriate nursing interventions in partnership with community and other health agencies.

NUR 4580 ADULT HEALTH NURSING CARE II

Six hours. Prerequisites: Senior nursing majors and NUR 4560. This course will build on previously learned material and will concentrate on the emergent needs of adult patients with complex health care needs and critical illness. Course work is supplemented with onsite clinical experiences in critical care units and/or emergency departments in area hospitals.

NUR 4590 LEADERSHIP PRACTICUM

Four hours. Same as HSC 4590. Prerequisites: Senior status and nursing or health science majors and permission of instructor. In this course the student examines his or her personal development as a health care professional and identifies goals for transitioning to practice. Leadership skills and life management skills are refined. Political, legal, and advocacy issues in nursing and health care are examined. Students will conduct an independent practicum at area health care facilities.

NUR 4960/4961 INTERNSHIP

One to sixteen hours. Same as HSC 4960/61. Prerequisites: Nursing or health science majors and permission of instructor. The internship provides an intensive experiential experience through supervised practice in a wide variety of health care settings. The course helps students to build self-confidence, to increase competency with the delivery of evidence-based care, and to perform in a professional role. To the degree possible, students request an internship site consistent with their area of interest and are guided by a preceptor in collaboration with a FSC faculty member.

NUR 4999 CAPSTONE SEMINAR IN NURSING

Four hours. Prerequisites: Nursing major and permission of the instructor. This course allows the student to develop and initiate a plan of quality improvement initiated as a nursing leader at a healthcare facility or organization. The plan will include concepts of continuous quality management and QSEN discussed throughout the curriculum. The student will practice roles of provider of care, designer/manager/coordinator of improvement and member of a professional nursing leader. There is a clinical experience associated with this course. RN to BSN Program only.

PHILOSOPHY – PHI**PHI 1109 WHAT IS PHILOSOPHY?**

Four hours. Before we can approach the task of thinking philosophically, whether about ethics, religion, politics, art, knowledge, truth, or reality, we must first endeavor to understand how it is that one thinks philosophically. It is the aim of this course to answer this question by introducing the student to the basic divisions within philosophy in order to equip them with the skills necessary for further study. More generally, it is the goal of this course to invite the student into the practice of philosophical and critical thinking which could be applied to whatever course of study the student pursues.

Gen Ed: MV, QI

PHI 2204 ETHICS

Four hours. Ethics involves the exploration of fundamental questions of meaning and value: What is the nature of the good life? How ought we to treat one another? Are there basic rights all people

enjoy, and, if so, what are they? Are there universal standards of morality, or are right and wrong relative to culture, historical period, or individual opinion? The course explores these questions through various philosophical theories and their practical applications.

Gen Ed: MV, QI

PHI 2208 LOGIC

Four hours. Logic is the study of methods of correct reasoning. As such it can be approached both from “formal” and “informal” perspectives, both of which feature in the course. Informal logic involves critical thinking techniques that are practically useful in everyday argument and debate. Formal logic, also known as symbolic logic, involves mathematical models that reveal the underlying structure of reasoning and are applicable for various purposes, including most notably computer programming. The course emphasizes how both approaches are useful for solving real-world problems from various fields.

Gen Ed: Qn

PHI 2219 WORLD RELIGIONS AND PHILOSOPHIES

Four hours. Same as REL 2219. Introduces students to the origins; founders; historical development; scriptures; fundamental concepts, such as views of ultimate reality, the meaning of life, and human hope; religious practices; personal and social ethics; culture context and impact; and contemporary relevance of the world’s living religions and their associated philosophies.

Gen Ed: MV, SW (Glb), QI

PHI 2224 BUSINESS ETHICS

Four hours. The application of ethical standards to business decisions. After an initial survey of ethical theories and models for decision-making, students will engage actual business dilemmas in which they will be required to make and justify decisions.

Gen Ed: MV, QI

PHI 3109 GREAT PHILOSOPHERS I

Four hours. Prerequisite: One other course in philosophy or permission of the instructor. This course explores the thought of key figures in the development of Western thought from the dawn of philosophy in the 6th century B.C.E. to the rise of modernity. The emphasis of the course is on understanding the relevance of the philosophical thought of the past to the challenges of the contemporary world. The course includes but is not necessarily limited to the following thinkers, traditions, and schools of thought: Pre-Socratics, Socrates, Plato, Aristotle, Hellenistic philosophers, medieval philosophy (especially Augustine and Aquinas), and Renaissance humanism.

Gen Ed: MV, QI

PHI 3309 GREAT PHILOSOPHERS II

Four hours. Prerequisite: One other course in philosophy or permission of the instructor. This course explores the thought of key figures in the development of Western thought from the beginning of the modern period to the present. The emphasis of the course is on understanding the relevance of early modern and contemporary philosophical thought to enduring questions about the human condition. Students in the course develop a creative project applying one or more philosophers’ ideas to a contemporary problem. The course includes but is not necessarily limited to the following thinkers, traditions, and schools of thought: Descartes, Continental rationalism, British empiricism, Kant, idealism, existentialism, and analytic philosophy.

Gen Ed: MV, QI

PHI 3359 AESTHETICS

Four hours. Prerequisite: One other course in philosophy or permission of the instructor. A survey of the major theories in aesthetics from the history of philosophy as well as contemporary issues in the field. This course also relates aesthetic theory to specific art forms (e.g., painting, literature, theatre, music, film.) Among the topics addressed are the relationships among art, beauty, and

reality, the roles of feeling, emotion, and cognition in artistic experience and creation, the connections between art and interpretation, and the mutual relevance of art and philosophy.

Gen Ed: MV, SW (Aw), FA (In), QI

PHI 3365 THEOLOGICAL & PHILOSOPHICAL THEMES IN CONTEMPORARY LITERATURE

Four hours. Same as REL 3365. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. This course is an examination of the religious and philosophical themes in major literary works of the Nineteenth and Twentieth Centuries.

Gen Ed: MV, EC-C

PHI 3388 FUNDAMENTAL QUESTIONS IN THEOLOGY & PHILOSOPHY

Four hours. Same as REL 3388. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. This team-taught course examines philosophical and theological perspectives on such matters as classical arguments for God's existence, atheistic critiques, the relationship between reason and revelation, life after death, the ground of morality, the problem of evil, religious experience, and religious language.

Gen Ed: MV, QI, EC-C

PHI 3500 SOCIAL AND POLITICAL PHILOSOPHY

Four hours. Prerequisite: One other course in philosophy or permission of the instructor. One of the major ways in which philosophy has influenced the world beyond the academy is in the development and dissemination of different political theories. The aim of this course is to familiarize students with the key thinkers, texts, and schools of political philosophy in order to empower them to: 1) evaluate the ways in which those thinkers and theories have influenced and shaped the contemporary geo-political climate; and 2) critically assess their own political assumptions in light of the history of political philosophy.

PHI 4459 KNOWLEDGE, TRUTH AND REALITY

Four hours. Prerequisite: One other course in philosophy or permission of the instructor and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course explores fundamental philosophical questions about knowledge, reality, and their relationship at an advanced theoretical level. Examples of questions addressed include: What is the nature and structure of reality? What are the nature, ground, and limits of human knowledge? Are reality and our knowledge of it fully objective or do they involve relativistic and/or subjective elements? What is the relationship between our linguistic descriptions of reality and reality itself? What are the relationships among the natural/social sciences, philosophical theory, cultural constructions, and subjective experience?

Gen Ed: MV, QI, EC-C

PHI 4479 SPECIAL TOPICS IN PHILOSOPHY

Four hours. Prerequisites: One other course in philosophy or permission of the instructor, and successful completion of coursework that satisfies Effective Communication SLOs A and B. Philosophy has a rich and diverse history dating back to the beginning of recorded time, manifest in nearly every culture worldwide. With such a broad tradition to draw from, it is the aim of this special topics course to offer students an opportunity to explore subjects in more depth or engage broader, emerging topics within philosophy.

Gen Ed: MV, QI, EC-C

PHI 4953-4954 HONORS IN PHILOSOPHY

Six hours distributed over 2 semesters. Prerequisites: Restricted to seniors in the Philosophy program. Seniors must have a cumulative 3.5 GPA, a GPA of 3.66 in Philosophy, and have completed at least half of coursework at FSC. Students in the course sequence will work with the professor teaching the course on research projects centered on a particular theme.

PHI 4960 INTERNSHIP IN PHILOSOPHY

Three to six hours. Prerequisite: Senior standing and permission of the faculty. A supervised, semester long application of critical and philosophical thinking, research and writing in an approved setting.

PHI 4999 CAPSTONE SEMINAR IN PHILOSOPHY

Two hours. Prerequisite: Senior standing or consent of the professor. A senior seminar in which students assess, articulate and evaluate ideas in philosophy using critical reasoning, and produce original work to be presented to faculty and peers.

PHYSICAL EDUCATION – PED**ACTIVITIES****PED 1005 WELLNESS MANAGEMENT**

Two hours. Wellness concepts and activities designed to provide students with lifetime skills for optimal health. Requires participation in organized Wellness Center activities.

Gen Ed: Well

PED 1015 SPECIAL TOPICS IN ACTIVITY COURSES

One hour each. Topics including, but not limited to, martial arts, pilates, and any sport or activity not currently offered under its own title. Students may not repeat the topic, unless it is being offered at a substantially different level.

PED 2003 SCUBA

One hour. \$50.00 fee. An introduction to Scuba by instruction, pool work, and dives. SEI IANTD certification. Rental SCUBA equipment is available for an additional fee.

Gen Ed: Well

PED 2004 BEGINNING WATERSKIING

One hour. Fundamentals of water skiing techniques, safety, boating, and care of equipment. American Water Ski Association certification will be an option.

PED 2005 BEGINNING GOLF

One hour. This is a course designed to give the student the basic skill rudiments of the game of golf; the laboratory participation class is one in which the beginning phases of golf, including rules and game plays are introduced and practical.

Gen Ed: Well

PED 2006 INTERMEDIATE GOLF

One hour. Prerequisite: PED 2005 or permission of the instructor.

PED 2010 AEROBICS

One hour. Basic aerobic dance skills, safety procedures and wellness concepts for improving health and fitness.

Gen Ed: Well

PED 2013 VOLLEYBALL

One hour. To develop the fundamentals and knowledge of the exciting game of volleyball.

Gen Ed: Well

PED 2014 SOCCER

One hour. This course is designed to develop the fundamental skills and knowledge of the game of soccer.

Gen Ed: Well

PED 2015 BEGINNING WEIGHT TRAINING AND CONDITIONING

One hour. This course is designed to develop the skills and knowledge necessary to begin and participate in a program of weight lifting as a lifelong activity

Gen Ed: Well

PED 2018 BASKETBALL

One hour. This course is designed to develop the fundamental skills and knowledge of the game of basketball.

Gen Ed: Well

PED 2019 BEGINNING JOGGING

One hour. An introduction to the sequence of skills necessary to achieve fitness for jogging.

Gen Ed: Well

PED 2020 BEGINNING YOGA

One hour. This course is designed to give students an introduction to the basics of yoga postures, terminology, philosophy and various systems of yoga.

Gen Ed: Well

PED 2026 BEGINNING TENNIS

One hour. This course teaches the basics for tennis. Included are terms, rules and regulations, etiquette, equipment selection and stroke productivity. In-class practice of drills and individual play is provided. Some video analysis will be done on inclement weather days.

Gen Ed: Well

PED 2027 INTERMEDIATE TENNIS

One hour. Prerequisite: PED 2026 or permission of the instructor. Volley, smash, and lob; doubles play, strategy.

PED 2028 BADMINTON AND PADDLE GAMES

One hour. Basic skills in badminton, pickleball, and racquetball.

PED 2029 LIFEGUARD TRAINING

One hour. Prerequisite: Ability to swim 500 yards; tread water for two minutes, legs only; surface dive for a 10-pound brick; or permission of the instructor. Course follows requirements for the Lifeguard Training Certificate prescribed by the American Red Cross.

PED 3007 WATER SAFETY INSTRUCTION

One hour. Prerequisite: PED 2029 or American Red Cross Certification in the Emergency Water Safety Course. Identification of appropriate methods and techniques for instructing others to swim. ARC certification.

COACHING COURSES

PED 3015 COACHING BASKETBALL

Two hours. Prerequisite: Permission of instructor.

PED 3016 COACHING BASEBALL

Two hours. Prerequisite: Permission of instructor.

PED 3017 COACHING FOOTBALL

Two hours Prerequisite: Permission of instructor.

PED 3018 COACHING SOCCER

Two hours Prerequisite: Permission of instructor.

PED 3019 COACHING SOFTBALL

Two hours Prerequisite: Permission of instructor.

PED 3020 COACHING VOLLEYBALL

Two hours Prerequisite: Permission of instructor.

TEACHER CERTIFICATION K-12**PED 2077 FIRST AID AND SAFETY**

Two hours. Emergency first aid and safety; CPR/AED and first aid certification. (Requires lab fee.)

PED 2087 WILDERNESS FIRST AID

Two hours. Same as HMP 2087. Wilderness First Aid provides individuals with a foundation of first aid principles and skills to be able to respond to emergencies and give care in areas that do not have immediate emergency medical services response, such as wilderness and remote environments, including urban disasters, such as earthquakes and hurricanes. Students wishing to receive certification for this course must have current adult CPR/AED certification through the American Red Cross prior to taking this course. Students will be learning these life-saving skills in a wilderness type environment in conjunction with the outdoor recreation program.

PED 2100 SERVING HIGHER

Two hours. Same as HMP 2100. Students will study the human body and the impact of altitude while performing various physical tasks. First-hand knowledge will be gained on how and why our bodies respond to altitude. Other experiences will include discovering what happens to the body when you climb up a 5,000 foot mountain peak and what happens when you hike up a hill to work alongside monks at a local monastery. Students will gain insight on how their bodies respond when they are physically serving versus physically performing.

Gen Ed: Well

PED 2150 GERMANY'S APPROACH TO SPORTS PERFORMANCE

Six hours. Same as HMP 2150. Students will travel, study and participate in various activities with students from a partner college while exploring Germany's unique approach to Sports Performance. During this course, students will engage in collaborative projects with German students and professors from several Universities. Also, students will be involved service learning projects in three of the cities.

Gen Ed: Well

PED 2328 GAMES AND RHYTHMIC ACTIVITIES

Two hours. Same as HMP 2328. Instructional materials and methods for teaching games and rhythmic activities in elementary schools.

PED 2380 TEACHING TEAM & INDIVIDUAL SPORTS

Two hours. Same as HMP 2380. Skills, strategies, rules, and teaching techniques of traditional sports for instructors in schools and other sport settings.

PED 2575 FOUNDATIONS OF PHYSICAL EDUCATION

Two hours. Same as HMP 2575. History and philosophy of physical education, exercise science, sport and sub-disciplines with in the field. Clinical experiences in schools, recreation centers,

rehabilitation centers, fitness centers as well as several related facilities within the field of Physical Education and Human Movement Performance is required. Finger Printing for Polk County Schools is required. Call 863-519-8710 for appointment.

PED 2585 CARE AND PREVENTION OF INJURIES

Two hours. Same as HMP 2585. This course is designed to introduce students to the recognition and evaluation skills of common injuries and their subsequent prevention. Emphasis will be on immediate care given to traumatic sports-related injuries. Classroom theory and research will be combined with practical skills and applications to provide an inclusive base of knowledge.

PED 3520 MOTOR DEVELOPMENT

Four hours. Same as HMP 3520. Prerequisite: HMP/PED 2328. This course examines the principles of motor development, including pre- and post-natal developmental stages, perceptual motor development, sensory development and basic motor skills. A practical understanding of the progression of these stages through the lifespan is explored through numerous activities and clinical experiences. Clinical experiences in the school system is a requirement, thus all students in this class MUST obtain proper fingerprint documentation from a local law enforcement agency.

PED 3560 FUNCTIONAL HUMAN MOVEMENT

Four hours. Same as HMP 3560. This course approaches human movement from a multiple-disciplinary perspective combining the broad tenets of kinesiology with a strong influence of biomechanical principles; the outcome is a practical understanding and working knowledge of how and why the human body moves, with emphasis placed on the internal and/or external forces that may be involved.

PED 3575 EXERCISE PHYSIOLOGY

Four hours. Same as BIO 3575 and HMP 3575. Prerequisites: BIO 2215 and BIO 2216. The effects of exercise on human physiological systems. Students will use didactic and psychomotor skills in a laboratory setting to reinforce physiological principles.

PED 4508 MEASUREMENT & EPIDEMIOLOGY

Four hours. Same as HMP 4508. This course explores the statistical techniques, test construction, and assessment tactics that are frequently used to understand human activity; while also applying basic principles of epidemiology to draw conclusions on how, when and where trends emerge.

Gen Ed: Qn

PED 4510 FITNESS AND PRESCRIPTION

Four hours. Same as HMP 4510 and SPM 4510. Prerequisites: HMP/PED 2575 or SPM 2174 or permission of the instructor. Specific principles, concepts and theories of strength training and conditioning and their applications to performance. Course will prepare students to take the CSCS certification exam.

PHYSICS – PHY**PHY 2010 GENERAL PHYSICS I (Algebra Based)**

Four hours. Prerequisite: High school mathematics through pre-calculus or permission of the instructor. Algebra-based physics. Topics include mechanics, fluids, vibrations, waves, and sound.

Gen Ed: NW

PHY 2020 GENERAL PHYSICS II (Algebra Based)

Four hours. Prerequisite: PHY 2010. Algebra-based physics. Topics include heat, kinetic theory of gases, electric fields, AC-DC circuits, magnetism and light.

PHY 2110 GENERAL PHYSICS I (Calculus Based)

Four hours. Prerequisite: MAT 2311. Calculus-based physics. Topics include introduction to Newtonian mechanics, fluids, harmonic oscillators, vibrations and sound.

Gen Ed: NW

PHY 2120 GENERAL PHYSICS II (Calculus Based)

Four hours. Prerequisite: PHY 2110. Calculus-based physics. Topics include temperature and heat, kinetic theory of gases, electromagnetism, AC-DC circuits, Maxwell's equations and optics.

PHY 3050 SPECIAL TOPICS IN PHYSICS

Two-Four hours. Prerequisite: PHY 2120. This course allows for an upper level examination of current or advanced topics in Physics. Coursework may include active learning exercises, collaborative problem solving, integration of technology and peer instruction and possibly classroom demonstrations.

PHY 3070 MODERN PHYSICS I

Four hours. Prerequisite: PHY 2120. Topics may include (and are not limited to) the special theory of relativity, blackbody radiation, photoelectric effect, X-rays, Compton scattering, matter waves, Heisenberg's uncertainty relation, the Schrödinger equation and wave function, the hydrogen atom in wave mechanics.

PHY 3080 MODERN PHYSICS II

Four hours. Prerequisite: PHY 3070. Topics may include (and are not limited to) statistical physics, molecules and solids, semiconductor theory and devices, atomic nucleus, nuclear decay and reactions, elementary particles.

POLITICAL SCIENCE – POS**POS 1005 SUMMER ODYSSEY 20XX: FSC IN D.C.**

One hour. Pass/fail. Designated Junior Journey. This course is an exploration of the connections between the people, businesses and political networks of Florida with those of Washington, D.C., and represents an effort for Floridians and others to see Florida's political aspects in the national context. Through site visits, selected speakers, and formal and informal meetings with political, business and alumni figures associated with both, students will gain firsthand knowledge of the national contours of state politics.

POS 1125 THE AMERICAN POLITICAL SYSTEM

Four hours. With an emphasis on national government, this course also examines the role of state and local government in the American political process. Topics include the Constitution, the relationship between the national, state and local governments; the Bill of Rights; interest groups, political parties and participation in the electoral process; the legislative, executive and judicial branches of government.

Gen Ed: SW (Aw, An)

POS 2100 INTRODUCTORY COLLOQUIUM IN POLITICAL SCIENCE

Four hours. Introductory colloquia are an alternate way of introducing students to the study of a particular topic in Political Science not covered specifically in the general education curriculum. Using a diverse approach to content presentation, including invited speakers, film, literature, and integrative cross-disciplinary connections, students study a particular, closely defined topic intensively and with greater depth than is generally offered in the Political Science survey or institutions series. Topics vary with each year and are driven by student interest.

Gen Ed: SW (Aw), QI

POS 2290 CURRENT ISSUES IN AMERICAN POLITICS

Four hours. After briefly examining models of policy making, the course focuses on the major contemporary political issues. Topics include but are not limited to the economy, the environment, energy, poverty and health care. Students have an opportunity to select additional issues.

Gen Ed: SW (Glb, Aw, An), QI

POS 2295 ELEMENTARY PUBLIC POLICY ANALYSIS

Four hours. A systematic examination of the issues and methods associated with the analysis of the central issues of American public policy. A large proportion of the content of the course is focused on approaches to the creation of testable hypotheses, data gathering, and the quantitative methods of data-manipulation and analysis. Students engage in both short-term problem sets and long-term projects associated with making critical decisions about policy creation, costs, equity, and efficacy as well as implementation, forecasting, and projections of policy outcomes.

POS 2400 NATIONAL AND INTERNATIONAL POLITICAL ECONOMY

Four hours. This course will introduce students to major political debates in domestic and global economics. The first part of the course will offer students an overview of basic economic principles, and the second part of the course takes a comparative approach to domestic political economy. In the final section, we consider the dynamics of the global economy; this includes addressing issues such as labor conditions in the developing world, protectionist trade policies, and the spread of consumer culture.

Gen Ed: SW (Aw), QI

POS 2500 LAW AND THE COURTS

Four hours. This course is a systematic description and analysis of the role, structure, and behavior of the American legal system, with an eye to the interests and concerns of pre-law students. The course reviews and integrates the topics of the law and legal system into the US, discusses procedures and patterns of behavior within that system, and examines the impact of our legal system within the larger arena of American policy and politics. Some previous coursework in political science is desirable, but not required.

POS 2900 INTRODUCTION TO INTERNATIONAL RELATIONS

Four hours. A systematic examination of the international political landscape. Topics may include the connections between and among sovereign states, the influences of non-state actors on national states' behaviors with each other, the roles that such things as economics (e.g. globalization) plays in international relations, war-making and nation-building objectives; religious and other cultural factors influences on international relations, and the effects of scarce resources (e.g. oil, water, and food) on state behaviors

Gen Ed: SW (Glb, Aw)

POS 3100 SOUTHERN POLITICS

Four hours. Prerequisite: One year of college-level course work or instructor's permission. The emphasis of this course is on the history and changing nature of the politics of the American South. Tracing the political culture of the South from 1949 through the current day, we will be guided in our research by the seminal evaluations of V.O. Key as our starting point – measuring change as deviations from these observations. This is a “project” course. Much of the value of the course is placed in the production of a conference--ready paper on a subject in Southern Politics. These papers may take the form of data--driven quantitative papers in the area of women's politics, the politics of race, voting and elections, ideological development, and so on. We will, as preparation for these papers, be examining the current literature in Southern Politics, including scholarly work that raises the critical question as to whether there is, in fact, anything distinctly “southern” about the politics of the American South in the current era..

Gen Ed: SW (Ap)

POS 3175 FOREIGN AND SECURITY POLICY OF THE UNITED STATES

Four hours. Same as HIS 3175. Prerequisites: One year of college-level coursework or permission of the instructor. This course examines the development of United States foreign policies, with an emphasis on the twentieth century. The course's focus is on the principles, aims, applications, and decision-making processes that shaped America's policies with other states.

Gen Ed: SW (Glb, An)

POS 3315 AMERICAN POLITICAL BEHAVIOR: PARTIES, VOTING AND ELECTIONS

Four hours. This course examines and analyzes the history, organization and role of political parties in the American electoral system. It also examines and analyzes political behavior of individuals and the role of elections in the American political process.

Gen Ed: SW (Glb, Aw, An)

POS 3320 THE PRESIDENCY AND CONGRESS

Four hours. The focus of the course is the executive and legislative branches of government. After examining the constitutional foundation for the executive branch along with the roles and corresponding powers of the president, each presidential administration throughout history will be analyzed. The course also examines and analyzes the structure, organization, leadership positions and processes of Congress.

Gen Ed: SW (An), QI

POS 3323 INTERNATIONAL ORGANIZATIONS

Four hours. Prerequisites: One year of college-level coursework or permission of the instructor. The course addresses the role of international organizations in global politics, examining the history and functioning of major organizations such as the United Nations and the European Union; we also examine the role of these IOs in addressing contemporary global issues. A significant portion of the class will involve UN and EU simulations, with each student researching and representing the position of a member country. Possible topics covered in the simulations include humanitarian interventions, post-conflict resolution, global financial stability, and immigration policy.

Gen Ed: SW (An)

POS 3325 U.S. CAMPAIGNS AND ELECTIONS

Four hours. Prerequisite: One year of college-level course work or permission of the instructor. This course is the central course in elections taught by the department, and contains two standard divisions: the institutional arrangements of elections ("elections"), and the behaviors which take place as a result of these arrangements ("campaigns"). The course is simply divided into these two sections. "Elections" are examined in light of both stable factors (constitutional requirements) and interactions with the world of campaigning as it has developed historically (such as refinements of financing elections). "Campaigns" is a more practical than theoretical discussion of the dimensions of American political campaigns. This is an expressly "experiential learning" course. Students will work with the materials in two ways: through the existing literature on the subjects of campaigns and elections, and through examining campaigning through practice in actual campaign settings - where possible - or modeling this behavior, where access to campaigns is limited.

Gen Ed: SW (Ap)

POS 3327 TOPICS IN COMPARATIVE POLITICS

Four hours. A comparison of the political structure and process of selected states, including both developed and developing political systems in various parts of the world.

Gen Ed: SW (Glb, Ap)

POS 3339 CONSTITUTIONAL LAW

Four hours. Using major Supreme Court decisions and a case study approach, this course will examine and analyze American constitutional structures and a selection of civil liberties guaranteed in the Bill of Rights.

Gen Ed: SW (Glb, Aw, An), QI

POS 3345 CONFLICT AND WAR

Four hours. Prerequisite: One year of college-level course work or permission of the instructor. This course introduces students to the study of various forms of violent conflict in international politics, with a focus on analyzing the outcomes of historical conflicts. The course will address the use of violence by both states and non-state actors, such as separatist movements and terrorist groups. Possible topics covered in the course include, but are not limited to: the development of military doctrine, terrorism, insurgency and counterinsurgency, alliance formation, civil-military relations, and nuclear proliferation.

Gen Ed: SW (An)

POS 3380 SPECIAL TOPICS IN AMERICAN POLITICS

Four hours. This advanced course explores significant issues/topics within the discipline of American government. Examples include but are not limited to: Post WWII American Politics; Southern Politics; Women in the American Political Process or the America Political System in Films.

Gen Ed: SW (Glb, Aw, An), QI

POS 3400 POLITICAL PARTIES AND INTEREST GROUPS

Four hours. Prerequisite: One year of college-level course work or permission of the instructor. This course will explain the organization, maintenance, functions, behavior and influence of both political parties and interest groups — the aggregators of policy opinion and preference in the US. The focus, if not the entire bulk, of our readings will be on these institutions, as they exist within the United States (at the state and federal levels). We will focus our attention on three aspects of the party: party as organization, party in the electorate and party in the government. The interest group material is centered on the changing interest group environment, as well as basic theories of interest aggregation and representation. This is an expressly "experiential learning" course. Students will work with the materials in two ways: through the existing literature on the subjects of interest aggregation, and through examining the organizations themselves through their own interviewing, personal investigation and research.

Gen Ed: SW (An)

POS 3500 THE INTERNATIONAL RELATIONS OF THE DEVELOPING WORLD

Four hours. Prerequisite: One year of college-level course work or permission of the instructor, and successful completion of coursework that satisfies Effective Communication SLOs A and B. This course will introduce students to major debates in international relations, with a focus on the politics of the developing world. Possible issues addressed in the course include, but are not limited to: ethnic conflict, civil wars, democratization, failed states, economic development in a globalized world, the policy of non-alignment, and foreign imposed-regime change. A significant portion of class time will be devoted to UN simulations, where students research and represent individual countries in the in-class simulations.

Gen Ed: EC-C

POS 3600 TOPICS IN INTERNATIONAL RELATIONS

Four hours. Prerequisite: One year of college-level course work or permission of the instructor. This course takes an in-depth examination of an issue in global politics that is not covered in the core curriculum; each semester that the course is offered, the course topic will be determined by student interest. In the first section of the course, students will review theoretical literature on the chosen issue. In the second part, students will examine historical case studies, with a focus on testing and applying these theories. In the final section, students will complete a major research

project. Students may repeat the course when topics vary. This course is intended for upper-college students and political science majors.

Gen Ed: SW (Glb, An)

POS 4429 POLITICAL THEORY

Four hours. From Plato to the present, the course explores the writings of the world's greatest political theorists on such topics as the state, the ideal state, the individual in the state, natural law, institutional religion and the state, revolution, the state of nature, sovereignty, the social contract, moral law, separation of power, the universal state, the dialectic, capitalism, class conflict, anarchism, liberty, libertarianism, and justice. Emphasis is placed on the question of how relevant are these concepts for our times.

Gen Ed: MV

POS 4905 POLITICS AND THE MEDIA

Four hours. Same as COM 4905. Prerequisite: COM/SPC 4550 or at least junior status, and successful completion of coursework that satisfies Effective Communication SLOs A and B. A systematic description and analysis of the media's role and impact within the American political arena. Attention will be paid to the impact of the changing processes and modes of the media on citizen involvement, political campaigns, and governing.

Gen Ed: SW (Ap), QI, EC-C

POS 4960/4961 INTERNSHIP IN POLITICAL SCIENCE

One to eighteen hours. Pass/fail. Students may earn up to a maximum of 18 credit hours in POS 4960 and 4961 combined, but of the total number of credit hours earned, only five may be applied to the 41 hours required to complete the political science major, the remainder will count as elective credit hours. Internships are out of classroom experiences designed to enable learning that cannot be gained in a traditional classroom setting, to set in practical environments skills or other content gained in a traditional classroom setting, or to gain work experience that is specifically tied to a student's pre--professional training and connected to discipline/field-specific content. An internship requires and assumes an active learning component on the part of the student: "shadowing", per se, is not an internship under this definition.

POS 4999 SENIOR SEMINAR IN POLITICAL SCIENCE

Four hours. Prerequisites: Senior standing and twelve hours in Political Science or permission of the instructor, and successful completion of coursework that satisfies Effective Communication SLOs A and B. Empirical theoretical approaches and the qualitative and quantitative methodologies used by political scientists in the study of political attitudes and behavior. Capstone course.

Gen Ed: SW (Ap), Qn, EC-C

PORTUGUESE – POR

Each course is an enhanced self-study program in the NASILP (National Association of Self-Instructional Language Programs) format, which relies heavily upon the student's motivation and discipline. Major emphasis is on the development of oral-aural skills. Class time will be spent in oral drills and conversation practice with a native-speaking (or equivalent) tutor. Classes will be conducted almost entirely in Portuguese. Students will study the grammar independently, using the NASILP format with the help of the assigned text and workbook, as well as in the lab. Students are expected to work outside of class and in the lab each week and come to class prepared.

POR 1101 FIRST SEMESTER PORTUGUESE

Four hours. Prerequisite: Cumulative GPA of at least 2.5 or approval from the Critical Languages Program director.

Gen Ed: SW (Glb, Aw), QI

POR 1102 SECOND SEMESTER PORTUGUESE

Four hours. Prerequisite: POR 1101 proficiency.

POR 2203 SECOND YEAR PORTUGUESE

Four hours. Prerequisite: POR 1102 proficiency.

PSYCHOLOGY – PSY**PSY 1106 PSYCHOLOGY AND THE SOCIAL WORLD**

Four hours. Survey of major areas in psychology with emphasis on current foundational areas of the field, including but not limited to the following: theoretical/methodological, developmental, cognitive, social and cultural, and clinical foundations of behavior.

Gen Ed: SW (Aw, An)

PSY 1110 PSYCHOLOGY AND THE NATURAL WORLD

Four hours. An empirical (i.e., laboratory-based) approach to psychology that explores the physiological and behavioral influences on the field, which include the following: history and systems of psychology, neuroscience, sensory and perceptual systems, learning and memory, motivation, consciousness, and emotion.

Gen Ed: NW

PSY 2206 SOCIAL PSYCHOLOGY

Four hours. Same as SOC 2206. Suggested prerequisite: PSY 1106 or PSY 1110. The study of behavior in the social environment as related to the three primary areas of social psychology: social cognition, social influence, and social relations.

PSY 2209 DEVELOPMENTAL PSYCHOLOGY

Four hours. Suggested prerequisite: PSY 1106 or PSY 1110. Human development from conception to death with emphasis major emphasis on childhood, adolescence, and adulthood. Biological, cognitive, perceptual, language, personality, and social development are emphasized.

PSY 2210 TESTS AND MEASUREMENTS

Four hours. Construction and interpretation of measuring instruments for analysis of behavior; psychometric principles of testing and a survey of representative psychological tests.

PSY 2214 ABNORMAL PSYCHOLOGY

Four hours. Suggested prerequisite: PSY 1106 or PSY 1110. Survey of the major areas of abnormal psychology with emphasis on current foundational areas of the field, including but not limited to the following: historical/theoretical foundations of approaches to psychological abnormality, clinical assessment/research, categories of abnormality, treatment strategies and cultural issues.

PSY 2220 SENSATION AND PERCEPTION

Four hours. Prerequisite: PSY 1110. An in-depth evaluation of how humans (and non-humans) use their senses to informatively make sense in the world (with an emphasis on how these senses are studied scientifically, which is commonly called “psychophysics” in the field).

PSY 2230 ECOLOGICAL PSYCHOLOGY

Four hours. Suggested prerequisite: PSY 1106 or PSY 1110. Course designed to engage students in understanding the interaction between humans and built and natural environments.

PSY 3300 CLINICAL AND COUNSELING PSYCHOLOGY

Four hours. Prerequisite: PSY 2214. An in-depth evaluation of current treatments for mental illness that explores modern psychological perspectives and their methods of effective therapeutic intervention.

PSY 3301 SPECIAL TOPICS IN PSYCHOLOGY

Four hours. Prerequisite: PSY 1106 or PSY 1110. Consideration of special topics in psychology, including current issue and trends.

PSY 3305 LEARNING AND BEHAVIORAL PSYCHOLOGY

Four hours. Prerequisite: PSY 1110. An in-depth evaluation of behavioral theory and its application in the real world (with emphasis on analysis and further development of research in the field).

PSY 3309 BEHAVIORAL NEUROSCIENCE

Four hours. Prerequisite: PSY 1110. An in-depth evaluation of behavioral theory and its application in the real world (with emphasis on analysis and further development of research in the field).

PSY 3310 RESEARCH DESIGN AND STATISTICS

Four hours. Prerequisites: MAT 2022 and at least one PSY 1000-level course (PSY 1106 or PSY 1110). Principles, procedures and methods for designing research in psychology, including performing relevant statistical analyses of data, hypothesis testing and inference; analysis of variance; non-parametric techniques.

Gen Ed: Qn

PSY 3314 PSYCHOLOGY OF PERSONALITY

Four hours. Prerequisite: PSY 1106. An in-depth evaluation of personality theory and its application towards human behavior (with emphasis on assessment and how it is used to measure personality in the real world).

PSY 3315 COGNITIVE PSYCHOLOGY

Four hours. Prerequisite: PSY 1106. Survey of human cognitive psychology, focusing on how human perception, learning, memory and thinking; designed to engage students in the major topics in the field.

**PSY 3321 THE PSYCHOLOGIST'S SEARCH FOR MEANING AND VALUE:
PERSONAL, COMMUNAL, AND GLOBAL EXPLORATION**

Two hours. Prerequisite: junior status or permission of the instructor. Preference to residential students. Students will explore psychological theories of why and how people seek and construct meaningful lives that are aligned with personal, communal, and universal values. Major areas in psychology will include but not be limited to: clinical, cognitive, developmental, existential, Gestalt, positive psychology, psychobiological, and social and cultural perspectives. Planning a service-learning project, to be implemented during the subsequent spring break, is one of the course-related experiences.

Gen Ed: MV

**PSY 3322 THE PSYCHOLOGIST'S SEARCH FOR MEANING AND VALUE:
PERSONAL, COMMUNAL, AND GLOBAL IMPLEMENTATION**

Two hours. Prerequisites: PSY 3321, or junior status and permission of the instructor. Preference to residential students. In a continuation of PSY 3321, students will explore psychological theories of why and how people seek and construct meaningful lives that are aligned with personal, communal, and universal values. Major areas in psychology will include but not be limited to: clinical, cognitive, developmental, existential, Gestalt, humanist, positive psychology,

psychobiological, and social and cultural perspectives. Implementing a service-learning project during spring break is a required course-related experience. Thus, students must also meet institutional requirements for Study Abroad/Junior Journeys.

Gen Ed: MV

PSY 3336 INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY

Four hours. Prerequisite: PSY 1106 or 1110. The systematic observation and study of human behavior in an organizational setting; major topics will include personnel psychology, consumer behavior, human relations, and organizational behavior.

PSY 3350 PROFESSIONAL ISSUES IN PSYCHOLOGY

Four hours. Prerequisite: PSY 1106 and 1110 and junior status or permission of the instructor. The course addresses the professional skills and knowledge needed by majors to successfully obtain a position in a psychology or related field and/or to earn entry to graduate school. Course content includes such topics as the scientific inquiry processes and critical thinking processes in psychology, preparing a resume and cover letter, conducting a search for career/graduate school options, interviewing skills, GRE preparation, and application process to graduate school.

PSY 4430 CRIMINALIZATION OF MENTAL ILLNESS

Four hours. Same as CRM 4430. Prerequisite: CRM 3340 or PSY 1106 or PSY 1110. This course explores how the criminal justice system has become the de facto mental health system and examines reasoned, collaborative solutions to this dilemma.

PSY 4450 RESEARCH PRACTICUM

Four hours. Prerequisite: PSY 3310 and permission from a full-time faculty member in psychology. A collaborative effort in which students independently produce (and a faculty mentors) an extensive literature review, sound methodology, statistically-driven data collection/analysis, and valid conclusions that culminates into a body work that is worthy of professional review.

PSY 4960/4961 INTERNSHIP IN PSYCHOLOGY

Four hours. Prerequisite: Junior or senior standing as a psychology major or minor and permission from the internship coordinator of psychology. An off-site exploration in a psychology-related field that is designed to provide students with professional experience in preparation for either post-baccalaureate studies or future employment in the field.

PSY 4999 CAPSTONE SEMINAR IN PSYCHOLOGY

Four hours. Prerequisite: Senior standing as a psychology major and PSY 1106 and PSY 1110 and an additional 16 hours of psychology credit (the last of these requirements may be waived with permission of entire psychology faculty). An overview of current issues in the discipline, including, e.g., neuroscience, clinical applications, cognitive psychology, and psychology applied to social problems.

Gen Ed: EC-C

RELIGION - REL

REL 1108 WHAT IS RELIGION?

Four hours. An introduction to religion through an inquiry of ultimate questions, the sacred and the divine, and religious belief and practice. Students will critically examine sacred texts, religious experience, theology, ritual, and ethics within religious traditions..

Gen Ed: MV, QI

REL 2215 THE OLD TESTAMENT: THE LITERATURE, THE HISTORY, THE RELIGIOUS IDEAS

Four hours. This course examines the writings of the Hebrew Scriptures in their socio/historical, literary and religious context.

Gen Ed: MV, SW (AW), Q1

REL 2216 THE NEW TESTAMENT: ITS HISTORY, LITERATURE AND THEOLOGY

Four hours. This course examines the writings of the New Testament in their social, literary and theological contexts.

Gen Ed: MV, Q1

REL 2218 BASIC CHRISTIAN BELIEFS

Four hours. An introduction to Christian theology, the course examines the fundamental doctrines of the Christian faith, such as Trinity, predestination, incarnation, creation, evil, resurrection, justification, Holy Spirit, and how these beliefs are coherently related, the form of life and ethics ingredient in them, and how for Christians they represent the truth about ultimate reality and the highest value for human life. The course also addresses the various methods through which theologians do their work and how theological thinking is similar to and distinct from other systems of thought. Student response and discussion are major components of the course, as is student application of the material through analyses of “real world” sermons, lectures, video discussions and debates found on the web, service learning opportunities, interviews with church leaders.

Gen Ed: MV, Q1

REL 2219 WORLD RELIGIONS AND PHILOSOPHIES

Four hours. Same as PHI 2219. Introduces students to the origins; founders; historical development; scriptures; fundamental concepts, such as views of ultimate reality, the meaning of life, and human hope; religious practices; personal and social ethics; culture context and impact; and contemporary relevance of the world’s living religions and their associated philosophies.

Gen Ed: MV, SW (Glb), Q1

REL 2225 THE APOCRYPHA

Four hours. This class is an introduction to the history, the literary style, and the religious ideas found in the Apocrypha.

Gen Ed: MV, SW (Aw)

REL 2228 JESUS IN FILM

Four hours. Students who take this course, after developing criteria for making judgments about the presentations of Jesus in film and elsewhere, will examine and analyze various depictions of Jesus in motion pictures. The course is not primarily interested in the artistic evaluation of these films; it is concerned with Biblical and theological analysis. How does the film align with the Biblical images of Jesus? Which source in the New Testament does the picture of Jesus in the film most closely reflect? What understanding of Jesus and his relationship to God does the film portray? The course, therefore, provides an opportunity to think critically and theologically about the various meanings of Jesus and to analyze the diverse portraits of him in the Christian tradition and in film.

Gen Ed: MV, Q1

REL 2256 GENDER, INTERPRETATION AND THE BIBLICAL TRADITION

Four hours. Same as WST 2256. An examination of selected texts from the Old and New Testaments and the patriarchal contexts of the Ancient Near East and the Greco-Roman Empire. Using historical critical methodologies to interpret the Biblical text, students will determine the

ways in which women are depicted, identify gender roles from the historical context, and explain the function of feminine imagery in the text.

Gen Ed: MV

REL 3328 HISTORY OF CHRISTIAN THOUGHT

Four hours. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. Examining distinctive movements, thinkers, and themes in the history of the Christian tradition, the course will trace the development of Christian theology from the early church to Protestant orthodoxy and American Christianity. The course aims at developing an appreciation for the unity and diversity, and the continuity and discontinuity in the history of Christian thought, a deeper understanding of a participant's own theological heritage, and a perspective by which to judge contemporary theological issues.

Gen Ed: MV, QI

REL 3345 THE WISDOM TRADITION IN ANCIENT ISRAEL

Four hours. Prerequisite: REL 2215. This course is a critical examination of the historical setting, literary aspects, and theological themes of the five books that constitute the Wisdom Literature: Proverbs, Job, Ecclesiastes, Wisdom of Solomon, and Sirach.

REL 3358 CHRISTIANITY AND THE ARTS

Four hours. The place of literature, music, architecture, and graphic and dramatic arts in the Christian tradition, past and present.

Gen Ed: MV, QI

REL 3365 THEOLOGICAL & PHILOSOPHICAL THEMES IN CONTEMPORARY LITERATURE

Four hours. Same as PHI 3365. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. This course is an examination of the religious and philosophical themes in major literary works of the Nineteenth and Twentieth Centuries.

Gen Ed: MV, EC-C

REL 3366 JOHANNINE LITERATURE: GOSPEL, LETTERS AND APOCALYPSE

Four hours. Prerequisite: REL 2216. A Study of the Gospel of John, the Johannine Epistles, and the Book of Revelation.

REL 3378 DIALOGUES IN SCIENCE AND RELIGION

Four hours. Same as BIO 3378. Prerequisites: any 1000 level or above course in the natural sciences and any 2000 level or above course in religion. Considers the cultural, philosophical and intellectual factors that have contributed to the development of the relationship between science and religion in Western thought.

Gen Ed: MV, SW (Aw, An)

REL 3388 FUNDAMENTAL QUESTIONS IN THEOLOGY AND PHILOSOPHY

Four hours. Same as PHI 3388. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. This team-taught course examines philosophical and theological perspectives on such matters as classical arguments for God's existence, atheistic critiques, the relationship between reason and revelation, life after death, the ground of morality, the problem of evil, religious experience, and religious language.

Gen Ed: MV, QI, EC-C

REL 4416 LIFE AND LETTERS OF PAUL

Four hours. Prerequisites: REL 2216 and successful completion of coursework that satisfies Effective Communication SLOs A and B. A study of the life and writings of Paul the Apostle as presented in the Pauline epistles, Acts and Early Christianity.

REL 4428 CURRENT THEOLOGICAL THOUGHT

Four hours. Prerequisites: REL 2218 and successful completion of coursework that satisfies Effective Communication SLOs A and B. An examination of significant theologians and movements in the development of twentieth and twenty-first century theological thought, the course offers an introduction to the major Christian thinkers and themes of the modern and the post-modern eras. The class will examine how, in dialogue and debate with philosophers, the prevailing culture, and other theologians, Christian thinkers and writers have attempted to address the questions of the basis from which someone can talk about God or a God at all, the meaning of Jesus for persons, society, the world, and cosmos, and the form of life that people ought to follow.
Gen Ed: EC-C

REL 4435 PROPHEPIC THOUGHT IN ANCIENT ISRAEL

Four hours. Prerequisite: REL 2215. A study of the prophetic literature of the Hebrew Scriptures in relation to the history of Israel, redaction criticism and theological themes.

REL 4446 LIFE AND TEACHINGS OF JESUS

Four hours. Prerequisites: REL 2216 and successful completion of coursework that satisfies Effective Communication SLOs A and B. A study of the life and teachings of Jesus as presented in the synoptic gospel tradition.

REL 4448 THE DOCTRINE OF GOD

Four hours. Prerequisites: REL 2218 and successful completion of coursework that satisfies Effective Communication SLOs A and B. An inquiry into the doctrine of God focusing upon traditional and modern critiques and the development of contemporary theological methods in response to those critiques, this course will examine critical questions in the Christian doctrine of God that have led to a crisis of faith in God and atheistic protests in modern times. The course will also attempt to develop an understanding of God, employing the doctrine of the Trinity, which can provide a basis for responding to atheism. The course aims to teach students to think through issues theologically in a consistent manner.
Gen Ed: EC-C

REL 4953-4954 HONORS IN RELIGION

Six hours distributed over 2 semesters. Prerequisite: Restricted to seniors in the Religion program. Seniors must have a cumulative 3.5 GPA, a GPA of 3.66 in Religion, and have completed at least half of coursework at FSC. Students in the course sequence will work with the professor teaching the course on research projects centered on a particular theme.

REL 4960 INTERNSHIP IN RELIGION

Three to six hours. Prerequisite: Senior Standing and permission of the faculty. A supervised, semester long application of critical thinking, theological reflection, research and/or exegetical writing in an approved setting.

REL 4999 CAPSTONE SEMINAR IN RELIGION

Two hours. Prerequisites: One REL course from each of the following groups: (REL 3345, 4435), (REL 3366, 4416, 4446), (REL 4428, 4448) or permission of the instructor. A senior seminar in which students assess ideas in religion using critical reasoning, produce original work and present it to faculty and peers.

RELIGION: YOUTH MINISTRY – RYM

RYM 2210 TEACHING AND LEARNING THEORIES FOR YOUTH MINISTRY

Four hours. An exploration of teaching and learning theories for youth ministry, including but not limited to information processing, group interaction, indirect communication, personal development, action/reflection, transformative education and other theories of education.

RYM 3310 LEADERSHIP & ADMINISTRATION FOR YOUTH MINISTRY

Four hours. An examination of youth leadership processes in the life of the church, including but not limited to group dynamics, planning procedures and practices, recruitment and training of volunteers, the use of curriculum resources, and structuring and planning for youth ministry.

RYM 4410 BIBLE AND THEOLOGY IN THE YOUTH MINISTRY SETTING

Four hours. Prerequisites: One other RYM course and REL 2215 and REL 2216 and REL 2218. An examination of the Bible and theology in the youth ministry setting. The course includes methods for teaching the Bible and theology, the significance of the Bible and theology in the life of the church.

RYM 4960/4961 INTERNSHIP IN RELIGION: YOUTH MINISTRY

Four hours. Prerequisite: Senior standing and permission of the instructor. A supervised, semester long work experience in youth ministry in a local church or other approved setting.

SOCIOLOGY – SOC

SOC 1100 INTRODUCTION TO SOCIOLOGY

Four hours. Globally focused survey of the foundations of society and social behavior, including but not limited to diverse theoretical perspectives at micro and macro levels; research methodological approaches; major contributors to the discipline; basic sociological concepts, processes and applications; the study of major social institutions; and the analysis of social issues and social problems. This course may also be taken, when offered, as INTRODUCTION TO SOCIOLOGY ONLINE. It is the same course but delivered in online computer format.

Gen Ed: MV, SW (Glb, Aw, An)

SOC 2206 SOCIAL PSYCHOLOGY

Four hours. Same as PSY 2206. Suggested prerequisite: PSY 1106 or PSY 1110. The study of behavior in the social environment as related to the three primary areas of social psychology: social cognition, social influence, and social relations.

SOC 2216 SOCIAL PROBLEMS

Four hours. Sociology/social psychology study of social problems, emphasizing theoretical perspectives, research, and application. Selected contemporary social problems such as education, crime, poverty, race, and population are analyzed with respect to their origins, present dimensions, and possible solutions.

Gen Ed: SW (Aw, An)

SOC 2220 MARRIAGE AND FAMILY

Four hours. Same as WST 2220. Sociology/social psychology introduction to the study of marriage and family, emphasizing theoretical perspectives, research and application, based on the American family with comparisons to other selected cultures. Topics include history, structure, and functions of the family, as well as mate selection and courtship, transitions, marital interaction, sexual relationships, parenting, role differentiation, violence, dissolution, and restructuring. Objectives are to analyze topics based on the academic principles of sociology and social psychology and to

make applications to social and personal levels. A service learning component is required.

Gen Ed: SW (Glb, Aw, An), QI

SOC 2240 CLINICAL SOCIOLOGY

Four hours. An examination of clinical social practice and treatment modalities in areas such as: marriage and family, social group work, child protection, addictions, and other referral services. This is a “practice” course, designed to expose students to the application of sociology in community and social work. As such, students learn about typical content of careers related to sociology.

Gen Ed: SW (Aw, An)

SOC 2270 INTERCULTURAL COMMUNICATION

Four hours. Same as SPC 2270. This course explores the unique relationship between communication and culture. Students examine their own cultural view as they are exposed to a variety of cultural dynamics and mores in this increasingly global society. This course balances concepts and theories of intercultural communication with practical application. The goal of this course is to enhance the student’s effectiveness as a communicator.

Gen Ed: MV, SW (Glb, Aw, An)

SOC 3300 SELECTED TOPICS IN SOCIOLOGY

Four hours. Focuses on a specific issue in the study of society and social behavior, including but not limited to micro and macro analyses; methodological approaches; major contributors and contributions in the selected topic; basic concepts, processes and applications; and the analysis and application of relevant social issues and related social problems.

Gen Ed: SW (Aw, An)

SOC 3303 SOCIOLOGY OF DEVIANT BEHAVIOR

Four hours. Sociology/social psychology study of deviant behavior, emphasizing theoretical perspectives, research and application. Examines social processes in defining deviance, becoming deviant and changing deviance, including culture, social class, vested and power interests, organizational structures, social institutions, stigma, and labeling.

Gen Ed: SW (Aw, An), QI

SOC 3305 RACE, CULTURE, AND HUMAN RELATIONS

Four hours. The sociological meaning of race and minority group status in American society; specific minority groups will be analyzed with major emphasis on the African-American experience.

Gen Ed: SW (Aw, An), QI

SOC 3307 SPORT, LEISURE, AND SOCIETY

Four hours. Same as SPM 3307. Analysis of the social functions of sport and leisure in relationship to other social institutions. Examination of major social problems affecting both sport and leisure. Application of sociological concepts and theories in understanding the social roles of sport and leisure in society.

Gen Ed: SW (Aw, An)

SOC 3309 URBAN SOCIOLOGY

Four hours. Unique features of urban communities; historical background of modern urbanism; changes and adjustments in values and organization; concerns of urban planning in American and world cities.

Gen Ed: SW (Aw, An)

SOC 3315 BASEBALL AND AMERICAN SOCIETY

Four hours. An examination of the social functions and characteristics of baseball in American society. Social historical analysis will be made of the ways in which baseball has both reflected and influenced changes in American society.

Gen Ed: SW (Aw, An)

SOC 3336 GERONTOLOGY

Four hours. The psychological, physiological, social and cultural theories and issues of the aging process and the effects upon the individual, family and society.

Gen Ed: SW (Aw, An)

SOC 3337 DEATH AND DYING

Four hours. Integrates information and theories of death and dying from the social, psychological, anthropological, medical and legal disciplines. Various perspectives integrate attitudes toward terminal illnesses, natural death, funeral rites and euthanasia.

Gen Ed: SW (Aw, An), QI

SOC 4400 SELECTED TOPICS IN SOCIOLOGY

Four hours. Prerequisites: SOC 1100 and either SOC 4406 or SOC 4420 or both (depending on the qualitative or quantitative project approach). Focuses on qualitative or quantitative research project in the study of society and social behavior, including but not limited to micro and macro analyses; methodological approaches; major contributors and contributions in a selected topic; basic concepts, processes and applications; and the analysis and application of relevant social issues and related social problems.

Gen Ed: SW (Ap), QI, Qn

SOC 4406 SOCIOLOGICAL THEORY

Four hours. Prerequisites: SOC 1100 and SOC 2216 and successful completion of coursework that satisfies Effective Communication SLOs A and B. A comparative study of the development of 19th and 20th century social thought and sociological theories. The focus will be on understanding, analyzing and critiquing diverse theoretical perspectives at micro and macro levels as they relate to the organization of society and bases of social behavior.

Gen Ed: MV, SW (Glb, An), EC-C

SOC 4420 METHODS OF SOCIAL RESEARCH

Four hours. Same as CRM 4420. Prerequisites: Twelve hours in criminology or sociology and MAT 2022. The application of the scientific method in researching social phenomena, focusing on the foundations of quantitative, empirical methodologies. Students will participate in the entire research process, including conceptualization, research design, sampling, measurement, data collection, computer software, statistical analysis, report writing, oral presentation.

Gen Ed: SW (Ap), Qn

SOC 4960/4961 SOCIOLOGY INTERNSHIP

Four hours. Prerequisites: Junior or senior status, major or minor in Sociology and permission of the instructor. An off-site exploration in a sociology-related field that is designed to integrate academic learning with actual application in the field and to provide students with professional experience in preparation for post-baccalaureate studies and/or future employment in the field.

SPANISH – SPA

SPA 1101 FIRST SEMESTER SPANISH

Four hours. The objective of this course is to introduce students to the Spanish language and Hispanic cultures. Students will work on the development of the four basic language skills: speaking, listening, reading and writing. Classes will focus on the practical application of language in day to day situations while promoting cultural awareness.

Gen Ed: SW (Glb, Aw), QI

SPA 1102 SECOND SEMESTER SPANISH

Four hours. Prerequisite: SPA 1101 proficiency. The objective of this course is to introduce students to the Spanish language and Hispanic cultures. Students will work on the development of the four basic language skills: speaking, listening, reading and writing. Classes will focus on the practical application of language in day to day situations, and on cultural awareness.

SPA 2203 SECOND YEAR SPANISH

Four hours. Prerequisite: SPA 1102 proficiency. The objective of this course is to introduce students to the Spanish language and Hispanic cultures. Students will continue to develop the four basic language skills; speaking, listening, reading and writing. Classes will focus on the practical application of language in day to day situations, and on cultural awareness.

SPA 2205 COMPOSITION AND CONVERSATION I

Four hours. Prerequisite: SPA 2203 proficiency. The objective of this course is to expand students' knowledge of Spanish grammar and conversation and cultural topics. Students will work on the development of the four basic language skills: speaking, listening, reading and writing. Classes will focus on the practical application of language in day to day situations, and on awareness of Hispanic cultures, diversity, current events and literature.

Gen Ed: SW (Glb, Aw), QI

SPA 2207 COMPOSITION AND CONVERSATION II

Four hours. Prerequisite: SPA 2203 proficiency or permission of the instructor. This course will act as a bridge between intermediate and upper-level Spanish courses. With a greater focus on grammar and expression, it will help students be better prepared to take other culture or literature classes in which more reading and writing is required. Students will have more hands-on practice with grammatical structures and will get more feedback from their professors to help them further develop writing skills.

Gen Ed: SW (Glb, Aw), QI

SPA 3308 TOPICS IN HISPANIC CULTURE AND CIVILIZATION

Four hours. Same as LAS 3308. Prerequisite: SPA 2203 proficiency or permission of the instructor. This course will serve to introduce and expand the student's understanding of Hispanic countries through a detailed study of an interdisciplinary topic that will incorporate history, culture, art, literature, current events, and various geographic regions. Students of SPA 3308 will read and write in Spanish, students of LAS 3308 will read and write in English. All class discussions will be held in English. May be taken more than once with a different topic.

Gen Ed: SW (Glb, Aw)

SPA 3320 INTRODUCTION TO LITERATURE IN SPANISH

Four hours. Prerequisite: SPA 2203 proficiency or permission of the instructor. This course will help students transition from language focused courses to the appreciation and analysis of literature by reading a variety of works of different time periods from Spain and Latin America. Students will gain an appreciation for the profound impact of literature in society. This course will provide students with the tools and vocabulary to better understand and analyze literature of every genre.

Gen Ed: FA (In), QI

SPA 3323 SURVEY OF SPANISH LITERATURE

Four hours. Prerequisite: SPA 2203 proficiency or permission of the instructor. Panoramic view of Spanish literature, authors, and different genres from epic poetry to present; emphasis on Golden Age and Romanticism to “tremendismo” and Neo-Realism. This course introduces the student to the richness of Spanish literature through a close examination of some of its most important writers and their literary production. The assigned readings and the class discussions will help the students gain an understanding of the literary and cultural movements that have shaped Spanish peninsular literature.

Gen Ed: FA (In)

SPA 3334 SURVEY OF SPANISH-AMERICAN LITERATURE

Four hours. Prerequisite: SPA 2203 proficiency or permission of the instructor. This course is designed to expand the students understanding of Spanish American literature from 1880 to the present. Hispanic-American literature serves as a window to the many and varied cultures and peoples that have lived in this fascinating region of the world. Through close readings and class discussion, students will develop a historical perspective and appreciation for the literary trends and for some of Latin America’s most respected writers and traditions. The course will examine a wide range of genres and representative authors of Spanish America. Special consideration will be given to the political, historical, and social dimensions of the literature and its role in the development of a Latin American consciousness.

Gen Ed: FA (In)

SPA 3335 LATIN AMERICAN FILM AND FICTION

Four hours. Same as LAS 3335. Prerequisite: SPA 2203 proficiency or permission of the instructor. This course examines major works of fiction in writing and film by Hispanic writers such as Azuela, Borges, Allende, Sábato, Cortázar, and García Márquez among others. It focuses on the historical, social and political context of their works. Students of LAS 3335 will read and write in English, students of SPA 3335 will read and write in Spanish. All class discussions will be held in English.

SPA 3340 CINEMA FOR SPANISH CONVERSATION

Four hours. Prerequisite: SPA 2203 proficiency or permission of the instructor. This course introduces students to some Latin American current events and social problems through a detailed study of a number of films and readings from diverse regions of the continent. It is also aimed at improving students’ written and oral abilities in the Spanish language.

SPA 3345 SPANISH FOR BUSINESS

Four hours. Prerequisite: SPA 2203 proficiency or permission of the instructor. This is a Spanish course with a focus on the development of vocabulary, writing and reading skills, and cultural understanding of the Hispanic business world.

SPA 4408 SPECIAL TOPICS IN HISPANIC LITERATURE

Four hours. Prerequisite: SPA 2203 proficiency or permission of the instructor. Specialized study of one or more related aspects of the literature: authors, themes, or genres. This upper-level

Spanish course will give Spanish majors the opportunity to explore in-depth a specific literary topic. They will use the skills they have acquired in previous courses to read critically and write analytical essays about their readings. Course may be repeated for credit with a different topic.

SPA 4960/4961 INTERNSHIP

Four hours. The internships are only available to Spanish majors and minors that have completed at least 16 credit hours and have maintained a GPA of 2.0, permission of internship coordinator. The internship is geared to expose students to a “real world” professional field where Spanish will be the primary language of use. Internships can be performed locally or internationally in a variety of fields.

SPA 4999 SENIOR CAPSTONE PROJECT

Two hours. Prerequisite: Must be a senior-level Spanish major and have permission of the instructor. An in-depth exploration of one or more literary or cultural topics with emphasis on written and oral presentation. An in-depth exploration of one or more literary or cultural topics with emphasis on written and oral presentation.

SPEECH – SPC

SPC 1500 FUNDAMENTALS OF SPEECH

Four hours. Theory and practice of public address; preparation and delivery of short speeches; development of critical thinking and listening.

Gen Ed: EC-B

SPC 1600 FORENSIC PRACTICUM I

Two hours. Prerequisite: SPC 1500 or permission of the instructor. Directed participation in forensic activities including dramatic interpretation, public address, extemporaneous speaking, and debate. Participation in forensic tournaments off-campus constitutes a major element of the course. Two contact hours per week with instructor or coaching staff for research / rehearsal.

Gen Ed: EC-B

SPC 1601 FORENSIC PRACTICUM II

Two hours. Prerequisite: SPC 1600. Directed participation in forensic activities including dramatic interpretation, public address, extemporaneous speaking, and debate. Participation in forensic tournaments off-campus constitutes a major element of the course. Two contact hours per week with instructor or coaching staff for research / rehearsal.

Gen Ed: EC-B

SPC 2200 ADVANCED PUBLIC SPEAKING

Four hours. Prerequisite: SPC 1500. An in-depth study of public address through examination of popular speeches, preparing and presenting manuscript, memorized, impromptu, and extemporaneous speeches.

SPC 2250 INTERPERSONAL COMMUNICATION

Four hours. A study of the dynamics of human communication in various settings. Course focus is on verbal and nonverbal messages, listening, conflict, and relationships. Group and partner discussions, oral presentations, and performances are important elements of class.

Gen Ed: SW (Aw, Ap), EC-B

SPC 2260 SMALL GROUP COMMUNICATION

Four hours. The study of small group communication theory and practice in various situations. Course focus is on how small groups are used to solve problems, reach decisions, and make recommendations. Groups will work with campus and community groups to identify solutions and make recommendations to solve presented issues.

Gen Ed: SW (Aw, Ap)

SPC 2270 INTERCULTURAL COMMUNICATION

Four hours. Same as SOC 2270. This course explores the unique relationship between communication and culture. Students examine their own cultural view as they are exposed to a variety of cultural dynamics and mores in this increasingly global society. This course balances concepts and theories of intercultural communication with practical application. The goal of this course is to enhance the student's effectiveness as a communicator.

Gen Ed: MV, SW (Glb, Aw, An)

SPC 2600 PRINCIPLES OF ADVERTISING AND PUBLIC RELATIONS

Four hours. Same as COM 2600. Four hours. Prerequisites: SPC 1500 and COM 2500 and completion of Effective Communication SLO A for majors; completion of Effective Communication SLOs A & B for Integrated Marketing Communication or Advertising Design Minors; or permission of the instructor. Survey of advertising and public relations methods. Emphasis on preparation of advertisements, professional communication strategies and tactics, use of relevant research methodologies, and communication campaigns

SPC 3200 PERSUASION

Four hours. Prerequisite: Successful completion of Effective Communication SLO A. An examination of the major theoretical perspectives and concepts related to persuasion. The course will familiarize students with major theories, areas of research, and ethical issues in the social scientific study and application of persuasion.

Gen Ed: SW (Aw, Ap), EC-B

SPC 3210 ORGANIZATIONAL COMMUNICATION

Four hours. Prerequisite: Successful completion of Effective Communication SLO A. This course focuses on the principles of communication within a variety of organizational structures. Students will explore and discuss research on communication networks, how information is processed within systems, and the relationship between communication and organizational culture and climate.

Gen Ed: SW (Aw, Ap), EC-B

SPC 3250 PROFESSIONAL AND RESEARCH WRITING

Four hours. Prerequisites: SPC 1500 and SPC 2250 and successful completion of the Systematic and Creative Thinking: Quantitative SLO and successful completion of coursework that satisfies Effective Communication SLOs A and B. Focus on the technical elements of professional writing and research writing. Students will develop a research proposal, utilizing in-depth qualitative research methods.

SPC 3450 PUBLIC RELATIONS WRITING

Four hours. Prerequisites: SPC 1500 and COM 2500. Students develop industry-appropriate writing skills and techniques including creation of press releases, backgrounders, pitch letters, and other relevant media products. This course focuses on using audience analysis, demographics, and psychographics to tailor messages to specific audiences. Creation of a portfolio is required.

SPC 3900 SPECIAL TOPICS IN COMMUNICATION

Four hours. Same as COM 3900. Prerequisites: Successful completion of coursework that satisfies Effective Communication SLOs A and B. Concentrated study of a special topic in communication, including health communication, rhetoric of the 1960s, rhetoric of the women's

movement, narrative inquiry, communication as performance, communicating addiction, or ethnography. May be repeated twice with different topics.

SPC 4350 PUBLIC RELATIONS STRATEGIES

Four hours. Prerequisites: SPC 3450. May be taken up to two times with permission of the instructor as topics change. The Public Relations Strategy course is a special topics course focusing on discussion of strategies and tactics within a variety of public relations fields such as crisis management, political communication, international communication, grass-roots / advocacy public relations, and/or non-profit public relations. Students will conduct original campaign research, analyze the results, and devise a research-driven public relations campaign appropriate to the class focus.

SPC 4400 ADVERTISING AND PUBLIC RELATIONS CAMPAIGNS

Four hours. Same as COM 4400. Prerequisites: Either COM 3410 or SPC 4350 for majors. Either ART 3410 or ART 3510 or BUS 4148 for interdisciplinary minors. The orchestration of research, planning and communication skills for a client or employer seeking to achieve measurable outcomes that influence target publics.

SPC 4401 ADVERTISING AND PUBLIC RELATIONS CAMPAIGNS I

Two hours. Same as COM 4401. Prerequisites: Either COM 3410 or SPC 4350 for majors. Either ART 3410, 3510, or BUS 4148 for interdisciplinary minors. The orchestration of research, planning and communication skills for a client or employer seeking to achieve measurable outcomes that influence target publics.

SPC 4402 ADVERTISING AND PUBLIC RELATIONS CAMPAIGNS II

Two hours. Same as COM 4402. Prerequisites: SPC/COM 4401 or permission of instructor. The orchestration of research, planning and communication skills for a client or employer seeking to achieve measurable outcomes that influence target publics.

SPC 4550 COMMUNICATION RESEARCH

Four hours. Same as COM 4550. Prerequisites: Either COM 3360 or COM 3410 or COM 4500 or SPC 3210 or SPC 4350 and successful completion of four hours of the Systematic and Creative Thinking: Quantitative SLO. Students are introduced to quantitative and qualitative research methodologies used by communication professionals and researchers. The course focuses on proper application of methodologies and interpretation of data.

Gen Ed: QI

SPC 4900 SENIOR THESIS

Four hours. Prerequisites: COM/SPC 4550. Must be Senior standing and meet GPA requirements, which include a minimum GPA requirement of 3.0 cumulative and a minimum GPA requirement of 3.5 within the Communication Major. In this course students will develop, execute, create, and present an original research project.

SPC 4960 COMMUNICATION INTERNSHIP (FALL SEMESTER)

Three hours. Same as COM 4960. Prerequisites: COM 3955 or permission of internship coordinator and a minimum 2.0 cumulative GPA. On-the-job experience in specific concentration. Supervision by cooperating practitioners and department faculty. Oral report and written reports on field experience required. 40 hours of on-the-job experience are required for each one semester hour of credit.

SPC 4961 COMMUNICATION INTERNSHIP (SPRING SEMESTER)

Three hours. Same as COM 4961. Prerequisites: COM 3955 or permission of internship coordinator and a minimum 2.0 cumulative GPA. On-the-job experience in specific concentration. Supervision by cooperating practitioners and department faculty. Oral report and written reports

on field experience required. 40 hours of on-the-job experience are required for each one semester hour of credit.

SPC 4999 SPEECH AND MASS COMMUNICATION THEORY

Four hours. Same as COM 4999. Prerequisites: COM/SPC 2600 or COM 3300 or SPC 3210, and successful completion of coursework that satisfies Effective Communication SLOs A and B. Seminar in speech and mass communication theory and its role in the study of mediated and human communication. This course will explore foundations of communication research, memes in the literature, and current trends. Students will be responsible for writing a research paper focused on a topic of significance within the field of communication.

Gen Ed: EC-C

SPORT MANAGEMENT – SPM**SPM 2174 MANAGEMENT OF SPORT**

Four hours. An introduction to the basic concepts, career preparation skills, and professional opportunities available in sport management.

SPM 2520 ETHICS IN SPORT

Two hours. This course looks into the background, theory, and practice of ethics and morals in the sport industry. Professional, collegiate, and recreational sports are examined and analyzed.

SPM 3160 SPORT MARKETING

Four hours. Prerequisite: BUS 3160 and SPM 2174. The background, theory, application and practice of the marketing of sport.

SPM 3180 PLANNING AND MAINTAINING FACILITIES

Four hours. Prerequisite: SPM 2174. Planning and budgeting for site selection, designing, and maintaining leisure service areas and facilities.

SPM 3307 SPORT, LEISURE AND SOCIETY

Four hours. Same as SOC 3307. Analysis of the social functions of sport and leisure in relationship to other social institutions. Examination of major social problems affecting both sport and leisure. Application of sociological concepts and theories in understanding the social roles of sport and leisure in society.

Gen Ed: SW (Aw, An)

SPM 3370 ADMINISTRATION OF SPORT

Four hours. Prerequisite: SPM 2174. Foundations and applications in sport economics, sport law, sport ethics, and sport personnel issues.

SPM 3520 RECREATION AND FITNESS MANAGEMENT

Two hours. Prerequisite: SPM 2174. Examines amateur sports, recreation, and the fitness industry.

SPM 4510 FITNESS AND PRESCRIPTION

Four hours. Same as HMP 4510 and PED 4510. Prerequisite: HMP/PED 2575 or SPM 2174 or permission of the instructor. Specific principles, concepts and theories of strength training and conditioning and their applications to performance. Course will prepare students to take the CSCS certification exam.

SPM 4520 INTERNATIONAL SPORT

Four hours. Prerequisite: SPM 3160. Addresses the impact of sport on world culture and business. Professional and recreational sports are examined on a global basis, including large-scale events like the World Cup and Olympic Games.

THEATRE ARTS – THE**THE 1050 INTRODUCTION TO THE THEATRE**

Four hours. Introduction to Theatre is designed to provide an active and engaged setting in which students can think creatively and express themselves artistically in the context of learning about the theatre, leading them to be better consumers and patrons of the arts. Through a survey of plays from major historical periods, an examination of the component parts that comprise theatre, and performances of student-created scenes, students will develop a critical framework to evaluate a theatrical production and its elements.

Gen Ed: SW (Aw), FA (In), QI

THE 1101-1106 PRODUCTION PRACTICUM I, II, III, IV, V, VI

One half hour. This is a production/performance class. Practical production experiences, both technical and performance, in a structured setting aimed at increasing ability and knowledge and enhancing independence in the theatrical production process. The shows produced by the Theatre Department during the semester will be the focus of practical activities. A minimum of 50 hours of practical production work will be required.

THE 1130 VOCAL TECHNIQUE MASTER CLASS

One hour, repeatable up to eight hours. Prerequisite: Theatre Arts major or permission of the instructor. This course is designed to assist the student in healthy vocal production and singing skills in a group setting and to lay the foundation for lifelong good vocal practices.

THE 1213 ACTING I

Four hours. Prerequisite: Theatre major/minor or permission of the instructor. Students will explore basic acting techniques and disciplines involved in the art of acting through experiential exercises, improvisations, character analyses, script analyses, monologues, and scene study. Students will also attend live theatre events and critique artistic performances.

Gen Ed: FA (Ex), QI

THE 1214 ACTING FOR NON-MAJORS

Four hours. Not open to Theatre B.F.A. candidates. This course focuses on introducing the non-performer to the concepts, techniques, and theories mastered by performers. Students will explore basic acting techniques and disciplines involved in the art of acting through experiential exercises, improvisations, character analyses, script analyses, monologues and scene study. Students will also attend live theatre events and critique artistic performances.

Gen Ed: FA (Ex), QI

THE 1220 STAGE MOVEMENT

Four hours. Prerequisite: THE 1213 or permission of the instructor. Students will explore movement theories and techniques designed to increase relaxation, physical awareness, expressiveness, power, and control of the actors' physical instrument through experiential exercises, improvisations, group projects, monologues, scene study, and analysis of movement choices in theatrical performances. Students will also examine, in theory and practice, various movement systems and techniques such as the Alexander Technique, Viewpoints, and the Laban Movement System.

THE 1231-1238 APPLIED VOICE FOR THE THEATRE

One hour. Prerequisite: Theatre Arts major or permission of the instructor. This course is designed to assist the student in vocal production and singing communication skills as applied to theatrical performance and to lay the foundation for solo vocal auditions and musical theatre performances. The course also addresses selection of material, rehearsal and performance techniques, both contemporary and traditional musical theatre style, and merging vocal style with stage movement.

THE 1240 IMPROVISATION AND CREATIVE EXPRESSION

Four hours. Prerequisite: Theatre Arts major or permission of instructor. Improvisational drama can be defined as the exploration of unscripted performance that stresses, above all, truthful “playing” under imaginary circumstances. In this course, we will work together to create a class ensemble/community with an emphasis on creating work that addresses spontaneity, creativity, acceptance, the group mind, risk taking and heightened awareness.

THE 1413 STAGECRAFT AND PRODUCTION PRACTICE

Four hours. Instruction in the basics of technical theatre in a variety of areas including scenery, set construction, basic Scene Painting Techniques, lighting and basic hand drafting, as well management structure. Through primarily hands-on practical experiences, students will learn both terms and major methodologies utilized in today’s technical theatre.

THE 2114 MAKEUP FOR THE STAGE

One hour. An introduction into the basic skills of theatrical makeup. Course is designed to teach the basic skills of two-dimensional painting; however, students will be instructed in three-dimensional techniques.

THE 2153 APPLIED PRODUCTION EXPERIENCE I

One hour, repeatable. Prerequisites: Sophomore standing and permission of the instructor. Production experience consists of practical experiences on stage and behind the scenes. Students will apply terms and methodologies utilized in today’s technical theatre in a production setting.

Gen Ed: FA (Ex)

THE 2210 ACTING II

Four hours. Prerequisite: THE 1213 and/or permission of the instructor. Students will explore major acting theories and techniques of the twentieth century. This course integrates the work of Constantine Stanislavski, Sanford Meisner, and Michael Chekhov through exercises, script analysis, and scene study. Students will also attend live theatre events and critique artistic performances.

THE 2220 VOICE AND DIALECT FOR THE ACTOR

Four hours. Prerequisite: Theatre major/minor or permission of the instructor. This course covers the fundamentals of voice production and the study of the voice as a performance instrument, including the basic techniques for proper breathing, sound production, articulation, projection, and colorization. Emphasis is on American Standard Pronunciation, with further explorations of Classical Speech, the International Phonetic Alphabet, and Dialects. The class is taught in a workshop format emphasizing in-class vocal exercise, dialect transcription, and monologue and dialogue performances.

THE 2313 SCRIPT ANALYSIS

Four hours. Prerequisite: THE 1213 or THE 1214 or permission of the instructor. In this course the student will learn to evaluate the dramatic text in terms of the literary, cultural, technical and production elements essential for mounting a play for performance. Various critical approaches will be introduced and additional research methods will be emphasized.

THE 2413 SCENE DESIGN

Four hours. Prerequisite: THE 1413 or permission of the instructor. Introduction to the study of designing scenery for the stage in theory and practice. Execution of a series of groundplans, sketches, renderings and possibly models and practical work in preparing scenery for the stage.

THE 2420 LIGHTING DESIGN

Four hours. Prerequisite: THE 1413. Basic instruction in stage lighting techniques and in the use of light as an artistic medium. Students will gain practical experience working with theatrical lighting fixtures of several different types, programming the lighting computer, working with automated lighting equipment and basic circuitry wiring.

THE 2430 COSTUME DESIGN

Four hours. This course will lead students through the costume design process from the theoretical and conceptual collaboration of director and designer, through script analysis for production/design application, to completed design projects for theoretical productions. This course will also include a survey of costume history and practical instruction in the rudiments of sewing and tailoring. Students will gain practical experience in the area of costume construction and craft fabrication through applying classroom instruction to the current mainstage productions in a lab setting.

THE 2610 BEGINNING BALLET

One hour. Introduction to traditional ballet techniques. Students will study ballet principles and aesthetics and learn basic ballet movement, vocabulary, and skills.

Gen Ed: Well

THE 2611 BEGINNING BALLET II

One hour. Prerequisite: THE 2610, equivalent experience, or permission of the instructor. A continued exploration of traditional ballet techniques. Students will continue a study of ballet principles and aesthetics and improve execution of basic ballet movement, vocabulary, and skills.

Gen Ed: Well

THE 2620 BEGINNING JAZZ

One hour. Introduction to traditional jazz techniques. Students will study jazz principles and aesthetics and learn basic jazz movement, vocabulary, and skills.

Gen Ed: Well

THE 2621 BEGINNING JAZZ II

One hour. Prerequisite: THE 2620, equivalent experience, or permission of the instructor. The basic techniques and theoretical concepts of jazz dance are further explored. Fundamental concepts of alignment, balance, and coordination are expanded.

Gen Ed: Well

THE 2630 BEGINNING TAP

One hour. Introduction to traditional tap techniques. Students will study tap principles and aesthetics and learn basic tap movement, vocabulary, and skills. Skills include basic one and two sound movements performed at the barre and simple rhythmic combinations.

Gen Ed: Well

THE 2631 BEGINNING TAP II

One hour. Prerequisite: THE 2630, equivalent experience, or permission of the instructor. Further practical application of traditional tap techniques. Students will study tap principles and aesthetics and hone basic tap movement, vocabulary, and skills. Skills include basic one and two sound movements performed at the barre, and center, and simple rhythmic combinations.

Gen Ed: Well

THE 2640 BEGINNING MODERN DANCE

One hour. Introduction to traditional modern dance techniques. The initial techniques and theoretical concepts of modern dance are explored through presentation of fundamental techniques and creative movement experiences.

Gen Ed: Well

THE 2641 BEGINNING MODERN DANCE II

One hour. Prerequisite: THE 2640, equivalent experience, or permission of the instructor. Introduction to traditional modern dance techniques. The initial techniques and theoretical concepts of modern dance are expanded.

Gen Ed: Well

THE 3110 MUSICAL THEATRE AUDITION

Four hours. Prerequisites: THE 1213 and four hours of private voice lessons and junior standing or permission of the instructor. This course will emphasize musical theatre literature for auditioning. Students will be exposed to musical theatre styles, literature, composers, and lyricists. Major emphasis will be on song interpretation and audition preparation. Students will be required to perform regularly and to compile audition materials appropriate for both their voice and their character type.

THE 3120 MUSICAL THEATRE SCENE STUDY

Four hours. Prerequisite: THE 1213 and four hours of private voice lessons and junior standing or permission of the instructor. This course will emphasize musical theatre literature for performance. Students will be exposed to musical theatre styles, literature, composers, and lyricists. Major emphasis will be on performance and vocal style. Students will be required to perform materials appropriate for both their voice and their character type.

THE 3153 APPLIED PRODUCTION EXPERIENCE II

Two hours, repeatable. Prerequisites: Sophomore standing and permission of the instructor. Production experience consists of practical experiences on stage and/or behind the scenes in a major role or technical position. Students will apply terms and methodologies utilized in today's technical theatre in a live production setting.

Gen Ed: FA (Ex)

THE 3214 ACTING III: ACTING FOR THE CAMERA

Four hours. Prerequisites: THE 1213 and THE 2210 or permission of the instructor. This course will study the theories and techniques of acting for the camera and the digital film editing process. Auditioning, performing, and filming procedures for commercial, industrial, television, and film will be discussed and explored on camera. Students will demonstrate proficiency in creating a role for the camera through script analysis, and proficiency in on camera acting techniques and the film production process through story boarding, rehearsing, filming, and editing performance projects.

THE 3323 DIRECTING

Four hours. Prerequisite: THE 1213 or permission of the instructor. Study and practice of directing techniques, including script analysis, composition, picturization, pantomimic dramatization, rhythm, blocking, organizational procedures, communication with designers, casting, and the rehearsal and production process. Students will learn how to form a directorial vision from the careful examination of play scripts utilizing an Aristotelian based mode of analysis, and will demonstrate their understanding of the director's tools and process in the direction of a one act play for the general public. Students will also attend live theatre events and respond to the productions.

THE 3330 THEATRE MANAGEMENT

Four hours. Designed to familiarize the student with the management areas involved in theatrical production. Such topics as stage management, production management and the producer will be examined. Students will analyze scripts from the perspective of the stage manager, the production manager and the producer. Theatrical contracts, box office operation, arts fund-raising, community and press relations, as well as theatrical unions may be examined.

THE 3410 DRAFTING FOR THE STAGE

Four hours. Prerequisites: THE 1413 and permission of the instructor. This course is aimed at providing an understanding of the skills and materials of drawing for the theatre, beginning with materials and equipment used for drafting mechanically, including drawing board geometry, scale and dimensions, and perspective, through CAD drawing techniques and procedures.

THE 3610 INTERMEDIATE BALLET

One hour. Prerequisite: THE 2611, equivalent experience, or permission of the instructor. This course is designed to broaden and deepen student's understanding of classical ballet vocabulary, movement concepts, processes, principles, and to improve and develop technical skills and artistry.

Gen Ed: Well

THE 3611 ADVANCED BALLET

One hour. Prerequisite: THE 3610, equivalent experience, or permission of the instructor. This course will focus on improving and maintaining alignment, strength, and musicality within ballet technique, with emphasis on clarity, mobility, musicality, timing, placement, stability, and speed. Expanded center work will include use of all nine-body positions in adagio, and all four Russian arabesques. Center combinations will progressively become longer and more complex, with the inclusion of intermediate turns and jumps. Students will gain strength and improve coordination through study of petit allegro--the most difficult and vital of all aspects of classical dancing.

Gen Ed: Well

THE 3620 INTERMEDIATE JAZZ

One hour. Prerequisite: THE 2621, equivalent experience, or permission of the instructor. This course will further develop the concepts developed in Beginning Jazz. Lessons will consist of more complex across the floor exercises and combinations, as well as dance terminology and dance history.

Gen Ed: Well

THE 3621 ADVANCED JAZZ

One hour. Prerequisite: THE 3620, equivalent experience, or permission of the instructor. This course will further develop the concepts developed in Intermediate Jazz. More complex exercises and combinations will be emphasized. Performance participation is expected of students at this level.

Gen Ed: Well

THE 3630 INTERMEDIATE TAP

One hour. Prerequisite: THE 2631, equivalent experience, or permission of the instructor. Practical application of traditional tap techniques, and exploration of combinations. Students will apply tap principles and aesthetics and learn advanced tap movement, and skills. Skills include basic three sound movements performed center, and intricate rhythmic combinations.

Gen Ed: Well

THE 3631 ADVANCED TAP

One hour. Prerequisite: THE 3630, equivalent experience, or permission of the instructor. Practical application of traditional and advanced tap techniques, and combinations. Students will

apply tap principles and aesthetics and create advanced tap movement. Skills include three sound movements performed center, and intricate rhythmic combinations, combined to perform skilled tap routines.

Gen Ed: Well

THE 3640 INTERMEDIATE MODERN DANCE

One hour. Prerequisite: THE 2641, equivalent experience, or permission of the instructor. Introduction to intermediate level elements of modern dance techniques, vocabulary, and concepts. Students will review dance anatomy, terminology, alignment, strength and flexibility as well as an awareness of the dancer's body through improvisation and rigorous structured choreography.

Gen Ed: Well

THE 3641 ADVANCED MODERN DANCE

One hour. Prerequisite: THE 3640, equivalent experience, or permission of the instructor. Advanced elements of modern dance techniques, vocabulary, and concepts. Students will create performances based on an understanding of dance anatomy, alignment, strength and flexibility, in both improvisational dance and rigorous structured choreography.

Gen Ed: Well

THE 4110 MUSICAL THEATRE HISTORY AND LITERATURE

Four hours. Prerequisite: THE 1234 or permission of the instructor. A survey of musical theatre history and literature from its beginnings to the middle of the 20th century. Students will learn the history and basic forms/styles of musical theatre, explore the aesthetic and philosophical attitudes of those who created it, including its composers, lyricists, playwrights, styles, practices, as well as a study of the significant plays within each era, and examine the prevailing political and social attitudes of the eras in which musical theatre was created.

THE 4199 SENIOR PROJECT - MUSICAL THEATRE

Four hours. Prerequisites: Senior standing and permission of the instructor. This is the capstone course for the B.F.A. Musical Theatre degree and is also available, with faculty approval, as an option for the B.A. candidate. This course is designed to provide the student with the opportunity to apply his/her training in a production or research setting, specific to the student's needs, interests and career path. Each student will work with a faculty mentor to guide him/her as he/she works independently to realize a self-designed project or performance.

THE 4210 ACTING IV: ADVANCED ACTING TOPICS

Four hours. Prerequisites: THE 1213 and THE 2210 and either THE 3214 or THE 3234 or THE 4234 or permission of the instructor. A comprehensive study of the audition process and practical realities of a "professional" career in theatre. Students will develop audition monologues, a "head shot," a resume, and present a plan of action for the pursuit of a career in theatre. Different specialty topics such as period styles, or performing scenes of simulated violence might be examined depending on student need.

THE 4299 SENIOR PROJECT - PERFORMANCE

Four hours. Prerequisites: Senior standing and permission of the instructor. This is the capstone course for the B.F.A. Performance degree and is also available as an option for the B.A. candidate. This course is designed to provide the student with the opportunity to apply his/her training in a production or research setting, depending upon the student's needs, interests and career path. Each student will work with a faculty mentor to guide him/her as he/she works independently to realize a self-designed project or performance.

THE 4410 ADVANCED TECHNICAL TOPICS

Four hours. Prerequisites: THE 2413 and 3410 or permission of the instructor. Students complete assignments in the conceptual analysis of play scripts and fulfillment of technical projects

appropriate to their technical concentration, covering a wide variety of genres. As a corollary, a portfolio of professional caliber will be developed, presented by the student and critiqued.

THE 4499 SENIOR PROJECT - DESIGN/TECH

Four hours. Prerequisites: Senior standing and permission of the instructor. This is the capstone course for the B.F.A. Design/Tech degree and is also available as an option for the B.A. candidate. This course is designed to provide the student with the opportunity to apply his/her training in a production or research setting, depending upon the student's needs, interests and career path. Each student will work with a faculty mentor to guide him/her as he/she works independently to realize a self-designed project.

THE 4513 THEATRE HISTORY AND LITERATURE I

Four hours. Prerequisites: THE 2313 or permission of the instructor and successful completion of coursework that satisfies Effective Communication SLOs A and B. A survey of theatre history and literature from ancient Greece to the end of the 17th century, including its playwrights, actors, theatres, movements, practices and their social context, as well as a study of the significant plays within each era.

Gen Ed: SW (Aw, An), EC-C

THE 4523 THEATRE HISTORY AND LITERATURE II

Four hours. Prerequisites: THE 2313 or permission of the instructor and successful completion of coursework that satisfies Effective Communication SLOs A and B. A survey of theatre history and literature from the end of the 17th century to the late 20th century, including its playwrights, actors, theatres, movements, practices and their context, as well as a study of the significant plays within each era.

Gen Ed: SW (Aw, An), EC-C

THE 4650 MUSICAL THEATRE DANCE

Four hours. Prerequisites: Beginning II level competency in at least two of the major dance areas: ballet, jazz, tap, and modern, or permission of the instructor. This course focuses on the styles of dance commonly seen in the musical theatre. Emphasis will be placed on examining and reproducing the styles of the major musical theatre choreographers.

THE 4660 MUSICAL THEATRE CHOREOGRAPHY

Four hours. Prerequisites: Beginning II level competency in at least two of the major dance areas: ballet, jazz, tap, and modern, or permission of the instructor. This course focuses on the choreographer's creative process for solo, duet, trio and group dances. Emphasis will be placed on learning and competently reproducing choreographic routines, as presented in a movement audition setting.

WOMEN AND GENDER STUDIES – WST

WST 2200 INTRODUCTION TO WOMEN AND GENDER STUDIES

Four hours. Taught by a team of professors from different disciplines, this class presents a variety of perspectives about the roles of women in such diverse fields as art, biology, business, criminology, economics, history, law, literature, music, philosophy, political science, psychology, religion, and sociology. In the liberal arts tradition, students develop awareness about issues in women and gender studies and engage in analysis of these issues from various scholarly perspectives. Collections of readings in each discipline, which represent past and present contexts, form the basis for discussion and critical thinking.

Gen Ed: SW (Glb, Aw, An), QI

WST 2220 MARRIAGE AND FAMILY

Four hours. Same as SOC 2220. Sociology/social psychology introduction to the study of marriage and family, emphasizing theoretical perspectives, research and application, based on the American family with comparisons to other selected cultures. Topics include history, structure, and functions of the family, as well as mate selection and courtship, transitions, marital interaction, sexual relationships, parenting, role differentiation, violence, dissolution, and restructuring. Objectives are to analyze topics based on the academic principles of sociology and social psychology and to make applications to social and personal levels. A service learning component is required.

Gen Ed: SW (Glb, Aw, An), QI

WST 2256 GENDER, INTERPRETATION AND THE BIBLICAL TRADITION

Four hours. Same as REL 2256. An examination of selected texts from the Old and New Testaments and the patriarchal contexts of the Ancient Near East and the Greco-Roman Empire. Using historical critical methodologies to interpret the Biblical text, students will determine the ways in which women are depicted, identify gender roles from the historical context, and explain the function of feminine imagery in the text.

Gen Ed: MV

WST 3370 LITERATURE BY WOMEN

Four hours. Same as ENG 3370. Prerequisite: Successful completion of coursework that satisfies Effective Communication SLOs A and B. Survey of literature by selected women writers from the Middle Ages to the present.

Gen Ed: FA (In), EC-C

WST 3550 SPECIAL TOPICS IN GENDER STUDIES

Four hours. Concentrated study of a special topic in gender studies, such as masculinity, romantic media, women and substance abuse, or incarcerated women. Focus on relevant theory and research. Specific topic at the discretion of the instructor. Course can be taken more than once under different topics.

WST 4400 WOMEN AND GENDER IN CONTEMPORARY CULTURE

Four hours. This team-taught course brings together academic areas, such as sociology, music, and communications, in an interdisciplinary effort to explore the roles, images, and contributions of women in contemporary culture. The common threads are the roles of women in producing and experiencing culture and the cultural production of women's roles and images. While contemporary culture is the focus, each segment of the course is built upon relevant historical foundations. Full-participation classes are designed to bring the individual topics together in synthesizing analyses.

Gen Ed: SW (Glb, Aw), QI

GRADUATE PROGRAMS

Florida Southern College offers the following graduate degrees:

- Ed.D. – Doctor of Education in Educational Leadership
- MAcc – Master of Accountancy
- MBA – Master of Business Administration
- MEd – Master of Education in Collaborative Teaching and Learning
- MAT – Master of Arts in Teaching
- MSN – Master of Science in Nursing

ADMISSIONS

Florida Southern College attracts students who demonstrate the academic ability and strong motivation to succeed in challenging graduate degree programs. Admission decisions are based on academic achievement, aptitude, personal character, and performance in general citizenship or leadership activities throughout the applicant's life and/or professional career. The college welcomes applications from students who manifest the desire and willingness to study and the proper academic preparation to successfully complete the rigorous educational program offered at Florida Southern College. In considering applications, the admissions committee of each graduate degree program gives careful consideration to all credentials required and submitted. No single criterion determines acceptance or denial, but each is evaluated in relation to the applicant's complete admission profile.

For admission to graduate programs at Florida Southern College, applicants must meet the following requirements:

- a completed graduate application form;
- a résumé or CV of educational and work experience;
- a personal statement of your expectations of a graduate program (your personal and professional goals);
- an earned baccalaureate degree from a regionally accredited institution of higher education as verified by an official transcript of all undergraduate work completed;
- three professional recommendations (FSC recommendation forms may be used);
- the successful completion of any standardized entrance examinations or licensure requirements.

Students making application to the graduate program must not have any outstanding accounts payable to FSC or they will not be considered in the pool of applicants.

Please refer to each specific degree program in this Catalog for grade point average (GPA) requirements, entrance examination scores, and other admissions expectations. Interviews for Florida Southern College graduate programs may be required for final admissions decisions.

International Student Admission

Florida Southern College welcomes international students who wish to study in the United States. International students applying for admission to Florida Southern College graduate programs are required to submit all documents required for domestic applicants and are held to the same standards. All documents, including transcripts, must be translated into English by an approved translation service (World Education Service [WES] or Josef Silny). If the student is from a nation where English is not the standard for daily communication, a score of at least 79 on the Test of English as a Foreign Language (TOEFL) is required. The TOEFL requirement may be waived for students who have completed at least one year of formal academic study at an institution where English is the language of instruction. In any case, judgment about the proficiency of the candidate is made by the graduate admissions committee of each degree program. International students will need to comply with all federal guidelines concerning student status and immigration.

Transfer Admission

Students who have successfully completed graduate work at a regionally accredited college or university may apply for admission to Florida Southern College graduate programs. To be considered for transfer admission, a student must be eligible, academically and socially, to return to the last graduate program attended. A graduate student on academic or social dismissal from any institution is not eligible to enroll at Florida Southern College until reinstatement in good standing has been authorized, unless approved by the Provost. The Provost will consider a waiver of the good standing admissions requirement only in extenuating circumstances and only upon recommendation by the graduate admissions committee and dean of the program to which a student has applied. A maximum of six credit hours from a regionally accredited graduate school or program may be accepted toward the graduate degree programs at Florida Southern College. Only a grade of B or better will be considered for transfer. Transfer graduate credit must be approved by the graduate admissions committee of each degree program and is in no manner automatic. All transcripts become part of the student's permanent academic file at Florida Southern College.

Readmission

Successful applicants who do not enroll in the semester for which they were admitted will be considered for entry for one year from the date of admission if space is available. Any other documentation and fees listed in the admission requirements that were not previously submitted must be completed. If the applicant has undertaken additional formal study in the intervening period, official transcripts must be submitted showing all work completed.

Any participating student who has not registered for courses during one full academic year and who wishes to return to that Florida Southern College graduate program must submit an application for readmission. Updated application materials, such as resume and statement, may be required. If the student has undertaken any academic work during this absence, official transcripts must be submitted for review. Applicants for readmission must abide by published application deadlines and requirements and are not granted preferential status.

To be eligible for readmission, students must have demonstrated successful academic progress and good character while at Florida Southern College and must not have any outstanding accounts payable in the Business Office. The degree requirements listed in the current Catalog issued when readmission is approved shall be applicable to those admitted that semester. Any student may elect, however, to be graduated under all the degree requirements of a later Catalog.

Because Florida Southern College requires graduate degree completion within a seven-year period dating from the time of matriculation, students who request readmission after that period will be required to submit an application for readmission as well as an appeal to the Graduate Council of Florida Southern College. The student must explain any extenuating circumstances leading to the failure to complete the degree program in the required time. Furthermore, all previous coursework will be evaluated for currency and applicability to the current degree program. In following this appeal process, Florida Southern College makes no guarantee regarding readmission to the graduate program or acceptance of former Florida Southern College credit. Furthermore, should the student be readmitted, the college reserves the right to establish a new timetable for degree completion.

Transient Student Admission

Students currently enrolled in masters programs at other institutions may be allowed to take courses in the Florida Southern College graduate programs, as applicable, with the approval of the respective dean of the school in which classes are taken. Transient student documentation will be required prior to the student being permitted to enroll in any course at Florida Southern College.

Application Deadlines

Applicants are considered for admission throughout the year, specific to each degree program. Please consult the section on the specific degree program to determine application deadlines. Written notification of admissions decisions may be expected within four weeks of the published application deadline. Florida Southern College reserves the right to hold an application until further information is available, such as end of semester grades, examination scores, confirmation of the baccalaureate degree, or samples of previous work, before making a decision about admission.

FINANCIAL INFORMATION

Matriculation Fee

A \$25.00 matriculation fee shall be assessed all persons admitted to study in graduate degree programs at the time of the student's first registration. The fee is not refundable should the matriculant decide to withdraw before completion of the course(s). Students regularly enrolled in the program shall not be assessed a second matriculation fee unless a lapse of one calendar year occurs between continuous registrations for coursework.

Tuition

Tuition and fees are established by the Board of Trustees. Annual increases in tuition should be anticipated consistent with current economic indicators. Tuition and fees may be found in the sections describing each degree program.

Policy on Refunds

A student withdrawing from the college will be granted a partial refund on tuition as provided below:

A student who withdraws from the college during the first three calendar days of a regular semester will receive a 100% refund on tuition. During the fourth through the 10th calendar days, a 90% refund will be made. A 50% refund will be made during the 11th through the 25th calendar days, and a 25% refund will be made during the 26th through the 50th calendar days. After the 50th calendar day, refunds will be made only in cases of documented serious accident or illness. In serious accident or illness cases, extending beyond a two-week period, students who withdraw will receive 75% refunds of any unused tuition.

During the two summer terms or when a course is offered on the seven-week term format, a student who withdraws during the first three calendar days will be given a 100% refund on tuition. During the fourth through seventh calendar days, a 50% refund will be made. A 25% refund will be made during the eighth through the 15th calendar days. No refunds will be made after the 15th day.

Tuition refunds are not granted when a student is enrolled in a course or course(s) offered in a condensed or nontraditional format.

No adjustments or refunds will be considered until a student files a formal notice of withdrawal and is officially withdrawn. The student must withdraw formally through the Registrar's Office.

Graduation Fee

A \$60.00 graduation fee shall be assessed all persons who anticipate award of the graduate degree at the next succeeding college commencement. The fee will be assessed during the semester in which graduation is anticipated. Students are responsible for applying for graduation and obtaining degree clearance through a degree audit by the Registrar's Office. Commencement ceremonies are held annually in December and April or May, and degrees are officially conferred at those times. Degrees are also conferred in August, although no formal commencement ceremony is held.

ACADEMIC POLICIES

Degree Candidacy

When students are admitted and matriculate, they shall be required to complete the degree program, including transient credit, within seven (7) calendar years. Please also see the earlier section on Readmission of Former Students.

Course Load Per Semester

MBA – The MBA program is a full-time, cohort-based, lock-step program of study. Students are expected to take an eight (8) hour course load per semester.

MSN, MAcc, MEd, MAT, and Ed.D. – A full-time course load is eight (8) hours of graduate coursework or two courses.

Academic Advising

The Graduate Program Director for each graduate degree program, Florida Southern College graduate faculty, and the Registrar are available to discuss curricular matters, class schedules, and graduate requirements. At the time of admission to graduate studies, an advisor will be assigned to each student. The student reserves the right, however, to request a specific academic advisor from among the graduate faculty listed in this Catalog. It is the student's responsibility to meet with the advisor to track academic degree progress.

Academic Schedule

Please see the section on the specific degree program for information on the academic schedule (days of the week, length of term) for that graduate degree program. Courses supporting the particular degree are offered based upon available resources. Florida Southern College cannot guarantee that any course will be given during a particular semester or specified day or time.

Grading Scale

The Florida Southern College graduate program utilizes a traditional four-point scale: A=4 quality points per credit hour; B=3; C=2; F=0. Florida Southern College does not use a plus or minus grading scale. Only thesis hours and the Flying Start courses in the MBA program may be taken pass/ fail for credit in the graduate program. An Incomplete (I) grade may be granted if the majority of the coursework has been completed, extenuating circumstances have caused the student's inability to complete the course, and the faculty member originates the request for an Incomplete grade prior to the end of the semester in which the course was taken. Requests for Incomplete grades must be approved by the academic dean of the course professor. A grade of G (deferred grade) shall be granted when a student is continuing a project over several terms or semesters.

Withdrawal

Withdrawal from a specific graduate courses may be accomplished no later than the published date for each term. If withdrawal from the course is accomplished in such a manner, a grade of W will be recorded for that course. After that date, the student will receive the earned grade in the course.

If a student withdraws from the graduate program, that student must make application for readmission. See the section on Readmission of Former Students earlier in this Catalog.

Academic Standing, Probation, and Dismissal from Graduate Study

Graduate students must maintain a 3.0 grade point average (GPA) in order to continue in good academic standing and to complete graduate degree requirements.

Graduate students whose grade point averages fall below 3.0 at any time are placed on academic

probation. Elevation of the grade point average to 3.0 or better must be accomplished within the next twelve (12) hours of coursework. If after the completion of those 12 hours the condition of academic probation is not removed, the student will be suspended from further participation in the program.

A student is also suspended from the program upon making two C grades in graduate coursework. On appeal to the Graduate Council, a student so suspended may be granted the privilege of repeating one or both of the C grades in an attempt to elevate the grades and grade point average to an acceptable level (3.0). In any case, no more than one course with a grade of C may be counted toward meeting the semester-hour graduation requirement.

Dismissal from the graduate program (permanent suspension without appeal) occurs when the student receives a third C grade, even if one or both of the preceding C grades have been successfully repeated. Making one F in a graduate course will also require that the student be permanently dismissed from the program.

Academic Integrity

According to Florida Southern College policy, students may file appeals in two types of cases: (1) grade appeal (see above) and (2) appeal of suspension from the program.

In the case of a grade appeal, a student should appeal first to the faculty member assigning the grade, then to the department chair and/or graduate coordinator, and then to the faculty member's academic dean. Cases in which resolution has not been achieved by informal negotiations at the program level may be sent to the Office of the Provost. The Provost may handle them informally or remand them to the Academic Appeals Board for formal review and recommendation.

When a case is remanded to the Academic Appeals Board, it will consider the case and make final recommendations. In the process, it will make every effort to preserve both the substance and appearance of impartiality and fairness. In the event that a member of the Board is directly involved in the case, that member will not participate. If that member is the chair of the Board, the Board will elect a chair, *pro tem*.

The Board may make a determination without a hearing. In the event of a hearing by the Board, a vote will be taken by secret ballot. In either case the results will be communicated in writing by the chair to the Provost. The Provost will communicate the final decision to the student, the dean, and the faculty member.

Any student considering a grade appeal should understand that each faculty member has the academic freedom and responsibility to determine and assign grades according to any professionally acceptable method chosen by the faculty member, communicated to everyone in the class, and applied to all students equally.

An appeal must be made in writing to the faculty member who taught the course (copies to the department chair or graduate coordinator and to the academic dean) no later than the fifteenth calendar day of the next succeeding semester or term. A detailed grade appeals procedure is available in the Office of the Provost (Buckner Building).

In the case of an appeal of suspension from the program, the Graduate Council will review the written statement from the student no later than its next regularly called meeting and render a final recommendation. Should the student be readmitted and allowed to repeat either or both of the C grades, all graduate requirements and regulations remain in effect.

Furthermore, in the case of a charge of academic dishonesty, the provisions of the Florida Southern College Honor Code apply. See the section on the Honor Code earlier in this Catalog.

GRADUATE PROGRAM REQUIREMENTS

MASTER OF ACCOUNTANCY

Program Objectives and Mission

Florida Southern College offers the Master of Accountancy degree to the student who desires to complete licensure requirements for the Uniform CPA Examination and to the student who desires an additional level of accounting knowledge as evidenced by a graduate degree.

Academic Information and Deadlines

See the section on Graduate Admission earlier in this Catalog for general requirements. Along with required admissions materials, applicants for the MAcc must submit satisfactory scores on either the Graduate Management Admissions Test (GMAT) or the verbal and quantitative portions of the Graduate Record Examination (GRE) and satisfactory undergraduate academic records. Applications and all required materials must be received no later than June 1 for entry in the fall semester and November 1 for entry in the spring semester.

The Academic Schedule

Graduate courses in the MAcc program are offered in three formats: (1) Fall and spring classes (4 academic hours each) meet five times each, one Saturday per month with the remaining assignments to be completed online (i.e., a hybrid format). (2) BUS 6350, Business Law for Accountants, meets two times, one Saturday per month in the first summer term (3 academic hours) with the remaining assignments to be completed online (i.e., a hybrid format). ACC 6500, CPE Review Course, has a variety of formats to be tailored to the student, and should be completed in the summer before the final semester.

Prerequisites

The following are required for admission into the MAcc program:

- I. Completion of a bachelor's degree at a regionally accredited institution.
- II. Completion of the following undergraduate business core courses (or approved equivalents):
 - ACC 2111: Foundations of Financial Accounting
 - ACC 2112: Foundations of Managerial Accounting
 - BUS 2217: Principles of Management
 - BUS 3160: Marketing Principles
 - BUS 3311: Legal Environment of Business
 - BUS 3320: Applied Statistics for Business and Economics
 - BUS 3453: Managerial Finance
 - ECO 2205: Principles of Microeconomics
 - ECO 2207: Principles of Macroeconomics
- III. Completion of the following undergraduate accounting courses (or approved equivalents):
 - ACC 3111: Financial Accounting I
 - ACC 3112: Financial Accounting II
 - ACC 3211: Cost Accounting
 - ACC 4411: Federal Taxation
 - ACC 4511: Auditing

Early Admission

FSC students who are currently enrolled in the B.S. degree majoring in accounting may begin their MAcc program in the fall of their senior year. Requirements for early admission include:

- I. General requirements for admission into the program have been met (See the catalog on

General Admission Requirements)

- II. GPA of 3.0 overall (cumulative) at FSC
- III. GPA of 3.0 in accounting (ACC) courses
- IV. Application deadline for early admission is February 1 of the junior year, and admission is contingent upon the GPA on May 1 of that year.

The published day, full-time tuition will be assessed for enrollment in the two fall terms and the one spring term for students enrolled in the early MAcc program. Summer enrollments will be charged at the prevailing rates; MAcc program graduate per credit rate, the day undergraduate per credit hour rate, or the evening per credit hour rate.

Tuition and Fees for MAcc

For the academic year 2014-2015 the following tuition rates applies to the MAcc program.

Tuition

Tuition..... \$700.00 per credit hour

Technology Fee:

- **Up to 4 credit hours** \$25.00 per term
- **5-8 credit hours**..... \$50.00 per term
- **9-12 credit hours**..... \$100.00 per term

Please see the sections earlier in this Catalog for the FSC refund policy for graduate students as well as the policies on admission, matriculation, technology, and graduation fees. The College does not permit auditing graduate courses.

MASTER OF ACCOUNTANCY

Accounting Core (27 hours):

ACC 6100	Advanced Taxation of Entities	4 hours
ACC 6200	Auditing with Accounting Information Systems	4
ACC 6300	Advanced Financial Accounting & Reporting	4
ACC 6400	Advanced Managerial Accounting	4
ACC 6500	CPA Review Course*	3
ACC 6600	Fraud Examination & Ethics in Accounting	4
ACC 6700	Accounting Seminar	4

Total accounting hours 27

Business Core (3 hours):

BUS 6350	Business Law for Accountants	3
----------	------------------------------	---

Total hours 30

*Completion of the Becker CPA Review Course is a graduation requirement. Students with an employer direct bill option are expected to exercise that option. For all other students, the course fee is included in tuition.

MASTER OF BUSINESS ADMINISTRATION

Program Objectives and Mission

Florida Southern College offers the Master of Business Administration degree in response to significant expressions of interest from area and regional business and educational enterprises. The MBA degree programs are designed to provide courses in the special fields of business administration and international business. The express purpose for making advanced degree work available to a regional constituency is to enable advanced learning and training to be applied directly to business endeavors and to enable upward mobility for persons seeking entry into the job market at the executive or advanced levels.

Admission Information and Deadlines

See the section on Graduate Admission earlier in this Catalog for general requirements. Along with required admissions materials, applicants for the MBA must submit satisfactory scores on either the Graduate Management Admissions Test (GMAT) or the verbal and quantitative portions of the Graduate Record Examination (GRE) and satisfactory undergraduate academic records. Applications and all required materials must be received no later than June 1 for entry in the fall semester and November 1 for entry in the spring semester.

The Academic Schedule

Graduate courses in the MBA program are offered in two formats, the late afternoon (and early evening) and Saturdays utilizing two standard 15-week semesters and one summer term. The first and second semesters are concurrent with the regularly planned college academic year, August through April. The summer term is conducted throughout the month of May and most of June, or June and the first of August.

Prerequisites and Preparatory Courses

All students admitted to the graduate program in business are required to take two Flying Start Courses prior to the remainder of the graduate courses. Satisfactory levels of competence will be accepted as meeting the specific course requirements. Competence will be demonstrated by achieving a score of no less than 50% on any one section, and an overall minimum score of 70% for all four sections of the four-part examination following each of the Flying Start Courses. Students failing to demonstrate competence must make timely arrangements to complete the examinations prior to the end of the first semester. Students who fail to demonstrate competency as defined above will be suspended from the program, and no academic credit will be granted for the Flying Start Course.

Tuition and Fees

For the 2014-2015 academic year, beginning in August 2014 the following tuition rate applies to the MBA program.

Tuition \$29,990.00

Combined tuition for the first fall term, including the four (4) credit hours of Flying Start Courses and 12 credit hours of regular coursework, is \$11,100.00. Tuition for the two remaining regular semesters (12 credit hours each) is 7,750.00 per semester. The tuition for the required summer term (four (4) credit hours) is \$3,390.

Technology fee \$325.00*

Please see the sections earlier in this Catalog for the FSC refund policy for graduate students as well as the policies on admission, matriculation, technology, and graduation fees. The college does not permit auditing graduate courses.

* Total for program based on three semesters and one summer term

MASTER OF BUSINESS ADMINISTRATION

Flying Start Courses	4 hours
BUS 6310	Foundations I: quantitative skills
BUS 6320	Foundations II: qualitative skills
Required Courses	24 hours
BUS 6400	Leadership of Self and Organizations
BUS 6455	Managing Across Boundaries and Borders
BUS 6500	Managing the Economic, Regulatory and Social Environment of Business
BUS 6550	Complex Decision Making
BUS 6600	Synthesis of Trends, Image and Output
BUS 6990	strategy Formulation and Organizational Design for the 21st Century
Elective Courses	16 hours
BUS 6710	Management: Negotiations
BUS 6720	Marketing Strategy
BUS 6730	Supply Chain Management
BUS 6740	Six Sigma Certification
BUS 6780	Personal Finance: Professional and Personal Applications
BUS 6820	International Field Experience
BUS 6850	Graduate Internship in Business
Total	44 hours

NOTES: Course descriptions are found later in this Catalog. Please consult the Table of Contents or Index.

MASTER OF EDUCATION MASTER OF ARTS IN TEACHING

Program Objectives

The Master of Arts in Teaching degree is intended for individuals who have obtained baccalaureate degrees in areas other than education and without a professional teaching certificate. The Master of Education in Collaborative Teaching and Learning is designed to further the knowledge and skills of classroom teachers who hold the Professional Teaching Certificate.

Admission Information

See the section on Graduate Admission earlier in this Catalog for general requirements for admission to the graduate programs of Florida Southern College. Additional requirements are specified below:

Additional MAT Admission Requirements:

1. Baccalaureate degree. Graduate of a regionally accredited college or university with a baccalaureate degree in areas other than education and without a professional teaching certificate with a cumulative GPA of 3.0 or better, and a GPA in the major area of 3.2 or better. Applicants with GPA's lower than the above requirements must submit a composite test score of 1000 on the Graduate Record Examination (GRE) if taken prior to 2012, a composite test score of 297 on the GRE if taken in 2012 or later, or a score of 393 on the Miller Analogies Test (MAT). No one will be admitted with a GPA below 2.5
2. Testing. Prior to admission or within the first 12 semester hours of MAT coursework, a passing score is required on all sections of the Florida (FTCE) Teacher Certification Examinations in the candidate's approved teaching field. An MAT student who does not pass the FTCE subject area examination (SAE) by the end of the first 12 semester hours of the graduate program may be suspended until the exam has been passed.
3. One semester of student teaching is required during the student's final semester before graduation.

4. Personal Interview
5. Photocopy of ID, passport, or driver's license
6. Personality inventory may be required
7. Completion of a background check and background check clearance from the Polk County School Board (PCSB).

Please note: It is the responsibility of the MAT student to follow all certification requirements via the Florida Department of Education in order to meet the requirements to teach in the State of Florida.

Additional MEd Admission Requirements:

1. Baccalaureate Degree. Graduate of a state-approved and regionally accredited program with a minimum cumulative GPA of 3.0 overall or a composite score of 1000 (score of 297 if taken after September 2011) on the GRE or 393 on the MAT.
2. Teacher Certification. Applicant must hold or be fully eligible for the Florida Professional Teacher Certificate. Applicants must provide certificate number to meet admission requirements.
3. Testing. None, unless the GPA is below 3.0 (see #1 above.)

Admission Procedure and Deadlines

Applications with all supporting documentation will be submitted as a packet to the FSC Graduate Admissions Office for review and filing. A three-member Admissions Committee will be appointed each March by the Dean of the School of Education. The membership of this committee will be composed of the following: (1) the Graduate Program Coordinator in Education, (2) another graduate faculty member from Education, and (3) the Dean of the School of Education. All decisions/recommendations of this Admissions Committee are submitted simultaneously to the Dean of the School of Education.

All candidates will be contacted by the Graduate Program Coordinator. Applicants who are not selected will be invited to leave their applications current for the next selection cycle. Any inquiries or appeals concerning recommendations of the Admissions Committee should go to the Dean of the School of Education.

Admissions Deadlines

August 1 – Fall, December 1 – Spring, April 1 – Summer A, May 15 – Summer B

Early MEd Option

Current education majors have a degree option that will allow student to graduate with both the undergraduate degree and the MEd. Entry to the program is restricted to students that have completed all course work except for EDU 4889 and EDU 4990; have passed all parts of the FTC exam and have a current GPA of 3.0. Students enroll in 12 hours of graduate work for 3 additional terms for a total of 36 graduate hours. At the completion of 36 graduate hours students complete EDU 4889 and EDU 4990.

Students enter the program in the fall and spring. Student beginning graduate work in the spring must apply for admission in the spring term of the junior year. Students beginning graduate work in the fall of the senior year must apply during the fall of the junior year. The published day, full time tuition will be assessed for the first semester of enrollment in the early MEd program (fall or spring). The MEd graduate program per credit hour rate will be charged for any remaining semesters. Summer enrollments will be charged at the prevailing rates; MEd program graduate per CH rate, the day undergraduate per credit hour rate or the evening per credit hour rate.

The Academic Schedule

Graduate courses in the MEd are offered in an online format. The first and second semesters are concurrent with the regularly planned college calendar, August through April.

Degree Requirements

The credit hour requirement for the MEd degree program is 36 semester hours of coursework. The credit hour requirement for the MAT degree program is 44 semester hours of coursework including a final internship and seminar course that lasts an entire semester. Please note: The MAT is not a State of Florida approved program, and the FSC School of Education does not accept responsibility for advising students in course selection for purposes of initial Florida teacher certification.

Tuition and Fees

For the 2014-2015 academic year, beginning in August 2014, the following tuition rate applies to the MAT and MEd program.

Tuition \$315.00 per credit hour

Technology Fee:

- **Up to 4 credit hours** \$25.00 per term
- **5-8 credit hour** \$50.00 per term
- **9-12 credit hours**..... \$100.00 per term

Please see the sections earlier in this Catalog for the FSC refund policy for graduate students as well as the policies on admission, matriculation, technology, and graduation fees. The College does not permit auditing graduate courses.

MASTER OF EDUCATION IN COLLABORATIVE TEACHING AND LEARNING (MEd)

Required Courses..... 6 hours

EDU 6010	Educational Research
EDU 6080	Advanced Foundations of Education
EDU 6160	Educational Assessment, Evaluation, Technology
EDU 6180	Critical Issues and Research in Special Education
EDU 6250	Advanced Classroom Management/Legal Issues
EDU 6350	Curriculum and Instruction: Theory and Design
EDU 6500	Advanced Teaching Methods in Reading and Language Arts
EDU 6580	Advanced Teaching Methods in Math and Science
EDU 6650	Advanced Research (Thesis)

Total..... 36 hours

MASTER OF ARTS IN TEACHING (MAT)

Required Courses..... 44 hours

EDU 5150	Theories and Practices of Teaching ESOL
EDU 6080	Advanced Foundations of Education
EDU 6160	Educational Assessment, Evaluation, Technology
EDU 6180	Critical Issues and Research in Special Education
EDU 6250	Advanced Classroom Management/Legal Issues
EDU 6350	Curriculum and Instruction: Theory and Design
EDU 6500	Advanced Teaching Methods in Reading and Language Arts
EDU 6580	Advanced Teaching Methods in Math and Science
Internship Semester	(Students' final semester following completion of all course work):
EDU 6610	Internship (10 hours)
EDU 6640	Student Teaching Seminar (2 hours)

Total..... 44 hours

DOCTOR OF EDUCATION IN EDUCATIONAL LEADERSHIP

Program Objectives:

The Doctor of Education in Educational Leadership is designed for individuals preparing for positions in school administration, policy development, college or university teacher, and/ or research. The degree includes broad leadership topics covering curriculum, assessment and accountability, professional development, research driven decision making, and policy analysis. This is not a program leading to initial certification or licensure in the state of Florida. Students seeking educational leadership certification need to refer to a state of Florida approved MEd program of study in Educational Leadership.

Admission Information:

In addition to the general admission requirements as listed, applicants should submit the following information to the School of Education:

- Transcripts from master’s and undergraduate degree programs
- Earned master’s degree from a regionally accredited institution or applicant must produce a valid professional educator certificate
- An earned grade point average of 3.0 in accredited master’s degree program
- An official Graduate Record Exam (GRE) score taken within the last five years with a combined score of 1000 or greater if taken prior to September 2011 and greater than 300 for tests taken after September 2011

Before offering admission, applicants will have a personal interview with a representative of the School of Education.

Tuition and Fees:

For the academic year 2014-2015, the following tuition rate applies to the EdD program:

Tuition: **\$400.00 per credit hour**
Technology Fee: **\$150 per term**

Degree Requirements:

The credit hour requirement for the EdD degree program is 60 semester hour: 48 hours of coursework and a minimum of 12 hours of dissertation preparation. Students must receive approval or their final dissertation in order to meet graduation requirements.

Candidates completing 20 hours will convene an advisory committee consisting of a major professor and at least three other members. This committee will assist the student with course selection, completion of the official plan of study, and the dissertation process. There is no residency requirement or qualifying exam for completion of the EdD

Required Courses	60 hours
EDU 7010	Educational Leadership and Theory
EDU 7020	Curriculum, Learning, and Instruction
EDU 7030	Ethics in Educational Leadership
EDU 7040	Organizational Theory and Behavior
EDU 7050	Educational Politics, Policy, and Current Issues
EDU 7060	K-12 Law and Governance
EDU 7070	Curriculum Analysis
EDU 7080	Finance and Resource Allocation
EDU 7090	Quantitative Analysis I
EDU 7110	Educational Accountability and Student Assessment
EDU 7120	Qualitative Analysis I
EDU 7130	Policy Analysis, Implementation, and Evaluation
EDU 7140	Dissertation (12 hours)
Total	60 hours

MASTER OF SCIENCE IN NURSING

Accreditation

The Master's degree in Nursing is accredited by the Commission on Collegiate Nursing Education (CCNE), One Dupont Circle, NW, Suite 530, Washington, DC 20036-1120.

Program Mission and Objectives

The Florida Southern College Nursing faculty members are committed to promoting educational excellence and providing unique opportunities for personal and professional growth for nursing students. In the roles of mentor, role model, expert resource and facilitator, faculty are dedicated to enabling the student to master new skills, to critically evaluate situations, and to integrate new knowledge and skills into nursing practice through innovative approaches to the delivery of health care in diverse settings.

The Master of Science in Nursing degree program offers a contemporary and innovative curriculum that prepares the licensed Registered Nurse for advanced practice nursing roles. Students may choose one of four tracks: 1) Adult Gerontology Primary Care Nurse Practitioner, 2) Adult Gerontology Clinical Nurse Specialist, 3) Nurse Educator, or 4) Nursing Administration. Cultural competence, ethical decision making, an ability to use and generate new evidence in practice and global awareness of issues related to health care delivery and health policy are fostered throughout the program. Upon completion, the graduate is prepared for doctoral studies.

The Adult Gerontology Primary Care Nurse Practitioner student is prepared to provide direct care to patients 13 years and older. The Adult Gerontology Clinical Nurse Specialist student is prepared in the three spheres of influence: Patient/Client, Nurses and Nursing Practice and Organization/System. Both tracks require the graduate student to complete a minimum of 42 credit hours, including a scholarly project, and a minimum of 500 clinical practice hours in the selected advanced practice role. Graduates are prepared for the national certification examination as an Adult Gerontology Primary Care Nurse Practitioner or Adult Gerontology Clinical Nurse Specialist through the American Nurses Credentialing Center (ANCC),

600 Maryland Avenue, SW, Suite 100 West
Washington, DC 20024-2571
ANCC@ana.org
ANCC catalogs: 1-800-284-2378

or the American Academy of Nurse Practitioners Certification Program (AANPCP): AANPCP National Administrative Office

PO Box 12846
Austin, TX 78711
Phone: (512) 637-0500

The Nurse Educator student is prepared to teach in an academic or health care setting. The curriculum provides a foundation of clinical excellence as the student is prepared to participate effectively in course and curriculum design and program evaluation. The program requires each graduate student to complete 37 credit hours, a scholarly project, and 350 practice hours. Graduates are prepared for the Certified Nurse Educator national certification examination through the National League for Nursing (NLN) after accumulating NLN-required hours post graduation:

61 Broadway
New York, NY 10006 <http://www.nln.org>
1-800-669-1656

The Nursing Administration concentration is a nonclinical major designed for currently practicing nurses who want to advance their careers in healthcare and nursing management practice. Some courses are shared with the School of Business MBA program. Students can complete the degree program in approximately 6 semesters of part time study and complete two graduate internship courses with approximately 500 hours of advance practice under the guidance of a preceptor and faculty member. A final capstone project is part of the degree requirement.

MASTER OF SCIENCE IN NURSING (MSN)

See the section on Graduate Admission earlier in this Catalog for general admission requirements for graduate programs at Florida Southern College. Additional requirements are specified below.

1. Evidence of graduation from a state-approved and regionally accredited Baccalaureate Degree Nursing program with an overall undergraduate grade point average of 3.0 on a 4-point scale.
2. Copy of current, active licensure as a Registered Nurse in the State of Florida. Completion of the Graduate Record Exam (GRE) is not required.

The following prerequisite courses or equivalent courses from an accredited college or university at the undergraduate level are required: NUR 3106 Health Assessment, NUR 4110 Evidence Based Health Care (Research Methods) and MAT 2022 Elementary Statistics or MAT 2032 Biostatistics. A "C" or better grade in these prerequisite courses is required.

In considering applications for the MSN, the graduate committee gives careful consideration to all credentials required and submitted. No single criterion determines acceptance or denial, but each is evaluated in relation to the applicant's complete admission profile. Both the use of computers and web-based learning are integrated throughout the curriculum and graduate students are expected to have computer and internet skills. Writing skills are essential to success in graduate school.

Application Deadlines and Procedures

Applicants are considered for admission for the fall semester. The deadline for fall admission is June 1.

Spring admissions are contingent on available resources and the number of qualified applicants. The deadline for spring admissions is November 1.

Written notification of admissions decisions may be expected within four (4) weeks of the published application deadline. The graduate admissions committee reserves the right to hold an application until further information is available, such as end of semester grades or samples of previous work, before making a decision about an application for admission.

Degree Requirements

Completion of the Master of Science in Nursing degree for the Adult Gerontology Clinical Nurse Specialist track and the Adult Gerontology Primary Care Nurse Practitioner track requires 42 credit hours, including at least 500 clinical practice hours, and a scholarly project. Completion of the Nurse Educator track requires 37 credit hours, including at least 350 practice hours, and a scholarly project. Completion of the Nursing Administration track requires 37 credit hours and completion of a two course graduate internship.

Each graduate student will complete an independent scholarly project that is publishable or suitable for publication. This project is intended to be synergistic with the student's capstone experience. The student will be guided by two Florida Southern College graduate nursing professors. An external expert with requisite clinical and academic credentials can substitute for one of the readers with permission from the Nursing Graduate Program Director. It is the student's responsibility to extend a request to a professor to serve as the primary scholarly project

advisor. The advisor may suggest a second reader for the student to contact. The role of the primary scholarly project advisor is to mentor the graduate student in the conduct of professional scholarship, and must be selected prior to the completion of NUR 5250 - Nursing Theory and Research. The scholarly project advisor and second reader must attest to successful completion of the scholarly project in order for the student to be eligible for graduation with the degree of Master of Science in Nursing (MSN). The student is responsible for ensuring that all required documentation is submitted in a timely manner to the Registrar's Office.

Tuition and Fees

For the 2014-15 academic year, the following tuition rate applies to the MS in Nursing program.

Tuition \$515.00 per credit hour

Technology Fee:

- Up to 4 credit hours \$25.00 per term
- 5-8 credit hours..... \$50.00 per term
- 9-12 credit hours..... \$100.00 per term

Please see the sections earlier in this Catalog for the FSC refund policy and for information on admission, matriculation, technology, and graduation fees. The College does not permit auditing graduate courses.

Post-Masters Certificate

A Post-Masters Certificate is offered to serve individuals desiring additional credentials in a designated field of practice. Applicants are required to complete the standard application required for consideration for graduate nursing programs. A Masters of Science degree in Nursing (MSN) is required to pursue the Post Masters Certificate. Post Masters Certificate applicants must meet all MSN applicant prerequisite courses and academic standards.

Clinical Nurse Specialist

The Post Masters Certificate for Adult Gerontology Clinical Nurse Specialist serves those individuals who require additional coursework to meet eligibility requirements to take the national certification examination as an Adult Gerontology Clinical Nurse Specialist. Students will

complete at least 500 clinical practice hours in the advanced practice nurse role and be prepared to practice in three spheres of influence: patients and families, nurses and nursing practice, and organizations. Graduates are prepared for the national certification examination as an Adult Gerontology Clinical Nurses Specialist through the American Nurses Credentialing Center.

For the CNS concentration, students are required to complete three courses, totaling 18 credit hours.

- NUR 6110 Advanced Practice Nurse I (6)
- NUR 6160 Advanced Practice Nurse II (6)
- NUR 6210 Advanced Practice Nurse III (6)

Prior to entering any of these clinical courses, students must complete prerequisite courses at the graduate level: pathophysiology, pharmacology, health assessment, research. If needed, these courses may also be completed at Florida Southern College.

Adult Gerontology Primary Care Nurse Practitioner

The Post Masters Certificate for Adult Gerontology Primary Care Nurse Practitioner is designed for those individuals who require additional coursework to meet eligibility requirements to take the national certification examination for Adult Gerontology Primary Care Nurse Practitioner. Students will complete at least 500 clinical practice hours in the advanced practice role. Graduates are prepared for the national certification examination as an Adult Gerontology Primary Care Nurse Practitioner through the American Nurses Credentialing center or the American Association of Nurse Practitioners.

For this concentration, students are required to complete three courses, totaling 18 credit hours.

- NUR 6110 Advanced Practice Nurse I (6)
- NUR 6160 Advanced Practice Nurse II (6)
- NUR 6210 Advanced Practice Nurse III (6)

Prior to entering any of these clinical courses, students must complete prerequisite courses at the graduate level: pathophysiology, pharmacology, health assessment, research. If needed, these courses may also be completed at Florida Southern College.

Nurse Educator

The Post Masters Certificate for the Nurse Educator serves those individuals who plan to teach in nursing and desire additional expertise in teaching-learning principles and practice. Students will be prepared to teach in an academic or health care setting. The curriculum introduces the student to contemporary teaching strategies, and curriculum design and program evaluation practices. Graduates are prepared for the national Certified Nurse Educator examination through the National League for Nursing once they have met the NLN-required teaching hours post-graduation.

For the Nurse Educator concentration, students must complete three courses, totaling 16 credit hours.

- NUR 6120 Nurse Educator in the Clinical Setting (6)
- NUR 6260 Curriculum Design & Program Development (4)
- NUR 6310 Nurse Educator in the Academic Setting (6)

A graduate level statistics course is prerequisite to entering NUR 6060. Students must also have successfully completed the following courses at the graduate level: pathophysiology, pharmacology, health assessment, research. If needed, these courses may also be completed at Florida Southern College.

GRADUATE COURSE DESCRIPTIONS

ACCOUNTING – ACC

ACC 6100 ADVANCED TAXATION OF ENTITIES

Four hours. Prerequisite: ACC 4111. The objectives of the course are to learn technical tax information and to prepare the student for the CPA examination.

ACC 6200 AUDITING WITH ACCOUNTING INFORMATION SYSTEMS

Four hours. Prerequisite: ACC 4511. An examination of auditing standards and practical auditing tasks, including an examination of the role of accountants as designers, users, and evaluators of accounting systems.

ACC 6300 ADVANCED FINANCIAL ACCOUNTING AND REPORTING

Four hours. Prerequisite: ACC 3112. A detailed study of the procedures related to accounting for consolidations, interim reporting, segment reporting, foreign currency, worldwide accounting, reorganizations, liquidations, partnerships, governmental organizations, not-for-profit organizations, estates, and trusts. Also included is the history and importance of the SEC and the Sarbanes-Oxley Act.

ACC 6400 ADVANCED MANAGERIAL ACCOUNTING

Four hours. Prerequisite: ACC 3211. Advanced topics in Cost/Managerial Accounting encompassing a study of decision models, cost information systems, budgeting, and performance analysis.

ACC 6500 CPA REVIEW COURSE

Three hours. Prerequisite: ACC 6100, 6200, 6300, 6400 and BUS 6350. Preparation for the Uniform CPA Examination. This course will not count towards the Florida State Board of Accountancy education requirements as either accounting hours, business core hours, nor total hours. It is required for graduation.

ACC 6600 FRAUD EXAMINATION AND ETHICS IN ACCOUNTING

Four hours. Prerequisite: Admission into the MAcc or Early MAcc program. To understand the field and practice of forensic accounting, procedures used to uncover economic crime, courtroom procedures and litigation support, principles and techniques of business valuations, and the ethical issues and environment of accounting.

ACC 6700 ACCOUNTING SEMINAR

Four hours. Prerequisite: This course should be taken in the last semester except with permission of the dean. This is a capstone course in which each student completes an accounting research project in his or her field of interest. This course is team-taught so that a variety of faculty expertise is available. Each student will consult with one or more of the professors as he or she completes the research project.

BUSINESS ADMINISTRATION - BUS

BUS 6300 HEALTHCARE INFORMATICS & DECISION MAKING

Four hours. Same as NUR 6300. Prerequisite: Admission to the graduate program. Both information technology and use and sharing of clinical and administrative data are an important component of health care delivery. In this course, students are introduced to advance concepts of information management and use of data in complex decision making as well as core informatics competencies such as project management and systems analysis.

BUS 6310 MOCS FLYING START COURSE: FOUNDATIONS I

Two hours. Intensive focus on accounting, finance, economics, and statistics to equip students with overview of fundamental background knowledge and skill-sets essential for success in FSC MBA program and career. Students acquire and apply concepts quickly with high level of competency.

BUS 6320 MOCS FLYING START COURSE: FOUNDATIONS II

Two hours. Intensive sessions on communication skills, organizational development, ethical decision making, and knowledge essential for success in the in the FSC MBA program and the student's career.

BUS 6350 BUSINESS LAW FOR ACCOUNTANTS

Three hours. Prerequisite: BUS 3311. To extend business law concepts to those specific to the accounting profession.

BUS 6400 LEADERSHIP OF SELF AND ORGANIZATIONS

Four hours. An examination of leaders and leadership at the individual, group, organizational, and international levels: will also provide conceptual frameworks for group dynamics, diagnosing performance problems, designing appropriate organizational interventions and securing stakeholder commitment.

BUS 6450 HEALTHCARE FINANCE & ENTREPRENEURSHIP

Four hours. Same as NUR 6450. Prerequisite: Graduate standing. Healthcare economics and finance are key factors in healthcare delivery and future reforms. Students will investigate finance models from small entrepreneurial settings to large multi-facility healthcare systems and complete a project to design and fund a practice or project related to their field of interest.

BUS 6455 MANAGING ACROSS BOUNDARIES AND BORDERS

Four hours. Theories of global trade institutions and political economies, and the complex dynamic of global economic relations.

BUS 6500 MANAGING THE ECONOMIC, REGULATORY AND SOCIAL ENVIRONMENT OF BUSINESS

Four hours. The course is designed to provide students with the practical knowledge of regulatory issues that arise in the business environment so that graduates have the ability to spot potential regulatory problems and minimize risk. The course is also intended to provide an integrative opportunity to tie together laws, regulations, and managerial concepts that are useful in strategic decision making with issues of ethics and responsibility in 21st century organizations. Students will be involved with analysis of cases while role playing various stakeholders in the business enterprise.

BUS 6550 COMPLEX DECISION MAKING

Four hours. Integrates information technology and financial information to facilitate managerial decision making. Current information technology tools will be harnessed to make sense of accounting and financial measures and to enable effective decisions. Analysis of case studies will allow integration of skills necessary to make wise decisions.

BUS 6600 SYNTHESIS OF TRENDS, IMAGE AND OUTPUT

Four hours. Advanced treatment of research methodology combined with applications of operations management. Focus on the use of survey research and data analysis along with modeling techniques such as linear programming and queuing theory. Projects management approach with teams working on realistic business challenges.

BUS 6710 MANAGEMENT: NEGOTIATIONS

Four hours. Negotiation is the art and science of settling conflicts and resolving problems through mutual agreement. This is a concept and applications course designed to increase students' competence, confidence, and satisfaction in dealing with a broad range of negotiating circumstances and roles. Classes consist of an examination of negotiation strategies and tactics, and participation in practical exercises. The goal of the course is for students to develop a working concept of negotiation theory and acquire and practice useful skills.

BUS 6720 MARKETING STRATEGY

Four hours. A comprehensive review of the theories and concepts pertaining to the marketing of industrial and consumer goods. A review of the role of the chief executive officer in the development and implementation of marketing strategies. Case studies emphasized while reviewing goals and policies. In depth review of pricing, product strategy, promotional tools, marketing research techniques, product life cycles, and marketing's relationship to strategic planning.

BUS 6730 SUPPLY CHAIN MANAGEMENT

Four hours. Views the supply chain from the point of view of a general manager. Logistics and supply chain management is all about managing the hand-offs of either information or product. The design of a logistics system is critically linked to the objectives of the supply chain. The focus of this course is understanding how logistical decisions impact the performance of the firm as well as the entire supply chain. This includes understanding the link between supply chain structures and logistical capabilities in a firm or the entire supply chain. The function of supply chain management is to design and manage the processes, assets, and flows of material and information required to satisfy customers' demands. On the revenue side the supply chain decisions have a direct impact on the market penetration and customer service. The course examines how the combination of enterprise information infrastructure and the Internet has paved the way for a variety of supply chain optimization technologies.

BUS 6740 SIX SIGMA CERTIFICATION

Four hours. This course focuses on the practical application of many process flow, quality and data analysis techniques to solve many of the problems that plague organizations today. Focus is on countermeasures developed primarily through the application of lean techniques as well as basic to intermediate qualitative and quantitative statistical techniques utilized within the Six Sigma DMAIC (Define-Measure-Analyze-Improve- Control) roadmap. This course provides the training basis for achieving the skill level of a Six Sigma Green Belt. Lean Six Sigma, with its origins in the teachings of Total Quality Management (TQM) stresses eliminating not only product defects, but six other forms of waste.

BUS 6780 PERSONAL FINANCE: PROFESSIONAL AND PERSONAL APPLICATIONS

Four hours. Prerequisites: completion of the Flying Start courses (BUS 630 and BUS 632) or permission of the instructor. This course in personal financial planning is designed for MBA students interested in learning and applying specific financial information in their personal and professional lives. The course is designed to help students understand the impact of individual choices on occupational goals and future earnings potential. Real-world topics covered will include income, money management, spending and credit, as well as saving and investing. Students will design personal and household budgets; simulate using checking and savings accounts; demonstrate knowledge of finance, debt, and credit management; and evaluate and understand insurance and taxes. This course will provide a foundational understanding for making informed personal financial decisions.

BUS 6820 INTERNATIONAL FIELD EXPERIENCE

Four hours. Two-week intensive immersion in an alternative international economic setting. This course provides an opportunity to apply coursework concepts in a realistic environment. Course format includes a series of meetings and seminars in selected centers of foreign commerce combined with shadowing government and industry leaders. Focus is on the interlocking nature of national interests and the opportunities they provide for business organizations.

BUS 6850 GRADUATE INTERNSHIP IN BUSINESS

Four hours. Prerequisite: 12 graduate hours in the MBA program with a minimum GPA of 3.0. The internship is a hands-on working experience in the field of concentration requiring a minimum 160 hours of placement under the supervision of both an employer and a faculty member. Beginning in the semester preceding the internship placement, the student should identify what type of organization they desire for their internship. The college supports student initiatives to obtain the internship by providing counsel and resources. The internship supervisor monitors student performance and visits internship sites as needed. On completion of the internship, the student submits a reflection paper to the faculty supervisor on their experience. Students may not perform internships at their current place of employment without prior consent of the Coordinator of the Graduate Program. Each student shall make a public and professional presentation of their Graduate Internship experience. This course is typically taken during the student's summer semester.

BUS 6990 STRATEGY FORMULATION AND ORGANIZATIONAL DESIGN FOR THE 21ST CENTURY

Four hours: Strategic dilemmas in business design require a business model that sustains and protects the livelihoods of the company's stakeholders, its community, and its own long-term success. The objective of the course is to address how all of the disciplines play a role in the formation and operation of a successful business enterprise while addressing the external environmental and competitive forces that prevail. Principally, this course applies the students' knowledge of management, marketing, finance, and accounting in determining how to strategically operate a business enterprise. Analysis and preparation of case studies will emphasize strategy formulation, including the formation of and/or the acquisition of business units, successful management and options for the growth, maturation, continuation, or termination of the business enterprise.

EDUCATION EDU**EDU 5150 THEORIES AND PRACTICES OF TEACHING ESOL**

Four hours. This course is designed to provide students with a critical understanding of instructional delivery which caters for the linguistic and literacy needs of minority heritage communities. The focus of this course is located within the framework of diversity as an asset that needs to be explored and utilized in a more efficient manner, cultural capital, discursive practices and difference. Students will be required to engage with the political debates and resultant educational ramifications concerning bilingual education, dual language programs, ESOL education as well as other issues such as power and inequalities in language education. This socio-cultural critical theoretical framework will provide students with the basis to then negotiate issues of second language learning, critical pedagogy, language varieties, multicultural communities as well as critical literacy and reading development. Some emphasis will be placed on current issues- drop out rates ('drop out factories'), diversity: a blessing or a curse? Case studies (either student generated or teacher provided), Self-Directed Learning (SDL) as a tool to promote education ownership.

EDU 6010 EDUCATIONAL RESEARCH

Four hours. Introduction to educational statistics and appraisal techniques. Emphasis on how to understand and use research data. Study of action research design and methodology. Inquiry goals and strategies developed and implemented in hands-on action research.

EDU 6080 ADVANCED FOUNDATIONS OF EDUCATION

Four hours. The study of the societal structure and problems affecting education; the effects on education from philosophical, psychological, cultural and societal differences and changes; and the effects of political and economical changes on education. Emphasis will be placed on the role of the teacher in the socialization process of American youth.

EDU 6160 EDUCATIONAL ASSESSMENT, EVALUATION, TECHNOLOGY

Four hours. Students identify the benefits of using technology tools to maximize K-12 student learning and to facilitate the higher-order thinking skills necessary to be successful in the 21st century workplace. Students will plan, develop and assess project within a technology-enriched instructional unit. Survey research methods will be employed to learn data collection and aggregation methods culminating into a publishable research paper on the topic of technology integration in the K-12 educational setting.

EDU 6180 CRITICAL ISSUES AND RESEARCH IN SPECIAL EDUCATION

Four hours. Examines the role of special education in the increased scrutiny of public schools by the general public and agents from all levels of government. Provides a straightforward analysis of conceptual and practical issues facing professionals involved in the design, delivery and assessment of special education.

EDU 6250 ADVANCED CLASSROOM MANAGEMENT/LEGAL ISSUES

Four hours. The goal of this course is to acquaint the student with the knowledge and skills necessary to analyze and operationalize the legal issues affecting the organization and management of public schools within the United States and the legal standards to apply in resolving disputes concerning public education. Public education is at the center of both state and national politics and is for ever increasing interest to policy makers as well as public at large. As the traditional education system in the country continues to “reinvent” itself, it is not surprising that state and federal courts at all levels are actively hearing school related issues. The increasing legislative and judicial activity in public education issues has resulted in a body of law that is rapidly evolving.

EDU 6350 CURRICULUM AND INSTRUCTION: THEORY AND DESIGN

Four hours. This course provides an in-depth examination of the historical, philosophical and theoretical constructs of curriculum for the 21st century. It will provide the impetus for the development and evaluation of current curriculum design as well as the formulation of fluid paradigms for new demands on instruction from both micro and macro environments in educational institutions. The student will interview curriculum specialist. The research will provide an experiential foundation for generation of a school improvement plan with an emphasis on curriculum.

EDU 6500 ADVANCED TEACHING METHODS IN READING AND LANGUAGE ARTS

Four hours. The course focuses on three major components of Reading and Language Arts: The Reading and Writing Processes, Integrating Technology into the instruction of Reading/Language Arts and Managing Reading/ Language Art Programs. New fluid literacies are addressed: hypertext, graphic design, visual literacy and film interpretation. There is also a major emphasis on cultural diversity as it affects both the teaching and learning of these processes.

EDU 6580 ADVANCED TEACHING METHODS IN MATH AND SCIENCE

Four hours. This course will provide graduate level work in math and science teaching techniques. Mathematics will involve problem solving using on-routine strategies, problems representing several branches of mathematics and related disciplines. Science will focus on advanced skills for science experimentation and additional teaching strategies.

EDU 6610 INTERNSHIP

Ten hours. The senior internship is designed to be the culminating education experience for education majors regardless of age/grade level specialty, subject matter, and/or major. The internship is 14 weeks/70 days long and involves teaching, modeling, observing and evaluating. The coordinator of Field Studies at Florida Southern College and a representative of the Human Resources Development Office of Polk County Schools assigns student to a Polk County Public School. The student will take over all responsibilities of a certified Florida classroom, teaching in her/his specialty area after receiving adequate preparation by the assigned teacher and supervisor.

EDU 6640 STUDENT TEACHING SEMINAR

Two hours. Prerequisites: Completion of major and permission of faculty. Weekly seminar for senior intern. Discussion and analysis of general methods of teaching in schools, with an emphasis on classroom management, experience, and presentation.

EDU 6650 ADVANCED RESEARCH (THESIS)

Four hours. This course assists students in engaging inquiry processes related to their own teaching practice. An action research plan will be implemented. Students will present their action research projects/thesis assisted by Division of Education faculty.

EDU 7010 EDUCATIONAL LEADERSHIP AND THEORY

Four hours. Through investigating and engaging students in the study of different aspects of leadership, this course will provide students with in-depth exposure to the study of educational leadership that include traits, characteristics, models, and dimensions of leadership coupled with a critical examination of sustainable theory in education environments. The course will cover major characteristics of leadership by researching the diverse facets of leadership theory with application to educational issues and use theory to help inform their own research interest. In completing the course assignments, the student will generate their own leadership theory and style that augments learning for diverse student populations.

EDU 7020 CURRICULUM, LEARNING AND INSTRUCTION

Four hours. This course will examine curriculum, learning and instruction within the context of the theoretical structures that underlie curriculum considerations relative to the work of responsible curriculum decision-makers at all levels. This will include a critical study of the history of curriculum and curriculum theory in the United States with emphasis being placed on the historical, philosophical, and scientific foundations of curriculum theory. Curriculum, learning and instruction will provide a framework for thinking about how curriculum relates to students' understanding of the world around them. It will symbiotically meld curriculum theory, critical educational studies, and feminist standpoint theory with practical examples of teaching for social justice to argue for a transformative curriculum that challenges existing inequity in social, educational, and economic relations.

EDU 7030 ETHICS IN EDUCATIONAL LEADERSHIP

Four hours. This course will be a critical and pragmatic examination of ethical leadership and administration within education focused organizations: higher education, community college and pre-K-12. The main emphasis for this course is on the philosophical, social and moral standards, codes, and values focusing on how decisions impact public school and college leaders. Ethical decision-making is underscored by social and moral values and these form the basis for understanding the relationship between one's values and decision making. This course will demonstrate the application of different ethical paradigms (the ethics of justice, care, critique, and the profession) through discussion and analysis of real-life moral dilemmas that educational leaders face in their schools and communities. Second, it will address some of the practical, pedagogical, and curricular issues related to the teaching of ethics for educational leaders. Third, it will emphasize the importance of ethics instruction from a variety of theoretical approaches. And finally, it will provide a process that leaders/teachers might follow to develop their own ethics unit or course.

EDU 7040 ORGANIZATIONAL THEORY AND BEHAVIOR

Four hours. In this course, learners will develop and demonstrate dispositions of instructional designers as they analyze and apply systematic strategies for the identification of instructional needs, the design of instructional models, and the selection and design of these models to meet educational and training goals in both K-12 education, and adult education. Learners will use technology as a learning tool and as a tool for reflection on learning. This course has been designed to meet the needs of those individuals involved in designing instruction, incorporating elements of learning theory, evaluation theory and system theory which support the design of instruction. This course will provide teachers, media specialists, and adult educators with those skills needed to design instruction they are responsible for conducting and enable them to consult with others who are responsible for instruction. Students will have the opportunity to work in "design teams", building collaborative work environments, addressing the goals and requirements of this class. This course is project-oriented: development efforts culminate in a proposal for an instructional product and a report on prototype development and testing efforts. However, the goal of the course is not to develop products per se, but to provide opportunities to practice disciplined and collaborative processes for inquiring about learning problems and opportunities, and for inquiring about the value of alternative strategies for addressing these problems and opportunities. The course takes an engineering approach to instructional development. Topics include needs assessment, analysis of subject-matter content, development of goals and objectives, classification and sequencing of objectives, design of instructional strategies, selection and integration of media- based delivery systems, design of print- and/or multimedia-based instruction, and formative evaluation of product prototypes.

EDU 7050 EDUCATIONAL POLITICS, POLICY AND CURRENT ISSUES

Four hours. While educational leaders are not required to become politicians, it is very important to understand the political system and environment in which school and district administrators work. Federal and state law, and local school board policy, often begins as ideas and action that may result in new educational rules and/or statutory requirements students, teachers and school leaders must follow. Political influence, policy guidelines, and instructional decisions that emerge within the context of new rules have a profound impact on the role of an educational leader. They are complex and often controversial. Unintended consequences of well-intentioned law, policy or rule require the school leader to carefully and thoughtfully navigate, often uncharted, waters in order to establish and maintain a productive and safe learning environment. In this course, students will develop an awareness of significant political decisions related to law, legislation, policy, or rule that defines an ever-changing environment. Students will review, analyze and evaluate political background and characteristics of major legislation that has a major impact upon public schools and school leaders. In addition, students will examine pathway from political thoughts, action, and ideas to policy decisions and instructional practice resulting from implementation of new requirements. Course content and objectives relate primarily to research practices (reflection, analysis, and inquiry) that will become integrated into the student's professional practice.

EDU 7060 K-12 LAW AND GOVERNANCE

Four hours. Legal decisions have a profound impact on a student's role as an educational leader. They are complex and often controversial. The courts attempt to balance the rights of individuals with the right of school districts to establish a productive and safe learning environment for student, teachers and educational leaders. In this course, students will develop an awareness of important law/legislation that defines an ever-changing legal environment. Case law relating to significant legal decisions will be reviewed and analyzed. Course content and objectives relate primarily to research practices (reflection, analysis, and inquiry) that will become integrated into the student's professional practice.

EDU 7070 CURRICULUM ANALYSIS

Four hours. This course focuses on the application of instructional design principles to the development of instruction. Topics include contemporary issues and trends in instructional design, foundations in learning research, requirements for instruction, task and needs analysis, learning situations and instructional models, learner characteristics, hardware and software innovations, assessing instructional outcomes, and factors affecting utilization.

EDU 7080 FINANCE AND RESOURCE ALLOCATION

Four hours. This course examines the complexities of higher education finance and public education K-12 finance and how political, economic, and social forces impact budgetary decisions and provides an overview of financial administration in public and private colleges and universities, public K-12 schools and private K-12 schools with special emphasis on funding theories and strategies, governmental and private-sector programs and initiatives, resource allocation concerns, and institutional fund-raising activities. The course offers a basic understanding of the nature and role of budgeting and finance in the K-16 education sectors in Florida. Budgets are one of the most significant policy documents in the public domain. They reflect priorities, values, and power relationships. Although they have important technical aspects, budgets are fundamentally political statements. They reflect the choices that result from the political process and ultimately become issues in the electoral process. Similarly, how education is financed reflects political processes and public priorities. In this course, students will learn how K-16 schools are financed and how educational finance relates to student outcomes.

EDU 7090 QUANTITATIVE ANALYSIS I

Four hours. The purpose of this course is for doctoral students to analyze quantitative research methods using a combination of readings, problems, web sites, and other resources. Topics will include the nature and purposes of quantitative research; planning and conducting quantitative research; critiquing and evaluating research; sampling; survey and experimental design; evaluation research; observation and inquiry; measurement and methods of data collection; ethics; and the use of computers in data analysis. Collaborative discussion, case-study analysis, and computer exercises will be a few methods practiced in conducting and analyzing quantitative data.

EDU 7110 EDUCATIONAL ACCOUNTABILITY AND STUDENT ASSESSMENT

Four hours. This course is designed to provide real world experiences with a foundation for understanding current state and federal accountability systems. School leaders will learn accountability through data-based decisions by applying the functions of curriculum, assessing instructional activities, influence of maintaining a positive climate, and assessing student performance in a planned school improvement model.

EDU 7120 QUALITATIVE ANALYSIS I

Four hours. The purpose of this course is for doctoral students to analyze qualitative research methods using a combination of readings, problems, web sites, and other resources. Topics will include the nature and purposes of qualitative research; planning and conducting qualitative research; critiquing and evaluating research; sampling; survey and experimental design; evaluation research; observation and inquiry; measurement and methods of data collection; ethics; and the use of computers in data analysis. Collaborative discussion, case-study analysis, and computer exercises will be a few methods practiced in conducting and analyzing qualitative data.

EDU 7130 POLICY ANALYSIS, IMPLEMENTATION AND EVALUATION

Four hours. Creating and implementing effective education policies requires a close examination of the social and historical foundations of education in the United States and beyond. This course helps student recognize and understand how educational policies permeate educational systems and how policies are received and articulated in the cultural practices of schools. The course also deepens and expands understandings of educational policy, practice and theory, past and present, at local, national, and international levels. Students will examine educational policies, movements, outcomes, dilemmas, and controversies--as well as the theories shaping them--

using modes of inquiry associated with an array of scholarly fields and disciplines. In order to improve practice for the purposes of promoting excellence, equity, and efficiency in educational systems and organizations in a world of accelerating educational change, students need a better understanding of the practices by educational organizations and the policies that govern them.

EDU 7140 DISSERTATION

Twelve hours. The purpose of this course is for doctoral students to develop, implement, analyze, and evaluate research based on a research or set of research questions. Students will work directly with a doctoral research committee. The dissertation will be an approved research study to investigate a research question/s using proven research methods. Research topics must be pre-approved by the doctoral dissertation committee and directly related to educational leadership. The dissertation will consist of five chapters and upon completion; the student will defend research findings.

MATHEMATICS - MAT**MAT 5010 APPLIED STATISTICAL ANALYSIS**

Three hours. Prerequisite: undergraduate statistical analysis and admission to Nursing graduate program. The emphasis in this course is on application and interpretation of statistical procedures used in health care research. Data management (using SPSS) and the relationship between research design and statistical techniques are also studied.

NURSING - NUR**NUR 5120 ADVANCED PRACTICE NURSE ROLE**

Three hours. Prerequisite: Admission to nursing graduate program. Roles of the advanced practice registered nurse (APRN) are examined with a focus on scope of practice, regulatory issues, professional standards of care, and effective communication. Topics include evidence based practice, professional advocacy, ethical decision making, cultural competence, teaching-coaching and scholarly writing.

NUR 5150 ADVANCED PHARMACOLOGY

Three hours. In this course the student analyzes the principles of pharmacokinetics, pharmacodynamics, and pharmacotherapeutics of drugs commonly used in the management of acute and chronic illnesses in adults. Emphasis is on therapeutic decision-making in drug selection and monitoring therapeutic response for culturally diverse patients. Patient education, legal, ethical, and socio-economic issues are addressed. Practice and regulatory elements of APRN prescribing is included.

NUR 5200 ADVANCED PATHOPHYSIOLOGY

Three hours. This course prepares the student to understand the underlying mechanisms of changes in physiology by a systematic examination of disease. The advance practice nursing student will compare and contrast differential diagnosis within physiological systems of sub-cellular and cellular origin, biochemical, and anatomical changes across the life span.

NUR 5220 ADVANCED PRACTICE HEALTH ASSESSMENT

Three hours. Prerequisite: NUR 5120. Pre- or corequisite: NUR 5200. The learner is provided a strong foundation in the health assessment skills requisite for APRN practice. The focus of the course is on the diagnostic reasoning process as it relates to building a clinical database regarding individual patients. History taking, physical examination skills, laboratory, and diagnostic modalities are included in the course content

NUR 5250 NURSING THEORY & RESEARCH

Three hours. Pre- or corequisite: MAT 5010. Research processes, including quantitative and qualitative research designs, are reviewed. Students examine researchable problems in nursing practice, explore ethical and legal issues related to nursing research and learn to apply a theoretical model in designing a research study.

NUR 5350 HEALTH CARE POLICY

Three hours. Prerequisite: NUR 5120. This course exposes students to health care policy, health care finance and the organization of health care delivery systems. Emphasis is placed on the role of the advanced practice nurse in the policy making process and the impact of health policy, finance and organization on advanced nursing practice, consumers' health and health care options.

NUR 5500 TOPICS IN GLOBAL HEALTHCARE

One to eight hours (variable). Prerequisite: graduate nursing major and permission of the instructor. This is an elective course that allows a student to experience health care in a global setting. Each course will be developed separately depending on availability of resources and suitability of the experience for students. Variable credit will reflect the amount of time expended by each student as one credit hour for each 40 clock hours. Typical trips may be supporting a rural health clinic in Latin America, patient care in a small hospital in Africa, or community health projects in Asia or other parts of the world. Students in other graduate programs may be eligible to take this course with permission of the Dean of the School of Nursing and Health Sciences.

NUR 6110 ADVANCED PRACTICE NURSE I

Six hours. Prerequisite: NUR 5120, NUR 5150, NUR 5200, NUR 5220. In this practical experience, the student functions in the role of advanced practice nurse in settings focused on the care of the acutely ill client. Content focus is on attaining competencies in the domains of advanced nursing practice addressing clients, nurses and organizations. This course includes 168 hours of clinical experience and a seminar.

NUR 6120 NURSE EDUCATOR IN CLINICAL SETTING

Six hours. Prerequisite: NUR 5120, NUR 5150, NUR 5200, NUR 5220, NUR 6260. In this practical experience, the student functions in the role of advanced practice nurse educator in a clinical setting. Content focus is on attaining competencies as a nurse educator. This course includes 175 hours of clinical experience and a seminar.

NUR 6160 ADVANCED PRACTICE NURSE II

Six hours. Prerequisite: NUR 5120, NUR 5150, NUR 5200, NUR 5220. In this practical experience, the student functions in the role of advanced practice nurse in settings focused on care of the client with chronic illness. Management of the healthcare needs of selected populations are addressed incorporating the principles of prioritization, community collaboration and outcomes measurement. Principles of cost-effective patient outcomes and evidence-based practice are stressed. This course includes 168 hours of clinical experience and a seminar.

NUR 6210 ADVANCED PRACTICE NURSE III

Six hours. Prerequisite: NUR 6110, NUR 6160. The advanced practice nurse student will develop expertise in a specialty role defined by a client population or practice setting. The focus of this capstone clinical experience is adult health nursing practice. This course includes 168 hours of clinical experience and a seminar.

NUR 6250 RESEARCH HOURS

One to four hours (variable). Prerequisite: NUR 5250 and consent of the instructor. Independent research hours provide the student the opportunity to be mentored in the pursuit of an individual scholarly project. Prior to registering, the student must establish a learning contract with a nursing faculty member. In lieu of a letter grade, the student is awarded a grade of Pass/Fail for research credit hours.

NUR 6260 CURRICULUM DESIGN AND PROGRAM DEVELOPMENT

Four hours. Pre- or corequisite: NUR 5120. The focus in this course is on preparing the advanced practice nurse for a role in higher education or peer education. Required elements of course and curricula design and program outcome assessment are presented, along with roles of faculty and administrators in these processes. Classroom teaching technologies are introduced.

NUR 6300 HEALTHCARE INFORMATICS & DECISION MAKING

Four hours. Same as BUS 6300. Prerequisite: Admission to the graduate program. Both information technology and use and sharing of clinical and administrative data are an important component of health care delivery. In this course, students are introduced to advance concepts of information management and use of data in complex decision making as well as core informatics competencies such as project management and systems analysis.

NUR 6310 NURSE EDUCATOR IN ACADEMIC SETTING

Six hours. Prerequisite: NUR 5120, NUR 5150, NUR 5200, NUR 5220, NUR 6260. In this practical experience, the student will engage in classroom and clinical teaching in an academic setting. This course includes 175 hours of clinical experience and a seminar.

NUR 6430 CARE OF THE OLDER ADULT

Three hours. Prerequisites: NUR 5150, NUR 5200, NUR 5220. This course examines selected clinical issues, health problems and health promotion strategies in older adults, contrasts normal and abnormal aging, and explores older adult healthcare delivery systems. The course focuses on comprehensive geriatric assessment, diagnoses of common geriatric syndromes and application of evidence-based practice to promote wellness, maximize function, and enhance self-care. Mental health concerns, culturally appropriate approaches and ethical issues will be examined.

NUR 6450 HEALTHCARE FINANCE & ENTREPRENEURSHIP

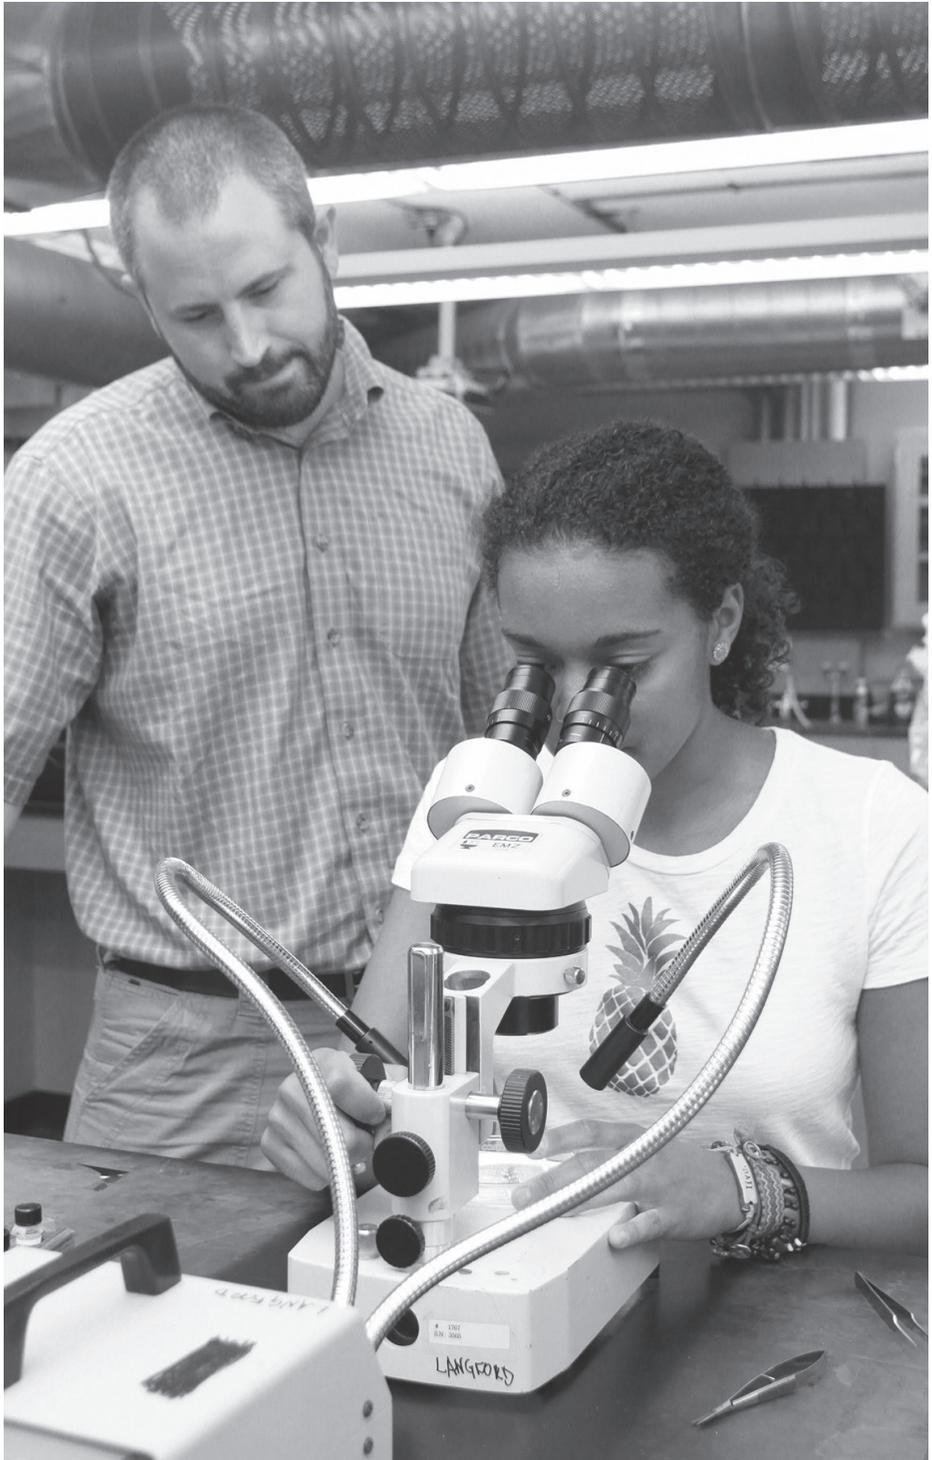

Four hours. Same as BUS 6450. Prerequisite: Graduate standing. Healthcare economics and finance are key factors in healthcare delivery and future reforms. Students will investigate finance models from small entrepreneurial settings to large multi-facility healthcare systems and complete a project to design and fund a practice or project related to their field of interest.

NUR 6960/6961 GRADUATE INTERNSHIP IN NURSING

Four hours. Prerequisite: Admission to the graduate program. This is a two course sequence of dedicated off campus clinical experiences primarily for students in the Nursing Administration track and is usually taken as the final courses prior to graduation. Nurses in the MBA program may enroll in these courses with permission of the Nursing Graduate Director. Students will apply all learned content in the MSN program in a variety of healthcare setting and will conduct 200 to 250 clinical hours with a preceptor each semester for a total of 400-500 total hours post bachelor's degree. There is also an integrated classroom component given as a seminar format.

NUR 7400 IMPROVING QUALITY, SAFETY & VALUE IN HEALTHCARE

Four hours. Prerequisite: Admission to the graduate program. This course builds on prior coursework to expand the student's knowledge and competencies in improving healthcare clinical and system quality and safety. Key concepts include developing high performance teams, developing lean clinical and business processes, and evaluating value in healthcare delivery systems.

ENDOWED CHAIRS AND PROFESSORSHIPS

An important academic tradition in American higher education is the appointment of distinguished members of the college community to endowed chairs and professorships. Florida Southern College's academic progress has been enhanced by a program to fund chairs and professorships. Thus far, generous contributions from foundations, corporations, and individuals have established:

The William F. Chatlos Professorship in Business and Economics

The Chatlos Foundation
Mr. Wendell E. Hulcher, 1983-1993
Dr. Carl C. Brown, 1993-2014
Future Chair to be Determined

The Jessie Ball duPont Chair in the Natural Sciences

The Jessie Ball duPont Foundation
Dr. Howard L. Dinsmore, 1981-1988
Dr. John L. Spencer, 1989-1999
Dr. Laurence L. Campbell, 1999-2011
Dr. Carmen Valdez Gauthier, 2012-present

The George and Dorothy Forsythe Chair in Advertising

In honor of George and Dorothy Forsythe
William E. Gregory, 1999-2008
Future Chair to be Determined

The Hazel H. Haley Chair in Education

In honor of Hazel H. Haley
Dr. Perry A. Castelli, 2008-present

The Anne and Bill France Chair in Business

In honor of Anne and Bill France
Dr. Lawrence E. Ross, 2005-present

The Nina B. Hollis Chair in Education

The William M. & Nina B. Hollis Foundation
Dr. Jack E. Haynes, 1992-2001
Dr. Perry A. Castelli, 2003-2008
Dr. Tracey D. Tedder, 2008-present

The Charles and Mildred Jenkins Chair in Mathematics and Computer Science

In honor of Charles and Mildred Jenkins
Dr. Albert P. Sheppard, 1989-2000
Dr. Gwendolyn H. Walton, 2008-2013
Future Chair to be Determined

The Wilhelmina MacDonald Chair in Music

In memory of Mrs. Wilhelmina MacDonald
Mr. Robert M. MacDonald, 1985-2011
Future Chair to be Determined

ENDOWED CHAIRS AND PROFESSORSHIPS

The John and Eleanor Miller Chair in Communication

In honor of John and Eleanor Miller
Dr. William H. Turpin, 1991-1994
Dr. George T. Crutchfield, 1994-1995
Dr. Russell Barclay, 1997-2000
Dr. George T. Crutchfield, 2000-2001
Future Chair to be Determined

The Pendergrass Chair in Religion

In honor of Bishop E. J. Pendergrass
Dr. Hugh Anderson, 1986-1988
Dr. John J. Carey, 1988-1989
Dr. Walter P. Weaver, 1989-1997
Dr. W. Waite Willis, Jr., 2001-Present

The Hal and Marjorie Roberts Chair in Learning and Literacy

Dr. David J. Wood, 2007-2009
Future Chair to be Determined

The Riley P. And Claire M. Short Chaplain

In honor of Riley P. And Claire M. Short
Timothy S. Wright, 2005-Present

The Dorothea C. Tanner Chair in Ethics in Business and Economics

In honor of Dorothea C. Tanner
Dr. Joan G. Buccino, 1994-2009
Dr. Lynn H. Clements, 2012-present

The John and Ruth Tyndall Chair in Citrus Sciences

Mrs. Ruth Tyndall in honor and memory of John Tyndall
Dr. Rubert W. Prevatt, 1981-1999
Dr. Malcolm M. Manners, 2003-Present

The Nelson C. White Chair in the Life Sciences

The International Minerals and Chemical Corporation
Dr. Margaret L. Gilbert, 1981-1998
Dr. John R. Tripp, 2000-2010
Dr. Nancy M. Morvillo, 2012-present

HONORARY CHANCELLORS

1934	John Taylor	1974	George W. English
1935	Peter Tomasello	1975	Bob Hope
1936	Alfred G. Wagg	1976	Ruth Springer Wedgworth
1937	Frank D. Jackson	1977	Cushman S. Radebaugh
1938	Doyle E. Carlton	1978	Earl J. McGrath
1939	R. B. Gilbert	1979	Walter Cronkite
1940	Sir Wilfred Grenfell	1980	Edna Pearce Lockett
1941	J. H. Therrell	1982	Arnold Palmer
1942	R. A. Gray	1984	Gerald R. Ford
1943	T. T. Scott	1985	Terrel H. Bell
1944	John Z. Fletcher	1986	Thomas S. Monaghan
1945	H. E. Wolfe	1987	Terrence Hardy Waite
1946	G. D. Runnels	1988	Jack M. Berry
1947	L. A. Raulerson	1989	Robert Shaw
1948	J. A. Guyton	1990	Charles H. Jenkins, Sr.
1949	F. W. Coffing	1991	Ernest L. Boyer
1950	Daniel J. McCarthy	1992	John Marks Templeton
1951	Michael M. Engel	1993	Lynne V. Cheney
1952	Cyril Lord	1994	Truman W. & Marie M. Miller
1953	Joseph R. Fazzano	1995	J. Lanier Upshaw
1954	L. Frank Roper	1996	Burton Stone
1955	Hy Jordon Sobiloff	1997	Chris Wallace
1956	George W. Jenkins, Jr.	1998	Robert James Waller
1957	Ben Hill Griffin, Jr.	1999	Robert F. Kennedy, Jr.
1958	Harry Silett	2000	Beverly Wolff
1960	Rosamond Chadwick	2001	Chesterfield Smith
1961	Stanley S. Kresge	2002	Jerome King Del Pino
1962	Sam M. Fleming	2003	Myles Brand
1963	Charles C. Parlin	2004	Millard Fuller
1964	Milburn P. Akers	2005	Frances Mayes
1965	Mrs. Kent S. McKinley	2006	Robert A. M. Stern
1966	Mrs. T. G. Buckner	2007	James H. Billington
1967	John W. Donahoo	2008	Michael D. Griffin
1968	Wendell Phillips	2009	G. Wayne Clough
1969	Andy Griffith	2010	Stephen R. Covey
1970	Lord Caradon	2011	H. Fisk Johnson
1971	Mary Duke Semans	2012	Bonnie McElveen-Hunter
1972	Harry J. Heeb	2013	Ambassador Ramón Gil-Casares
1973	Charles C. Edwards	2014	Ted Turner

FACULTY

Anne B. Kerr	2004	Peter V. Bias	1988
President B.A., Mercer University M.S., Ph.D., The Florida State University		Professor of Business Administration & Economics B.A., Ph.D., University of Cincinnati	
Mary T. Albright	1991	Bernardo G. Blanco	2008
Instructor of Theatre Arts B.A., Stockton State College M.T.A., Rutgers University		Associate Professor of Education B.A., University of Costa Rica M.A., Ohio University at Athens Ph.D., Indiana University at Bloomington	
William Allen	2012	Chastity Blankenship	2013
Assistant Professor of Communication B.S., M.A., Pensacola Christian College M.F.A., Academy of Art University		Visiting Assistant Professor of Sociology B.A., M.A., Ph.D., University of Central Florida	
Samara M. Anarbaeva	2014	Mary Beth Bradford	2007
Assistant Professor of Communication B.S., M.A., Central Michigan University Ph.D., Bowling Green State University		Assistant Professor of Communication B.A., James Madison University M.A., Ph.D., University of Alabama	
R. Bruce Anderson	2010	Emily L. Bradshaw	2011
Associate Professor of Political Science B.A., Ohio Wesleyan University M.A., Ph.D., Rice University		Assistant Professor of Biology B.A., Hanover College Ph.D., University of Kentucky	
Karen Aponte	2013	Brian S. Brink	1997
Assistant Professor of Education B.A., University of South Florida M.Ed., St. Leo University Ed.S., Ed.D., Argosy University		Associate Professor of Music M.M., University of North Texas B.M., D.M.A., The Florida State University	
Paul D. Bawek	2003	Deborah Bromfield Lee	2012
Associate Professor of Theatre Arts B.A., California State University at Stanislaus M.F.A., University of California Davis M.F.A., Southern Illinois University at Carbondale		Assistant Professor of Chemistry B.A., University of South Florida M.S., Florida Atlantic University Ph.D., North Carolina State University	
James F. Beck	1996	Beverley E. Brown	2010
Associate Professor of Theatre Arts B.A., Hiram College M.F.A., Ohio University		Assistant Professor of Nursing B.S.N., Florida Southern College M.S., University of South Florida Ed.D., Nova Southeastern University	
Celina Bellanceau	2011	Lawrence R. Burke	1987
Instructor of Biology B.S., Simmons College M.S., University of South Florida		Associate Professor of Music B.A., Florida Southern College M.M., University of Michigan	
Erica H. Bernheim	2008	David J. Campopiano	2011
Associate Professor of English B.A., Miami University of Ohio M.F.A., University of Iowa Ph.D., University of Illinois at Chicago		Instructor of Nursing B.A., Nichols College M.A., University of Northern Colorado M.S.N., A.N.P., P.N.P., Yale University	

Lisa M. Carter Assistant Professor of Criminology B.A., University of Kentucky M.S., Eastern Kentucky University Ph.D., Indiana University of Pennsylvania	2012	Lisa De Castro Assistant Professor of Mathematics B.A., Ph.D., University of South Florida	2013
Perry A. Castelli Professor of Education B.S., M.E., Kent State University Ph.D., University of Maryland Appointed in 2008 to the Hazel Haley Chair in Education	2001	James M. Denham Professor of History B.S., M.A., Ph.D., The Florida State University	1991
Fen-Fang Chen Assistant Professor of Music B.A., Soochow University M.M., Indiana State University D.A., Ph.D., University of Mississippi	2013	Robert S. Drake, Jr. Instructor of Communication B.F.A., M.S., Rochester Institute of Technology	2002
Lynn H. Clements Professor of Accounting B.S., M.B.A., Florida Southern College D.B.A., Nova Southeastern University C.P.A., State of Florida C.M.A., Institute of Management Accountants C.F.M., Institute of Management Accountants Cr.F.A., American College of Forensic Examiners C.F.E., Association of Certified Fraud Examiners Appointed in 2012 to the Dorothea C. Tanner Chair in Ethics in Business and Economics	1990	Charles W. DuVal Assistant Professor of Finance B.S., Christopher Newport University M.B.A., College of William and Mary Ph.D., Old Dominion University	2012

Kelly McHugh Assistant Professor of Political Science B.A., M.A., Ph.D., University of Delaware	2011	William J. Otremsky Professor of Art B.F.A., Edinboro University M.F.A., University of Pennsylvania	1999
Jason M. Montgomery Assistant Professor of Chemistry B.S., M.S., Texas Tech University M.S., Ph.D., University of Chicago	2009	Michael Parks Visiting Assistant Professor of Music Education B.A., Florida Technological University M.Ed., University of Central Florida	2012
Colleen M. Moore Assistant Professor of History B.A., American University M.A., Ph.D., Indiana University	2014	Paula K. Parsché Associate Professor of Music B.A., Florida Southern College M.M., University of South Florida	1980
Nancy M. Morvillo Professor of Biology B.A., University of Delaware Ph.D., State University of New York at Stony Brook Appointed in 2012 to the Nelson C. White Chair in the Life Sciences	1997	Ronald A. Pepino Assistant Professor of Physics B.S., University of Connecticut Ph.D., University of Colorado	2013
H. A. Nethery Assistant Professor of Philosophy B.A., Humboldt State University M.A., University of Memphis Ph.D., Duquesne University	2014	N. Curtis Peterson III Professor of Citrus and Horticultural Science B.S., Florida Southern College M.S., The Pennsylvania State University Ph.D., Mississippi State University	1998
Kerry Ann Newness Assistant Professor of Psychology B.S., Barry University M.A., Ph.D., Florida International University	2013	Steven G. Petrie Coordinator of the Doctor of Education Program Associate Professor of Education B.A., Florida Southern College M.Ed., Rollins College Ed.D., University of Central Florida	2013
Kimberly Nordon Instructional Services Librarian B.A., University of South Florida M.L.I.S., University of South Florida	2014	Edwin L. Plowman Professor of Sociology B.A., North Carolina State University Th.M., Ph.D., Boston University	1978
Nicholas Nugent, Jr. Assistant Professor of Business and Economics B.S.B.A., M.S.I.B., M.B.A., Ph.D., Southern New Hampshire University	2007	Bonita M. Pollock Cataloging and Metadata Librarian B.A., Florida Atlantic University M.S., University of Dayton M.L.I.S., Kent State University	2013
Kira Omelchenko Assistant Professor of Music: Orchestra Conductor Director of Strings Studies B.A., Knox College M.M., University of New Mexico D.M.A., University of Iowa	2014	Laurie A. Pomella Instructor of Nursing B.S., Florida Southern College M.S., University of South Florida	2013

- Rebecca L. Powell** 2014
Instructor of Education
B.S., M.Ed., University of South Florida
- William C. Quilliam** 2010
Associate Professor of Accounting
B.S.B.A., M.S., University of Central Florida
Ph.D., University of Florida
- Deah S. Quinlivan** 2011
Assistant Professor of Psychology
B.A., M.A., University of Alabama: Huntsville
Ph.D., Iowa State University
- Lori C. Rakes** 2011
Instructor of Education
B.A., Southeastern University
M.Ed., University of South Florida Polytechnic
- Terry L. Redman** 2012
Instructor of Business Administration
B.S., United States Merchant Marine Academy
M.S., Naval Postgraduate School
M.S.M., University of South Florida
- Loretta M. Reinhart** 2013
Dean of the School of Nursing and Health Sciences
Professor of Nursing
B.S.N., Olivet Nazarene University
M.S.N., Case Western Reserve University
Ph.D., University of Illinois
- William L. Rhey** 2010
Dean of the Barney Barnett School of Business and Free Enterprise
Professor of Marketing
B.S., Bucknell University
M.B.A., Baylor University
Ph.D., University of Mississippi
- H. Alexander Rich** 2014
Assistant Professor of Art History
A.B., Dartmouth College
M.A., Ph.D., Institute of Fine Arts, New York University
- Cortney S. Rodet** 2014
Assistant Professor of Economics
B.S., Southern Utah University
M.S., Ph.D., The Florida State University
- Christianne K. Roll** 2013
Assistant Professor of Musical Theatre
B.A., B.F.A., New York University
M.A., Ed.D.C.T., Columbia University
- Samuel Romero** 2008
Assistant Professor of Art and Graphic Design
B.F.A., Florida Southern College
M.F.A., The School of the Art Institute of Chicago
- Lawrence E. Ross** 1994
Professor of Business Administration
B.A., The Florida State University
M.B.A., Ph.D., Georgia State University
Appointed in 2005 to the Anne and Bill France Chair in Business
- Mason A. Rouser** 2014
Visiting Instructor of Chemistry
B.S., Indiana University of Pennsylvania
- Rebecca R. Saulsbury** 1999
Associate Professor of English
B.A., University of Puget Sound
M.A., Ph.D., Purdue University
- Peter H. Schreffler** 1996
Associate Professor of English
B.A., Geneva College
M.A., Ph.D., Bowling Green State University
- Brian D. Seiler** 2014
Assistant Professor of Athletic Training and Exercise Science
B.S., Slippery Rock University of Pennsylvania
M.S., Georgia Southern University
Ph.D., University of South Carolina
- Judy Senzamici** 2002
Instructor of Education
B.A., Southeastern College
M.Ed., University of South Florida
- Susan A. Serrano** 1997
Associate Professor of Mathematics
B.S., M.S., Middle Tennessee State University
Ph.D., Auburn University
- Christy L. Reinhart Skelly** 2012
Assistant Professor of Nursing
B.S., Olivet Nazarene University
M.S., Kent State University
Ph.D., Frontier Nursing University

- Claudia S. Slate** 1989-1990, 1991
Professor of English
B.A., University of Missouri-Rolla
M.A., Ph.D., University of South Florida
- Risdon N. Slate** 1993
Professor of Criminology
B.S., University of North Carolina - Charlotte
M.C.J., University of South Carolina
Ph.D., Claremont Graduate School
- Patrick L. Smith** 2003
Associate Professor of Psychology
B.A., Elizabethtown College
M.S., Ph.D., The Florida State University
- W. Alan Smith** 1987
Professor of Religion
B.A., The Florida State University
M.Div., Vanderbilt University
D.Min., Vanderbilt University/University
of the South
Ph.D., School of Theology at Claremont
- Diane W. Stahl** 1991
Associate Professor of Music
B.A., Florida Southern College
M.M., Indiana University
M.M., Yale University
- Sue A. Stanley-Green** 1999
Associate Professor of Athletic Training
Director, Athletic Training Educational Program
B.S., Ohio State University
M.S., Purdue University
ATC/L
- Kelly A. Sturhahn** 2010
Assistant Professor of Art
B.F.A., Ringling College of Art and Design
M.F.A., Hunter College
- Robert H. Tate** 1982-89, 1990
Vice President for External Relations
Associate Professor of English
B.A., M.A., Virginia Polytechnic Institute
and State University
Ph.D., The Florida State University
- Margaret Taylor** 2001
Assistant Professor of English
B.A., M.A., Ph.D., University of South Florida
- Tracey D. Tedder** 2008
Dean of the School of Education
Associate Professor of Education
B.A., M.Ed., St. Leo College
Ed.D., University of South Florida
Appointed in 2008 to the Nina B. Hollis
Chair in Education
- Sara L. Terrell** 2014
Assistant Professor and Program Coordinator of
Exercise Science
B.A., Adrian College
M.S., Ph.D., Eastern Michigan University
- John H. Thomasson** 2002
Professor of Music
B.M., M.A., D.M.A., The University of
Iowa, Iowa City
- Eridan J. Thompson** 2001
Electronic Resources Librarian
Senior Librarian
B.A., M.A.L.S., M.A., University of South
Florida
- Holly B. Tompson** 2011
Assistant Professor of Business
B.A., Trinity University
Ph.D., University of South Carolina
- J. Michael Tracy** 2010
Instructor, School of Business and Free Enterprise
B.A., Brown University
M.B.A., Wharton School, University of
Pennsylvania
- Michael Trice** 2006
Associate Professor of Communication
B.A., Louisiana College
M.S., Ph.D., University of Southern Mississippi
- Aaron David Valdivia, Jr.** 2012
Assistant Professor of Mathematics
B.S., Salisbury University
M.S., Ph.D., Florida State University
- Erika M. Vause** 2014
Assistant Professor of History
B.A., University of California, Berkeley
M.A., Ph.D., University of Chicago
