FLORIDA SOUTHERN STUDENTS ARE EQUIPPED WITH THE EXPERIENCES AND SKILLS TO MAKE AN IMPACT ON YOUR BUSINESS.

Florida Southern is a national leader in engaged learning. Our students learn through a wide variety of hands-on, real-world projects. For example: collaborating with peers to develop and implement a major marketing campaign, managing large-scale events and \$10K+ budgets, honing presentation skills through stage performances, conducting original research, building intercultural awareness through study abroad, or being leaders in the classroom and community.

Across all of our programs, FSC students develop the broad knowledge, deep understanding, and practical skills that are most desired by today's employers. **In fact, 95% of employers say they look for new hires with experience. From the moment students enroll until after they graduate, Florida Southern provides students opportunities to build their resume and expand their network.**

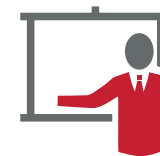

"The students and alumni of Florida Southern College are professional, engaging, and prepared! It's no wonder why we've hired more than 70 students and alumni across the nation and 22 students and alumni into our Management Trainee Internship and Sales Management Training program in just the past 3 years!
